Assam ★	Oil Bowl of India ★ — oldest oil fields (Digboi, Naharkatiya, Moran-Hugrijan); Asia's first oil refinery started at Digboi, 1901

Karnataka ★	India's leading coffee-producing state ★ (over 70% of national output; Chikmagalur, Kodagu/Coorg, Hassan) — NOT Kerala/Tamil Nadu/Andhra Pradesh (tested distractors)
Punjab — Gatka ★	Traditional martial art ★, started by 6th Sikh Guru Hargobind Ji; uses a wooden stick (Soti) and shield (Phari); now an official indigenous sport under the Khelo India scheme

DOUBT The raw extraction's Lucent §36 "Famous Nicknames" table does not carry Sivan/Tessy Thomas/Visvesvaraya/Kamaraj by name — these are current-affairs-adjacent biographical nicknames tested in 2025 papers, not in the book's printed nickname list. Treated as PYQ-book-only (see A.2), not as a book/PYQ mismatch, since the underlying achievement facts (ISRO chairmanship, Agni project, KRS Dam, TN CM tenure) are independently well documented facts of public record.

Coverage note: PYQ bucket "12 Miscellaneous" (46 Qs total) is a mixed current-affairs bucket. The 20 people/places/firsts-type questions above are cited here; questions on defence/military exercises, ISRO/DRDO/organisational appointments, and Chabahar Port strategy are cross-referenced to Batch 10; questions on government missions/schemes/Acts are cross-referenced to Batch 11; a residue of questions with no Static GK topic at all (Environmental Performance Index methodology, psychological well-being domains, indigenous dog-breed geography, Capuchin Church architecture, an Assertion-Reason item on India-Sri Lanka defence ties) is out of scope for this build — current-affairs/reasoning content, not classic Static GK, and not owned by any raw-extraction topic.

A.2 — PYQ-book-only facts

Not present in the raw extraction's Lucent Miscellany §1–§14/§34–§37 tables (which stop at older, textbook-standard firsts/nicknames and do not carry 2024-2025 current-affairs personalities): Soumya Swaminathan's WHO roles, Shanti Tigga, Yashasvi Solanki, Vikram Sarabhai as first ISRO chairman (the raw extraction only lists ISRO's founding year, not its first chairman by name), Dr. K. Sivan and the "Moon Man" nickname, Dr. Tessy Thomas and "Missile Woman of India", Sir M. Visvesvaraya's "Vishwakarma of Modern India" title and dam/hydropower detail, K. Kamaraj's nicknames, Kiran Mazumdar-Shaw/Biocon, Mario de Miranda, the Tripura/Assam/Karnataka state-association facts, and the Gatka/Khelo India detail. All are independently verifiable current facts, sourced to the PYQ book's own explanations.

A.3 — Doubts carried forward from the raw extraction

The raw extraction itself flags several printing-slip doubts in this section not touched by this batch's PYQ set: First Doordarshan Centre listed as "New Delhi (1951)" though DD is usually dated 1959; First Newspaper "Hicky's Bengal Gazette (1779)" though usually dated 1780. Carried forward, unresolved, not tested here.
