

Indian Economy

01

Fundamental Principles of Economy

Economics

1. What does E in the PESTAL macroeconomic analysis stand for?

SSC CPO TIER-I, 12/12/2025 (Shift-01)

- (a) Economic
- (b) Electronic
- (c) Exchange
- (d) Equal

Exp.- In PESTEL (or PESTAL) analysis, 'E' stands for Economic, which studies factors such as interest rates, inflation, and economic growth.

- It evaluates six major factors: **Political, Economic, Social, Technological, Legal, and Environmental.** Ans. (a)

2. When is total revenue maximized in relation to elasticity?

SSC CPO TIER-I, 11/12/2025 (Shift-01)

- (a) When elasticity is greater than one
- (b) When elasticity equals one
- (c) When elasticity is less than one
- (d) When marginal cost equals marginal revenue

Exp.- According to the principles of economics, total revenue is maximum at the point where price elasticity of demand is equal to unity ($E_d = 1$). At this specific point, marginal revenue becomes zero, which means that any small change in price will have no effect on total income.

- If the elasticity is greater than or less than 1, total revenue will either increase or decrease when the price changes, but it will not be at its highest level. Ans. (b)

3. Which of the following statement is correct regarding Public Goods?

SSC CHSL TIER-I, 14/11/2025 (Shift-03)

- (a) Clothes are an example of public good.
- (b) It can be provided through the market mechanism.
- (c) It can be provided by transactions between individual consumers and producers.
- (d) Generally, the benefits of public goods are available to all.

Exp.- Public goods are those goods whose benefits are available to **all people in the society** and from which no one can be easily excluded. These goods are '**non-rivalrous**' and '**non-excludable**'. Ans. (d)

4. If the price of a product goes up by 10% and, as a result, the quantity demanded falls by 20%, how would you classify the demand?

SSC CGL TIER - I, 17/09/2025 (Shift-03)

- (a) Demand is elastic (elasticity greater than 1)
- (b) Demand is inelastic (elasticity less than 1)
- (c) Demand is unitary elastic (elasticity equals 1)
- (d) Demand is perfectly elastic (elasticity is infinite)

Exp.- Price elasticity of demand is determined by the ratio of the percentage change in demand to the percentage change in price.

Formula:

$$E_d = \frac{\% \text{change in demand}}{\% \text{change in price}}$$

Therefore:

$$E_d = \frac{20}{10} = 2$$

- Since the value of elasticity is greater than 1 ($2 > 1$), it will be classified as '**Elastic Demand**'. This means that a small change in price has a large impact on demand. Ans. (a)

5. Read the below statements marked as Assertion (A) and Reason (R). Mark the correct options:

Assertion (A): In macroeconomics, treating a single commodity as representative of all goods allows simplification of aggregate analysis.

Reason (R): This is because all individual goods always behave identically under inflationary trends.

SSC CGL TIER-I, 20/09/2025 (Shift-02)

- (a) Both A and R are true, and R explains A
- (b) Both A and R are true, but R does not explain A
- (c) A is true, but R is false
- (d) A is false, but R is true

Exp.- In macroeconomics, to reduce complexity, all goods are often considered as a '**single aggregate good**' so that the analysis of aggregate demand and supply can be simplified. Therefore, Assertion (A) is correct.

- In a real economy, during inflation, the prices of all goods do not behave in the same way; the prices of some goods rise rapidly, while others may remain stable or fall. Therefore, Reason (R) is incorrect. Ans. (c)

6. Which of the following best defines the concept of 'opportunity cost'?

SSC CGL TIER-I, 20/09/2025 (Shift-01)

- (a) The cost of production
- (b) The next best alternative foregone
- (c) The cost of labor
- (d) The total money spent

Exp.- Opportunity cost refers to the value of the 'next best alternative' that is sacrificed to choose a particular option. It is important in economic decision-making because resources are limited, and choosing one option means giving up another. Ans. (b)

7. Which of the following refers to the extent to which demand for a particular commodity decreases because others are also consuming the same commodity?

SSC CGL TIER-I, 25/09/2025 (Shift-02)

- (a) Snob effect
- (b) Demonstration effect
- (c) Bandwagon effect
- (d) Veblen effect

Exp.- The snob effect is a situation in which the demand for a good decreases as it becomes common, because consumers prefer **exclusivity** and choose rare or expensive goods to appear different from the crowd.

- In contrast, the **bandwagon effect** occurs when people buy a good because most others are adopting it.
- In the **Veblen effect**, demand increases due to high prices because the good is considered a status symbol, whereas the **demonstration effect** refers to the tendency to imitate the lifestyle and consumption patterns of others. Ans. (a)

@VIDYAGRAM

DOWNLOAD VIDYAGRAM APP

<https://t.me/VidyaGrambyAdityaRanjanSir>

aditya__ranjan

8. Which of the following represents the break-even point for a firm?

SSC CGL TIER-I, 14/10/2025 (Shift-02)

- Where marginal revenue equals marginal cost
- Where total revenue equals total cost
- Where total revenue exceeds total cost
- Where marginal cost is minimum

Exp.- In **economics** and **business accounting**, the '**Break-even Point**' is a situation where a firm makes neither a profit nor a loss. At this point, the **total revenue** earned by the firm is exactly equal to its **total cost**. **Ans. (b)**

9. Who gave the scarcity definition of economics?

SSC CGL TIER-I, 26/09/2025 (Shift-03)

- Adam Smith
- P.A. Samuelson
- Alfred Marshall
- Lionel Robbins

Exp.- In 1932, Lionel Robbins defined economics as the science of scarcity or choice in his book, "An Essay on the Nature and Significance of Economic Science." He argued that human wants are unlimited, while the resources to satisfy them are limited and have alternative uses. **Ans. (d)**

10. What does the 'invisible hand' concept, as proposed by Adam Smith, primarily signify?

SSC Stenographer 07/08/2025 (Shift-03)

- Control of monopolies
- Government control in markets
- Market equilibrium achieved via self-interest
- International trade regulation

Exp.- Adam Smith's concept of the '**invisible hand**' shows that when individuals make economic decisions in their self-interest, they unknowingly promote **economic welfare** and **market balance** in society. This principle forms the basis of a free market economy, where the forces of demand and supply ensure the efficient allocation of resources without any government intervention. **Ans. (c)**

11. Which of the following is an example of a macroeconomic indicator?

SSC PHASE XIII 28/07/2025 (Shift-01)

- Price of a specific product
- National unemployment rate
- Demand for a particular brand
- Cost of production for a company

Exp.- **Macroeconomic indicators** are indicators that reflect the state of a country's entire economy. Key examples include **Gross Domestic Product (GDP)**, **inflation rate**, **unemployment rate**, and **balance of payments**. In contrast, product prices or company costs are individual economic units that fall under the scope of **Microeconomics**. **Ans. (b)**

12. What does the term 'aggregate demand' refer to in macroeconomics?

SSC PHASE XIII 24/07/2025 (Shift-01)

- Total demand for a specific product
- Total demand for goods and services in an economy
- Demand for imported goods
- Demand for luxury items

Exp.- In macroeconomics, **Aggregate Demand** refers to the total demand for all final goods and services in an economy during a certain period (usually one year). It is primarily the sum of consumption (C), investment (I), government spending (G), and net exports (X - M).

$$AD = C + I + G + (X - M) \quad \text{Ans. (b)}$$

13. Read the following two statements carefully and choose the correct option:

Assertion (A): In barter exchange, double coincidence of wants enhances transactional efficiency.

Reason (R): Double coincidence of wants is done away with by money.

SSC PHASE XIII 29/08/2025 (Shift-01)

- Both A and R are true, and R is the correct explanation of A.
- Both A and R are true, but R is not the correct explanation of A.
- A is true, but R is false.
- A is false, but R is true.

Exp.- In **barter exchange**, the '**double coincidence of wants**' is an essential condition, but it decreases rather than increases the efficiency of transactions. This is because finding two individuals who possess exactly what the other needs is very difficult and time-consuming.

❑ **Money** has completely eliminated this problem by acting as a '**measure of value**' and a '**medium of exchange**', thereby making transactions simple. **Ans. (d)**

14. What is the elasticity of supply called when a proportionate change in supply is more than a proportionate change in price?

SSC PHASE XIII 30/07/2025 (Shift-03)

- Relatively inelastic supply
- Relatively elastic supply
- Perfectly elastic supply
- Perfectly inelastic supply

Exp.- When the **percentage or proportionate change in supply** is greater than the **proportionate change in price**, it is called '**relatively elastic supply**'. In this case, the **elasticity of supply** is greater than unity ($e_s > 1$). **Ans. (b)**

15. Which of the following is NOT an exception to the 'Law of Demand'?

SSC PHASE XIII 25/07/2025 (Shift-03)

- Giffen goods
- Conspicuous goods
- Speculative goods
- Substitute goods

Exp.- **Substitute goods** (such as tea and coffee) follow the **Law of Demand**; if the price of tea increases, people reduce its demand and shift toward its **substitute** (coffee).

❑ According to the '**Law of Demand**', demand decreases when the price increases. However, in the case of **Giffen goods** (due to the **income effect**) and **Veblen (prestige) goods** (due to **status**), demand may increase as the price rises; these are **exceptions** to the Law of Demand. **Ans. (d)**

16. Which of the following reflects the 'what to produce' decision in economics?

SSC Stenographer 08/08/2025 (Shift-03)

- Choosing between capital and consumer goods
- Increasing taxes to raise government revenue.
- Deciding on distribution of output
- Choosing method of production

Exp.- In economics, the problem of '**what to produce**' arises due to the scarcity of resources, where a society has to choose between **capital goods** (such as machines) and **consumer goods** (such as food, clothes) using the available resources. This decision is made on the basis of how to balance current consumption and the future rate of growth. **Ans. (a)**

17. Which curve is typically U-shaped due to the law of variable proportions?

SSC Stenographer 07/08/2025 (Shift-02)

- Average Fixed Cost Curve
- Average Variable Cost Curve
- Total Fixed Cost Curve
- Marginal Revenue Curve

Exp.- Due to the **law of variable proportions**, the **Average Variable Cost (AVC)** curve is generally **U-shaped**. In the initial stages of production, cost decreases because of increasing efficiency, and later it **starts increasing** due to diminishing returns. This curve shows that as **production increases**, at first the firm benefits from economies of scale, and after a certain point the cost per unit begins to rise due to the decline in **marginal productivity**. **Ans. (b)**

18. The concept of "opportunity cost" in economics refers to:

SSC Stenographer 06/08/2025 (Shift-02)

- The value of the next best alternative forgone when a choice is made.
- The cost incurred in the past that cannot be recovered
- The cost of all alternatives that are not chosen.
- The monetary cost of the most expensive alternative.

Exp.- In economics, opportunity cost refers to the value of the next best alternative that has been foregone because it was not chosen.
When you choose one option due to limited resources, the potential benefit from the second-best option is called your opportunity cost. **Ans. (a)**

19. The Law of Diminishing Marginal Utility states that as a consumer consumes more and more units of a commodity:

SSC Stenographer 06/08/2025 (Shift-01)

- (a) Marginal utility derived from each additional unit decreases.
- (b) Total utility increases at an increasing rate.
- (c) Total utility decreases.
- (d) Marginal utility remains constant.

Exp.- According to the **Law of Diminishing Marginal Utility**, as a consumer increases the continuous consumption of standard units of a commodity, the **additional satisfaction or utility derived from each successive unit goes on diminishing**. This law is based on the fact that the intensity of a specific want decreases with consumption, due to which eventually, marginal utility can become zero and then even negative. **Ans. (a)**

20. Match the column with their descriptions:

SSC Stenographer 06/08/2025 (Shift-01)

Column A (Laws)	Column B (Descriptions)
A. Law of Demand	1. After a certain point, increasing input leads to declining marginal product.
B. Law of Diminishing Marginal Product	2. Demand and price move in opposite directions when income increases.
C. Law of Variable Proportions	3. Marginal product initially rises with input usage, then falls.

- (a) A - 3, B - 2, C - 1
- (b) A - 1, B - 3, C - 2
- (c) A - 2, B - 3, C - 1
- (d) A - 2, B - 1, C - 3

Exp.-

Column A (Law)	Column B (Description)	Explanation
A- Law of Demand	1- After a certain point, increasing input leads to a decline in marginal product.	This law states that, other things remaining equal, there is an inverse relationship between price and demand.

B- Law of Diminishing Marginal Product	2- Demand and price move in opposite directions as income increases.	It states that if other factors are kept constant and one input (such as labour) is increased, then after a point, the additional production begins to decline.
C- Law of Variable Proportions	3- Marginal product initially increases with input use, then falls.	It involves three stages of production: first, production increases, then it decreases, and finally, it becomes negative.

Ans. (d)

21. Which of the following best reflects the scarcity problem in economics?

SSC Stenographer 07/08/2025 (Shift-01)

- (a) Limited wants and unlimited resources
- (b) Unlimited wants and unlimited resources
- (c) Limited resources and unlimited wants
- (d) Equal wants and equal resources

Exp.- In economics, the main cause of the problem of scarcity is that **human wants are unlimited**, while the **resources available to satisfy them (such as land, labour, and capital)** are limited. Because of this imbalance, society needs to make choices and allocate resources efficiently, which forms the **basis of the study of economics**. **Ans. (c)**

22. What does the term 'capital formation' refer to in macroeconomics?

SSC Stenographer 06/08/2025 (Shift-03)

- (a) Growth in production capacity through investment
- (b) Decrease in foreign direct investment
- (c) Expansion of consumer credit
- (d) Increase in financial savings

Exp.- In macroeconomics, capital formation refers to the process in which a part of the society's current income is used for investment in machinery, buildings, and infrastructure instead of consumption, so that productive capacity can be **increased**. In simple words, it is also called 'net investment', which makes the higher production of goods and services possible in the future by making a net addition to the stock of the economy. **Ans. (a)**

23. Suppose a firm increases all inputs by 50% and its output increases by 75%. What type of return to scale is this?

SSC PHASE XIII 29/08/2025 (Shift-02)

- (a) Constant Returns to Scale
- (b) Increasing Returns to Scale
- (c) Decreasing Returns to Scale
- (d) Negative Returns

Exp.- The increase in the firm's output (75%) is greater than the increase in inputs (50%), therefore it will be called **Increasing Returns to Scale**.

Type of Returns to Scale	Description
1. Increasing Returns to Scale (IRS)	The increase in output is more than proportional to the increase in inputs.
2. Constant Returns to Scale (CRS)	The increase in output is equal to the proportional increase in inputs.
3. Decreasing Returns to Scale (DRS)	The increase in output is less than proportional to the increase in inputs.

Ans. (b)

24. Name the principle that states that as production increases, the cost per unit decreases?

SSC PHASE XIII 02/08/2025 (Shift-02)

- (a) Law of diminishing returns
- (b) Economies of scale
- (c) Opportunity cost
- (d) Marginal utility

Exp.- Economies of Scale is an important principle of microeconomics, which states that producing on a large scale reduces a company's average cost per unit. This happens because fixed costs, such as machinery and factory rent, are distributed over more units. Additionally, raw materials are cheaper in bulk, and the division of labour and better use of technology increase efficiency. **Ans. (b)**

25. Which curve in microeconomics shows the relationship between price and quantity demanded?

SSC PHASE XIII 26/07/2025 (Shift-02)

- (a) Supply curve
- (b) Demand curve
- (c) Production curve
- (d) Cost curve

Exp.- A **demand curve** is a graphical representation that shows the inverse relationship between price and quantity demanded. It slopes downwards, meaning that as the price increases, demand decreases, and as the price decreases, demand increases.

It is based on the '**Law of Demand**', which states that other factors remain constant, consumers buy more products at a lower price. **Ans. (b)**

26. Which of the following best explains the Law of Diminishing Marginal Utility?

SSC PHASE XIII 29/07/2025 (Shift-02)

- (a) Utility increases at an increasing rate
- (b) Total utility decreases with more consumption
- (c) Marginal utility declines with each additional unit consumed
- (d) Marginal Utility increases with Total Utility

Exp.- The **Law of Diminishing Marginal Utility** is a fundamental principle of microeconomics, first propounded by **Hermann Heinrich Gossen**. This law states that as a consumer increases the consumption of standard units of a commodity continuously, the satisfaction derived from each successive (additional) unit, i.e., the **marginal utility**, goes on diminishing. **Ans. (c)**

27. In the context of Microeconomics, the graphical representation of the demand function is called the _____.

SSC CHSL TIER-I, 12/11/2025 (Shift-02)

- (a) Demand curve
- (b) Goods curve
- (c) Supply curve
- (d) Seller curve

Exp.- Demand function shows the mathematical relationship between the price of a commodity and the quantity demanded, while the graphical representation of this relationship is called the **demand curve**. It generally **slopes downwards from left to right** because, according to the **law of demand**, other things remaining equal, **demand increases when the price falls and decreases when the price rises**. **Ans. (a)**

28. Which of the following best describes the concept of 'opportunity cost' in microeconomics?

SSC CPO TIER-I, 10/12/2025 (Shift-02)

- (a) The cost of producing goods in the future
- (b) The net gain from an investment
- (c) The value of leisure forgone
- (d) The value of the best alternative forgone

Exp.- In microeconomics, **opportunity cost** refers to the value of the next best alternative that must be sacrificed as a result of making a choice.

□ Since resources (time, money, etc.) are limited, we have to give up something to make a choice. For example, if you buy a book with ₹1000, not being able to watch a movie with that money is your opportunity cost. **Ans. (d)**

29. Which of the following is the formula for elasticity of supply?

SSC CPO TIER-I, 12/12/2025 (Shift-02)

- (a) % change in price/% change in quantity supplied
- (b) % change in quantity supplied/% change in price
- (c) Original price/change in price
- (d) Change in quantity supplied/original quantity supplied

Exp.- Price Elasticity of Supply (ES) measures how responsive the supply of a commodity is to a change in its price. It is obtained by dividing the 'percentage change in quantity supplied' by the 'percentage change in price'. **Ans. (b)**

30. Which of the following explains the fact that "in the case of necessary goods, the law of demand cannot be operated"?

SSC CPO TIER-I, 13/12/2025 (Shift-01)

- (a) Leontief paradox
- (b) Paradox of thrift
- (c) Easterlin paradox
- (d) Giffen paradox

Exp.- Giffen Paradox applies to those highly essential and **inferior goods** where the demand increases even when the price rises, which is an exception to the Law of Demand. The primary reason for this is that the consumer spends a large portion of their income on these essential goods, and when the price increases, they give up other expensive items and become dependent only on this commodity. **Ans. (d)**

31. Which curve shows all combinations of two goods that give a consumer equal satisfaction?

SSC CGL TIER - I, 19/09/2025 (Shift-03)

- (a) Indifference curve
- (b) Budget constraint
- (c) Isoquant curve
- (d) Marginal cost curve

Exp.- An indifference curve represents all those combinations of two goods that provide the consumer with the same level of satisfaction or utility, due to which the consumer remains indifferent between them. This curve is generally convex to the origin, which represents the diminishing Marginal Rate of Substitution (MRS). **Ans. (a)**

32. Which of the following statements accurately describes the law of demand in microeconomics?

SSC CGL TIER-I, 25/09/2025 (Shift-01)

- (a) As price increases, demand increases
- (b) As price decreases, demand decreases
- (c) As price increases, demand decreases, ceteris paribus
- (d) Price has no effect on demand

Exp.- The law of demand states that, assuming all other factors remain constant (**Ceteris Paribus**), there is an **inverse relationship** between the price of a commodity and the quantity demanded. This means that when the price increases, consumers buy a smaller quantity of that commodity, and when the price decreases, they buy a larger quantity. **Ans. (c)**

33. Consider the following statements about market equilibrium:

Statement I: In equilibrium, the quantity that all firms wish to sell equals the quantity all consumers want to buy.

Statement II: Excess supply exists when the market demand is greater than the market supply.

Which of the above statements is/are correct?

SSC PHASE XIII 30/07/2025 (Shift-02)

- (a) Only Statement I is correct
- (b) Only Statement II is correct
- (c) Both statements are correct
- (d) Neither statement is correct

Exp.- Market equilibrium is a situation where the **quantity demanded** and the **quantity supplied** are equal to each other. Therefore, Statement I is correct; and Statement II is incorrect because **excess supply** occurs when market supply exceeds market demand, whereas demand exceeding supply is called '**excess demand**'. **Ans. (a)**

34. In which of the following situations is a liquidity trap said to have occurred?

SSC PHASE XIII 24/07/2025 (Shift-03)

- (a) Perfectly elastic demand with respect to interest rate
- (b) Perfectly inelastic demand with respect to interest rate
- (c) Increase in money supply leads to increase in interest rate.
- (d) Decrease in money supply leads to decrease in interest rate

Exp.- A liquidity trap is a situation where interest rates fall to such a low level that people prefer to hold cash in hand instead of investing it. At this point, the demand curve for money becomes horizontal, which means that the demand for money is **perfectly elastic** with respect to the interest rate. In such a situation, even if the central bank increases the money supply, there is no further reduction in interest rates, and monetary policy becomes ineffective. **Ans. (a)**

35. Which of the following best illustrates a liquidity trap?

SSC PHASE XIII 28/07/2025 (Shift-02)

- (a) The central bank raises interest rates to control inflation.
- (b) Commercial banks stop lending due to high default risks.
- (c) Interest rates are near zero, but people prefer holding cash instead of investing.
- (d) The government increases taxes to reduce fiscal deficit.

Exp.- Liquidity Trap is a situation in economics where **monetary policy** becomes ineffective. This concept was given by the famous economist **John Maynard Keynes**.

- In this state, interest rates become very low (nearly zero). Since the returns on bonds or investments are minimal and there is a fear of rising interest rates (and falling bond prices) in the future, people prefer to hold their money as **cash** rather than investing it. **Ans. (c)**

Economy

36. Which is the First country to introduce the idea of prioritizing happiness over economic growth?

SSC PHASE XIII 28/07/2025 (Shift-02)

- (a) India
- (b) USA
- (c) Bhutan
- (d) China

Exp.- Bhutan is the first and only country in the world to officially adopt **Gross National Happiness (GNH)** as its primary indicator of progress, rather than **Gross Domestic Product (GDP)**.

Ans. (c)

37. Which of the following pairs is correctly matched?

SSC Stenographer 08/08/2025 (Shift-01)

- (a) Microeconomics - Inflation rate
- (b) Macroeconomics - Price of tea
- (c) Macroeconomics - National Income
- (d) Microeconomics - GDP

Exp.- The correct answer is **national income**, because macroeconomics studies the economy as a whole and focuses on variables such as Gross Domestic Product, inflation, and **national income**. In contrast, microeconomics focuses on individual units such as the price of a particular good (like tea) or consumer behaviour. **Ans. (c)**

38. Between 1947 and 1990, which type of economic system did India largely follow?

SSC PHASE XIII 29/08/2025 (Shift-02)

- (a) Pure Capitalism
- (b) Pure Socialism
- (c) Mixed Economy
- (d) Laissez-faire Economy

Exp.- From 1947 to 1990, India followed a **mixed economy**, where the **public sector** was given prominence for social welfare and the **private sector** was regulated. After the **1991 reforms**, the Indian economy shifted towards **market-oriented policies**. **Ans. (c)**

39. Consider the following two statements about types of economies:

Statement I: In a centrally planned economy, the government takes all major decisions regarding production, exchange, and consumption of goods and services.

Statement II: In a market economy, economic activities are restricted to physical marketplaces where buyers and sellers must interact face-to-face.

Which of the above statements is/are correct?

SSC PHASE XIII 29/07/2025 (Shift-02)

- (a) Only Statement I is correct
- (b) Only Statement II is correct
- (c) Both statements are correct
- (d) Neither statement is correct

Exp.- In a **centrally planned economy** (such as socialism), the government or a central authority decides what, how, and for whom to produce. Therefore, Statement I is true. In a **market economy**, economic activities are not limited to physical markets.

- In modern times, trade occurs through the internet and e-commerce without meeting face-to-face. Therefore, Statement II is not correct. **Ans. (a)**

40. What is the primary sector of the Indian economy mainly concerned with?

SSC PHASE XIII 24/07/2025 (Shift-02)

- (a) Manufacturing
- (b) Mining
- (c) Agriculture
- (d) Banking

Exp.- The primary sector in the economy is primarily concerned with the consumption and use of **natural resources**. It includes **agriculture, animal husbandry, forestry, fisheries and mining**. This sector provides raw materials for the secondary sector (manufacturing). **Ans. (c)**

41. The extraction of oil from groundnut is an example of economic activity of which sector of economy?

SSC CHSL TIER-I, 20/11/2025 (Shift-02)

- (a) Primary
- (b) Secondary
- (c) Quaternary
- (d) Quinary

Exp.- Extracting oil from groundnut comes under the **secondary sector** of the economy because it involves the process of manufacturing. In this sector, raw materials obtained from the primary sector (such as groundnut) are converted into finished products (such as oil) through machines or processing. **Ans. (b)**

42. The _____ sector of an economy involves group of activities related with extraction of raw materials directly from nature.

SSC CHSL TIER-I, 19/11/2025 (Shift-03)

- (a) Primary
- (b) Secondary
- (c) Tertiary
- (d) Quinary

Exp.- The **primary sector** of the economy includes those activities that depend directly on the exploitation of natural resources and the extraction of raw materials. Key examples of this sector include **agriculture, forestry, fishing, and mining**, which provide the base for the secondary sector. **Ans. (a)**

43. In the context of public goods, what does "Non-rivalrous" stands for?

SSC CHSL TIER-I, 18/11/2025 (Shift-03)

- (a) One person's use reduces another's use
- (b) One person's use doesn't reduce another's use
- (c) The good is a Giffen good
- (d) The good is only available for bureaucrats

Exp.- In the context of public goods, being "non-rivalrous" means that the consumption of the good by one person **does not reduce** its availability or quantity for another person. For example, if one person enjoys the benefit of light from a street light on a road, it does not reduce the light available to another person. **Ans. (b)**

44. Which of the following was a defining feature of India's mixed economy model during the Five Year Plan period?

SSC CPO TIER-I, 09/12/2025 (Shift-01)

- (a) No role for private enterprises
- (b) Only cooperative farming allowed
- (c) Coexistence of public sector with regulated private sector
- (d) Free market-driven liberal economy

Exp.- During India's Five-Year Plans, 'mixed economy' meant a system where both the government-controlled **public sector** and the **private sector**, working for the objective of profit, co-existed.

- Under this model, the responsibility for heavy industries and strategic sectors lay with the government, while consumer goods and other sectors were kept open for private participation. **Ans. (c)**

45. Which of the following is also known as a "Centrally Planned Economy"?

SSC CPO TIER-I, 13/12/2025 (Shift-01)

- (a) Socialist economy
- (b) Capitalist economy
- (c) Mixed economy
- (d) Free market economy

Exp.- A socialist economy is called a '**centrally planned economy**' because in this system, all important decisions regarding production, investment, and consumption are taken by a central authority (government). Its primary objective is not to earn profit, but to ensure social welfare. **Ans. (a)**

46. What is meant by a mixed economy?

SSC CGL TIER - I, 19/09/2025 (Shift-01)

- (a) Only private sector
- (b) Only public sector
- (c) Both private and public sectors
- (d) Only foreign companies

Exp.- A mixed economy is an economic system where both private and public (government) sectors co-exist. In this, market forces (demand and supply) are given freedom through the private sector, while the government maintains control and regulation over sectors of social welfare and strategic importance. **Ans. (c)**

47. Which of the following is a key economic role of the government in both developed and developing countries?

SSC CGL TIER - I, 18/09/2025 (Shift-02)

- (a) Only regulating private firms
- (b) Only promoting exports
- (c) Framing laws and delivering justice
- (d) Engaging in currency exchange

Exp.- In both developed and developing countries, a basic economic role of the government is **to make laws and provide justice**, so that the market system can function smoothly. **Ans. (c)**

02

National Income

1. Personal Disposable Income is the part of the aggregate income which belongs to the_____.

SSC CHSL TIER - I, 27/11/2025 (Shift-02)

- (a) households
- (b) firm
- (c) government
- (d) foreign banks

Exp.- Personal Disposable Income (PDI) is the amount left with the household sector or individuals after the payment of all direct taxes (such as Income Tax) and government fees. This is the actual money that households can spend on consumption as they wish or keep as savings.

□ **Formula: PDI = Personal Income – Direct Taxes.** **Ans. (a)**

2. In the context of economy, which of the following is an example of Intermediate good?

SSC CHSL TIER-I, 25/11/2025 (Shift-02)

- (a) Shirt
- (b) Copper used for making utensils
- (c) Television purchase by household
- (d) Refrigerator

Exp.- In an economy, intermediate goods are those goods that are used as raw materials for the production of other goods, such as **the use of copper for making utensils**.

□ In contrast, shirts, televisions, and refrigerators are final goods because they are purchased by consumers directly for their final use. **Ans. (b)**

3. In the context of wear and tear in production process, the replacement investment is same as_____.

SSC CHSL TIER-I, 18/11/2025 (Shift-03)

- (a) depreciation of capital
- (b) subsidy given by government
- (c) wage of total staffs
- (d) entrepreneurship cost

Exp.- Investment made to compensate for the regular **wear and tear** of machines and equipment during the production process is called 'replacement investment', which is equal to **depreciation** in economics. This is the amount spent to maintain the existing capital stock so that production capacity does not decrease. If this depreciation is subtracted from gross investment, we get '**net investment**'. **Ans. (a)**

4. In the context of economy, if_____ is deducted from the gross value added to obtain the Net value added obtained.

SSC CHSL TIER-I, 18/11/2025 (Shift-01)

- (a) Depreciation
- (b) Net indirect tax
- (c) Subsidy
- (d) Wage

Exp.- In an economy, depreciation is deducted from **Gross Value Added (GVA)** to obtain Net Value Added. Depreciation refers to the amount that decreases due to the wear and tear or loss in value of fixed assets (such as machinery, equipment and building) used during the production process. **Ans. (a)**

5. Which of the following statements is/ are correct?

Statement I: Intermediate goods are goods used as inputs in the production of other goods

Statement II: Capital goods are durable goods used in production that do not get transformed into the final product.

SSC PHASE XIII 30/07/2025 (Shift-02)

- (a) Both statements I and II are correct
- (b) Both statements I and II are incorrect
- (c) Statement I is correct, Statement II is incorrect
- (d) Statement I is incorrect, Statement II is correct

Exp.- Intermediate goods (such as raw materials) are completely used up during the production process and become part of the final product. In contrast, **capital goods** (such as machines) are durable; they assist in production but do not transform into the product itself. **Ans. (a)**

6. In a two-sector economy, households provide factors of production to firms and receive income. If households save part of this income, what is affected?

SSC Stenographer 07/08/2025 (Shift-02)

- (a) The circular flow becomes a leakage
- (b) Firm profits increase automatically
- (c) It leads to inflation
- (d) Production output remains constant

Exp.- In the **two-sector economy**, when households save a part of their income instead of spending it, that money moves out of the **circular flow of consumption**, which is called a **leakage in the circular flow of income**. This leakage reduces the **total demand for goods and services** in the economy, which needs to be balanced through investment. **Ans. (a)**

7. Identify the correct interpretation of Gross National Product (GNP).

SSC Stenographer 08/08/2025 (Shift-02)

- (a) Income of foreigners in India
- (b) Income earned by Indians at home and abroad
- (c) Income earned by Indians only within India
- (d) Income earned by residents and non-residents within India

Exp.- Gross National Product (GNP) measures the total value of final goods and services produced by the **normal residents** of a country in a given time period, whether they are within the country or abroad. For its calculation, 'Net Factor Income from Abroad' (NFIA) is added to the Gross Domestic Product (GDP), making it an indicator of the total global income of Indians. **Ans. (b)**

8. Which of the following sector contributes the most to India's GDP?

SSC Stenographer 07/08/2025 (Shift-03)

- (a) Agriculture
- (b) Manufacturing
- (c) Services
- (d) Mining

@VIDYAGRAM

DOWNLOAD VIDYAGRAM APP

<https://t.me/VidyagrambyAdityaRanjanSir>

aditya__ranjan

Exp.- At present, the **service sector** has the highest contribution to India's Gross Domestic Product (GDP), accounting for **more than 54%** of the total economy. Although the agriculture sector provides the highest employment, in terms of economic value addition, trade, hotels, transport, communication and financial services are the most significant. **Ans. (c)**

9. What does GDP stand for in economics?

SSC PHASE XIII 29/07/2025 (Shift-01)

- (a) Gross Domestic Product
- (b) Government Domestic Plan
- (c) General Development Plan
- (d) Gross Demand Process

Exp.- In Economics, **GDP** stands for **Gross Domestic Product**. The total monetary value of all final goods and services produced within the geographical boundaries of a country during a specific time period (usually a financial year) is called GDP. **Ans. (a)**

10. Which of the following statement regarding income is correct?

- I. Out of private income, what finally reaches the households is known as personal income.
- II. The total national income of the country is composed of two parts private income and public income.

SSC CHSL TIER-I, 22/11/2025 (Shift-02)

- (a) Only I
- (b) Only II
- (c) Both I and II
- (d) Neither I nor II

Exp.- The **Total National Income** of the country can be divided into **Private Income** (earned by the private sector) and **Public Income** (earned by the government sector) on the basis of **ownership**.

□ **Personal Income** is that part of Private Income which actually reaches **households**, from which taxes and **undistributed profits** are subtracted. **Ans. (c)**

11. The sum of the gross value added of all the firms in an economy in a year is called_____.

SSC CHSL TIER-I, 14/11/2025 (Shift-01)

- (a) Gross Domestic Product
- (b) Net National Product
- (c) Gross Disposable Income
- (d) Net National Income

Exp.- **Gross Value Added (GVA)** is the measure of value added to the production of a product or service (**GVA** = Value of output – Intermediate consumption) and when the **GVA** of all sectors is added, **Gross Domestic Product (GDP)** is obtained, which is the total market value of all final goods and services produced within the geographical boundary of a country during a year. **Ans. (a)**

12. What was the share of industry in India's GDP in 1950-1951?

SSC CHSL TIER-I, 13/11/2025 (Shift-01)

- (a) 5%
- (b) 7%
- (c) 13%
- (d) 27%

Exp.- In **1950-51**, the contribution of the industrial sector to India's **GDP** was about **12-13%**, while at that time the economy was mainly **agriculture-based**, in which the contribution of **agriculture** was about **53-59%** and the contribution of the **service sector** was about **27-30%**. **Ans. (c)**

13. The difference between the Gross National Product (GNP) and the Net National Product (NNP) is:

SSC CPO TIER-I, 12/12/2025 (Shift-02)

- (a) Taxes
- (b) Interest
- (c) Depreciation
- (d) Dividend

Exp.- The main difference between Gross National Product (GNP) and Net National Product (NNP) is depreciation. When we deduct the wear and tear or loss in value of capital goods (machines, equipment, etc.) that occurs during the production process from GNP, we obtain the net value, i.e., NNP.

□ Formula: $NNP = GNP - \text{Depreciation}$. **Ans. (c)**

14. Read the below statements marked as Assertion (A) and Reason (R). Mark the correct option:

Assertion (A): Increase in autonomous investment leads to a multiplied rise in national income

Reason (R): This happens because of the marginal propensity to save being less than one.

SSC CGL TIER-I, 21/09/2025 (Shift-01)

- (a) Both A and R are true, and R is the correct explanation of A
- (b) Both A and R are true, but R is not the correct explanation of A
- (c) A is true, but R is false
- (d) A is false, but R is true

Exp.- Due to the effect of the investment multiplier, an initial increase in **autonomous investment** leads to a many times greater increase in national income. Therefore, **Assertion (A) is true**.

□ The value of the multiplier depends on the Marginal Propensity to Consume (MPC) and the Marginal Propensity to Save (MPS). Since MPS is always less than 1 (meaning people do not save their entire income, they also spend a portion), the value of the multiplier is more than 1, which ensures a manifold increase in income. Therefore, **Reason (R) is true**. **Ans. (a)**

15. Read the below statements marked as Assertion (A) and Reason (R). Mark the correct option:

Assertion (A): GDP doesn't really tell the whole story when it comes to how well people in a country are actually doing

Reason (R): That's mainly because it doesn't take into account stuff like wear and tear of machines, pollution, or even how the money is divided among people.

SSC CGL TIER-I, 21/09/2025 (Shift-03)

- (a) Both A and R are true, and R is the correct explanation of A
- (b) Both A and R are true, but R is not the correct explanation of A
- (c) A is true, but R is false
- (d) A is false, but R is true

Exp.- GDP measures only the total market value of goods and services produced in a year, but it is not an accurate measure of people's standard of living or welfare. Therefore, Assertion (A) is true.

□ Since negative factors such as environmental degradation (pollution), income inequality, and depreciation of machinery are not subtracted in GDP calculation, it cannot clarify the real economic condition of society. **Therefore, Reason (R) is true**. **Ans. (a)**

16. Which of the following is usually excluded when measuring a country's Gross Domestic Product (GDP)?

SSC CGL TIER-I, 22/09/2025 (Shift-01)

- (a) Consumer spending on final goods and services
- (b) Government expenditure on public services
- (c) The value of intermediate goods used in production
- (d) Net exports (Exports - Imports)

Exp.- In the calculation of **Gross Domestic Product (GDP)**, only the value of '**final goods**' is included to avoid the problem of '**double counting**'. Since the value of **intermediate goods** is already included in the price of the final good, they are not counted separately. **Ans. (c)**

17. A factory purchases machinery worth 50 lakh. At the end of the year, depreciation is 5 lakh. What is the Net Investment made by the firm?

SSC Stenographer 08/08/2025 (Shift-02)

- (a) 45 lakh
- (b) 55 lakh
- (c) 5 lakh
- (d) 50 lakh

Exp.- In economics, **net investment** is calculated by subtracting depreciation from gross investment. In this case, from the total expenditure of ₹50 lakh, after deducting ₹5 lakh as depreciation, the firm's actual capital gain is ₹45 lakh. Therefore, **Net Investment = Gross Investment – Depreciation**. **Ans. (a)**

18. In the context of Indian economy, which of the following is included in the factor cost?

SSC CHSL TIER-I, 26/11/2025 (Shift-02)

- (a) Production taxes only
- (b) Only the payment to factors of production
- (c) Product tax only
- (d) Both the product and production taxes

Exp.- Factor cost is the total cost paid to the **factors of production** used in the production of a good, namely **land (rent), labor (wages), capital (interest), and entrepreneurship (profit)**. It does not include taxes imposed by the government (such as product or production taxes), nor is subsidy subtracted from it; it reflects only the actual cost of the production process.

Ans. (b)

19. In the context of economy, which of the following is an example of Intermediate good?

SSC CHSL TIER-I, 25/11/2025 (Shift-02)

- (a) Shirt
- (b) Copper used for making utensils
- (c) Television purchase by household
- (d) Refrigerator

Exp.- In an economy, intermediate goods are those goods that are used as raw materials for the production of other goods, such as **the use of copper for making utensils**.

- In contrast, shirts, televisions, and refrigerators are final goods because they are purchased by consumers directly for their final use.

Ans. (b)

20. Identify the correct interpretation of Gross National Product (GNP).

SSC Stenographer 08/08/2025 (Shift-02)

- (a) Income of foreigners in India
- (b) Income earned by Indians at home and abroad
- (c) Income earned by Indians only within India
- (d) Income earned by residents and non-residents within India

Exp.- Gross National Product (GNP) measures the total value of final goods and services produced by the **normal residents** of a country in a given time period, whether they are within the country or abroad. For its calculation, 'Net Factor Income from Abroad' (NFIA) is added to the Gross Domestic Product (GDP), making it an indicator of the total global income of Indians.

Ans. (b)

03

Money and Banking

Money

1. Which of the following statements correctly describes modern currency systems?

SSC CGL TIER-I, 25/09/2025 (Shift-03)

- (a) Currencies are fully backed by gold
- (b) Currencies are not readily convertible into gold
- (c) Currencies can always be exchanged for barrels of oil
- (d) Currencies are backed by silver

Exp.- Modern currency systems are based on '**fiat money**', which means that the currency has no intrinsic value of its own, nor is it backed by physical reserves like gold or silver. It is regulated by the order of the government and the trust of the public.

Ans. (b)

2. Which of the following does NOT refer to reserve money?

SSC PHASE XIII 29/07/2025 (Shift-03)

- (a) Central bank money
- (b) Base money
- (c) High powered money
- (d) Savings money

Exp.- Reserve Money, also known as **M0**, is the **base** of the **total money supply** in the economy. It is known as '**Central Bank Money**', '**Base Money**', and '**High-Powered Money**'. 'Savings Money' is not a part of it.

Ans. (d)

3. Which of the following is another name for the Cambridge approach to quantity theory?

SSC PHASE XIII 31/07/2025 (Shift-03)

- (a) Cash balance approach
- (b) Fisher's theory
- (c) Keynesian approach
- (d) Classical approach

Exp.- The **Cambridge Theory** is called the **Cash Balance Approach** because it focuses on what portion of their income people wish to hold in **cash**. In contrast, **Fisher's Theory** is based on the '**velocity of transactions**' of money and its **circulation** (as a medium of exchange).

Ans. (a)

4. Which of the following is another name for the Keynesian theory of demand for money?

SSC PHASE XIII 28/07/2025 (Shift-03)

- (a) Liquidity preference theory
- (b) Cambridge theory
- (c) Cash balance approach
- (d) Classical approach

Exp.- Another name for explaining the demand for money in **Keynesian Economics** is the **Liquidity Preference Theory**. According to this theory, people prefer to hold **money** (the most **liquid asset**) based on **future uncertainties** and **interest rates**.

Ans. (a)

Banking system

5. Read the below statements marked as Assertion (A) and Reason (R). Mark the correct option:

Assertion (A): Financial intermediaries are essential in transmitting monetary policy to the real economy

Reason (R): They adjust lending and deposit rates in response to policy rates set by the MPC

SSC CGL TIER-I, 23/09/2025 (Shift-01)

- (a) Both A and R are true, and R is the correct explanation of A
- (b) Both A and R are true, but R is not the correct explanation of A
- (c) A is true, but R is false
- (d) A is false, but R is true

Exp.- Financial intermediaries serve as the medium to transmit the monetary policy of the RBI to the economy; because when the repo rate is changed by the MPC, banks adjust their lending and deposit rates, which affects investment, consumption, and **overall economic activity**.

Ans. (a)

6. Read the below statements marked as Assertion (A) and Reason (R). Mark the correct option:

Assertion (A): CRR (Cash Reserve Ratio) and SLR requirements increase the lending capacity of banks

Reason (R): These requirements reduce the amount of money banks can lend to the public.

SSC CGL TIER-I, 23/09/2025 (Shift-03)

- (a) Both A and R are true, and R is the correct explanation of A
- (b) Both A and R are true, but R is not the correct explanation of A
- (c) A is true, but R is false
- (d) A is false, but R is true

Exp.- An increase in the rates of CRR and SLR requires banks to keep a portion of their funds with the RBI or in safe liquid assets. This **reduces their capacity to lend**, rather than increasing it. Therefore, Assertion (A) is false.

- Reserve requirements reduce the surplus funds available with banks that they could have lent to the public. Therefore, Reason (R) is correct.

Ans. (d)

7. Which of the following statements about factors affecting the Money Multiplier (MM) is/are correct?

- 1. Cash held by individuals acts as a leakage and reduces the money multiplier
- 2. Higher reserves held by banks with the RBI increase the money multiplier
- 3. A higher Cash Reserve Ratio (CRR) reduces the banking system's capacity to create money

SSC CGL TIER-I, 24/09/2025 (Shift-02)

- (a) Only 1 and 3
- (b) Only 2 and 3
- (c) Only 1 and 2
- (d) All 1, 2 and 3

Exp.- There is an inverse relationship between the money multiplier and reserve requirements; therefore, a high CRR or banks keeping higher reserves with the RBI leads to a reduction in the **money available for lending** in the market, which causes the money multiplier to **decrease**. Additionally, if people keep more cash with themselves, it is considered a 'leakage' from the banking system, which **reduces** the money creation capacity of banks and the multiplier effect.

Ans. (a)

8. Which policy reform targeted improving competitiveness and efficiency of the banking system after 1991?
SSC Stenographer 08/08/2025 (Shift-02)
- Introduction of prudential norms and CRAR
 - Limiting foreign entry into retail banking
 - Full deregulation of credit markets
 - Nationalization of cooperative banks

Exp.- Based on the recommendations of the **Narasimham Committee**, constituted for banking reforms after 1991, **prudential norms** and **CRAR (Capital Adequacy Ratio)** were introduced to strengthen the banking system. The primary objective of these reforms was to make the financial position of banks transparent, improve asset quality, and increase competitiveness in line with global standards (Basel Norms).
Ans. (a)

9. What was the recommendation of the Narasimham Committee-II regarding public sector banks?
SSC Stenographer 07/08/2025 (Shift-01)
- Reduce lending by public sector banks
 - Increase government ownership in public sector banks
 - Merge and consolidate public sector banks
 - Privatize all public sector banks

Exp.- The **Second Narasimham Committee (1998)** recommended the **merger and consolidation of public sector banks** to further strengthen the Indian banking structure, so that **3-4 large banks** could become internationally competitive. Along with this, the committee suggested **reducing government shareholding to 33%** to increase the autonomy of banks and recommended the establishment of **Asset Reconstruction Companies (ARCs)** for the management of **Non-Performing Assets (NPA)**.
Ans. (c)

10. What significant institutional development emerged from banking reforms after 1991 to regulate financial stability?
SSC Stenographer 06/08/2025 (Shift-03)
- Board for Financial Supervision (BFS)
 - NABARD
 - Securities Appellate Tribunal (SAT)
 - MSME Credit Bureau

Exp.- Following the banking reforms of **1991 (recommendations of the Narasimham Committee)**, the **Board for Financial Supervision (BFS)** was established within the RBI in **1994** to monitor the banking system and ensure financial stability. The primary function of this Board is to make the supervision of commercial banks, financial institutions, and **Non-Banking Financial Companies (NBFCs)** more integrated and effective.
Ans. (a)

11. Which of the following statements is/are correct?

Statement I: A bank's main liability is the deposits it holds.

Statement II: Open Market Operations involve buying and selling government bonds.

Statement III: The Bank Rate is the rate at which RBI lends to commercial banks.

SSC Stenographer 06/08/2025 (Shift-02)

- Only Statement III is correct
- I, II and III all three statements are correct
- Only Statements I and II are correct
- Only Statements II and III are correct

Exp.- Bank deposits are a **liability** for it because the bank has to return this money to the customers.

Through **Open Market Operations (OMO)**, the **RBI** buys and sells government securities to control liquidity.

□ **Bank Rate** is the interest rate at which the central bank (**RBI**) provides long-term loans to commercial banks without any collateral.
Ans. (b)

12. What was the recommendation regarding entry of foreign banks in India?

SSC Stenographer 06/08/2025 (Shift-02)

- Allow foreign banks to operate freely
- Restrict foreign banks to urban areas
- Ban foreign banks in India
- Encourage foreign banks to expand operations in India

Exp.- The **Narasimham Committee (1991)**, constituted for reforms in the banking sector in India, recommended **encouraging foreign banks to expand in India** and allowing them to open branches to increase competition and efficiency in the banking system. The committee believed that the entry of foreign banks would lead to the development of modern technology and better management practices in Indian banks, which would strengthen the overall financial structure.
Ans. (d)

13. Nationalization of major banks occurred in which year?

SSC PHASE XIII 29/08/2025 (Shift-01)

- 1965
- 1969
- 1971
- 1980

Exp.- On July 19, 1969, the Government of India **nationalised** 14 major private **commercial banks** with deposits exceeding 50 crore rupees.

□ The objective was to extend **banking services** to rural and backward areas, ensure credit for agriculture and small-scale industries, and reduce the **monopoly** of the private sector.
Ans. (b)

14. The Reserve Bank had first introduced the Banking Ombudsman Scheme in _____ to provide expeditious and inexpensive forum to bank customers for resolution of their complaints relating to deficiency in banking services.

SSC CHSL TIER-I, 30/11/2025 (Shift-02)

- 1995
- 1996
- 1991
- 1992

Exp.- The Reserve Bank of India (RBI) introduced the 'Banking Ombudsman Scheme' for the first time in **1995** to resolve customer complaints against deficiencies in banking services. This scheme was implemented under Section **35A** of the Banking Regulation Act, 1949, to provide customers with an alternative dispute resolution mechanism without any legal cost.
Ans. (a)

15. In which year did the committee for reforms in the insurance sector formed under the chairmanship of R.N. Malhotra submitted its report?

SSC CHSL TIER-I, 28/11/2025 (Shift-02)

- 1991
- 1992
- 1994
- 1995

Exp.- The committee chaired by R.N. Malhotra submitted its report for reforms in the insurance sector in **1994**. Based on the recommendations of this committee, the insurance sector in India was opened to private companies, and in 1999, the way was paved for the establishment of the **Insurance Regulatory and Development Authority (IRDA)**.
Ans. (c)

16. The Banking Codes and Standards Board of India (BCSBI) was set up on 18th February _____.

SSC CHSL TIER-I, 25/11/2025 (Shift-03)

- 2000
- 2002
- 2006
- 2008

Exp.- The Banking Codes and Standards Board of India (BCSBI) was established on 18 February **2006** by the Reserve Bank of India (RBI). It was registered as an independent body to ensure that banks follow global standards of transparency and fairness while dealing with their customers.
Ans. (c)

17. A committee was set up in _____ under the chairmanship of R.N. Malhotra, former Governor of the Reserve Bank of India, to make recommendations for reforms in the insurance sector.

SSC CHSL TIER-I, 24/11/2025 (Shift-02)

- 1992
- 1993
- 1995
- 1996

Exp.- To pave the way for the privatization of the insurance sector and the modernization of the regulatory framework, the **Malhotra Committee** was formed by the Government of India in **1993**. Based on the recommendations of this committee, the **IRDA Act** was passed in 1999, and in the year 2000, the insurance sector was opened to private companies.
Ans. (b)

18. The Banking Codes and Standards of India (BCSBI) has released a "Code of Bank's Commitment to Customers" (Code) in July _____.

SSC CHSL TIER-I, 22/11/2025 (Shift-03)

- (a) 2004 (b) 2006
(c) 2008 (d) 2002

Exp.- The **Banking Codes and Standards Board of India (BCSBI)** issued the '**Code of Bank's Commitment to Customers**' in July 2006. This code is a voluntary document that sets minimum standards for banks to ensure transparency and fairness when dealing with individual customers. **Ans. (b)**

19. Bharatiya Reserve Bank Note Mudran Limited established as a fully owned subsidiary of the Reserve bank in the year _____.

SSC CHSL TIER-I, 18/11/2025 (Shift-01)

- (a) 1994 (b) 1996
(c) 1997 (d) 1995

Exp.- Bharatiya Reserve Bank Note Mudran Private Limited (**BRBNMPL**) was established on **3 February 1995** as a wholly-owned subsidiary of the **Reserve Bank of India (RBI)**. Its primary objective is to streamline the printing and supply of currency to meet the growing demand for banknotes in the country. Currently, this company manages two major currency presses located in Mysore (Karnataka) and Salboni (West Bengal). **Ans. (d)**

20. India Post Payments Bank uses which technology for cashless withdrawal?

SSC CPO TIER-I, 09/12/2025 (Shift-01)

- (a) QR card
(b) NFC chip
(c) OTP-based SMS
(d) Virtual wallet

Exp.- India Post Payments Bank (IPPB) uses **QR card** technology for cashless transactions and withdrawals, which is a digital alternative to a traditional debit card. This card contains a unique QR code for the identification of the account holder, and after scanning it, the transaction is securely completed through **biometric (thumb impression)** or OTP. **Ans. (a)**

21. Which of the following is the mandatory requirement of setting aside in liquid assets, such as gold or Government securities, by commercial banks?

SSC CPO TIER-I, 11/12/2025 (Shift-01)

- (a) Cash reserve ratio
(b) Statutory liquidity ratio
(c) Current ratio
(d) Margin ratio

Exp.- **Statutory Liquidity Ratio (SLR)** makes it mandatory for commercial banks to keep a certain portion of their total deposits with themselves in the form of cash, gold, or approved government securities.

□ This is an important tool of monetary policy used by the Reserve Bank of India (RBI) to control credit availability and ensure the financial stability of banks. **Ans. (b)**

RBI

22. Name the situation when the central bank reduces interest rates to stimulate economic growth?

SSC PHASE XIII 28/07/2025 (Shift-02)

- (a) Expansionary monetary policy
(b) Contractionary monetary policy
(c) Fiscal stimulus
(d) Quantitative easing

Exp.- When a country's economy is sluggish or faces the risk of recession, the central bank (such as the **RBI**) adopts an **expansionary monetary policy**. Its main objective is to stimulate investment and spending by making credit cheaper and to provide momentum to the economy. This policy is adopted to increase the **money supply** and boost economic activities. **Ans. (a)**

23. What does 'repo rate' refer to in India's monetary policy?

SSC Stenographer 08/08/2025 (Shift-03)

- (a) Rate of foreign exchange transactions
(b) Rate at which the government borrows from banks
(c) Rate at which consumers take loans
(d) Rate at which commercial banks borrow from the RB

Exp.- Repo rate is the short-term rate at which the Reserve Bank of India (**RBI**) lends money to commercial banks in case of a shortage of funds, which is often taken by pledging government securities. It is a major instrument of monetary policy; when the **RBI** increases the repo rate, borrowing becomes expensive for banks, which ultimately reduces the money supply in the market and helps in controlling **inflation**. **Ans. (d)**

24. Arrange the following RBI Governors in the correct chronological order of their tenure (from earliest to latest):

1. Dr. Y. V. Reddy
2. Dr. D. Subbarao
3. Dr. Urjit R. Patel
4. Shri Sanjay Malhotra

SSC Stenographer 06/08/2025 (Shift-03)

- (a) 1, 3, 2, 4
(b) 2, 3, 1, 4
(c) 2, 1, 3, 4
(d) 1, 2, 3, 4

Exp.-

S. No.	Name	Tenure
1.	Dr. Y. V. Reddy	2003 - 2008
2.	Dr. D. Subbarao	2008 - 2013
3.	Dr. Urjit R. Patel	2016 - 2018
4.	Shri Sanjay Malhotra	2024 - Present

Ans. (d)

25. How does the Central Bank do debt monetization?

SSC PHASE XIII 26/07/2025 (Shift-02)

- (a) The central bank directly finances the government by purchasing its debt
(b) The central bank increases interest rates to control inflation
(c) The government borrows money from foreign countries
(d) The central bank reduces the money supply in the economy

Exp.- **Monetization of debt** occurs when the central bank (**RBI**) directly purchases government bonds or securities to cover the government's budgetary deficit. In this process, the bank provides finance to the government by printing new currency, which increases the **money supply** in the economy. This often leads to high **inflation**; therefore, other options (such as increasing interest rates or decreasing money supply) are its opposites. **Ans. (a)**

26. Which of the following is a report published by Reserve Bank of India?

- I. Financial Stability Report
II. Database on Indian Economy

SSC CHSL TIER-I, 22/11/2025 (Shift-02)

- (a) Only I (b) Only II
(c) Both I and II (d) Neither I nor II

Exp.- The **Reserve Bank of India (RBI)** publishes both the **Financial Stability Report (FSR)** and the **Database on Indian Economy (DBIE)**, which serve as vital sources for the country's **financial health** and **economic data**. While the Financial Stability Report assesses the **risks to the banking system** twice a year, the Database provides a comprehensive collection of **macro-economic data** from time to time. **Ans. (c)**

27. Which of the following is one of the parameters of Financial Inclusion index in India?

- I. Access
II. Usage

SSC CHSL TIER-I, 19/11/2025 (Shift-01)

- (a) Only I (b) Only II
(c) Both I and II (d) Neither I nor II

Exp.- The **Financial Inclusion Index (FI-Index)** released by the Reserve Bank of India (RBI) is primarily based on three parameters: **Access, Usage, and Quality**. 'Access' reflects the availability of banking infrastructure, while 'Usage' measures the actual use of accounts such as savings, investment, and credit. **Ans. (c)**

28. Which of the following is referred as Public sector unit (PSU) disinvestment?

SSC CHSL TIER-I, 17/11/2025 (Shift-03)

- (a) Sale of shares in PSU
(b) Purchase of share in PSU
(c) Allowing direct foreign direct investment in PSU
(d) Allowing indirect foreign direct investment in PSU

Exp.- Disinvestment is the process in which the government raises financial resources by selling its stake in public sector undertakings (such as **LIC, BPCL, Air India**), bringing in private sector efficiency and technology, and making funds available for social welfare schemes. **Ans. (a)**

29. Match the column:

SSC Stenographer 07/08/2025 (Shift-03)

Column A (Status Category)	Column B (Public Sector Enterprise)
A. Maharatna	1. Mahanagar Telephone Nigam Limited
B. Navratna	2. Indian Railway Catering and Tourism Corporation
C. Miniratna	3. Steel Authority of India Limited

- (a) A - 1, B - 2, C - 3
 (b) A - 2, B - 3, C - 1
 (c) A - 3, B - 1, C - 2
 (d) A - 1, B - 3, C - 2

Exp.- Central Public Sector Enterprises (CPSEs) are classified on the basis of their financial performance and autonomy. In this classification, **SAIL (Steel Authority of India Limited)** is an important company, and **MTNL** is also a Navratna company. **IRCTC** has been given the status of Miniratna (Category-I), which manages catering and tourism services in the railway sector. **Ans. (c)**

30. The Clearing Corporation of India Limited (CCIL) was established in_____.

SSC CHSL TIER-I, 18/11/2025 (Shift-01)

- (a) 2004 (b) 2006
 (c) 2005 (d) 2001

Exp.- The Clearing Corporation of India Limited (CCIL) was established on **April 30, 2001**, at the initiative of the RBI by major banks and financial institutions, with the objective of providing a safe and efficient clearing and settlement system in the money, government securities, and foreign exchange markets. **Ans. (d)**

04

Indian Tax System

Tax System

1. Who was the chairman of the Tax Reforms Committee 1991?

SSC CHSL TIER-I, 25/11/2025 (Shift-01)

- (a) Manmohan Singh
 (b) P. Chidambaram
 (c) Raja J. Chelliah
 (d) Shakti Kant Das

Exp.- The Chairman of the **Tax Reforms Committee, 1991** in India was **Raja J. Chelliah**, who is known as the '**Father of Indian Tax Reforms**'. This committee made important recommendations for rationalizing the rates of **direct and indirect taxes**, broadening the tax base, and reducing customs duties. **Ans. (c)**

2. Which taxation system is commonly used for income tax in most countries?

SSC PHASE XIII 29/07/2025 (Shift-02)

- (a) Regressive taxation
 (b) Progressive taxation
 (c) Proportional taxation
 (d) No taxation system

Exp.- Progressive taxation is a system in which the tax rate increases as income rises. Most countries adopt this because it ensures social justice, where the wealthy class pays more tax according to their capacity and the burden on the poor is reduced. In **regressive taxation**, the tax rate decreases as income increases, which places a greater burden on the poor, while in **proportional taxation**, the tax rate remains the same for everyone, regardless of income. **Ans. (b)**

Direct Taxes

3. Which of the following is a direct tax collected by the government?

SSC PHASE XIII 02/08/2025 (Shift-01)

- (a) Goods and Services Tax (GST)
 (b) Income Tax
 (c) Customs Duty
 (d) Excise Duty

Exp.- Income Tax is a prominent example of a **direct tax**. In India, the **Central Board of Direct Taxes (CBDT)** is responsible for its administration. GST, Customs Duty, and Excise Duty are **indirect taxes** as they are ultimately paid by the consumer. **Ans. (b)**

4. Fill in the blank:

Direct taxes are collected by the government from_____.

SSC PHASE XIII 01/08/2025 (Shift-01)

- (a) Individuals and companies
 (b) Importers
 (c) Consumers
 (d) Traders

Exp.- A direct tax is a tax collected directly from the person or entity/companies on whom it is imposed. It cannot be shifted to someone else.

The tax levied on the income of individuals is called **Income Tax**.

❑ The tax levied on the net profit of companies is called **Corporate Tax** or **Corporation Tax**. **Ans. (a)**

5. Which of the following is an example of a direct tax in India?

SSC PHASE XIII 31/07/2025 (Shift-02)

- (a) Goods and Services Tax (GST)
 (b) Excise Duty
 (c) Corporate Income Tax
 (d) Customs Duty

Exp.- Corporate Income Tax is an example of a **Direct Tax** because it is levied directly on the profits of companies. In contrast, **GST**, Excise Duty, and Customs Duty are **Indirect Taxes**, the burden of which is shifted to the consumers. Direct taxes are paid directly to the government. **Ans. (c)**

6. Which of the following is known as the Paper tax in India?

I. Wealth tax.

II. Goods and Services tax.

SSC CHSL TIER-I, 30/11/2025 (Shift-02)

- (a) Only I (b) Only II
 (c) Both I and II (d) Neither I nor II

Exp.- In India, direct taxes such as wealth tax, gift tax, and estate duty are primarily referred to as '**paper taxes**'. They are called paper taxes because they are widely evaded by taxpayers, generate very little revenue, and their administrative significance remains limited only to papers. **Ans. (a)**

Indirect Taxes

7. Which of the following is an example of an indirect tax?

SSC PHASE XIII 29/08/2025 (Shift-03)

- (a) Income Tax
 (b) Corporate Tax
 (c) Goods and Services Tax (GST)
 (d) Wealth Tax

Exp.- GST (Goods and Services Tax) was implemented in India on July 1, 2017, replacing several indirect taxes like VAT, Service Tax, and Excise Duty.

❑ In contrast, Income Tax, Corporate Tax, and Property Tax are direct taxes as they are levied directly on a taxpayer's income or property. **Ans. (c)**

8. What was the primary purpose for which the Goods & Services Tax (GST) Act enacted?

SSC PHASE XIII 24/07/2025 (Shift-02)

- (a) To act as a new direct tax
 (b) To levy more duties on luxury goods
 (c) To ensure uniform tax across states
 (d) To differentiate between goods & services in taxation

Exp.- The main objective of implementing the **Goods and Services Tax (GST)** was to establish a uniform tax system (**One Nation, One Tax**) across the country. By abolishing several indirect taxes levied by the Centre and States, it made the tax structure simple, transparent, and uniform, thereby facilitating easier inter-state trade. **Ans. (c)**

9. In 2002-2003, the Government of India set up a committee to review the fiscal reforms both in respect of Direct and Indirect taxes under the chairmanship of_____.

SSC CHSL TIER - I, 29/11/2025 (Shift-01)

@VIDYAGRAM

DOWNLOAD VIDYAGRAM APP

<https://t.me/VidyagrambyAdityaRanjanSir>

aditya__ranjan

- (a) Vijay Kelkar
(b) Chakravarthi Rangarajan
(c) Abid Hussain
(d) Deepak Parekh

Exp.- The Government of India constituted a Task Force on fiscal reforms regarding direct and indirect taxes in **2002-2003 under the chairmanship of Vijay Kelkar.**

- This committee presented important recommendations such as simplifying tax administration, broadening the tax base, and increasing the exemption limit for personal income tax. **Ans. (a)**

10. Which of the following tax (now replaced by GST) was levied by Central government?

- I. Entertainment tax
II. Entry tax

SSC CHSL TIER-I, 25/11/2025 (Shift-03)

- (a) Only I (b) Only II
(c) Both I and II (d) Neither I nor II

Exp.- Historically, both entertainment tax and entry tax were levied by the **State Governments**, not by the Central Government, and they have now been subsumed into the Goods and Services Tax (**GST**). The taxes levied by the Central Government included Central Excise Duty and Service Tax, which have been replaced by **GST**. **Ans. (d)**

11. Which of the following has amalgamated a large number of central and state taxes and cesses?

SSC CHSL TIER-I, 21/11/2025 (Shift-03)

- (a) Goods and Services Tax
(b) Customs duty
(c) Minimum Alternate tax
(d) Corporate tax

Exp.- Goods and Services Tax (GST) was implemented on July 1, 2017, based on the principle of "One Nation, One Tax," which replaced several pre-existing indirect taxes. It subsumed more than 17 taxes and cesses, including the Centre's excise duty and service tax, as well as the states' **VAT**, luxury tax, and entry tax.

Ans. (a)

12. Which of the following tax are imposed on goods imported into and exported out of India?

SSC CHSL TIER-I, 13/11/2025 (Shift-02)

- (a) Excise duty (b) Customs duty
(c) Wealth tax (d) Estate duty

Exp.- Customs duty is an indirect tax which is levied on imported and exported goods, and in India, it is regulated under the Customs Act, **1962**; whereas most goods are exempt from duty to promote exports, domestic industries are protected by levying Basic Customs Duty (**BCD**) and other cesses on imports.

Ans. (b)

13. In 2001-02, excise duty structure was rationalized to a single rate of _____ per cent CENVAT (Central Value Added Tax).

SSC CHSL TIER-I, 12/11/2025 (Shift-03)

- (a) 16 (b) 25
(c) 8 (d) 32

Exp.- Through the Union Budgets of 2000-01 and 2001-02, as part of indirect tax reforms, **CENVAT** was introduced. In this, the multiple rates of excise duty were abolished and a single rate of 16% was adopted. Its objective was to simplify the tax system, reduce the cascading effect of taxes (tax-on-tax), and pave the way for a comprehensive value-added tax like **GST** in the future.

Ans. (a)

14. Which of the following best explains why indirect taxes are considered regressive?

SSC CPO TIER-I, 11/12/2025 (Shift-01)

- (a) They vary with income level
(b) They apply only to the wealthy
(c) They burden only corporations
(d) They impact all income groups equally

Exp.- Indirect taxes (such as GST) are considered regressive because they are based on the price of a commodity, rather than a person's income. When a poor person and a rich person buy the same commodity (such as salt or soap), both have to pay the same amount of tax.

Ans. (d)

15. Which of the following is an indirect tax?

SSC CPO TIER-I, 11/12/2025 (Shift-02)

- (a) Income Tax
(b) Corporation Tax
(c) Excise Duty
(d) Wealth Tax

Exp.- Taxes are of two types (direct and indirect)–

- **Direct Tax:** It is levied directly on income or property and the burden cannot be shifted (e.g., Income Tax, Corporate Tax).
□ **Indirect Tax:** It is levied on goods and services and the burden can be shifted to the consumer (e.g., Excise Duty, GST, Customs Duty, VAT).

Ans. (c)

05

Public Finance

Budget

1. Which of the following is correct regarding Sale of government assets like sale of shares in Public sector unit (PSU)?

SSC CHSL TIER-I, 12/11/2025 (Shift-03)

- (a) It creates liability for the government
(b) Amount comes from sale of shares are part of capital receipts
(c) Amount comes from sale of shares are part of revenue receipts
(d) It does not reduce the total assets of the government

Exp.- According to the budget accounting rules, those receipts which reduce the government's assets or increase its liabilities are called capital receipts. Therefore, the sale of government assets such as shares in **PSU** reduces the government's property; for this reason, it is considered a non-debt capital receipt.

Ans. (b)

2. Which of the following is an example of a capital receipt for the Indian government?

SSC CPO TIER-I, 10/12/2025 (Shift-02)

- (a) Income tax collection
(b) Dividends received from Public Sector Undertakings (PSUs)
(c) Disinvestment proceeds from selling shares of PSUs
(d) Goods and Services Tax (GST) collection

Exp.- Capital receipts are those government incomes that either increase the **liabilities** of the government or reduce its **assets**. The sale of PSU shares or disinvestment reduces the assets of the government, therefore it is considered a capital receipt.

- In contrast, income tax, GST, and dividends are 'revenue receipts' because they neither increase any liability nor lead to a reduction in assets.

Ans. (c)

3. What is the main objective of a government budget?

SSC PHASE XIII 01/08/2025 (Shift-03)

- (a) To increase unemployment
(b) To allocate public funds
(c) To decrease taxes
(d) To promote private sector

Exp.- The primary objective of the government budget is to **allocate the country's limited resources** (public funds) to various sectors like education, health, and defense to ensure economic growth and social welfare. Through the budget, the government determines how the income received from taxes will be spent on public interest works.

Ans. (b)

4. Fill in the blank:

The annual financial statement presented by the Government of India is commonly known as the _____

SSC PHASE XIII 30/07/2025 (Shift-01)

@VIDYAGRAM

DOWNLOAD VIDYAGRAM APP

<https://t.me/VidyagrambyAdityaRanjanSir>

aditya__ranjan

- (a) Budget
- (b) Economic Survey
- (c) Balance Sheet
- (d) Fiscal Policy

Exp.- The term 'Budget' is not mentioned in **Article 112** of the Indian Constitution; instead, it is called the "**Annual Financial Statement**". It is a statement of the estimated receipts and expenditure of the government for a **financial year** (April 1 to March 31). **Ans. (a)**

5. A country's government reported the following figures in its annual budget:

Total Revenue Receipts = Rs. 50 lakh crore

Total Expenditure = Rs. 75 lakh crore

Borrowings = Rs. 20 lakh crore

What is the Fiscal Deficit of the government?

SSC PHASE XIII 31/07/2025 (Shift-02)

- (a) Rs. 5 lakh crore
- (b) Rs. 15 lakh crore
- (c) Rs. 25 lakh crore
- (d) Rs. 20 lakh crore

Exp.- Fiscal Deficit is the difference between the government's total expenditure and its total non-debt receipts. Here, the total expenditure is Rs.75 lakh crore and total revenue receipts are Rs.50 lakh crore.

□ Therefore, Fiscal Deficit = Rs. 75 - 50 = Rs. 25 lakh crore.

□ Borrowing being Rs.20 lakh crore implies that the remaining amount was raised from non-debt capital receipts. **Ans. (c)**

6. Which of the following is another term for 'Budgetary Deficit'?

SSC PHASE XIII 30/07/2025 (Shift-02)

- (a) Fiscal Deficit
- (b) Revenue Deficit
- (c) Primary Deficit
- (d) Trade Deficit

Exp.- Budgetary deficit is primarily known as **fiscal deficit**. It is the difference between the government's total expenditure and its total revenue (excluding borrowings). It indicates how much borrowing the government will need to meet its expenses. **Ans. (a)**

7. Which of the following relates to those expenses incurred for the normal functioning of the government departments?

SSC CHSL TIER-I, 30/11/2025 (Shift-02)

- (a) Revenue expenditure
- (b) Capital expenditure
- (c) Revenue receipt
- (d) Capital receipt

Exp.- Expenditure incurred on the normal functioning of government departments, salaries, pensions, and interest payments is called **revenue expenditure**. This type of expenditure neither creates any asset for the government nor causes any reduction in its liability. **Ans. (a)**

8. In India's gender budget, _____ includes schemes where the budgetary allocation for women and girls is below 30% of the total provision.

SSC CPO TIER-I, 09/12/2025 (Shift-01)

- (a) Part A
- (b) Part D
- (c) Part B
- (d) Part C

Exp.- The Gender Budget Statement in India's Union Budget is now primarily classified into three parts: Part A (100% women-specific), Part B (pro-women schemes with 30–99% allocation), and **Part C (schemes with less than 30% allocation, starting from 2024–25)**. This structure ensures better and more accurate tracking of the budget. **Ans. (d)**

9. In the context of Budget, which of the following statement is correct regarding capital expenditure?

- I. It does not creates physical or financial assets.
- II. Acquisition of machinery is an example of capital expenditure.

SSC CHSL TIER-I, 25/11/2025 (Shift-01)

- (a) Only I
- (b) Only II
- (c) Both I and II
- (d) Neither I nor II

Exp.- In the context of the budget, **capital expenditure** is that expenditure which either creates physical/financial assets or reduces the liabilities of the government. Since the **acquisition of machinery** creates a new physical asset, it is a perfect example of capital expenditure, whereas Statement I is incorrect because the primary objective of capital expenditure is asset creation. **Ans. (b)**

10. In the context of Budget, the salaries, pensions, defence services comes under _____.

SSC CHSL TIER-I, 22/11/2025 (Shift-01)

- (a) revenue expenditure
- (b) revenue receipts
- (c) capital receipts
- (d) capital expenditure

Exp.- In the context of the government budget, expenditure incurred on **salaries, pensions, and defence services** falls under **Revenue Expenditure**. This is because such expenditures neither create any **assets** for the government nor lead to any reduction in its **liabilities**. **Ans. (a)**

11. Which of the following statement is correct regarding the government budget?

- I. Subsidies are an important policy instrument which aim at increasing welfare.
- II. Defence expenditure, is committed expenditure in the sense that given the national security concerns, there exists little scope for drastic reduction.

SSC CHSL TIER-I, 21/11/2025 (Shift-01)

- (a) Only I
- (b) Only II
- (c) Both I and II
- (d) Neither I nor II

Exp.- In the government budget, **subsidy** is a major policy instrument used to ensure social welfare by making essential goods (such as food and fertilizers) cheaper. On the other hand, **defense expenditure** is considered '**committed expenditure**' because the government has very limited scope to make cuts in this item due to the imperatives of national security. **Ans. (c)**

12. The estimates of revenue receipts take into account the effects of tax proposals made in the—.

SSC CHSL TIER-I, 20/11/2025 (Shift-01)

- (a) Finance bill
- (b) Appropriation bill
- (c) Constitution amendment bill
- (d) Demand for grant bill

Exp.- During the budget process, the government's estimates of **revenue receipts** are based on the changes proposed in the **Finance Bill** (such as changes in Income Tax or GST rates).

□ While the 'Appropriation Bill' empowers the government to withdraw money from the Consolidated Fund, the **Finance Bill** provides the government the authority to impose taxes and mobilize revenue. **Ans. (a)**

13. What is the traditional belief about the effect of a government cutting taxes and running a budget deficit?

SSC CHSL TIER-I, 19/11/2025 (Shift-02)

- (a) It promotes consumers spend more
- (b) It promotes consumers spend less.
- (c) It promotes foreign investors to opt out from economy rapidly
- (d) It shows government irresponsible behaviour

Exp.- According to the traditional economic view, the government increases the **disposable income** of the people through tax cuts and budget deficits, which increases consumer demand and expenditure, leading to an increase in the aggregate demand in the economy. The purpose of running a budget deficit is also often to provide an impetus to economic activities during a recession. **Ans. (a)**

14. In the context of Budget, which of the following is included in the revenue expenditure?

- I. Salaries of government employees
- II. Pensions of government employees

SSC CHSL TIER-I, 19/11/2025 (Shift-02)

- (a) Only I
- (b) Only II
- (c) Both I and II
- (d) Neither I nor II

Exp.- In the government budget, revenue expenditure refers to those expenses which neither create any assets for the government nor reduce the liability of debt. Both **salary and pension** of government employees are mandatory expenses of a recurring nature, which are incurred for the smooth functioning of administrative work and are categorized under revenue expenditure. **Ans. (c)**

15. As per Economic Survey 2023-24, it is expected that by 2030, more than _____ of India's population will live in urban areas.

SSC CHSL TIER-I, 19/11/2025 (Shift-01)

- (a) 40% (b) 50%
(c) 55% (d) 60%

Exp.- According to the Economic Survey 2023-24, the pace of urbanisation in India is extremely rapid, and it is estimated that by the year **2030, more than 40%** of the country's population will reside in urban areas.

□ This urban expansion will serve as an engine of growth for the Indian economy, which will require extensive investment in infrastructure, housing, and civic amenities. **Ans. (a)**

16. Interest payment on debt incurred by the government is part of the _____.

SSC CHSL TIER-I, 18/11/2025 (Shift-01)

- (a) Revenue receipt
(b) Revenue expenditure
(c) Capital receipt
(d) Capital expenditure

Exp.- Interest paid by the government on loans does not create any new asset, but rather it is a regular or recurring expenditure; therefore, it is included in revenue expenditure. **Ans. (b)**

17. Child Budgeting was first time adopted by government of India in _____.

SSC CHSL TIER-I, 13/11/2025 (Shift-03)

- (a) 2001-02 (b) 2013-14
(c) 1991-92 (d) 2008-09

Exp.- The Government of India introduced 'Child Budgeting' in the Union Budget of the financial year **2008-09**, which aimed to track the funds allocated for children (education, nutrition, **health**, protection); this is an important step in the direction of financial inclusion after gender budgeting, and it contains details of those schemes which are for the benefit of **100% or at least 30% children**.

Ans. (d)

18. Which of the following deficit includes only such transactions that affect the current income and expenditure of the government?

SSC CHSL TIER-I, 13/11/2025 (Shift-03)

- (a) Primary deficit
(b) Revenue deficit
(c) Trade deficit
(d) Fiscal deficit

Exp.- Revenue deficit occurs when the government's **revenue expenditure** (such as salaries, interest payments, and subsidies) exceeds its **revenue receipts** (tax and non-tax revenue). This deficit reflects only those current transactions that affect the government's current income and consumption expenditure, and it does not include transactions like the creation of capital assets or borrowing. **Ans. (b)**

19. The capital account in the government budget deals with:

SSC CPO TIER-I, 11/12/2025 (Shift-02)

- (a) Only interest payments
(b) Current subsidies and salaries
(c) Assets and liabilities of the government
(d) Tax collections and customs duties

Exp.- The Capital Account of the government budget records those transactions which lead to a change in the assets or liabilities of the government. It includes capital receipts (such as loans, disinvestment, recovery of loans) and capital expenditure (such as infrastructure construction, purchase of machinery and repayment of loans). **Ans. (c)**

20. Read the following statements and select the appropriate option:

1. Statement 1: A budget deficit is encountered when the total expenditure of the government is greater than its total revenue, excluding borrowings.

2. Statement 2: A budget deficit is faced when the total revenue of the government is greater than its expenditure in a fiscal year.

SSC CPO TIER-I, 11/12/2025 (Shift-02)

- (a) Only Statement 1 is correct
(b) Only Statement 2 is correct
(c) Both Statement 1 and Statement 2 are correct
(d) Neither Statement 1 nor Statement 2 is correct

Exp.- Budget deficit is a situation when the government's total expenditure exceeds its total receipts. On the other hand, if receipts exceed expenditure, it is called a budget surplus, and in the calculation of fiscal deficit, borrowings are not included in income because they are a future liability. **Ans. (a)**

21. What does the Finance Bill presented in the Budget mainly contain?

SSC CPO TIER-I, 10/12/2025 (Shift-02)

- (a) Details of government borrowing plans
(b) Proposals related to tax changes or rules
(c) Estimates of state-level expenditure only
(d) Monetary policy statements of RBI

Exp.- The Finance Bill presented along with the Budget mainly includes changes in taxes, proposals for new taxes, **amendments in tax rates or exemptions, and changes in tax-related rules**. It requires the approval of the Parliament of India (Lok Sabha and Rajya Sabha).

□ The **Finance Bill** is related to Article 117 of the Constitution and it regulates **financial matters** in addition to the Money Bill. **Ans. (b)**

22. The Union Budget is presented for which period?

SSC CPO TIER-I, 09/12/2025 (Shift-01)

- (a) Calendar year
(b) Fiscal year from Jan to Dec
(c) Financial year from April to March
(d) Financial year from July to June

Exp.- The Union Budget of India is presented for the period of the financial year from **1 April to 31 March**, which is called the 'Annual Financial Statement' under **Article 112** of the Constitution.

□ Before 2017, it used to be presented on the last working day of February, but now it is presented on **1 February** so that the budgetary process can be completed before the commencement of the new financial year. **Ans. (c)**

23. Which of the following is another name for the revenue account of the government budget?

SSC CGL TIER-I, 21/09/2025 (Shift-02)

- (a) Finance budget
(b) Expenditure budget
(c) Revenue budget
(d) Capital budget

Exp.- The Revenue Account of the government budget (**Revenue Budget**) shows the revenue receipts and revenue expenditure of the government, which relate to day-to-day administration and recurring expenses; these neither create any new assets nor reduce any liability.

□ The complete budget is divided into two parts— Revenue Budget and Capital Budget. When revenue expenditure exceeds revenue receipts, it is called a **revenue deficit**. **Ans. (c)**

24. Which of the following is an example of a capital receipt?

SSC CGL TIER-I, 22/09/2025 (Shift-03)

- (a) Income Tax collected
(b) Dividend from PSUs
(c) Loan taken from RBI
(d) Sale proceeds of public services

Exp.- Capital receipts are those government incomes that either create a **liability** for the government (such as borrowing) or cause a reduction in **government assets** (such as **disinvestment**). A loan taken from the RBI creates a future liability for the Central Government; therefore, it is classified under the category of capital receipts.

□ **Main sources of capital receipts:** Borrowings, small savings (deposits from the public), and recovery of loans. **Ans. (c)**

25. Why is revenue deficit a concern for the economy?

SSC CGL TIER-I, 23/09/2025 (Shift-02)

- (a) It increases productive investment
(b) It improves trade surplus
(c) It indicates borrowing for current spending
(d) It boosts capital creation

Exp.- Revenue deficit occurs when the government's revenue expenditure exceeds its revenue receipts. **Revenue Deficit (RD) = Revenue Expenditure (RE) – Revenue Receipts (RR).**

- It is a matter of concern because the government borrows for consumption; this does not create any new assets and increases the burden of interest in the future. Therefore, it is also called **dis-saving**. **Ans. (c)**

26. Why are grants for asset creation still considered Revenue Expenditure?

SSC CGL TIER-I, 23/09/2025 (Shift-03)

- (a) They are spent through government loans
(b) They are used only by private sector units
(c) They do not create direct central assets
(d) They are not included in any budget head

Exp.- Grants given for the creation of assets are considered revenue expenditure because they do not create **direct physical or financial assets** for the Central Government; instead, they are transferred to states or other bodies.

- Although these can create capital assets for the recipient, they are kept under the category of **"revenue expenditure"** in the Center's accounts because they neither reduce the liability of the Center nor increase its own assets. **Ans. (c)**

27. Which of the following best defines Capital Receipts?

SSC CGL TIER-I, 24/09/2025 (Shift-02)

- (a) Receipts that increase government revenue permanently
(b) Receipts that reduce financial liabilities of the government
(c) Receipts that create liability or reduce government assets
(d) Receipts that do not impact government assets or liabilities

Exp.- Capital receipts in a government budget are those which either create a liability (debt) for the government or reduce its assets.

- Their main sources include **debt receipts** (domestic/foreign loans, borrowing from the RBI) and **non-debt receipts** such as disinvestment and the recovery of loans given to states or institutions. **Ans. (c)**

28. Carefully read the following two statements and pick the most appropriate option:

Assertion (A): The government's revenue receipts don't bring with them any burden of repayment or financial liability.

Reason (R): These earnings aren't meant to be returned and generally come from either tax-related sources or other regular inflows.

SSC CGL TIER-I, 25/09/2025 (Shift-01)

- (a) Both A and R are true, and R is the correct explanation of A
(b) Both A and R are true, but R is not the correct explanation of A
(c) A is true, but R is false
(d) A is false, but R is true

Exp.- Revenue receipts are those receipts that neither create any **liability** for the government nor cause any reduction in assets, as they are non-redeemable.

- Since these receipts, such as taxes (GST, Income Tax) or fees, do not have to be repaid, they do not impose any financial burden of repayment on the government. **Ans. (a)**

29. Consider the following statements and choose the correct option:

Statement 1: Income tax and dividends from PSUs are classified as revenue receipts in the government budget.

Statement 2: Disinvestment in PSUs is also a revenue receipt as it brings income to the government.

SSC CGL TIER-I, 26/09/2025 (Shift-02)

- (a) Only Statement 1 is correct
(b) Only Statement 2 is correct
(c) Both statements are correct
(d) Neither statement is correct

Exp.- Income tax and dividends received from Public Sector Undertakings (PSUs) do not create any liability for the government; therefore, they are classified as revenue receipts.

- In contrast, in disinvestment, the government sells its assets, which leads to a reduction in assets; therefore, it is considered a capital receipt, not a revenue receipt. **Ans. (a)**

Fiscal Policy

30. Fiscal Responsibility and Budget Management Act was enacted in which year?

SSC CHSL TIER - I, 29/11/2025 (Shift-03)

- (a) 2007 (b) 2001
(c) 2003 (d) 2005

Exp.- The Fiscal Responsibility and Budget Management (FRBM) Act was passed in **2003**, with the aim of making the Central Government legally accountable for maintaining fiscal discipline.

- This Act set specific targets for the government to reduce the fiscal deficit and revenue deficit so that the long-term macro-economic management of the country could be improved. **Ans. (c)**

31. As per the Fiscal Responsibility and Budget Management Act-2003, the actual deficits may exceed the targets only on which of the following ground?

- I. National security
II. National calamity

SSC CHSL TIER-I, 18/11/2025 (Shift-02)

- (a) Only I (b) Only II
(c) Both I and II (d) Neither I nor II

Exp.- Under the 'escape clause' of the Fiscal Responsibility and Budget Management (FRBM) Act, 2003, the government is allowed to exceed the fixed target of the fiscal deficit on extraordinary grounds such as national security, war, national calamity, **or a severe situation in agriculture**.

- The main objective of this Act is to control government expenditure and the fiscal deficit. **Ans. (c)**

32. The Fiscal Responsibility and Budget Management Act-2003 mandates the central government to reduce fiscal deficit to not more than _____ of GDP.

SSC CHSL TIER-I, 22/11/2025 (Shift-01)

- (a) 1% (b) 2%
(c) 3% (d) 8%

Exp.- The **Fiscal Responsibility and Budget Management (FRBM) Act, 2003** directs the Central Government to limit the **fiscal deficit to 3% of the Gross Domestic Product (GDP)**. The primary objective of this law is to introduce **discipline** in government spending, make **fiscal management** transparent, and maintain **public debt** at a balanced level in the long run. **Ans. (c)**

33. The Fiscal Responsibility and Budget Management Act-2003 requires the reduction in revenue deficit by _____ of GDP every year.

SSC CHSL TIER-I, 20/11/2025 (Shift-01)

- (a) 0.5% (b) 2.5%
(c) 4% (d) 6%

Exp.- Under the rules of the Fiscal Responsibility and Budget Management (FRBM) Act, 2003, it was made mandatory for the government to reduce the revenue deficit by **0.5% of the Gross Domestic Product (GDP)** every year.

- The main objective of this process was to gradually eliminate the revenue deficit and ensure fiscal discipline. **Ans. (a)**

34. In India, how many policy statements are mandated by the Fiscal responsibility and budget management act along with the budget?

SSC CHSL TIER-I, 19/11/2025 (Shift-01)

- (a) Two
(b) Three
(c) Five
(d) Eight

Exp.- Under the Fiscal Responsibility and Budget Management (FRBM) Act, 2003, it has been made mandatory for the Central Government to present three important documents in Parliament along with the Annual Financial Statement:

- (1) **Macro-Economic Framework Statement**
□ (2) **Medium-Term Fiscal Policy Statement**
□ (3) **Fiscal Policy Strategy Statement**

Ans. (b)

35. As per the Fiscal Responsibility and Budget Management Act-2003, which of the following is NOT laid before both the house of parliament along with Annual Financial statement?

SSC CHSL TIER-I, 15/11/2025 (Shift-01)

- (a) The medium term fiscal policy statement
- (b) The fiscal policy strategy statement
- (c) The macroeconomic framework statement
- (d) The monetary policy statement

Exp.- Under the **FRBM Act-2003**, it is mandatory for the government to present three documents along with the budget- **Medium-term Fiscal Policy, Fiscal Policy Strategy Statement and Macroeconomic Framework Statement**- in the Parliament to ensure fiscal transparency. In contrast, the **Monetary Policy Statement** is issued independently by the Reserve Bank of India (RBI), which aims to control inflation and manage liquidity. **Ans. (d)**

36. Which of the following best describes the primary objective of a government's fiscal policy?

SSC Stenographer 07/08/2025 (Shift-01)

- (a) To control the money supply and interest rates.
- (b) To promote international trade and maintain a favorable balance of payments.
- (c) To influence aggregate demand and economic activity through government spending and taxation.
- (d) To regulate the stock market and financial institutions.

Exp.- The primary objective of **fiscal policy** is to regulate the overall demand and economic activity by adjusting the level of government expenditure and taxation. In contrast, **monetary policy** is controlled by the central bank through the management of money supply. **Ans. (c)**

37. What is the impact of PSU disinvestment on the government's financial structure?

SSC CPO TIER-I, 10/12/2025 (Shift-01)

- (a) It increases government's liabilities
- (b) It reduces government's financial assets
- (c) It increases the government's earnings permanently
- (d) It does not affect finances at all

Exp.- PSU disinvestment means selling the government's stake in Public Sector Undertakings, which leads to a reduction in its **financial assets**. The amount received from the sale of shares is considered a **capital receipt** in the government budget. **Ans. (b)**

38. According to John Maynard Keynes, what is the most effective tool for reviving an economy during a depression?

SSC Stenographer 08/08/2025 (Shift-01)

- (a) Increasing public savings
- (b) Reducing private investment
- (c) Expanding government expenditure
- (d) Raising income tax on corporations

Exp.- According to John Maynard Keynes, during a recession when private demand declines, expansion of **government expenditure** is the most effective tool because it creates demand and employment in the economy through the '**multiplier effect**'. Keynes argued that the government should increase the flow of money by investing in infrastructure and public projects so that the cycle of recession can be broken. **Ans. (c)**

39. What does the term 'crowding out' refer to in economics?

SSC PHASE XIII 29/08/2025 (Shift-03)

- (a) Decline in private investment due to high government borrowing
- (b) Increase in competition among businesses
- (c) Reduction in export demand
- (d) Rise in inflation due to excessive printing of money

Exp.- The **Crowding Out Effect** occurs when the government borrows heavily from the market to meet its expenses, leading to a rise in interest rates. Consequently, credit becomes expensive for private companies, reducing private investment. **Ans. (a)**

40. According to Keynesian theory, during recession, what should the government ideally do?

SSC Stenographer 06/08/2025 (Shift-03)

- (a) Increase interest rates
- (b) Increase spending and cut taxes
- (c) Promote imports
- (d) Reduce spending

Exp.- According to Keynesian economics, to deal with a recession, the government should **increase spending** and cut taxes so that aggregate demand in the market can be stimulated. This is called 'expansionary fiscal policy', which restarts economic growth by compensating for the lack of private sector investment. **Ans. (b)**

41. In what way did fiscal discipline reforms affect center-state financial relations post-1991?

SSC Stenographer 08/08/2025 (Shift-03)

- (a) Reduced tax sharing
- (b) States had to adhere to fiscal targets
- (c) Increased state autonomy in tax policy
- (d) Centralized control over agriculture pricing

Exp.- Through the post-1991 fiscal reforms, especially the **Fiscal Responsibility and Budget Management (FRBM) Act**, strict fiscal deficit targets were set for the states to maintain financial stability. Under these reforms, the Center linked the loans taken by the states to their performance in **fiscal discipline and deficit reduction**. **Ans. (b)**

42. What was the main purpose behind the enactment of the FRBM (Fiscal Responsibility and Budget Management) Act?

SSC Stenographer 08/08/2025 (Shift-01)

- (a) To Regulate private sector investments
- (b) To increase fiscal deficit
- (c) To reduce government borrowing
- (d) To promote foreign trade

Exp.- The main objective of implementing the **FRBM Act (2003)** was to bring discipline in India's fiscal management system and to reduce **government borrowing and fiscal deficit**. The aim of this law was to ensure inter-generational equity and long-term financial stability by eliminating the revenue deficit and limiting the fiscal deficit to 3% of Gross Domestic Product (GDP). **Ans. (c)**

43. What is the role of the finance minister under the FRBM Act?

SSC Stenographer 07/08/2025 (Shift-02)

- (a) To regulate the stock market
- (b) To oversee disinvestment strategies
- (c) To manage foreign trade policies
- (d) To present fiscal policy statements to Parliament

Exp.- Under the **Fiscal Responsibility and Budget Management (FRBM) Act, 2003**, the **Finance Minister** has the main responsibility of presenting **annual statements related to fiscal policy in Parliament** (such as the **Medium-Term Fiscal Policy Statement** and the **Fiscal Policy Strategy Statement**).

□ The objective of this Act is to bring **discipline in government expenditure and deficit**, and the responsibility of ensuring **transparency in its implementation** lies directly with the **Finance Minister**. **Ans. (d)**

44. Fill in the blank:

The Government of India introduced the Fiscal Responsibility and Budget Management (FRBM) Act to decrease the issue of fiscal deficit and _____.

SSC PHASE XIII 01/08/2025 (Shift-02)

- (a) Public debt
- (b) Agricultural subsidies
- (c) Foreign exchange reserves
- (d) Private investments

Exp.- The **FRBM Act (2003)** was enacted to ensure fiscal discipline in India and to reduce the government's fiscal deficit and **public debt** to a sustainable level of GDP. Its main goal is to maintain long-term financial stability and transparency. **Ans. (a)**

45. What is the term used when government spending exceeds its revenue?

SSC PHASE XIII 31/07/2025 (Shift-01)

- (a) Surplus
- (b) Deficit
- (c) Investment
- (d) Expenditure

Exp.- When government expenditure exceeds its revenue, the situation is primarily termed as a **Budget Deficit** or **Fiscal Deficit**. This indicates that the government needs to borrow money or sell assets to meet its expenses. **Ans. (b)**

46. Which of the following is an example of fiscal policy in India?

SSC PHASE XIII 25/07/2025 (Shift-01)

- (a) Adjusting repo rates
- (b) Government spending on infrastructure
- (c) Regulating foreign exchange rates
- (d) Controlling money supply

Exp.- Fiscal Policy relates to the management of government revenue through taxes and government expenditure for public welfare. In contrast, options like Repo Rate and money supply are parts of **Monetary Policy**, which is controlled by the **Reserve Bank of India (RBI)**. **Ans. (b)**

47. Which of the following is a major objective of deficit financing by the government?

SSC PHASE XIII 25/07/2025 (Shift-02)

- (a) To reduce inflation
- (b) To control black money
- (c) To stimulate economic growth
- (d) To decrease the money supply

Exp.- Deficit financing occurs when the government's expenditure exceeds its revenue receipts, and the government borrows or prints new currency to bridge this gap. The main objective of deficit financing is to accelerate economic activities by increasing public investment. **Ans. (c)**

48. Which of the following is NOT a reason for a fiscal deficit?

SSC PHASE XIII 25/07/2025 (Shift-02)

- (a) High government expenditure on welfare schemes
- (b) Reduction in tax revenue
- (c) Increase in public borrowing
- (d) Surplus in the balance of payments

Exp.- Fiscal Deficit occurs when the government's total expenditure exceeds its total income.

□ **Formula:** Fiscal Deficit = Total Expenditure – Total Income (excluding borrowings)

□ A surplus in the **Balance of Payments** means that a country's foreign trade (exports > imports) is in profit. This is a sign of a strong national economy and cannot be a cause for a shortage of funds (deficit) in the budget. **Ans. (d)**

49. Which of the following statements is correct regarding money received by the government from loans and the sale of its own assets?

SSC CHSL TIER-I, 30/11/2025 (Shift-03)

- (a) Loans create liability but sale of asset do not
- (b) Sale of asset create liability but loans do not
- (c) Loans are part of revenue receipts and sale of assets are part of capital receipts
- (d) Loans and sale of assets both do not reduce or increases the total amount of government financial assets

Exp.- A loan taken by the government creates a **liability** because it has to be repaid in the future, whereas the sale of assets (such as **disinvestment**) reduces the government's '**assets**', but does not create any new liability. Both of these are part of **capital receipts** because they either increase liability or reduce financial assets. **Ans. (a)**

50. The gross fiscal deficit as a ratio to GDP in India had climbed to _____ per cent by 1990-91.

SSC CHSL TIER-I, 28/11/2025 (Shift-02)

- (a) 10
- (b) 25
- (c) 30
- (d) 45

Exp.- In India, the gross fiscal deficit had reached an alarming level of **10 percent (8.4)** of the GDP during the economic crisis of 1990-91. Due to this massive financial imbalance and the balance of payments crisis, the government was forced to implement major economic reforms and policies of liberalization in 1991. **Ans. (a)**

51. In _____, government of India set up a committee to review the fiscal reforms and suggest appropriate framework under the chairmanship of Vijay Kelkar.

SSC CHSL TIER-I, 25/11/2025 (Shift-02)

- (a) 2000-01
- (b) 2002-03
- (c) 2004-05
- (d) 2006-07

Exp.- The Government of India constituted a committee under the chairmanship of **Vijay Kelkar** in **2002-03** for fiscal reforms and the simplification of direct and indirect taxes. The recommendations of this committee played a vital role in the implementation of the **Fiscal Responsibility and Budget Management (FRBM) Act, 2003**, and in preparing the roadmap for GST in the future. **Ans. (b)**

52. If the government continues to borrow year after year, it leads to the _____.

SSC CHSL TIER-I, 24/11/2025 (Shift-01)

- (a) accumulation of debt
- (b) accumulation of foreign direct investment
- (c) accumulation of foreign institutional investment
- (d) contraction of the monetary policy

Exp.- If the government continues to borrow persistently, it leads to a situation of **accumulation of debt (debt trap)**, because new loans have to be taken to repay previous debts. This situation ultimately increases the burden of interest payments on the economy and makes it difficult to control the fiscal deficit. **Ans. (a)**

53. Excluding borrowings, the excess of total expenditure over total receipts signifies which of the following?

SSC CPO TIER-I, 12/12/2025 (Shift-02)

- (a) Fiscal deficit
- (b) Revenue deficit
- (c) Budgetary deficit
- (d) Overall deficit

Exp.- When the government's total expenditure exceeds its total receipts (excluding borrowings), this difference is called fiscal deficit. It basically reflects the total borrowing requirements of the government and is an important indicator of the financial health of the economy.

□ **Fiscal Deficit** = Total Expenditure – (Revenue Receipts + Recovery of Loans + Disinvestment Receipts) **Ans. (a)**

54. Which of the following is a typical example of Revenue Expenditure?

SSC CPO TIER-I, 09/12/2025 (Shift-02)

- (a) Construction of a railway terminal
- (b) Purchase of land for a PSU facility
- (c) Interest paid on a government loan
- (d) Funding a national highway project

Exp.- Interest paid on government debt is a specific example of **revenue expenditure** because it neither increases the assets of the government nor reduces its liabilities.

□ Revenue expenditures are recurring expenses that are necessary for the normal functioning of government departments and the maintenance of services, such as salaries, pensions, and subsidies. **Ans. (c)**

55. How is revenue deficit calculated?

SSC CGL TIER-I, 20/09/2025 (Shift-03)

- (a) Revenue expenditure – Revenue receipts
- (b) Revenue receipts – Capital receipts
- (c) Total expenditure – Total receipts
- (d) Capital expenditure – Revenue expenditure

Exp.- When the government's revenue expenditure on regular operations exceeds its tax and non-tax revenue receipts, that difference is known as **revenue deficit**. It indicates that the government is spending more than its earnings to meet its daily operational requirements. **Ans. (a)**

56. Expansionary fiscal policy is NOT characterised by:

SSC CGL TIER-I, 26/09/2025 (Shift-01)

- (a) Decrease in personal taxes
- (b) Increase in government spending
- (c) Decrease in government spending
- (d) Decrease in business taxes

Exp.- The main objective of **expansionary fiscal policy** is to accelerate growth by increasing aggregate demand in the economy. For this, the government either reduces taxes so that people have more money to spend, or increases government expenditure, rather than reducing it Ans. (c)

57. From a macroeconomic perspective, which indicator best captures the government's borrowing requirement excluding interest payments on past debt?

SSC CGL TIER-II 18/01/2026

- (a) Budget deficit
- (b) Fiscal deficit
- (c) Revenue deficit
- (d) Primary deficit

Exp.- **Primary deficit** is the difference between the **fiscal deficit** and the **interest payments** made on previous loans. It indicates how much borrowing is required to meet the current expenses of the government (excluding interest payments). Ans. (d)

06

Economic Planning & Institutions

Planning Commission

1. Who was the Chairperson of the Planning Commission when it was formed?

SSC CHSL TIER - I, 29/11/2025 (Shift-03)

- (a) Jawaharlal Nehru
- (b) Morarji Desai
- (c) Sardar Vallabh Bhai Patel
- (d) K Kamraj

Exp.- At the time of the formation of the Planning Commission (15 March, 1950), its first Chairman was **Jawaharlal Nehru**, as the Prime Minister was the ex-officio Chairman of this Commission. This Commission was established as an advisory body to the government, whose first Deputy Chairman was Gulzarilal Nanda. Ans. (a)

2. Who was architect of Indian Planning?

SSC CHSL TIER-I, 22/11/2025 (Shift-02)

- (a) Prasanta Chandra Mahalanobis
- (b) Sardar Vallabh Bhai Patel
- (c) Manmohan Singh
- (d) Jay Prakash Narayan

Exp.- Prasanta Chandra Mahalanobis is regarded as the architect of Indian planning, who prepared the blueprint for the Second Five-Year Plan. He developed the 'Mahalanobis Model' which emphasized the development of heavy industries and rapid industrialisation in India, for which he is also known as the 'Father of Indian Statistics'. Ans. (a)

3. What was the primary function of Planning Commission of India?

SSC CHSL TIER-I, 12/11/2025 (Shift-03)

- (a) To control the inflation
- (b) To boost the foreign trade
- (c) To formulate and implement five year plans
- (d) To monitor the currency exchange system in India

Exp.- The Planning Commission established on 15 March 1950 was a non-constitutional advisory body, whose main task was to assess the country's physical, capital, and human resources and prepare Five-Year Plans.

□ Its Chairperson was the **Prime Minister** and in **2015**, it was abolished and the **NITI Aayog** was established, based on the approach of **cooperative federalism** and a '**bottom-up**' approach. Ans. (c)

4. What was the primary aim of import substitution policy in India's early planning era?

SSC CGL TIER-I, 20/09/2025 (Shift-02)

- (a) Promote export-led growth
- (b) Encourage foreign capital inflow
- (c) Replace imports with domestic production
- (d) Liberalise trade barriers

Exp.- The import substitution policy adopted during India's initial planning period (1950-1990), which is also known as an '**inward-looking trade strategy**', had the primary objective of producing goods within the country that were previously imported from abroad. Through this policy, the government aimed to achieve self-reliance. Ans. (c)

5. The rolling plan concept was introduced during which Prime Minister's tenure?

SSC CGL TIER-I, 23/09/2025 (Shift-03)

- (a) Jawaharlal Nehru
- (b) Indira Gandhi
- (c) Morarji Desai
- (d) Rajiv Gandhi

Exp.- The **Rolling Plan** was started in **1978** during the Janata Party government under the tenure of Prime Minister Morarji Desai. For this, the **Fifth Five-Year Plan of 1974-79** was terminated one year earlier.

□ This plan remained in force from **1978 to 1980**. Its concept was inspired by **Gunnar Myrdal's book Asian Drama** and was introduced in India by the then Deputy Chairman of the Planning Commission, D.T. Lakdawala. Ans. (c)

6. The Planning Commission was established in which year?

SSC CGL TIER-I, 24/09/2025 (Shift-01)

- (a) 1947
- (b) 1949
- (c) 1950
- (d) 1952

Exp.- It was established by the Union Cabinet on 15 March 1950 through a resolution as a non-constitutional and advisory body.

□ It was dissolved in August **2014**, and in January **2015**, **NITI Aayog** was constituted in its place. Ans. (c)

7. According to Mahalanobis strategy, growth should primarily be driven by investment in:

SSC CGL TIER-I, 25/09/2025 (Shift-01)

- (a) Agricultural inputs
- (b) Consumer goods sector
- (c) Capital goods sector
- (d) Import-led services sector

Exp.- The P.C. Mahalanobis strategy considered investment in **heavy industries** and **capital goods** (such as steel, machinery, and electricity) essential for long-term economic development, so that "machines that make machines" could be developed and dependence on imports could be reduced.

□ This model emphasized future production capacity rather than short-term consumer benefits, and the public sector was given a leading role in the construction of steel plants and large dams. Ans. (c)

Five Year Plan

8. Which plan gave prominence to the Industrial Policy Resolution of 1956, emphasizing the 'commanding heights' doctrine?

SSC CGL TIER-I, 23/09/2025 (Shift-01)

- (a) First Five Year Plan
- (b) Second Five Year Plan
- (c) Third Five Year Plan
- (d) Fourth Five Year Plan

Exp.- The **Second Five Year Plan (1956 - 1961)** was based on the Industrial Policy Resolution of 1956, which aimed to establish complete public sector control over the '**commanding heights**' of the economy, i.e., critical infrastructure sectors.

□ During this plan, priority was given to the development of heavy industries and basic infrastructure so that the country could be made self-reliant. Ans. (b)

9. Consider the following statements:

Statement I: The objective of "Growth with Social Justice & Equality" was introduced in the 10th Five-Year Plan.

Statement II: The first Five-Year Plan was based on the "Harrod-Domar model".

Which of the above statements is/are correct?

SSC Stenographer 07/08/2025 (Shift-02)

- (a) Statement I is incorrect, Statement II is correct
 (b) Both statements I and II are correct
 (c) Both statements I and II are incorrect
 (d) Statement I is correct, Statement II is incorrect

Exp.- The main objective of “**Growth with Social Justice and Equality**” was presented in the **Ninth Five-Year Plan (1997–2002)**, whereas the **Tenth Plan (1997–2002)**, whereas the **Tenth Plan** focused on **doubling per capita income and reducing the poverty ratio**. Therefore, **Statement I is incorrect**

□ **Statement II is completely correct** because the **First Five-Year Plan (1951–56)** was based on the **Harrod-Domar Model**, which mainly focused on **economic development through agriculture and investment**. **Ans. (a)**

10. Read the below statements:

Statement I: The Sixth Five-Year Plan aimed at income growth and modernization of technology through various schemes.

Statement II: The Third Five-Year Plan failed due to various factors such as wars, rupee devaluation and food crisis.

Which of the above statements is/are correct?

SSC Stenographer 07/08/2025 (Shift-01)

- (a) Both statements I and II are incorrect
 (b) Statement I is correct, Statement II is incorrect
 (c) Statement I is incorrect, Statement II is correct
 (d) Both statements I and II are correct

Exp.- The **Sixth Five-Year Plan (1980–85)** focused on ‘**Garibi Hatao**’ (**removal of poverty**) through various programmes, along with the modernisation of basic infrastructure and technological self-reliance. Earlier, the **Third Five-Year Plan (1961–66)** failed to achieve its targets due to the **India-China War**, the **India-Pakistan War**, and a severe drought. After the failure of the Third Plan, the government announced the ‘**Plan Holiday**’, and the **rupee was devalued in 1966**. **Ans. (d)**

11. The first Five-Year Plan of India was launched in which year?

SSC PHASE XIII 02/07/2025 (Shift-02)

- (a) 1947 (b) 1950
 (c) 1951 (d) 1955

Exp.- **First Five-Year Plan** was launched in April 1951 and lasted until 1956. Based on the **Harrod-Domar model**, its primary focus was **agricultural development**, as the country was struggling with food crises and problems arising from Partition. **Ans. (c)**

12. Which Five-year plan is also called Mahalanobis plan?

SSC PHASE XIII 31/07/2025 (Shift-02)

- (a) First Five Year Plan
 (b) Second Five Year Plan
 (c) Third Five Year Plan
 (d) Fifth Five Year Plan

Exp.- The **Second Five-Year Plan** is known as the **Mahalanobis Plan**. Developed by P.C. Mahalanobis, the primary objective of this model was to achieve economic growth through **heavy industries** and **rapid industrialisation**. **Ans. (b)**

13. The ‘Mahalanobis Committee’ was primarily associated with which Five-Year Plan in India?

SSC PHASE XIII 30/07/2025 (Shift-02)

- (a) First Five-Year Plan
 (b) Second Five-Year Plan
 (c) Third Five-Year Plan
 (d) Fourth Five-Year Plan

Exp.- The **Mahalanobis Committee** was associated with the **Second Five Year Plan (1956–61)**. This model prioritized **heavy industries** and industrialization. Its objective was to make India economically self-reliant by increasing domestic production and laying the foundation for long-term growth. **Ans. (b)**

14. Which of the following played a key role in financing industrial projects during the Fifth Five-Year Plan in 1974 – 1978?

SSC PHASE XIII 02/08/2025 (Shift-03)

- (a) Reserve Bank of India (RBI)
 (b) Industrial Development Bank of India (IDBI)
 (c) State Bank of India (SBI)
 (d) Export-Import Bank of India (EXIM Bank)

Exp.- During the **Fifth Five-Year Plan (1974–1978)**, the **Industrial Development Bank of India (IDBI)** played a key role in providing **long-term loans** for **industrial development** and **large-scale projects**.

□ In the year **1976**, **IDBI** was separated from the **RBI** and brought under the **full ownership** of the **Central Government**, enabling it to function with greater **autonomy** as the **apex institution** for the country’s **industrial financing**. **Ans. (b)**

15. Which of the following sectors received major attention in the 7th Five-Year Plan for creating more jobs?

SSC PHASE XIII 31/07/2025 (Shift-03)

- (a) Heavy industries
 (b) IT sector
 (c) Small and Cottage industries
 (d) Oil and Gas sector

Exp.- The main slogan of the **Seventh Five-Year Plan (1985–1990)** was ‘**Food, Work, and Productivity**’.

□ To generate more **employment opportunities**, priority was given to the development of **Small-scale and Cottage Industries**, as these sectors are **labour-intensive**. **Ans. (c)**

16. Who was the Finance Minister of India when the First Five-Year Plan was introduced?

SSC PHASE XIII 30/07/2025 (Shift-03)

- (a) Morarji Desai
 (b) C.D. Deshmukh
 (c) T.T. Krishnamachari
 (d) John Matha

Exp.- **C.D. Deshmukh** was the **Finance Minister** during the **First Five-Year Plan (1951)**. He was also the first **Indian Governor** of the **Reserve Bank of India (RBI)**.

□ **John Mathai** presented the **first budget of Republican India**, but he had resigned before the commencement of the **Plan**. **Ans. (b)**

17. The Monopolies and Restrictive Trade Practices (MRTP) Act was introduced during the ____ Five-Year Plan period,

SSC PHASE XIII 29/07/2025 (Shift-03)

- (a) First (b) Third
 (c) Fourth (d) Seventh

Exp.- The **MRTP Act** was passed in **1969**, which falls during the tenure of the **Fourth Five-Year Plan (1969–1974)**. It was implemented to prevent the **concentration of economic power** and to control **monopolies**. It was later replaced by the **Competition Act, 2002**. **Ans. (c)**

18. The District Industries Centers (DICs) were established during ____ the Five-Year Plan.

SSC PHASE XIII 28/07/2025 (Shift-03)

- (a) Fifth (b) Sixth
 (c) Seventh (d) Eighth

Exp.- The **District Industries Centre (DIC)** was established on **May 1, 1978**, during the **Fifth Five-Year Plan (1974–79)**, under the **Industrial Policy of 1977**. Its primary objective is to provide assistance to **MSMEs** and small-scale industries in **rural and semi-urban areas**, promote **local entrepreneurship**, and facilitate **employment generation**. **Ans. (a)**

19. The National Rural Employment Programme (NREP) was initiated in the ____ Five-Year Plan,

SSC PHASE XIII 25/07/2025 (Shift-03)

- (a) Fifth (b) Sixth
 (c) Seventh (d) Eighth

Exp.- The **National Rural Employment Programme (NREP)** was launched in **October 1980** by the then Prime Minister **Indira Gandhi**, and it became a **regular programme** from **April 1981**. This programme was initiated during the **Sixth Five-Year Plan**. **Ans. (b)**

20. Which of the following foreign countries assisted India in the establishment of heavy industries during the Second Five-Year Plan?

SSC PHASE XIII 24/07/2025 (Shift-03)

- (a) USA, Japan, and UK
(b) Soviet Union, UK, and West Germany
(c) China and Bangladesh
(d) France and New Zealand

Exp.- The **Second Five Year Plan (1956–1961)** was based on the **Mahalanobis model**, which aimed at **rapid industrialisation** and the development of **heavy industries**. During the initial industrial expansion, India received technical and financial cooperation from the **Soviet Union, Britain, and West Germany**, which laid the **foundation** for heavy industries in the country. Through this cooperation, the **Bhilai, Rourkela, and Durgapur** steel plants were established. **Ans. (b)**

21. On whose ideas was the second five year plan based?

SSC CHSL TIER-I, 30/11/2025 (Shift-03)

- (a) Chaudhari Charan Singh
(b) Sardar Vallabh Bhai Patel
(c) K Kamraj
(d) Prasanta Chandra Mahalanobis

Exp.- The **Second Five-Year Plan (1956–1961)** of India was based on the ideas and model of the famous Indian statistician, **Prasanta Chandra Mahalanobis**. This plan is also known as the '**Mahalanobis Model**', which laid primary emphasis on the **development of heavy industries and rapid industrialization** instead of agriculture. **Ans. (d)**

22. In India, the second five year plan ended in which year?

SSC CHSL TIER-I, 30/11/2025 (Shift-02)

- (a) 1950 (b) 1955
(c) 1961 (d) 1972

Exp.- India's **Second Five Year Plan concluded in 1961**, with its time period spanning from 1956 to 1961. This plan was based on the model of the famous economist P.C. Mahalanobis and its primary focus was on the development of heavy industries and rapid industrialisation. **Ans. (c)**

23. Which of the following five year plan of India started in 1969?

SSC CPO TIER-I, 09/12/2025 (Shift-01)

- (a) First (b) Second
(c) Fourth (d) Sixth

Exp.- The **Fourth Five-Year Plan** of India was launched in **1969**, which lasted until **1974** and was based on the '**Gadgil Formula**'. Started after three '**Plan Holidays**' from **1966 to 1969**, the main objective of this plan was "**Growth with Stability**" and the "**Progressive Achievement of Self-reliance**". **Ans. (c)**

24. Which of the following was the key issue during launch of eighth five year plan of India?

- I. Worsening balance of payment position.
II. Rising debt burden.

SSC CPO TIER-I, 09/12/2025 (Shift-01)

- (a) Only I (b) Only II
(c) Both I and II (d) Neither I nor II

Exp.- During the launch of India's **Eighth Five-Year Plan (1992–1997)**, the country was grappling with severe economic challenges such as a serious **Balance of Payments (BoP) crisis** and an increasing **foreign debt burden**. Due to these adverse conditions, this plan could only begin with a delay of two years from its scheduled time (**1990**). **Ans. (c)**

25. Which of the following five year plan of India commenced at a time when the global economy was going through a second financial crisis?

SSC CHSL TIER - I, 29/11/2025 (Shift-03)

- (a) First (b) Third
(c) Fourth (d) Twelfth

Exp.- India's **Twelfth Five Year Plan (2012 – 2017)** was launched at a time when the global economy was struggling with the Eurozone debt crisis and instability arising after the 2008 global financial crisis. Due to this external economic slowdown, the growth target of the Twelfth Plan was reduced from the initial **9% to 8%**. **Ans. (d)**

26. What was the reason for the disruption in Third five year Plan?

- I. Indo-Pakistan Conflict.
II. Two successive years of drought.

SSC CHSL TIER - I, 29/11/2025 (Shift-01)

- (a) Only I (b) Only II
(c) Both I and II (d) Neither I nor II

Exp.- The main reason for the disruption in the **Third Five-Year Plan (1961–1966)** was the **Indo-Pakistan conflict (1965)** and the severe drought that occurred for **two consecutive years (1965–66)** during the same period. Due to these crises, resources had to be diverted from developmental activities toward defense, as a result of which this plan failed to achieve its targets. **Ans. (c)**

27. The planning in the real sense began with _____ five year plan in India.

SSC CHSL TIER-I, 28/11/2025 (Shift-03)

- (a) second (b) fifth
(c) eighth (d) tenth

Exp.- In real terms, planning in India began with the **Second Five-Year Plan (1956–1961)**, as it presented a clear long-term framework for industrial development.

- This plan was based on the **P.C. Mahalanobis Model**, which focused on rapid industrialisation through the development of basic and heavy industries. **Ans. (a)**

28. The ninth five year plan of India was launched in—.

SSC CHSL TIER - I, 27/11/2025 (Shift-02)

- (a) 1985 (b) 1992
(c) 1997 (d) 2003

Exp.- India's Ninth Five-Year Plan was launched in **1997**, covering the period from **1997 to 2002**. The primary objective of this plan was to ensure 'growth with social justice and equality', with a special focus on infrastructure and agricultural development. **Ans. (c)**

29. Who among the following was the chairman of the planning commission under fourth five year plan?

SSC CHSL TIER-I, 24/11/2025 (Shift-02)

- (a) Indira Gandhi
(b) Pitambar Pant
(c) Gulzarilal Nanda
(d) Morarji Desai

Exp.- During the Fourth Five-Year Plan (1969–1974), **Indira Gandhi** was the Chairperson of the Planning Commission, as the Prime Minister of India serves as the ex-officio Chairperson of this body.

- During the tenure of this plan, the goals of 'growth with stability' and 'self-reliance' were set; additionally, the nationalization of 14 major banks also took place in 1969 during this period. **Ans. (a)**

30. The Hill area development programme was initiated during the _____ five-year plan.

SSC CHSL TIER-I, 21/11/2025 (Shift-03)

- (a) 10th (b) 8th
(c) 5th (d) 7th

Exp.- The Hill Area Development Programme (HADP) was initiated during India's Fifth Five Year Plan (**1974–78**), with the objective of ensuring the balanced development of resources in backward hill areas. **Ans. (c)**

31. Which of the following was NOT the goal of five year plans in India?

SSC CHSL TIER-I, 20/11/2025 (Shift-01)

- (a) Growth
(b) Dependency on foreign aid
(c) Modernisation
(d) Equity

Exp.- The four main goals of Five Year Plans in India were: **growth, modernization, self-reliance and equity**. '**Dependence on foreign aid**' was never a goal of the plans; instead, during the Third and Fourth Plans, special emphasis was placed on self-reliance so that dependence on the import of food grains and capital from abroad could be reduced. **Ans. (b)**

32. Which of the following five year plan in India was thorough failure in reaching targets due to unforeseen events like Chinese aggression (1962)?

SSC CHSL TIER-I, 20/11/2025 (Shift-01)

- (a) First (b) Second
(c) Third (d) Fifth

Exp.- India's Third Five Year Plan (1961-1966) failed completely to achieve its targets due to the Sino-Indian War (1962), the Indo-Pak War (1965), and a severe drought.

- The failure of this plan can be estimated from the fact that its target growth rate was **5.6%**, whereas the actual growth rate remained only **2.4%**. **Ans. (c)**

33. The inward looking trade strategy followed by India in the few initial five year plans is also known as_____.

SSC CHSL TIER-I, 14/11/2025 (Shift-03)

- (a) Export enhancement
(b) Free trade expansion
(c) Import substitution
(d) Foreign investment expansion

Exp.- India adopted the **import substitution policy** during 1950-1990, which aimed to achieve self-reliance by increasing domestic production in place of imports, save foreign exchange and protect infant Indian industries from foreign competition. **Ans. (c)**

34. After which of the following five year plan in India, the emphasis on the public sector has become less pronounced?

SSC CHSL TIER-I, 14/11/2025 (Shift-02)

- (a) First (b) Third
(c) Fifth (d) Ninth

Exp.- Since the Ninth Five-Year Plan (1997-2002) in India, the role of the public sector began to decrease, and emphasis on the participation of the private sector in economic development increased. Under this, disinvestment in **PSUs** increased, and in subsequent plans, the **development of infrastructure** through the **PPP model** was encouraged. **Ans. (d)**

35. Who among the following was the chairman of Planning Commission under the tenth five year plan?

SSC CHSL TIER-I, 14/11/2025 (Shift-02)

- (a) Atal Bihari Vajpayee
(b) I. K. Gujral
(c) H. D. Deve Gowda
(d) P. V. Narasimha Rao

Exp.- During the Tenth Five-Year Plan (2002-2007), Atal Bihari Vajpayee was the Prime Minister of India and the Chairman of the Planning Commission, which aimed at 8% annual GDP growth, reducing the poverty ratio to 5% by 2007, creating gainful employment, increasing literacy, and reducing the infant mortality rate.

- In India, the Prime Minister is the **ex-officio Chairman** of the Planning Commission (now NITI Aayog). **Ans. (a)**

36. Which of the following five year plan in India tried to build the basis for a socialist pattern of society?

SSC CHSL TIER-I, 14/11/2025 (Shift-01)

- (a) First (b) Second
(c) Tenth (d) Eleventh

Exp.- The **Second Five Year Plan (1956-1961)** was based on the Mahalanobis model and aimed at establishing a socialist economic structure by promoting **heavy industries** and the **public sector**, so that economic power could be widely distributed. **Ans. (b)**

37. Who among the following was the deputy chairman of the Planning Commission under the tenth five year plan?

SSC CHSL TIER-I, 12/11/2025 (Shift-02)

- (a) Shankarrao Chavan
(b) K.C. Pant
(c) Yaswant Sinha
(d) P. Shiv Shankar

Exp.- **K.C. Pant** served as the **Deputy Chairman of the Planning Commission** from **5 February 1999** to **17 June 2004**. It was during his tenure that the **Tenth Five-Year Plan (2002-2007)** was implemented. Its primary objective was to **double the per capita income** in the next **10 years** and to reduce the **poverty ratio to nearly 5%** by **2007**. **Ans. (b)**

38. Which of the following policies was revised in 1956 to align with the objective of the Five-Year Plan?

SSC CPO TIER-I, 13/12/2025 (Shift-01)

- (a) Trade Policy Reform
(b) Industrial Policy Resolution
(c) Green Revolution Strategy
(d) New Economic Reforms

Exp.- The Industrial Policy Resolution 1956 was revised in accordance with the objectives of the **Second Five Year Plan (1956-61)**, whose primary goal was the development of heavy industries and the establishment of a 'socialist pattern of society'.

- It classified industries into three categories (A, B, and C) and gave a leading role to the public sector, laying the foundation for the 'License Raj'. **Ans. (b)**

39. The economist _____ criticized the Second Five-Year Plan for undermining democracy.

SSC CPO TIER-I, 13/12/2025 (Shift-01)

- (a) T. N. Srinivasan
(b) P.C. Mahalanobis
(c) B.R. Shenoy
(d) Amartya Sen

Exp.- Economist **B. R. Shenoy** had strongly criticized the **Second Five Year Plan (1956-61)**, as he believed that excessive government control over heavy industries and **deficit financing** could weaken individual freedom and democracy. According to him, a greater concentration of economic power in the hands of the State could ultimately become a threat to democratic institutions. **Ans. (c)**

40. During India's Third Five-Year Plan, which of the following significant events posed major challenges to industrial and trade development?

SSC CPO TIER-I, 12/12/2025 (Shift-02)

- (a) Global economic recession, severely impacting Indian exports
(b) Major wars and droughts leading to resource constraints
(c) Initiation of economic liberalization policies, attracting foreign investment
(d) Implementation of the Green Revolution has shifted focus towards agriculture

Exp.- During the Third Five Year Plan (1961-66), India had to face the Sino-Indian War of 1962 and the Indo-Pakistani War of 1965, which led to a diversion of resources from development to defense. During this same period, the severe drought of 1965-66 affected agricultural production, due to which the plan failed to achieve its targets and subsequently, a 'Plan Holiday' had to be declared. **Ans. (b)**

41. Which of the following Five-Year Plans in India was notably criticized for its substantial dependence on foreign loans to finance the import of machinery and capital goods?

SSC CPO TIER-I, 12/12/2025 (Shift-01)

- (a) Second Five-Year Plan
(b) Fourth Five-Year Plan
(c) Sixth Five-Year Plan
(d) Eighth Five-Year Plan

Exp.- The Second Five-Year Plan (1956-1961) was criticised due to its excessive emphasis on heavy industries and the large-scale import of capital goods. For this ambitious industrialisation, India had to rely heavily on foreign loans. **Ans. (a)**

42. The 7th Five-Year Plan is credited with laying the foundation for which of the following major economic reform eras in India?

SSC CPO TIER-I, 11/12/2025 (Shift-01)

- (a) Nationalization of banks
(b) Green revolution
(c) Economic liberalization and modernization in the 1990s
(d) National Rural Employment Guarantee Act

Exp.- The Seventh Five Year Plan (1985-1990) is credited with laying the foundation of economic liberalisation and modernisation in India. Under the leadership of Prime Minister Rajiv Gandhi, this plan emphasised technological modernisation, industrial efficiency, and relaxation of the License Raj. For the first time, priority was given to investment in the private sector and its slogan was "Food, Work and Productivity". **Ans. (c)**

43. What role did Small-Scale Industries (SSIs) play in the 6th Five-Year Plan's trade strategy?

SSC CPO TIER-I, 10/12/2025 (Shift-02)

- (a) They were discouraged in favor of large-scale units
- (b) They were expected to focus only on local markets
- (c) They were promoted as key exporters and employment generators
- (d) They were merged with public sector units

Exp.- In the **Sixth Five-Year Plan (1980–85)**, small-scale industries were considered the primary means for **employment generation, export growth and rural development**.

- Due to their capacity to provide more employment with low capital, they were linked with poverty alleviation, and the export of handicrafts, textiles, and engineering products was encouraged. **Ans. (c)**

44. Which of the following industrial sectors were prioritized during the Second Five-Year Plan?

SSC CPO TIER-I, 10/12/2025 (Shift-02)

- (a) Textile industry and advertising industry
- (b) Iron and steel industry, fertilizer industry, heavy engineering, and lignite projects
- (c) Cottage industry and consumer goods industry
- (d) Handicrafts and Information technology

Exp.- The Second Five-Year Plan (1956–1961) was primarily based on the **Mahalanobis Model**, which emphasized 'rapid industrialisation'. The primary goal of this plan was the development of basic and **heavy industries**, so that the country could become economically self-reliant. **Ans. (b)**

45. Read the following Assertion (A) and Reason (R) carefully and choose the correct option.

Assertion (A): The Minimum Needs Programme (MNP) was introduced in the Fifth Plan.

Reason (R): It targeted improvement in quality of life through education, health, and drinking water.

SSC CPO TIER-I, 10/12/2025 (Shift-01)

- (a) Both A and R are true and R is the correct explanation of A.
- (b) Both A and R are true but R is not the correct explanation of A.
- (c) A is true but R is false.
- (d) A is false but R is true.

Exp.- The Minimum Needs Programme (MNP) was launched in the first year of the **Fifth Five-Year Plan (1974–78)** under the "**Garibi Hatao**" strategy.

- Its objective was to ensure minimum standards of basic services such as **education, health, drinking water, nutrition, housing and rural electrification**, rather than relying solely on income growth, so that there could be a direct improvement in the living standards of the people. **Ans. (a)**

46. The Second Five-Year Plan was primarily based on which economic model?

SSC CPO TIER-I, 09/12/2025 (Shift-01)

- (a) Harrod-Domar model
- (b) Feldman model
- (c) Keynesian model
- (d) Mahalanobis model

Exp.- The Second Five Year Plan (1956–1961) was mainly based on the **P.C. Mahalanobis Model**, which laid special emphasis on the development of basic and heavy industries.

- The primary objective of this plan was to make the country's economy self-reliant through rapid industrialisation and to establish a '**socialistic pattern**' of society. **Ans. (d)**

47. How would one characterize the trajectory of India's industrial sector during the Five-Year Plans up to 1990?

SSC CPO TIER-I, 09/12/2025 (Shift-01)

- (a) Consistently surpassing projected growth rates across all sectors
- (b) Attaining swift technological progress and global competitiveness
- (c) Showing significant growth in fundamental and heavy industries, but often falling short of targets and facing inefficiencies
- (d) Being predominantly propelled by private sector innovation and capital infusion, with minimal governmental intervention

Exp.- During the Five Year Plans until 1990, Indian industrial development was primarily focused on the expansion of **basic and heavy industries** under the leadership of the public sector, which strengthened the industrial base but often failed to achieve the targets.

- The main reasons for this were inefficiency, technological backwardness, and strict regulatory control (**License Raj**), due to which domestic industries could not become competitive at the global level. **Ans. (c)**

48. Read the following Assertion (A) and Reason (R) carefully and choose the correct option,

Assertion (A): The Third Five Year Plan failed to meet its targets.

Reason (R): The failure was mainly due to external shocks like war and drought.

SSC CPO TIER-I, 09/12/2025 (Shift-02)

- (a) Both A and R are true and R is the correct explanation of A.
- (b) Both A and R are true but R is not the correct explanation of A.
- (c) A is true but R is false.
- (d) A is false but R is true.

Exp.- The **Third Five-Year Plan (1961–1966)** is considered one of the most unsuccessful plans of India because the **Sino-Indian War of 1962** and the **Indo-Pakistani War of 1965** occurred during this period, causing developmental resources to be diverted toward defense expenditure.

- Along with this, the **severe drought of 1965–66** seriously affected agricultural production, leading to a food crisis, and most of the economic targets of the plan could not be achieved. **Ans. (a)**

49. Read the following Assertion (A) and Reason (R) carefully and choose the correct option.

Assertion (A): The Fourth Five Year Plan aimed at growth with stability and self-reliance.

Reason (R): It was launched after the shocks of war and droughts during the previous plan period.

SSC CPO TIER-I, 09/12/2025 (Shift-02)

- (a) Both A and R are true and R is the correct explanation of A.
- (b) Both A and R are true but R is not the correct explanation of A.
- (c) A is true but R is false.
- (d) A is false but R is true.

Exp.- Fourth Five Year Plan (1969–1974) The Fourth Plan was a reaction to the failure of the Third Plan and the resulting economic instability. By reducing dependence on foreign aid, "**growth with stability**" and "**progressive achievement of self-reliance**" were made the primary objectives.

- After the **Plan Holiday (1966–69)**, necessitated by the impact on the economy due to the wars of 1962 and 1965 and the severe drought of 1965–66, this plan was launched to re-establish economic balance. **Ans. (a)**

50. Read the following Assertion (A) and Reason (R) carefully and choose the correct option.

Assertion (A): India adopted import substitution during the planning era.

Reason (R): This was to protect infant domestic industries from foreign competition.

SSC CGL TIER - I, 16/09/2025 (Shift-03)

- (a) Both A and R are true and R is the correct explanation of A
- (b) Both A and R are true but R is not the correct explanation of A
- (c) A is true but R is false
- (d) A is false but R is true

Exp.- After independence, India adopted the policy of '**Import Substitution**' during the first seven five-year plans, which emphasized producing goods within the country instead of importing them from abroad; **therefore, Assertion (A) is true.**

□ Its main objective was to give India's **infant domestic industries** a chance to develop and provide them protection from international competition; **therefore, Reason (R) is also correct.** **Ans. (a)**

51. Which Five-Year Plan focused on heavy industries?

SSC CGL TIER - I, 17/09/2025 (Shift-01)

- (a) First (b) Second
(c) Third (d) Fourth

Exp.- The **Second Five Year Plan (1956-61)**, which is considered to be based on the '**Mahalanobis Model**', was primarily focused on the development of **heavy and basic industries** (such as iron and steel).

□ The objective of this plan was to lay the foundation for **rapid industrialisation** in the country, under which major steel plants were established in **Bhilai, Durgapur, and Rourkela.** **Ans. (b)**

52. Read the following Assertion (A) and Reason (R) carefully and choose the correct option:

Assertion (A): Self-reliance was a major objective of India's early planning era

Reason (R): India sought to reduce dependence on foreign aid and imports post-independence

SSC CGL TIER - I, 17/09/2025 (Shift-02)

- (a) Both A and R are true and R is the correct explanation of A
(b) Both A and R are true but R is not the correct explanation of A
(c) A is true but R is false
(d) A is false but R is true

Exp.- In India's early planning era, self-reliance was kept as a primary goal so that the country would not remain dependent on others for its development process; therefore, Assertion (A) is true. After independence, India wanted to increase its sovereignty and domestic production capacity by reducing its dependence on foreign loans, technical assistance, and food grain imports; therefore, Reason (R) is also true. **Ans. (a)**

53. The Mahalanobis Model was used in which plan?

SSC CGL TIER - I, 17/09/2025 (Shift-03)

- (a) First (b) Second
(c) Fourth (d) Fifth

Exp.- India's **Second Five Year Plan (1956-61)** is based on the '**Mahalanobis Model**'. This model was prepared by the famous statistician **Prasanta Chandra Mahalanobis**. The main objective of this plan was '**rapid industrialisation**'. **Ans. (b)**

54. Which plan introduced the Minimum Needs Programme?

SSC CGL TIER - I, 19/09/2025 (Shift-03)

- (a) Third (b) Fourth
(c) Fifth (d) Sixth

Exp.- The Minimum Needs Programme was launched in the first year of the **Fifth Five-Year Plan (1974-78)**. Its main objective was to provide basic social amenities (such as primary education, health, rural drinking water, housing, and roads) to the lowest sections of society. **Ans. (c)**

55. What was the main rationale for the policy of import substitution during the first seven Five Year Plans?

SSC CGL TIER-I, 20/09/2025 (Shift-01)

- (a) To expand international trade
(b) To attract foreign investors
(c) To protect infant domestic industries
(d) To create export dependency

Exp.- During the first seven Five Year Plans, the policy of import substitution, also known as the '**inward-looking trade strategy**', was based on the main argument of protecting infant domestic industries from foreign competition. The government believed that if domestic industries were given protection, they would develop over time and become capable of competing at the international level. **Ans. (c)**

56. In the context of Five Year Plans, what does the term "plan holiday" refer to?

SSC CGL TIER-I, 20/09/2025 (Shift-03)

- (a) Emergency loan disbursements
(b) Suspension of annual budgets
(c) Discontinuity in five-year planning
(d) Switch from socialism to capitalism

Exp.- "Plan Holiday" refers to the gap in the continuous sequence of Five-Year Plans, which was mainly observed during **1966 - 1969**.

□ During this period, due to the failure of the Third Plan, the Indo-Pak war, and drought, three annual plans were implemented instead of a five-year plan **Ans. (c)**

57. Which Five Year Plan laid the foundation of India's socialist pattern of society?

SSC CGL TIER-I, 24/09/2025 (Shift-02)

- (a) First Plan
(b) Second Plan
(c) Third Plan
(d) Fourth Plan

Exp.- The **Second Five-Year Plan (1956-1961)** laid the formal foundation of a 'socialist pattern of society' in India by adopting the Mahalanobis model.

□ Under this goal, adopted at the Avadi session of the Congress in **1955**, top priority was given to the development of heavy industries and the role of the public sector in the economy. **Ans. (b)**

58. What was the main focus of the First Five-Year Plan?

SSC CGL TIER-I, 24/09/2025 (Shift-03)

- (a) Heavy industries
(b) Agriculture
(c) Urbanization
(d) Information Technology

Exp.- The main objective of the First Five Year Plan (1951-56) was to stabilize the economy by increasing **agricultural development and food grain production**. This plan emphasized agriculture, irrigation, and power. **Ans. (b)**

59. Who is known as the architect of India's Five-Year Plans?

SSC CGL TIER-I, 25/09/2025 (Shift-01)

- (a) Sardar Patel
(b) Jawaharlal Nehru
(c) B.R. Ambedkar
(d) P.C. Mahalanobis

Exp.- Prashant Chandra Mahalanobis is known as the '**Architect of Indian Planning**' because he prepared the basic framework of the Second Five-Year Plan (1956-61).

□ The '**Mahalanobis Model**' developed by him emphasized the development of heavy industries and rapid industrialization in India, which determined the economic direction of independent India. His birthday (**29 June**) is celebrated as '**Statistics Day**'. **Ans. (d)**

60. Under which Five Year Plan was the Green Revolution introduced in India?

SSC CGL TIER-I, 25/09/2025 (Shift-03)

- (a) First Plan (b) Second Plan
(c) Third Plan (d) Fourth Plan

Exp.- The **Green Revolution** in India was initiated during the **Third Five-Year Plan (1961-66)**, with the objective of achieving self-reliance in agriculture.

□ From 1966-67, the use of **HYV seeds**, improved irrigation, and chemical fertilizers led to a rapid increase in **wheat-rice production**, which made India self-sufficient in food grains; the credit for this is given to Dr. M.S. Swaminathan. **Ans. (c)**

61. What was the aim of the Sixth Five-Year Plan (1980-85)?

SSC CGL TIER-I, 26/09/2025 (Shift-02)

- (a) Defence expansion
(b) Faster industrialisation
(c) Poverty reduction and modernisation
(d) Export-led growth

Exp.- The main objective of the Sixth Five-Year Plan was '**Garibi Hatao**' (**Poverty Eradication**) and modernization through technical self-reliance. During this period, major poverty-alleviation programs, such as the Integrated Rural Development Program (IRDP), were launched. A growth rate of 5.7% was achieved against the target of 5.2%, and special emphasis was laid on family planning. **Ans. (c)**

62. What was the main focus of India's Sixth Five-Year Plan (1980-85)?

SSC CGL TIER-I, 26/09/2025 (Shift-03)

- (a) Heavy industrialization and capital goods
- (b) Food self-sufficiency through agriculture
- (c) Poverty alleviation and modernization of technology
- (d) Economic liberalization and globalization

Exp.- The main objective of India's Sixth Five-Year Plan (1980-85) was '**Garibi Hatao**' (Removal of Poverty) and the modernization of the economy, under which a direct attack was made on poverty by adopting the Nehruvian model.

□ During this period, employment-oriented rural development programs like IRDP, NREP, and TRYSEM were launched, and the rural credit system was strengthened by establishing NABARD on 12 July 1982. **Ans. (c)**

63. Which plan period is known as the 'Plan Holiday'?

SSC CGL TIER-I, 14/10/2025 (Shift-02)

- (a) 1961-66 (b) 1966-69
- (c) 1969-74 (d) 1974-79

Exp.- In India, the period from **1966 to 1969** is known as the '**Plan Holiday**'. Due to the **Indo-China War (1962)**, the **Indo-Pak War (1965)**, severe **droughts (1965-66)**, **devaluation of the rupee (1966)**, and a **lack of resources**, the **Fourth Five-Year Plan** was postponed, and **three Annual Plans** were implemented instead. **Ans. (b)**

64. The Second Five Year Plan (1956-1961), often associated with the Mahalanobis Model, marked a significant shift in development strategy. What was the primary focus of this plan.

SSC CGL TIER-II 18/01/2026

- (a) Achieving immediate self-sufficiency in food grain production through the Green Revolution.
- (b) Establishing an export-oriented economy to integrate rapidly with global trade markets.
- (c) Maximizing the role of the private sector in the 'commanding heights' of the economy.
- (d) Rapid industrialization with a particular emphasis on the development of basic and heavy industries.

Exp.- The **Second Five Year Plan (1956-1961)** was primarily based on the **Mahalanobis Model**, which sought to transform India from an agrarian economy into an industrial economy. The central goal of this plan was **rapid industrialisation**, with a specific emphasis on the development of **capital goods** and **heavy industries**, such as steel, coal, and power, through the public sector. **Ans. (d)**

07

Inflation

1. What is the term for the economic phenomenon where high inflation is combined with stagnant economic growth?

SSC PHASE XIII 02/08/2025 (Shift-02)

- (a) Recession (b) Hyperinflation
- (c) Stagflation (d) Deflation

Exp.- When the rate of inflation in an economy is very high and at the same time the rate of economic growth is falling or remains stagnant, this situation is called **Stagflation**. It is a lethal combination of high unemployment and rising prices. This is a very challenging economic situation for policy makers because steps to control inflation often further increase unemployment. **Ans. (c)**

2. Abhijit Sen was the chairman of the Committee on the Wholesale Price Index which submitted its report in _____.

SSC CHSL TIER-I, 12/11/2025 (Shift-02)

- (a) 2004 (b) 2008
- (c) 2010 (d) 2006

Exp.- The committee chaired by Abhijit Sen was constituted to reform the base year and methodology of the **Wholesale Price Index (WPI)**. This committee submitted its final report in **2008**, in which it recommended modernising the basket of goods for calculating the index and changing the base year from 1993-94 to 2004-05. **Ans. (b)**

3. Why prices rise when the government increases spending or cuts taxes?

SSC CHSL TIER-I, 19/11/2025 (Shift-03)

- (a) Firm not be able to produce higher quantities that are being demanded at ongoing prices.
- (b) Aggregate demand falls rapidly.
- (c) Wage increases unprecedentedly.
- (d) Firm exports their produces to the foreign destinations.

Exp.- When the government increases its spending or cuts taxes, people have more money to spend, which leads to a rapid increase in **aggregate demand** in the market. If firms (companies) are unable to increase production quickly enough to match this rising demand, a shortage of goods occurs. Due to this imbalance, prices begin to rise, which is called '**demand-pull inflation**' in economics. **Ans. (a)**

4. What is the term for the economic measure that tracks changes in the price level of a basket of goods and services?

SSC PHASE XIII 26/07/2025 (Shift-02)

- (a) Consumer Price Index (CPI)
- (b) Gross Domestic Product (GDP)
- (c) Gini Coefficient
- (d) Balance of payments

Exp.- The **Consumer Price Index (CPI)** measures the average change in the prices of a representative basket of goods and services purchased by consumers (average households). It is the most accurate measure to understand the impact of inflation on the common man. **Ans. (a)**

5. Which of the following statements shows an accurate understanding of a macroeconomic concept?

SSC CPO TIER-I, 09/12/2025 (Shift-02)

- (a) Gross Domestic Product includes earnings sent home by citizens working abroad.
- (b) When the general price level rises, the value of money tends to fall,
- (c) A country's budget is considered balanced when exports exceed imports.
- (d) The central bank controls inflation mainly through changes in income tax rates.

Exp.- When the general price level rises (inflation), the **purchasing power** of money decreases, which means that the value of money has fallen.

□ During inflation, fewer goods or services can be purchased with the same amount of money compared to before. **Ans. (b)**

6. What is the main reason for the decline in core inflation across most countries in 2024?

SSC CGL TIER - I, 19/09/2025 (Shift-01)

- (a) Fall in service productivity
- (b) Decrease in export demand
- (c) Drop in international commodity prices
- (d) Increase in fiscal deficit

Exp.- The primary reason for the decline in core inflation globally in 2024 is the decrease in international commodity prices. The fall in prices of energy (oil, gas), metals, and agricultural inputs reduced production and transportation costs for industries, leading to a moderation in the prices of non-food and non-fuel items and easing the pressure of 'imported inflation'. **Ans. (c)**

7. According to Keynesian theory, what should the government ideally do during a recession?

SSC Stenographer 06-08-2025 (Shift-03)

- (a) Increase interest rates
- (b) Increase spending and reduce taxes
- (c) Promote imports
- (d) Reduce spending

Exp.- According to Keynesian Economics, to tackle a recession, the government should **increase its spending and cut taxes** to stimulate aggregate demand in the market. This is known as an '**Expansionary Fiscal Policy**', which re-energizes economic growth by compensating for the lack of private sector investment. **Ans. (b)**

Poverty & Unemployment

Poverty

1. The Expert Group under the Chairmanship of Dr. C. Rangarajan to Review the Methodology for Measurement of Poverty in the country was constituted by the Planning Commission in _____.

SSC CHSL TIER-I, 28/11/2025 (Shift-03)

- (a) 2012 (b) 2010
(c) 2008 (d) 2006

Exp.- An expert group was constituted by the Planning Commission in **2012** under the chairmanship of **Dr. C. Rangarajan** to review the methodology for the determination of the poverty line. This committee submitted its report in 2014, in which it revised the estimates of the Tendulkar Committee and proposed a monthly per capita expenditure of ₹972 for rural areas and ₹1407 for urban areas as the poverty line. **Ans. (a)**

Unemployment

2. Which one of the following defines elderly dependency ratio?

SSC PHASE XIII 30/07/2025 (Shift-02)

- (a) The ratio of children to the working-age population
(b) The ratio of elderly (65+) to the working-age population
(c) The ratio of elderly to children in a population
(d) The ratio of urban to rural elderly population

Exp.- The **Old-age Dependency Ratio** indicates the burden of retired or elderly people (usually 65+ years) on the working population (15–64 years) in a society.

$$\text{old-age Dependency Ratio} = \frac{\text{Elderly Population (65+)}}{\text{Working Population (15-64)}} \times 100$$

Ans. (b)

3. In India, which of the following reports are published under MoSPI?

- I. Periodic Labour Force Survey
II. Monthly Infrastructure Performance Review Report

SSC CHSL TIER-I 13/11/2025 (Shift-02)

- (a) Only I (b) Only II
(c) Both I and II (d) Neither I nor II

Exp.- The **Periodic Labour Force Survey (PLFS)** is released by the **National Statistical Office (NSO)** under **MoSPI**. Its objective is to regularly estimate employment-unemployment indicators such as **LFPR** (Labour Force Participation Rate), **WPR** (Worker Population Ratio), and **UR** (Unemployment Rate). Since 2025, its monthly bulletins are also being published.

□ On the other hand, the **Monthly Infrastructure Performance Review Report** is released by the **IPMD** (Infrastructure and Project Monitoring Division) of **MoSPI**. It monitors the production and target achievement of **11 key infrastructure sectors** (such as electricity, coal, and steel) **Ans. (b)**

4. Which economic consequence of migration is generally considered a challenge for the destination regions in India, particularly concerning unskilled rural migrants?

SSC Stenographer 08/08/2025 (Shift-03)

- (a) Increased per capita income due to the inflow of highly skilled labor
(b) Reduction in pressure on land resources and unemployment rates
(c) Exploitation of migrant labor and the growth of informal sector employment
(d) Balanced regional development across states

Exp.- Unskilled rural migration towards cities (destination areas) in India often results in migrant laborers being forced to work at low wages in the **informal sector**, where they do not receive the benefits of social security. This situation leads to large-scale **exploitation of workers** and excessive pressure on urban infrastructure, creating challenges for employment and labor rights in destination areas. **Ans. (c)**

5. In each of the following questions, a statement labeled Assertion (A) is given, followed by a statement labeled Reason (R).

Assertion (A): Migration can be driven by negative and positive circumstances.

Reason (R): Push factors make individuals migrate away from a region, whereas pull factors draw individuals to a region.

SSC Stenographer 08/08/2025 (Shift-01)

- (a) A is false, but R is true.
(b) Both A and R are true, but R is not the correct explanation of A.
(c) Both A and R are true, and R is the correct explanation of A
(d) A is true, but R is false.

Exp.- Both the assertion and the reason are correct because migration is always the result of a balance between **push** and **pull** factors, where negative factors such as poverty or war push people out, and positive factors such as employment opportunities attract them

□ Since the reason (R) directly explains the conditions (negative/positive) on which migration (A) depends, it is the correct explanation of it. **Ans. (c)**

09

Agriculture and Food Management

1. The Agriculture Infrastructure Fund (AIF) provides support for?

SSC CGL TIER-I, 13/09/2025 (Shift-01)

- (a) Free fertilizers
- (b) Agri-logistics and cold chains
- (c) Cash transfers
- (d) MGNREGA work

Exp.- The objective of the **Agriculture Infrastructure Fund (AIF)** is to provide financial support for facilities such as agri-logistics, cold chains, warehouses, and primary processing units. It provides loans at **low interest rates** to farmers, FPOs, cooperative societies, and agri-entrepreneurs.

Ans. (b)

2. What led to regional disparity despite the overall success of the Green Revolution?

SSC CGL TIER-I, 21/09/2025 (Shift-01)

- (a) Uneven price controls
- (b) Unequal land ownership
- (c) HYV seed access restricted to well-irrigated regions
- (d) Neglect of fertilizers

Exp.- The Green Revolution was an agricultural revolution in the 1960s aimed at making India self-sufficient in food grains by increasing wheat and rice production through the use of **HYV seeds, fertilizers, pesticides, and irrigation**. These facilities were primarily available in well-irrigated regions like Punjab, Haryana, and western Uttar Pradesh. In rain-fed or low-irrigation areas, the impact of HYV remained limited, leading to regional inequality.

Ans. (c)

3. Which statement best reflects the failure of structural transformation in Indian agriculture between 1950-1990?

SSC CGL TIER-I, 22/09/2025 (Shift-01)

- (a) Agricultural GDP doubled
- (b) Agricultural workforce declined rapidly
- (c) Industrial sector absorbed excess labour
- (d) 65% of population remained in agriculture

Exp.- A general rule of **economic development** is that as the share of **agriculture** in **GDP** declines, there should be a corresponding **shift of the workforce** from agriculture to the **industrial** and **service sectors**. However, this did not happen in India. Between 1950 and 1990, although the contribution of agriculture to the GDP decreased significantly, the percentage of the population dependent on agriculture remained at a high level of 65%.

Ans. (d)

4. Which of the following statements about Verghese Kurien is correct?

SSC CGL TIER-I, 22/09/2025 (Shift-03)

- (a) He initiated the White Revolution in India's IT sector
- (b) He pioneered Operation Flood to transform dairy farming
- (c) He invented the milk pasteurization method used in Amul
- (d) He was the first Chairman of the Indian Dairy Association

Exp.- **Verghese Kurien** is considered the **Father of the White Revolution** in India.

- He led **Operation Flood**, through which the **dairy sector** in India was modernised, farmers' income was increased, and the country was made **self-sufficient** in milk production.
- He was also the chief architect of the **Amul model** and the **Anand pattern**.
- The method of **pasteurisation** of milk was invented by **Louis Pasteur** in the 19th century.

Ans. (b)

5. The Green Revolution in its first phase (mid-1960s to mid-1970s) was largely ineffective in which of the following regions?

SSC CGL TIER-I, 25/09/2025 (Shift-02)

- (a) Punjab
- (b) Tamil Nadu
- (c) Bihar
- (d) Haryana

Exp.- The Green Revolution in Bihar remained largely ineffective in its first phase because this region was flood-prone, irrigation facilities were limited, the infrastructure was weak, and due to small landholdings, farmers lacked capital and modern agricultural technology.

- In Punjab and Haryana, the Green Revolution was highly effective due to canal or tube-well irrigation, wheat-centric farming, and HYV seeds, whereas in Tamil Nadu, its impact increased in later phases and it was not entirely ineffective.

Ans. (c)

6. What was a key equity-based goal of land reforms implemented after independence?

SSC CGL TIER-I, 26/09/2025 (Shift-01)

- (a) Import substitution
- (b) Expansion of credit to industries
- (c) Abolition of intermediaries and land ceiling laws
- (d) Encouragement to zamindars

Exp.- The primary objective of land reforms after independence was the abolition of intermediaries such as the Zamindari system and the implementation of land ceilings, so that the actual cultivators could get **ownership rights**.

- The central principle of these reforms was **"land to the tiller"**, which promoted both agricultural productivity and social justice.

Ans. (c)

7. Read the following Assertion (A) and Reason (R) carefully and choose the correct option.

Assertion (A): The Green Revolution led to regional imbalances in agricultural growth.

Reason (R): HYV technology and irrigation facilities were initially available only in select states.

SSC CPO TIER-I, 10/12/2025 (Shift-01)

- (a) Both A and R are true and R is the correct explanation of A.
- (b) Both A and R are true but R is not the correct explanation of A.
- (c) A is true but R is false.
- (d) A is false but R is true.

Exp.- The Green Revolution led to regional imbalances in agricultural development. High Yielding Variety (HYV) agricultural techniques, fertilizers, and irrigation facilities were initially available only in selected states (such as Punjab, Haryana, and Western Uttar Pradesh).

- Due to the **limited geographical reach** of these techniques, production increased rapidly in some regions, while the benefits remained low in rain-fed/less-irrigated areas, leading to regional imbalances.

Ans. (a)

8. Read the following Assertion (A) and Reason (R) carefully and choose the correct option.

1. Assertion (A): The planning approach between 1951-1990 led to a successful transformation of India's employment structure.

2. Reason (R): Over 65% of India's workforce remained dependent on agriculture during this period.

SSC CPO TIER-I, 11/12/2025 (Shift-02)

- (a) Both A and R are true and R is the correct explanation of A.
- (b) Both A and R are true but R is not the correct explanation of A.
- (c) A is true but R is false.
- (d) A is false but R is true.

Exp.- Between 1951-1990, India's planning policies achieved industrial development, but they failed to bring about a successful shift in the occupational structure; that is, a large portion of the workforce did not move away from agriculture toward industries and services.

- In 1950, approximately 75% of the workforce was dependent on agriculture, which could only decrease to around 65% by 1990. This means that even after four decades of planning, the majority of India's population remained dependent on agriculture for employment.

Ans. (d)

@VIDYAGRAM

DOWNLOAD VIDYAGRAM APP

<https://t.me/VidyaGrambyAdityaRanjanSir>

aditya__ranjan

9. The AGMARK is the certification mark for _____ in India.

SSC CHSL TIER-I, 21/11/2025 (Shift-03)

- (a) industrial products
- (b) software products
- (c) agriculture products
- (d) financial products

Exp.- AGMARK is a legal certification mark in India to ensure the quality and purity of agricultural products. This mark is issued under the '**Agricultural Produce** (Grading and Marking) Act, 1937'. **Ans. (c)**

10. The National Mission on Natural Farming, which was launched in November 2024 aims to promote chemical-free farming among _____ crores farmers.

SSC CHSL TIER-I, 22/11/2025 (Shift-03)

- (a) 1
- (b) 2
- (c) 3
- (d) 4

Exp.- The National Mission on Natural Farming was launched in November 2024. Its primary objective is to encourage **1 crore farmers** to adopt **chemical-free/natural farming**.

- The mission focuses on improving **soil health**, reducing input costs, increasing **farmers' income**, and promoting **sustainable agriculture**.

Ans. (a)

11. In which of the following state of India more than 85% of its net sown area is under irrigation?

SSC CHSL TIER-I, 22/11/2025 (Shift-03)

- (a) Bihar
- (b) Odisha
- (c) Madhya Pradesh
- (d) Haryana

Exp.- Punjab and Haryana are such states in India where more than **85% of the net sown area** comes under irrigation.

- Here, canals (**Bhakra Nangal System**) and tubewells are extensive means of irrigation.

Ans. (d)

12. In India, the operation flood was launched in _____.

SSC CHSL TIER-I, 26/11/2025 (Shift-02)

- (a) 1950
- (b) 1957
- (c) 1970
- (d) 1991

Exp.- Operation Flood (White Revolution) was launched in India in January **1970** by the **National Dairy Development Board (NDDB)**. This program, started under the leadership of **Dr. Verghese Kurien**, helped make India the largest milk-producing country in the world.

Ans. (c)

13. What was the role of the National Dairy Development Board (NDDB) in the Technology Mission on Oilseeds?

SSC Stenographer 06/08/2025 (Shift-01)

- (a) To promote milk production
- (b) To regulate trade policies
- (c) To develop genetically modified crops
- (d) To manage oilseed procurement and processing

Exp.- Under the Technology Mission on Oilseeds launched in **1986**, the National Dairy Development Board was given the responsibility of **managing the procurement and processing of oilseeds**, so that the cooperative model could be implemented in oilseed production on the lines of 'Operation Flood'.

- For this, **NDDB** launched 'Operation Golden Flow', the primary objective of which was to achieve self-reliance in the production of edible oils and to ensure remunerative prices for farmers.

Ans. (d)

14. Which of the following statements are correct regarding the Unique Land Parcel Identification Number (ULPIN) system?

- 1. ULPIN assigns a unique ID to every land parcel in India.
- 2. ULPIN is a 14-digit identification number.
- 3. ULPIN helps track land ownership and resolve disputes.
- 4. ULPIN is only for urban areas and not rural land.

SSC Stenographer 06/08/2025 (Shift-01)

- (a) 1, 2, and 3 only
- (b) 1, 2, and 4 only
- (c) 2 and 3 only
- (d) 1, 3, and 4 only

Exp.- The ULPIN system digitally integrates land records by providing a **14-digit alphanumeric unique identity** to each land parcel. This makes it possible to **track ownership and reduce disputes**, and it is being **widely implemented** in both rural and urban areas.

Ans. (a)

15. Which Indian state has the highest proportion of its workforce population engaged in agriculture?

SSC Stenographer 06/08/2025 (Shift-01)

- (a) Rajasthan
- (b) Uttar Pradesh
- (c) Bihar
- (d) Punjab

Exp.- Uttar Pradesh is the most populous state of India, where a large part of the working population is **engaged in agriculture and allied activities**.

- Agriculture is the main source of livelihood in the state due to the fertile **Ganga-Yamuna plain**, **adequate water resources**, and a majority of the **rural population**.

Ans. (b)

16. What is the term for the shift of workers from agriculture to industry and services?

SSC Stenographer 06/08/2025 (Shift-01)

- (a) Industrialization
- (b) Urbanization
- (c) Occupational diversification
- (d) Economic transition

Exp.- The process of shifting the workforce from the agricultural sector towards non-agricultural sectors such as industry and service sectors is known as diversification of livelihood. This process helps in reducing risk in the rural economy and generating new sources of income, which ultimately leads to structural economic change. **Ans. (c)**

17. Which Indian state was the first to benefit from the Green Revolution?

SSC Stenographer 06/08/2025 (Shift-02)

- (a) Haryana
- (b) Uttar Pradesh
- (c) Rajasthan
- (d) Punjab

Exp.- The state of Punjab was the first and largest beneficiary of the Green Revolution in India, because irrigation, improved seeds, fertilizers, and modern agricultural techniques were used here early on.

- With the Green Revolution that began in the **1960s**, Punjab became a leader in wheat and rice production, which strengthened the food security of the country.

Ans. (d)

18. Which government body was responsible for implementing the Technology Mission on Oilseeds?

SSC Stenographer 06/08/2025 (Shift-02)

- (a) Ministry of Defense
- (b) Ministry of Commerce
- (c) Ministry of Education
- (d) Ministry of Agriculture

Exp.- The primary responsibility for implementing the Technology Mission on Oilseeds (TMO) was entrusted to the **Ministry of Agriculture** (currently the Ministry of Agriculture and Farmers Welfare). This mission was launched in **1986** to achieve self-reliance in the production of edible oils by integrating the efforts of various departments and institutions.

Ans. (d)

19. Which of the following best describes the main purpose of developing Genetically Modified Organisms (GMOs) in agriculture?

SSC Stenographer 07/08/2025 (Shift-01)

- (a) To reduce the cost of manual weeding and irrigation only
- (b) To improve crop yield, pest resistance, and nutritional quality
- (c) To eliminate the need for fertilizers and pesticides entirely
- (d) To grow crops only in artificial laboratory environments

Exp.- The main objective of developing GMOs (Genetically Modified Organisms) in agriculture is to create desirable traits in plants by making changes in their **DNA**.

- **Crop productivity:** Higher production in less time and with fewer resources.
- **Pest resistance:** Making crops capable of resisting insects and diseases (such as **Bt Cotton**).
- **Nutritional quality:** Increasing the level of nutrients (such as **Vitamin-A enriched Golden Rice**).

Ans. (b)

20. What was the main occupation of the majority of the Indian population during the period immediately after independence (around 1947)?

SSC Stenographer 07/08/2025 (Shift-03)

- (a) Agriculture
- (b) Information Technology
- (c) Manufacturing
- (d) Services

Exp.- At the time of Independence (1947), about **70–75% of India's population depended on agriculture for their livelihood**, which was the main base of the economy at that time. Agriculture also had the highest contribution to the Gross Domestic Product (GDP), because the manufacturing and service sectors were in their early stages. **Ans. (a)**

21. Consider the land reforms implemented in India between 1947 and 1990. What was one of the main objectives of these reforms?

SSC Stenographer 08/08/2025 (Shift-01)

- (a) To consolidate large landholdings in the hands of a few individuals.
- (b) To encourage the widespread adoption of mechanized farming techniques.
- (c) To reduce the concentration of land ownership and protect the interests of small farmers.
- (d) To promote the cultivation of cash crops for export.

Exp.- After independence, the **main objective of land reforms implemented in India** was to abolish intermediaries (such as zamindars) and to establish the rights of cultivators on land ownership, thereby reducing inequality in land ownership. Under this, laws related to the **"ceiling on land holdings"** were enacted so that surplus land could be redistributed among landless farmers and small cultivators to ensure **social justice**. **Ans. (c)**

22. Why were fertilizer subsidies a double-edged policy instrument during 1960–1990?

SSC CGL TIER-I, 21/09/2025 (Shift-03)

- (a) They promoted global trade
- (b) They reduced rural employment
- (c) They supported productivity but often benefited richer farmers
- (d) They discouraged use of HYV seeds

Exp.- Fertilizer subsidy is called a 'double-edged sword' because it played a vital role in increasing agricultural productivity during the **Green Revolution**, but its benefits were primarily reaped by large and prosperous farmers.

- Due to limited resources, small farmers could not take full advantage of it, which led to increased **economic inequality** in rural areas. **Ans. (c)**

23. Under SMAM, what percentage grant is provided to FPOs for Kisan Drone demonstrations?

SSC PHASE XIII 29/08/2025 (Shift-01)

- (a) 40%
- (b) 50%
- (c) 75%
- (d) 100%

Exp.- Under the **Sub-Mission on Agricultural Mechanization (SMAM)** scheme, **Farmer Producer Organizations (FPOs)** are provided with a financial grant of 75% of the cost for conducting demonstrations of **drones** on farmers' fields. The objective is to make modern technology accessible to small farmers and bring **precision** to agricultural activities. **Ans. (c)**

24. The AMUL milk cooperative was set up in _____.

SSC CHSL TIER-I, 20/11/2025 (Shift-03)

- (a) 1946
- (b) 1957
- (c) 1979
- (d) 1992

Exp.- The Amul (AMUL) dairy cooperative society was established on 14 December **1946** in Anand, Gujarat, under the guidance of Sardar Vallabhbhai Patel. Initially, it was known as the 'Kaira District Co-operative Milk Producers' Union Limited', which laid the foundation of the 'White Revolution' in India by ending the exploitation of middlemen. **Ans. (a)**

10

Industry and Infrastructure

1. As of July 2025, which of the following public sector enterprise is awarded with "Maharatna" status?

SSC CHSL TIER-I, 22/11/2025 (Shift-03)

- (a) Bharat Electronic Limited
- (b) Engineers India Limited
- (c) Power Finance Corporation
- (d) Rail Vikas Nigam Limited

Exp.- Power Finance Corporation (PFC) was granted **"Maharatna"** status by the Government of India in October 2021, and it remains a prominent **Public Sector Enterprise (PSE)** included in this prestigious list as of July 2025.

- The Maharatna status is awarded to companies that have an average annual turnover of more than **₹25,000 crore** during the last 3 years, which grants them greater **financial autonomy** in investment and operations. **Ans. (c)**

2. Read the following Assertion (A) and Reason (R) carefully and choose the correct option.

1. **Assertion (A):** The Karve Committee (1955) supported rural industrialisation.

2. **Reason (R):** It focused on large-scale capital-intensive manufacturing in urban centres.

SSC CPO TIER-I, 11/12/2025 (Shift-02)

- (a) Both A and R are true and R is the correct explanation of A.
- (b) Both A and R are true but R is not the correct explanation of A.
- (c) A is true but R is false.
- (d) A is false but R is true.

Exp.- In 1955, the Village and Small-Scale Industries Committee (Karve Committee), constituted by the Planning Commission, supported rural industrialisation to promote employment generation and reduce regional inequality.

- The committee recommended the promotion of small-scale and cottage industries (labour-intensive) rather than large-scale capital-intensive industries. **Ans. (c)**

3. What was the main purpose of the National Renewal Fund?

SSC CHSL TIER-I, 14/11/2025 (Shift-03)

- (a) To attract foreign direct investment in India.
- (b) To help government for seamless external borrowings.
- (c) To provide assistance to cover the cost of retraining and redeployment of labour.
- (d) To compensate the natural disaster victims.

Exp.- The National Renewal Fund (NRF) was established in **February 1992** during the Eighth Five-Year Plan. Its objective was to provide protection to workers affected by the **economic reforms of 1991**.

- This fund provided financial assistance for retraining, redeployment, and **VRS (Voluntary Retirement Scheme)**. It was abolished in the **year 2000**. **Ans. (c)**

4. Read the below statements marked as Assertion (A) and Reason (R). Mark the correct options:

Assertion (A): India Industrial Land Bank provides GIS-based information.

Reason (R): It is managed by the Ministry of Mines.

SSC CGL TIER-I, 13/09/2025 (Shift-01)

- (a) Both A and R are true, and R is the correct explanation of A
- (b) Both A and R are true, but R is not the correct explanation of A
- (c) A is true, but R is false
- (d) A is false, but R is true

Exp.- The **India Industrial Land Bank (IILB)** is a **GIS-based platform** that provides information about industrial parks, land availability, and infrastructure across the country.

- It is not managed by the Ministry of Mines, but by the **Department for Promotion of Industry and Internal Trade (DPIIT)**, Ministry of Commerce and Industry. *Ans. (c)*

5. What is the primary purpose of the Insolvency and Bankruptcy Code (IBC), 2016?

SSC Stenographer 06/08/2025 (Shift-02)

- (a) To regulate stock market investments
- (b) To promote foreign direct investment
- (c) To simplify the process of resolving financial distress in businesses
- (d) To provide protection for startups from financial harassment

Exp.- The **Insolvency and Bankruptcy Code (IBC), 2016** was implemented to resolve disputes related to the debts of failed businesses and companies within a **fixed time limit** (180-330 days). Its main objective is to accelerate the recovery of bad loans (**NPA**), attempt to revive debt-ridden companies, and ultimately promote '**Ease of Doing Business**' in India. *Ans. (c)*

6. What is a capital goods industry?

SSC CHSL TIER-I, 13/11/2025 (Shift-02)

- (a) Industry that deals in external commercial borrowings
- (b) Industry that exports food products
- (c) Industry that process raw agricultural product
- (d) Industry producing machines and tools

Exp.- Capital goods industries are those industries which manufacture machines and equipment used in the production of other goods or services; these are not for direct consumption and include heavy **machinery**, plants, components, construction equipment, and large vehicles, hence it is considered the 'backbone' of the economy. *Ans. (d)*

7. Which indicator in EODB (Ease of doing business) measures the time and cost to resolve commercial disputes?

SSC Stenographer 08/08/2025 (Shift-01)

- (a) Dealing with construction permits
- (b) Enforcing contracts
- (c) Trading across borders
- (d) Getting electricity

Exp.- Under Ease of Doing Business (EoDB), the indicator '**Enforcing Contracts**' measures the time, cost, and quality of the judicial process involved in resolving commercial disputes. It specifically assesses the efficiency of court proceedings and the obstacles faced in obtaining legal remedies in cases of contract enforcement. *Ans. (b)*

8. Consider the emphasis placed on the public sector in India's industrial development strategy between 1947 and 1990. What was a key rationale behind giving the public sector a dominant role during this period?

SSC Stenographer 08/08/2025 (Shift-03)

- (a) There was a lack of demand for industrial goods in the domestic market, necessitating government intervention.
- (b) Public sector industries were inherently more efficient than private sector ones.
- (c) The private sector had sufficient capital and technological expertise to drive industrialization in all key sectors.
- (d) The public sector was seen as a tool for achieving social goals, promoting balanced regional development, and controlling strategic industries.

Exp.- After independence, there was a lack of private capital in India; therefore, the **public sector** was given the leadership role to ensure social justice and maintain control over strategic industries (such as iron and steel). The main objective of this strategy was not just to earn profit, but to promote **balanced regional development** by setting up factories in backward areas and to ensure equitable distribution of resources. *Ans. (d)*

9. What trend is reflected by increasing share of urban people in non-manual tertiary occupations?

SSC Stenographer 08/08/2025 (Shift-03)

- (a) Spatial literacy inequality
- (b) Gendered education access
- (c) Emerging service economy
- (d) De-industrialization

Exp.- Increasing participation in non-manual tertiary occupations (such as IT, banking, and consultancy) reflects the **transition towards an emerging service economy**, where services, rather than manufacturing, are the main driver of economic growth. This trend highlights high-skill development and the expansion of knowledge-based industries in urban areas, which is an important part of the modern economic structure. *Ans. (c)*

10. Which of the following statements about light industries is correct?

SSC CGL TIER-I, 12/09/2025 (Shift-02)

- (a) They process heavy ores & minerals.
- (b) They produce large-scale industrial machinery.
- (c) They require bulky and heavy raw materials.
- (d) Use light materials to make consumer goods

Exp.- Light industries are those industries that use light **raw materials** to produce consumer goods such as clothes, furniture, electronics, plastic products, etc. In these, **capital investment** and energy consumption are low. In contrast, the processing of heavy ores and machinery comes under 'heavy industries'. *Ans. (d)*

11. Read the following statements carefully and choose the correct option:

Assertion (A): Iron and steel is considered a heavy industry.

Reason (R): It requires lightweight raw materials like cotton and rubber.

SSC CGL TIER-I, 12/09/2025 (Shift-03)

- (a) Both A and R are true, and R is the correct explanation of A
- (b) Both A and R are true, but R is not the correct explanation of A
- (c) A is true, but R is false
- (d) A is false, but R is true

Exp.- The iron and steel industry does not require light materials like cotton or rubber, but rather heavy **raw materials** such as iron ore, coking coal, and limestone. Therefore, assertion (A) is **true**. However, reason (R) is completely **false**. *Ans. (c)*

12. Which of the following correctly highlights a unique feature of India's textile industry?

SSC CGL TIER-I, 13/09/2025 (Shift-01)

- (a) It focuses only on raw material exports
- (b) It is partially self-reliant and imports final products
- (c) It is self-reliant across the full value chain
- (d) It only caters to domestic markets

Exp.- India's textile industry is self-reliant in its complete **value chain**, such as cotton production, spinning, weaving, processing, garment manufacturing, and export. This characteristic includes it among the few countries in the world that work on the '**Farm to Fashion**' model. *Ans. (c)*

13. Which of the following industry pairs is correctly grouped as heavy industries?

SSC CGL TIER-I, 13/09/2025 (Shift-02)

- (a) Sewing machines and Paint brushes
- (b) Shipbuilding and Automobile
- (c) Electric bulbs and Fuse wires
- (d) Watches and Paint brushes

Exp.- Heavy industries are those in which capital-intensive goods are produced by using **heavy inputs such as heavy machinery, capital, and massive infrastructure**. **Shipbuilding & automobile industries** are both classified as heavy industries because they require **large quantities of metal, energy, labor, and technology**, whereas sewing machines, paintbrushes, watches, or electric bulbs are **light industries**. *Ans. (b)*

14. Which of the following statements about the fertilizer industry in India is/are correct?

- 1. India is self-sufficient in potash-based fertilizers.
- 2. Urea is the most commonly produced nitrogenous fertilizer.
- 3. Fertilizer production increased after the Green Revolution.
- 4. Gujarat and Kerala are minor contributors to fertilizer production.

SSC CGL TIER-I, 13/09/2025 (Shift-03)

- (a) Only 1 and 3
- (b) Only 2 and 3
- (c) Only 2 and 4
- (d) Only 1, 2 and 3

Exp.- Due to the lack of commercial reserves of potash in India, we are entirely dependent on imports; therefore, **statement 1 is incorrect.**

- Urea is the most produced and demanded nitrogenous fertilizer in the country; thus, **statement 2 is correct.**
- During the Green Revolution, the use of HYV seeds gave an unprecedented push to the production and expansion of the fertilizer industry; therefore, **statement 3 is correct.**
- States like Gujarat and Kerala are leading fertilizer producers in India, not marginal; hence, **statement 4 is incorrect.** *Ans. (b)*

15. Which of the following is correctly classified as a consumer goods industry?

SSC CGL TIER-I, 14/09/2025 (Shift-01)

- (a) Iron and steel
- (b) Aluminium smelting
- (c) Toothpaste
- (d) Copper smelting

Exp.- Consumer goods industries are those industries that produce goods for direct consumption, such as toothpaste, soap, clothes, shoes, etc.

- In contrast, **iron and steel, aluminium, and copper smelting industries** are called basic or capital goods industries, as they prepare raw materials for other industries. *Ans. (c)*

16. Which of the following statements about the sugar industry is/are correct?

1. Sugarcane's sucrose content decreases during transportation.
2. Sugar industry is seasonal in nature.
3. The industry is unsuitable for cooperative management.
4. Major sugar-producing states include Maharashtra and Tamil Nadu.

SSC CGL TIER-I, 14/09/2025 (Shift-02)

- (a) Only 1 and 3
- (b) Only 1, 2 and 4
- (c) Only 2, 3 and 4
- (d) Only 1 and 4

Exp.- The sugar industry is primarily based on sugarcane and is of a **seasonal nature** because sugarcane is available only during the harvesting season.

- The sucrose content **decreases** during the transportation of sugarcane; therefore, mills are established near the sugarcane fields. The major sugarcane-producing states are Uttar Pradesh, **Maharashtra, Karnataka, and Tamil Nadu.** *Ans. (b)*

17. Read the following Assertion (A) and Reason (R) carefully and choose the correct option:

Assertion (A): The Mahalanobis strategy prioritized heavy industries and capital goods.

Reason (R): It was believed that investing in such industries would create long-term capacity for growth.

SSC CGL TIER-I, 15/09/2025 (Shift-01)

- (a) Both A and R are true and R is the correct explanation of A
- (b) Both A and R are true but R is not the correct explanation of A
- (c) A is true but R is false
- (d) A is false but R is true

Exp.- The Second Five Year Plan, based on the P.C. Mahalanobis model, focused on **heavy and basic industries** (such as iron and steel); therefore, **assertion (A) is true.**

- Increasing the production of capital goods will lead to self-reliance and lay a **strong foundation for long-term development** in the economy; therefore, **reason (R) is true and (R) is the correct explanation of (A).** *Ans. (a)*

18. Which of the following pairs correctly represents agro-based industries?

SSC CGL TIER-I, 15/09/2025 (Shift-03)

- (a) Cement and Petrochemicals
- (b) Cotton textiles and Sugar
- (c) Jute textiles and Steel
- (d) Edible oil and Aluminium

Exp.- Agro-based industries are those that obtain their raw materials directly from agricultural products. The cotton textile industry is based on cotton and the sugar industry is based on sugarcane; therefore, both are agro-based industries.

- In contrast, cement, petrochemicals, steel, and aluminium industries are based on minerals or industrial raw materials. *Ans. (b)*

19. Read the following Assertion (A) and Reason (R) carefully:

Assertion (A): The IPR 1956 created an industrial classification into Schedules A, B, and C.

Reason (R): This was to identify sectors for exclusive state control, joint sectors, and private sector operation.

SSC CGL TIER - I, 16/09/2025 (Shift-01)

- (a) Both A and R are true and R is the correct explanation of A
- (b) Both A and R are true but R is not the correct explanation of A
- (c) A is true but R is false
- (d) A is false but R is true

Exp.- The Industrial Policy Resolution (IPR), 1956 classified industries into **Schedule A, B and C.**

- Its objective was to identify industries for exclusive state control, joint (**state and private**) sector, and the private sector. *Ans. (a)*

20. The Sindri fertilizer plant, one of India's oldest and most significant, is located in which state, utilizing its proximity to a major coal-producing region?

SSC CGL TIER - I, 16/09/2025 (Shift-03)

- (a) West Bengal
- (b) Odisha
- (c) Jharkhand
- (d) Bihar

Exp.- Sindri Fertilizer Plant was the first major public sector industrial unit of independent India, which was established in **1951.**

- It is located in the Dhanbad district of Jharkhand. It was established here because it is very close to the **Jharia coalfield**, which ensures an easy supply of fuel and raw materials (coke-oven gas). *Ans. (c)*

21. When was the first Industrial Policy announced in independent India?

SSC CGL TIER - I, 18/09/2025 (Shift-02)

- (a) 1948
- (b) 1950
- (c) 1951
- (d) 1952

Exp.- In 1948, it was presented in Parliament by the then Minister of Industry and Supply, Dr. Shyama Prasad Mukherjee.

- With the **Industrial Policy 1948**, a consensus was reached to adopt a **mixed economy** in India, and the co-existence of both public and private sectors was accepted. *Ans. (a)*

22. Which of the following correctly describes a heavy industry?

SSC CGL TIER-I, 20/09/2025 (Shift-02)

- (a) It uses light raw materials like cotton.
- (b) It produces light consumer goods.
- (c) Uses bulky inputs to produce heavy goods
- (d) it manufactures cosmetics and toiletries.

Exp.- Heavy industries are those industries that use heavy and bulky raw materials (like iron, coal) and the goods produced by them (like machinery, cranes, large vehicles) are also quite bulky. Establishing these industries requires large capital investment and massive infrastructure. *Ans. (c)*

23. What was the main objective of the Industrial Policy of 1956?

SSC CGL TIER-I, 23/09/2025 (Shift-01)

- (a) Profit Maximization
- (b) Growth with equity
- (c) Laissez-faire policy
- (d) Open market reforms

Exp.- The main objective of the Industrial Policy Resolution of 1956 (**IPR 1956**) was to accelerate the pace of economic development as well as to ensure the equitable distribution of income and wealth (equity) in society.

- This policy gave the public sector the leading role to achieve a '**socialistic pattern of society**' and emphasized the establishment of industries in backward regions to reduce regional inequalities. *Ans. (b)*

24. Consider the following statements:

Statement I: The city of Chennai is popularly known as the Detroit of India
Statement II: The city is a hub of the petrochemical industry and a leader in petrochemical product manufacturing in India

Which of the following statements is/are correct?

SSC CGL TIER-I, 23/09/2025 (Shift-02)

- (a) Both Statements are correct, and Statement II is the correct explanation for Statement I
 (b) Both Statements are correct, and Statement II is not the correct explanation of Statement I
 (c) Statement I is correct, but Statement II is incorrect
 (d) Statement I is incorrect, and Statement II is correct

Exp.- Chennai is known as the Detroit of India because it is a major hub of the automobile industry. Several large car manufacturing companies such as Hyundai, Ford, BMW, TVS, Ashok Leyland, etc., are located here, and it contributes significantly to the country's vehicle production and exports.

- The major centers of the **petrochemical industry** in India are Jamnagar, Dahej (Gujarat), etc., and not Chennai. **Ans. (c)**

25. What was a key feature of the Industrial Policy Resolution of 1956?

SSC CGL TIER-I, 23/09/2025 (Shift-02)

- (a) Full privatization
 (b) Abolition of licensing
 (c) Emphasis on small-scale industry
 (d) Expansion of public sector

Exp.- The Industrial Policy Resolution 1956 (IPR 1956) aimed to establish a socialist pattern of society by placing the public sector at the "commanding heights" of the economy.

- Under this, industries were classified into three schedules- **Schedule A** (17 industries) exclusively for the public sector, **Schedule B** (12 industries) for the mixed sector under state leadership, and **Schedule C** for the remaining industries for the private sector (subject to licensing). **Ans. (d)**

26. What was the central theme of the Industrial Policy Resolution of 1956?

SSC CGL TIER-I, 23/09/2025 (Shift-03)

- (a) Full privatisation of industry
 (b) Import-led growth strategy
 (c) State control of commanding heights of the economy
 (d) Promoting consumer goods industry

Exp.- The Industrial Policy Resolution of 1956 was introduced with the objective of establishing a "socialistic pattern of society" in India and is referred to as the "Economic Constitution" of India. Industries were classified into three schedules (A, B, C), in which 17 strategic industries under Schedule-A were reserved exclusively for the State.

- This policy was based on the **P.C. Mahalanobis Model**, which emphasized heavy industries and infrastructure. **Ans. (c)**

27. Which of the following statements regarding the sugar industry in India is/are correct?

1. India ranks as the world's second-largest producer of sugar.
 2. India ranks first in the production of gur and khandsari.

3. Sugar industry uses lightweight raw material.
 4. Uttar Pradesh and Bihar together house about 60% of sugar mills.

SSC CGL TIER-I, 14/10/2025 (Shift-02)

- (a) Only 1 and 2
 (b) Only 1, 2 and 4
 (c) Only 2 and 3
 (d) Only 1, 3 and 4

Exp.- India is the second-largest producer of **sugar** in the world after **Brazil**, and the largest producer of **gur** and **khandsari**.

- The sugar industry is based on **heavy and weight-losing raw material** (sugarcane), which is why mills are established near sugarcane-growing areas. Most of the sugar mills in the country are located in **Uttar Pradesh, Bihar, and Maharashtra**. **Ans. (b)**

28. Which of the following statements regarding small scale industries in India is correct?

SSC CPO TIER-I, 09/12/2025 (Shift-01)

- (a) They are classified based on the number of workers employed.
 (b) They are identified by annual turnover only.
 (c) They are classified based on capital investment in assets.
 (d) They are defined solely by export volume.

Exp.- Earlier in India, the classification of Small Scale Industries (SSI) was based only on investment in plant and machinery, but from **2020**, a **new definition of MSME** has been implemented in which a **composite criteria of both investment and annual turnover** has been adopted. **Ans. (c)**

29. Which of the following statements about public sector industries is correct?

SSC CPO TIER-I, 09/12/2025 (Shift-02)

- (a) They are owned by private individuals.
 (b) They operate without government regulation.
 (c) They are owned and operated by government agencies.
 (d) They are only run in rural areas.

Exp.- The **ownership, control and management** of Public Sector Undertakings (PSUs) is held entirely or primarily by the government (Central or State).

- The primary objective of these industries is not just to earn profit, but to ensure social welfare and develop strategic sectors of the nation (such as defense, railways, and atomic energy). **Ans. (c)**

30. Which of the following is correctly classified as a basic industry?

SSC CPO TIER-I, 11/12/2025 (Shift-02)

- (a) Sugar
 (b) Fans
 (c) Sewing machines
 (d) Aluminium smelting

Exp.- Basic industries are those industries that serve as the backbone of the economy; aluminum smelting provides raw materials to sectors such as automobile, construction, and electricity, therefore it is included in the category of basic industries. **Ans. (d)**

31. Which digital initiative improved India's Ease of Doing Business (EoDB) in "Starting a Business"?

SSC CPO TIER-I, 12/12/2025 (Shift-02)

- (a) Digi Locker (b) Udyam Portal
 (c) GST Portal (d) MCA21

Exp.- MCA 21 is a major e-governance initiative of the Ministry of Corporate Affairs (MCA), which has simplified the process of "Starting a Business" by completely digitizing company registration and compliance processes in India. Under this, integrated forms like SPICe+ were introduced, through which company name, registration, PAN, and TAN are obtained together. **Ans. (d)**

32. Consider the following:

1. DPIIT handles industrial promotion
 2. It implements Gati Shakti

Which of the above statements is/are correct?

SSC CPO TIER-I, 12/12/2025 (Shift-02)

- (a) Only 1 (b) Only 2
 (c) Both 1 and 2 (d) Neither 1 nor 2

Exp.- DPIIT (Department for Promotion of Industry and Internal Trade) is the nodal department for the development of the manufacturing sector and industrial promotion in India, hence statement 1 is correct.

- The coordination and implementation of the **PM Gati Shakti National Master Plan** is being carried out by the '**Logistics Division**' under **DPIIT**, hence statement 2 is also correct. **Ans. (c)**

33. The National Infrastructure Pipeline was launched in India in _____.

SSC CHSL TIER-I, 12/11/2025 (Shift-02)

- (a) 2003 (b) 2008
 (c) 2013 (d) 2020

Exp.- The **National Infrastructure Pipeline (NIP)** in India was announced in **2019-20**, and its formal launch is considered to be from **2020**. Its objective is to invest **₹111 lakh crore** in infrastructure between 2020-2025.

- The '**National Infrastructure Pipeline**' includes projects such as **housing, safe drinking water, availability of clean and affordable energy, and modern railway stations**. **Ans. (d)**

34. As of July 2025, the Power Finance Corporation holds which of the following CPSE status?

SSC CHSL TIER-I, 18/11/2025 (Shift-03)

- (a) Maharatna (b) Navratna
 (c) Miniratna-I (d) Miniratna-II

Exp.- Power Finance Corporation (PFC) was granted '**Maharatna**' status by the Government of India in October 2021, which remains maintained as of July 2025. With the grant of **Maharatna** status, the company gets greater autonomy in financial matters and does not require prior permission from the government for investments up to **5,000 crore**.
Ans. (a)

35. The Deepak Parekh committee to look into various aspects of providing affordable housing was set up in which year?

SSC CHSL TIER-I, 22/11/2025 (Shift-01)

- (a) 2008 (b) 2001
(c) 2005 (d) 2011

Exp.- The **Deepak Parekh Committee** was constituted by the Government of India in **2008** to suggest measures for **financing and policy interventions** in **affordable housing**. This committee presented significant recommendations to encourage **private investment** for **infrastructure development** and to address the **housing shortage** in urban areas.
Ans. (a)

36. The Karve committee was formed in—

SSC CHSL TIER - I, 26/11/2025 (Shift-03)

- (a) 1948 (b) 1953
(c) 1955 (d) 1982

Exp.- The Karve Committee, also known as the 'Village and Small-scale Industries Committee', was constituted in **1955**. This committee recommended the use of small-scale industries for promoting rural development, as they are **labour-intensive**.
Ans. (c)

37. The Government introduced the 'Navratna' scheme in _____ to identify and support CPSEs with their competitive advantages in their journey to becoming global leaders.

SSC CHSL TIER - I, 29/11/2025 (Shift-03)

- (a) 2001 (b) 1993
(c) 1999 (d) 1997

Exp.- The Government of India introduced the '**Navratna**' scheme in **1997** to provide greater autonomy to Central Public Sector Enterprises (CPSEs) and to make them globally competitive. Under this scheme, 9 companies were initially identified, which were granted significant financial independence in investments up to 1000 crore and other operational matters without prior government approval.
Ans. (d)

38. The Industrial Policy Resolution of 1948 aimed at:

SSC Stenographer 06/08/2025 (Shift-03)

- (a) Privatizing industries
(b) Developing rural areas
(c) Opening up foreign trade
(d) Promoting public sector

Exp.- The Industrial Policy Resolution of **1948** was the first official policy of independent India, which laid the foundation of a '**mixed economy**' and made the role of the **public sector mandatory** in strategic industries such as defense and atomic energy. The main objective of this policy was to keep the command of economic development in the hands of the government so that the private and public sectors could together contribute to nation-building.
Ans. (d)

39. Consider the following statements:

Statement I: The Industrial Policy Resolution of 1956 aimed to promote private sector dominance in all key industries.

Statement II: The Industrial Policy Resolution 1956 classified industries into three categories: fully government-owned, mixed sector with government lead, and private sector.

Which of the above statements is/are correct?

SSC Stenographer 07/08/2025 (Shift-02)

- (a) Both statements I and II are incorrect
(b) Statement I is incorrect, Statement II is correct
(c) Statement I is correct, Statement II is incorrect
(d) Both statements I and II are correct

Exp.- The main objective of the **Industrial Policy Resolution, 1956** was to increase the dominance of the **public sector (government)** and to establish the "**socialist pattern of society**", not the dominance of the **private sector**. Therefore, **Statement 1 is incorrect**.

- Under this policy, industries were divided into **three clear categories (Schedule A, B, and C): the first** was completely under the **government**, the **second** had a **major role of the government with assistance from the private sector**, and the **third was mainly for the private sector**.
Ans. (b)

40. Given below are assertion and reason, read the statements and choose the correct option.

Assertion: British capital accumulation in the 18th century was reinvested in industrial development.

Reason: The capital was largely controlled by merchants and industrialists instead of the feudal aristocracy.

SSC Stenographer 08/08/2025 (Shift-01)

- (a) Both Assertion (A) and Reason (R) are true, and R is not the correct explanation of A.
(b) A is false, but R is true.
(c) A is true, but R is false.
(d) Both Assertion (A) and Reason (R) are true, and R is the correct explanation of A.

Exp.- In the 18th century, Britain accumulated a large amount of capital through global trade, colonial expansion, and the agricultural revolution. **During the Industrial Revolution, this capital was invested in new technologies, factories, steam engines, and infrastructure**, which led to industrial development. Therefore, the assertion (A) is correct.

- During this period, economic power shifted from the feudal aristocratic class to traders, industrialists, and emerging capitalists, whose aim was to increase production and earn profit. Therefore, capital was **invested in industrial innovations**. In this way, the reason (R) is correct and is the correct explanation of the **assertion (A)**.
Ans. (d)

41. The Industrial Policy Resolution 1956 played a significant role in shaping India's industrial development strategy. What was a key feature of this resolution?

SSC Stenographer 08/08/2025 (Shift-01)

- (a) It strongly advocated for the dominance of the private sector in all industrial activities.
(b) It promoted a completely open and competitive industrial environment with minimal government intervention.
(c) It categorized industries into three schedules, with the public sector leading in strategic and heavy industries.
(d) It emphasized the development of small-scale and cottage industries while discouraging large-scale enterprises.

Exp.- The Industrial Policy Resolution of 1956 classified Indian industries into three **Schedules (Schedule A, B, and C)**, in which industries of strategic and basic importance were completely reserved for the public sector (government).
Ans. (c)

42. Which of the following was a major criticism of the industrial policy followed in India during 1950-1990?

SSC Stenographer 08/08/2025 (Shift-03)

- (a) Too much emphasis on exports.
(b) Creation of a protected market leading to inefficiency and lack of innovation.
(c) Excessive competition among domestic industries.
(d) Neglect of the public sector.

Exp.- The 'inward-looking' trade policy adopted in India during **1950-1990** completely protected domestic industries from foreign competition by imposing strict restrictions on imports, which resulted in the loss of incentive for Indian companies **to improve quality and innovate**. The main criticism of this policy is that it created a '**protected market**' where consumers had to depend on expensive and low-quality products manufactured by inefficient industries.
Ans. (b)

43. What is a modern trend regarding business licenses?

SSC PHASE XIII 25/07/2025 (Shift-03)

- (a) Increasing the amount of time it takes to get them.
- (b) Removing them altogether.
- (c) Making them easier to obtain.
- (d) Making them impossible to obtain.

Exp.- Under the **modern policy trend of Ease of Doing Business, business licensing procedures** are being **simplified, accelerated, and digitized**. The objective is to reduce **barriers to entry** for establishing businesses, attract **investment**, and increase **transparency** in official procedures. **Ans. (c)**

44. Which of the following statements about the textile industry in India is correct?

SSC PHASE XIII 29/08/2025 (Shift-01)

- (a) It is dependent on foreign raw materials.
- (b) It is not involved in foreign exchange earnings.
- (c) It plays a key role in industrial output and jobs
- (d) It only manufactures low-value goods.

Exp.- The **textile industry** is the second largest **employment-generating** sector in India after agriculture. It holds a significant share in **industrial production** and strengthens the economy by being **self-reliant** across the entire **value chain**, from raw materials to finished products. **Ans. (c)**

45. How did licensing policy under the planning era affect the emergence of large industrial conglomerates?

SSC CGL TIER-I, 22/09/2025 (Shift-02)

- (a) It increased FDI inflow
- (b) It prevented market dominance
- (c) It allowed firms to block competitors by hoarding licenses
- (d) It enhanced rural employment

Exp.- During the '**License Raj**', large **industrial houses** often used **license pre-emption** to prevent the entry of **competitors**. They would obtain licenses without actually setting up new factories, as the government issued licenses for only **limited capacity**.

□ The **Hazari Committee** (1960s) described this practice as "**Corporate Imperialism**," which led to reduced **competition**, lower **quality**, and increased **prices**. This **distortion** was largely eliminated through the **Economic Reforms of 1991**. **Ans. (c)**

46. Read the following Assertion (A) and Reason (R) carefully and choose the correct option.

Assertion(A): The Industrial Licensing Policy promoted innovation in small - scale industries.

Reason(R): It provided entry barriers for new firms and created rent-seeking behaviour.

SSC CGL TIER-I, 14/10/2025 (Shift-02)

- (a) Both A and R are true and R is the correct explanation of A
- (b) Both A and R are true but R is not the correct explanation of A
- (c) A is true but R is false
- (d) A is false but R is true

Exp.- The **industrial licensing policy** ('License Raj') hindered **innovation** and **technological improvement**; therefore, Assertion (A) is false.

□ This system created **barriers to entry** for new firms and promoted **rent-seeking behaviour**, as entrepreneurs spent resources on securing licences and lobbying instead of improving their **efficiency**; thus, Reason (R) is true. **Ans. (d)**

47. Which of the following was the focus of the Industrial Policy Statement, 1991?

- I. Allowing foreign investment by lowering controls and regulations.
- II. Exit policy for the sick units in private sector for a smooth exit without affecting welfare of labour.

SSC CHSL TIER-I, 30/11/2025 (Shift-03)

- (a) Only I
- (b) Only II
- (c) Both I and II
- (d) Neither I nor II

Exp.- The main objective of the **Industrial Policy Statement, 1991** was to liberalise the Indian economy, which included the abolition of **License Raj** and reducing controls on **Foreign Direct Investment (FDI)**. Along with this, the policy advocated an **exit policy** for **sick units** in the private sector to enhance industrial efficiency and, at the same time, ensure the protection of workers' interests through a **social security net**. This policy laid the foundation for **liberalisation, privatisation and globalisation**. **Ans. (c)**

48. The regulatory framework adopted by India between 1947 and 1990, often referred to as the "License Raj," aimed to direct economic activity. While it had certain intended benefits, what was a significant unintended negative consequence often associated with this system?

SSC Stenographer 06/08/2025 (Shift-03)

- (a) The creation of barriers to entry for new businesses potentially stifling innovation and leading to inefficiencies.
- (b) A significant reduction in corruption and bureaucratic delays in obtaining necessary approvals for economic activities.
- (c) A rapid increase in the quality and global competitiveness of Indian-made goods due to stringent quality control measures.
- (d) The fostering of a highly competitive market environment with numerous players in each industry.

Exp.- Under the "**License Raj**", private companies had to go through a complex approval process from the government to start or expand a business, which **created barriers to the entry of new businesses and hindered innovation and competition**. Due to this regulatory framework, monopoly and inefficiency increased in the market, as companies had no solid reason to improve quality or reduce costs due to the lack of competition. **Ans. (a)**

49. Which of the following correctly describes cooperative sector industries?

SSC CGL TIER-I, 12/09/2025 (Shift-01)

- (a) Owned and operated by central government agencies.
- (b) Operated solely for export purposes.
- (c) Owned by workers or suppliers sharing profits and losses
- (d) Maintained by foreign companies with Indian partnerships.

Exp.- **Cooperative sector industries** are those which are based on the mutual cooperation of members, where profit and loss are shared among all the members. Their objective is socio-economic welfare, rather than just profit. **Ans. (c)**

50. Which type of sale allows partial transfer of PSU ownership to private hands?

SSC CGL TIER-I, 21/09/2025 (Shift-01)

- (a) Minority sale
- (b) Complete sale
- (c) Auction
- (d) Leasing

Exp.- Under minority sale, the government sells a small portion of shares (less than 51%) of its **Public Sector Undertakings (PSUs)** to private investors or the general public.

□ In this process, there is a **partial transfer of ownership**, but the management and control of the company still remains with the **government**. **Ans. (a)**

51. Why did the Indian government resort to licensing even for expanding existing private sector industries under IPR 1956?

SSC CGL TIER-I, 21/09/2025 (Shift-02)

- (a) To promote export competition
- (b) To keep production under government control
- (c) To prevent technological innovation
- (d) To encourage luxury production

Exp.- Under the **Industrial Policy Resolution of 1956 (IPR 1956)**, the objective of licensing was to ensure state control over production and the use of resources by the private sector in accordance with the planned priorities of the government.

□ It was used to promote regional equality (establishing industries in backward regions) and to prevent monopolies by controlling production capacity. **Ans. (b)**

52. The term 'Navratnas' in public sector reform refers to:

SSC CGL TIER-I, 21/09/2025 (Shift-03)

- (a) Public enterprises given full privatization
- (b) Public enterprises granted autonomy for better performance
- (c) Subsidy-driven rural firms
- (d) Firms eligible for WTO support

Exp.- The Government of India launched the **Navratna scheme** in 1997, aimed at making high-performing CPSEs globally competitive by providing them with financial and operational autonomy.

- Navratna companies are allowed to invest up to ₹1,000 crore or **15%** of their net worth without prior government approval. To achieve Navratna status, a company must be in the Miniratna Category-I and must score at least 60 out of 100 on 6 selected parameters.

Ans. (b)

53. Following the Industrial Policy _____ Board of India, the government has set up a special board known as Foreign Investment Promotion.

SSC CHSL TIER-I, 12/11/2025 (Shift-03)

- (a) 1948 (b) 1956
- (c) 1977 (d) 1991

Exp.- The New Industrial Policy announced on July 24, 1991, introduced 'Liberalisation, Privatisation and Globalisation' (**LPG**) in India. As part of this policy, the Foreign Investment Promotion Board (**FIPB**) was constituted to facilitate and regulate foreign investment.

- However, to enhance the ease of doing business, the government abolished the **FIPB** in 2017.

Ans. (d)

54. In which year was the Special Economic Zones (SEZs) policy launched in India?

SSC CHSL TIER-I, 13/11/2025 (Shift-02)

- (a) 1998 (b) 2002
- (c) 1999 (d) 2000

Exp.- The Government of India implemented the **SEZ** policy in April **2000** based on the model of China, under which **8** Export Processing Zones (**EPZs**) were converted into SEZs. Later, to provide a legal basis, the Special Economic Zone Act, **2005** was passed, which became effective from **10 February 2006**.

Ans. (d)

55. As of July 2025, which of the following central public sector enterprise is awarded with "Navratna" status?

SSC CHSL TIER-I, 13/11/2025 (Shift-03)

- (a) Rashtriya Chemicals and Fertilizers Limited
- (b) Steel Authority of India Limited
- (c) Rural Electrification Corporation Limited
- (d) Hindustan Petroleum Corporation Limited

Exp.- RCF received **Navratna** status in August 2023, while **SAIL, REC** and **HPCL** are all **Maharatna** companies.

Maharatna: Largest companies; average annual net profit for the last 3 years ≥ ₹5,000 crore.

- **Navratna:** Can invest up to ₹1,000 crore or **15%** of their net worth without government approval; to qualify, it is necessary to first be a Miniratna Category-I company.
- **Miniratna:** Profit-making smaller companies; divided into **Category-I** and **II**. They must have been making profit continuously for the last 3 years.

Ans. (a)

56. In which year was the Competition Act passed by the Parliament in India?

SSC CHSL TIER-I, 19/11/2025 (Shift-01)

- (a) 1998 (b) 2004
- (c) 2000 (d) 2002

Exp.- The Indian Parliament passed the **Competition Act** in the year 2002, which replaced the old Monopolies and Restrictive Trade Practices Act (**MRTP Act, 1969**).

- Under this Act, the **Competition Commission of India (CCI)** was established, which keeps a check on the abuse of dominance and anti-competitive agreements in the market.

Ans. (d)

57. Which of the following was the focus of the Industrial Policy Statement, 1977?

- I. Decentralisation of industries
- II. Priority to small scale Industries

SSC CHSL TIER-I, 28/11/2025 (Shift-03)

- (a) Only I (b) Only II
- (c) Both I and II (d) Neither I nor II

Exp.- The main focus of the Industrial Policy Statement, 1977 was the decentralisation of industries and giving priority to small-scale and cottage industries, so that employment opportunities could be increased in rural areas.

- This policy, brought by the Janata Party government, introduced the concept of '**District Industries Centres**', through which an attempt was made to shift industrial development from big cities to small towns.

Ans. (c)

58. The first industrial policy of Government of India was announced in _____.

SSC CHSL TIER-I, 14/11/2025 (Shift-01)

- (a) 1947 (b) 1948
- (c) 1958 (d) 1964

Exp.- India's first industrial policy was announced in **April 1948**, which was presented by **Dr. Syama Prasad Mookerjee** and laid the foundation of a mixed economy.

- India's second industrial policy was announced in **April 1956**. It is also known as the "**Economic Constitution**" of India.

Ans. (b)

11

Foreign Trade & International Institutions

Balance of Payments (BOP)

1. Consider the following statements and choose the correct option:

Statement 1: A surplus on the current account indicates that the country is lending to the rest of the world.

Statement 2: A current account is said to be in balance when payments exceed receipts.

SSC CPO TIER-I, 10/12/2025 (Shift-01)

- (a) Only Statement 1 is correct
- (b) Only Statement 2 is correct
- (c) Both Statement 1 and Statement 2 are correct
- (d) Neither Statement 1 nor Statement 2 is correct

Exp.- A current account surplus occurs when a country's total receipts exceed its total payments, making that country a **net lender** to the rest of the world.

- When payments exceed receipts, it is not called 'surplus amount' but **current account deficit**. A balanced position occurs when receipts and payments are equal.

Ans. (a)

2. The BOP crisis of 1991 involved a shortage of?

SSC CGL TIER - I, 17/09/2025 (Shift-03)

- (a) Water
- (b) Electricity
- (c) Foreign exchange
- (d) Labour

Exp.- The '**Balance of Payments crisis**' of 1991 occurred due to a heavy decline in India's foreign exchange reserves. By June 1991, India was left with only \$1.1 billion in foreign exchange, which was sufficient to pay for only two weeks of imports (especially petroleum and essential goods).

Ans. (c)

3. Read the following statements carefully regarding Assertion (A) and Reason (R).
Assertion (A): India had to approach the IMF and World Bank in 1991 for a bailout loan

Reason (R): Foreign exchange reserves had declined to the point that they could barely finance two weeks of imports

SSC CGL TIER - I, 17/09/2025 (Shift-03)

@VIDYAGRAM

DOWNLOAD VIDYAGRAM APP

<https://t.me/VidyaGrambyAdityaRanjanSir>

aditya__ranjan

- (a) Both A and R are true and R is the correct explanation of A
(b) Both A and R are true but R is not the correct explanation of A
(c) A is true but R is false
(d) A is false but R is true

Exp.- In 1991, India was going through a severe economic crisis, where the fiscal deficit and inflation were very high. In this situation, India had to approach the IMF (International Monetary Fund) and the World Bank for a loan of \$7 billion to meet its financial needs; therefore, Assertion (A) is true.

- India's foreign exchange reserves had fallen to approximately \$1 billion, which was sufficient to pay for only two weeks of imports; therefore, Reason (R) is true. **Ans. (a)**

4. Which international organizations played a crucial role in triggering the 1991 economic reforms in India?

SSC CGL TIER-I, 20/09/2025 (Shift-02)

- (a) UN and WHO
(b) World Bank and IMF
(c) WTO and UNESCO
(d) ADB and WTO

Exp.- During the severe Balance of Payments (BOP) crisis of 1991, India approached the World Bank and the International Monetary Fund for a loan of 7 billion. In exchange for financial assistance, these institutions conditioned India to open up its economy and implement structural reforms (LPG policies). **Ans. (b)**

5. Consider the following statements and choose the correct option:

Statement 1: Unlimited convertibility and fixed price conversion affect the credibility of a currency system

Statement 2: The international monetary system was established to regulate internal fiscal policies of countries

SSC CGL TIER-I, 22/09/2025 (Shift-02)

- (a) Only Statement 1 is correct
(b) Only Statement 2 is correct
(c) Both Statement 1 and Statement 2 are correct
(d) Neither Statement 1 nor Statement 2 is correct

Exp.- Excessive **instability** and uncontrolled **fluctuations in exchange rates** create risks in **international trade**, which reduces the **credibility** of the currency.

- The primary objective of the **international monetary system** is to ensure **global payments and exchange stability**, rather than directing the internal government expenditure or **tax policies** of individual countries. **Ans. (a)**

6. Why must an Indian buyer convert rupees to dollars when purchasing from the U.S.?

SSC CPO TIER-I, 09/12/2025 (Shift-01)

- (a) Rupees are not accepted in U.S. markets
(b) To calculate shipping cost
(c) To use foreign exchange for import payment
(d) To pay international taxes

Exp.- Currency exchange is necessary while making purchases from America because the Indian Rupee is not **legal tender** in America and the sellers there only accept payments in their domestic currency (Dollar).

- This process is based on that rule of international trade where the currency of that country or an **acceptable global reserve currency** (like the Dollar) is required for the import of foreign goods. **Ans. (a)**

7. What immediate measure was taken in 1991 to resolve the balance of payments crisis in India?

SSC CHSL TIER-I, 15/11/2025 (Shift-01)

- (a) Increases restrictions on import.
(b) Devaluation of the rupee against foreign currencies.
(c) Revaluation of the rupee against foreign currencies.
(d) Introduction of fixed exchange rate.

Exp.- In July 1991, to deal with a severe foreign exchange crisis, India devalued the rupee by approximately **18 – 20%** in two stages, so that exports could be encouraged, **imports become expensive**, and the inflow of foreign exchange into the country could increase. **Ans. (b)**

8. The rupee was made convertible on the current account of the balance of payments in ____.

SSC CHSL TIER-I, 20/11/2025 (Shift-03)

- (a) November 1994
(b) August 1994
(c) January 1995
(d) March 1995

Exp.- The Reserve Bank of India (RBI) declared the Indian Rupee fully convertible on current account on **19 August, 1994**. This means that foreign exchange was allowed to be freely converted at market rates for transactions such as the import-export of goods and services, tourism, and education abroad. **Ans. (b)**

9. In 1991, rupee was devalued in two stages and the cumulative devaluation was about ____ percent in USD terms.

SSC CHSL TIER - I, 29/11/2025 (Shift-02)

- (a) 18
(b) 28
(c) 32
(d) 36

Exp.- During the economic crisis of July 1991, the Indian Rupee was devalued in two stages (July 1 and July 3), with a cumulative value of approximately **18 to 20 percent** against the US Dollar.

- The primary objective of this move was to stabilize the declining foreign exchange reserves and overcome the **Balance of Payments (BoP)** crisis by making India's exports cheaper and more competitive. **Ans. (a)**

10. Why is the low level of foreign exchange reserves a critical problem for India?

SSC CHSL TIER-I, 30/11/2025 (Shift-03)

- (a) It means India is a lucrative place for investment.
(b) It means India couldn't print money in future.
(c) It means foreign citizens couldn't travel abroad.
(d) It means India could barely afford to pay for essential imports for a very short time.

Exp.- A low level of **foreign exchange reserves** is a serious problem for India because it directly means that the country does not have enough foreign currency to pay for **essential imports**, which could lead the country into a '**Balance of Payments**' crisis.

- The primary objective of **foreign exchange reserves** is to ensure international payments; if they decrease, it can become difficult to make payments in dollars for essential imports such as **petroleum, crude oil, and medicines**. **Ans. (d)**

11. What was the primary reason for introducing economic reforms in India in 1991?

SSC PHASE XIII 02/08/2025 (Shift-01)

- (a) High GDP growth
(b) Balance of payments crisis
(c) Overpopulation
(d) Agricultural stagnation

Exp.- In 1991, the country faced a severe economic crisis due to the **Balance of Payments (BoP)** crisis, the Gulf War, high inflation, and **fiscal deficit**. To address this, the government adopted the policy of **Liberalisation, Privatisation, and Globalisation (LPG reforms)**. **Ans. (b)**

International Institutions

12. Read the following statements carefully and choose the correct option regarding Assertion (A) and Reason (R):

Assertion (A): WTO encourages free and fair trade across nations

Reason (R): It allows countries to impose arbitrary restrictions to protect domestic industries

SSC CGL TIER-I, 24/09/2025 (Shift-03)

- (a) Both A and R are true and R is the correct explanation of A
(b) Both A and R are true but R is not the correct explanation of A
(c) A is true but R is false
(d) A is false but R is true

Exp.- The main objective of the WTO is to promote rule-based **free and fair international trade** and reduce **trade barriers**. Therefore, Assertion (A) is true.

□ The WTO does not allow arbitrary restrictions, but only permits limited protective measures under **prescribed rules**. Therefore, Reason (R) is false.

Ans. (c)

13. Which mechanism did India operationalize in 2024 to strengthen regional financial resilience within SAARC?

SSC CGL TIER-I, 14/09/2025 (Shift-01)

- (a) SAARC Development Fund capital increase
(b) SAARC Currency Swap Framework (2024-27)
(c) SAARC Trade Insurance Scheme
(d) SAARC Sovereign Credit Pool

Exp.- To ensure regional financial stability, India has implemented the **SAARC Currency Swap Framework (2024-27)**, under which the Reserve Bank of India (RBI) provides short-term liquidity support to SAARC countries. This mechanism is designed to provide financial security and resilience to member nations during foreign exchange crises.

Ans. (b)

14. At which BIMSTEC Summit was the agreement to set up the Technology Transfer Facility in Colombo signed?

SSC CGL TIER - I, 17/09/2025 (Shift-02)

- (a) Third Summit
(b) Fourth Summit
(c) Fifth Summit
(d) Sixth Summit

Exp.- The Memorandum of Association (MoA) to establish the BIMSTEC Technology Transfer Facility in Colombo, Sri Lanka, was signed on March 30, 2022, during the fifth BIMSTEC Summit.

□ The Bay of Bengal Initiative for Multi-Sectoral Technical and Economic Cooperation (BIMSTEC) was established on June 6, 1997, with the signing of the Bangkok Declaration.
□ Originally named BISTEC (Bangladesh-India-Sri Lanka-Thailand Economic Cooperation), it is now known as BIMSTEC. Its member countries include (7): Bangladesh, India, Sri Lanka, Myanmar, Thailand, Nepal, and Bhutan respectively.

Ans. (c)

15. Which global body promotes liberal economic reforms?

SSC CPO TIER-I, 11/12/2025 (Shift-02)

- (a) UNDP
(b) IMF
(c) WHO
(d) UNESCO

Exp.- While providing loans to member countries, the International Monetary Fund (IMF) imposes conditions for liberal economic reforms under Structural Adjustment Programmes (SAP). These include privatisation, trade liberalisation, fiscal discipline, and opening up the economy to foreign investment; India also implemented LPG reforms under these very conditions of the IMF during the 1991 Balance of Payments crisis.

Ans. (b)

16. In the context of trade policy tools, which of the following is considered a non-tariff measure?

- I. Anti-dumping measures
II. Technical barriers to trade measures

SSC CHSL TIER-I, 12/11/2025 (Shift-02)

- (a) Only I
(b) Only II
(c) Both I and II
(d) Neither I nor II

Exp.- Non-tariff measures are policy tools that influence trade other than through tariffs, and their objective is to protect domestic industries and ensure compliance with **health and safety standards**. These include **anti-dumping measures** (contingent trade protection measures to stop imports at prices lower than the cost) and standards such as **Technical Barriers to Trade (TBT)**, labeling, and quality testing, which regulate trade without being taxes.

17. What was the primary cause of India's 1991 economic crisis?

SSC CHSL TIER-I, 17/11/2025 (Shift-02)

- (a) A major natural disaster.
(b) The government inability to repay foreign borrowings.
(c) The state government inefficiency to not contribute to national economy.
(d) High level of illegal migration from Pakistan and Bangladesh.

Exp.- The main causes of the **1991 economic crisis** were fiscal deficit, an increase in foreign debt and the **inability to repay it**, rising oil prices due to the Gulf War, inflation, and a shortage of foreign exchange. Due to this, the **foreign exchange reserves** dropped to only **\$1-2 billion**, which was not even sufficient for two weeks of essential imports.

Ans. (b)

18. In the late 1980s, the government of India approached an international Bank for Reconstruction and Development to tackle the economic crisis, that bank is also known as_____.

SSC CHSL TIER-I, 13/11/2025 (Shift-03)

- (a) World Bank
(b) Asian Development Bank
(c) World Trade Bank
(d) Asian Infrastructure Investment Bank

Exp.- The **IBRD** (International Bank for Reconstruction and Development) is the main institution of the World Bank Group; during the economic crisis of 1991, India took a loan of **7 billion dollars** from the World Bank and **IMF** to deal with the foreign exchange crisis, in return for which it had to implement Liberalisation, Privatisation and Globalisation (**LPG**) and the New Economic Policy 1991.

Ans. (a)

Foreign Trade

19. In India, who was the initial head of the Foreign Investment Promotion Board?

SSC CHSL TIER-I, 25/11/2025 (Shift-03)

- (a) Principal Secretary to the Prime Minister
(b) Finance Minister
(c) External Affairs Minister
(d) Home Minister

Exp.- The Foreign Investment Promotion Board (**FIPB**) in India was established following the economic reforms of 1991, and was initially chaired by the **Principal Secretary to the Prime Minister**.

□ This board functioned as a single-window mechanism for taking swift decisions on Foreign Direct Investment (FDI) proposals, which was later abolished in 2017.

Ans. (a)

20. What is the primary goal of the BIMSTEC Free Trade Area (FTA)?

SSC Stenographer 06/08/2025 (Shift-01)

- (a) To reduce trade barriers and enhance economic cooperation
(b) To establish a common currency among BIMSTEC nations
(c) To regulate trade policies globally
(d) To promote cultural exchanges

Exp.- The primary objective of a Free Trade Area (**FTA**) is **to reduce or eliminate tariffs (duties) and non-tariff barriers** on imports and exports between member countries so that there can be a free flow of goods and services. This not only encourages economic cooperation but also increases competitiveness and efficiency in regional trade.

Ans. (a)

21. During the period of 1947-1990, India's trade policy was largely characterized by:

SSC Stenographer 07/08/2025 (Shift-03)

- (a) An inward-looking strategy emphasizing import substitution and protection of domestic industries.
(b) Policy of free trade with minimal government intervention in international transactions.

- (c) A liberal import policy aimed at providing consumers with a wide range of goods.
- (d) An aggressive export-oriented strategy focused on global competitiveness.

Exp.- During the **period 1947–1990**, India adopted a policy of **import substitution**, whose main objective was to reduce dependence on foreign countries and protect domestic industries from international competition. Under this **‘closed economy policy’**, measures such as high import duties and quotas were used so that local manufacturers could get an opportunity to develop.

Ans. (a)

22. What is the primary goal of a bilateral trade agreement?

SSC PHASE XIII 29/07/2025 (Shift-02)

- (a) Increase trade barriers
- (b) Promote free trade between two countries
- (c) Reduce foreign investment
- (d) Nationalize industries

Exp.- The primary goal of a **bilateral trade agreement** is to promote free trade between two countries. Under this agreement, both countries reduce or eliminate trade barriers such as customs duties, import quotas, and other obstacles to facilitate the exchange of goods and services.

Ans. (b)

23. What is the role of FII in India economic reforms?

SSC PHASE XIII 29/07/2025 (Shift-03)

- (a) Support agriculture subsidies
- (b) Invest in government salaries
- (c) Invest in India financial markets
- (d) Subsidize rural infrastructure

Exp.- Under **Foreign Institutional Investment (FII)**, foreign banks, insurance companies, and mutual funds invest in the Indian **stock and bond markets**.

- Since the **1991 reforms**, they have played a crucial role in linking Indian **financial markets** to the **global level** and increasing the **availability of capital** in the Indian market.

Ans. (c)

24. In the context of India's trade policies between 1947 and 1990, what was a common characteristic of the approach towards imports?

SSC Stenographer 08/08/2025 (Shift-02)

- (a) Promoting imports as a way to boost domestic competition.
- (b) Primarily focusing on the import of luxury goods and consumer durables.
- (c) Following a strategy of import substitution to protect domestic industries.
- (d) Encouraging unrestricted import of all goods.

Exp.- Between 1947 and 1990, India adopted the policy of **import substitution**, the main objective of which was to reduce dependence on foreign goods and protect domestic industries from international competition. Under this strategy, heavy tariffs and quotas were imposed on imported goods so that **‘self-reliance’** could be achieved and local manufacturing could be encouraged

Ans. (c)

25. In the context of trade policy tools, which of the following is considered as tariff measure?

I. Export taxes

II. Import taxes

SSC CHSL TIER-I, 13/11/2025 (Shift-02)

- (a) Only I (b) Only II
- (c) Both I and II (d) Neither I nor II

Exp.- Tariffs are taxes that are levied on goods crossing **borders** and serve as a source of revenue for the government. Import duty protects domestic industries and controls imports, whereas **export duty** ensures the availability of domestic raw materials and resource conservation.

Ans. (c)

26. Consider the following statements about the impact of foreign trade on aggregate demand in India:

Statement 1: Imports by Indian consumers act as a leakage from the circular flow of income hence reducing aggregate demand

Statement 2: Exports from India to foreign markets act as an injection into the circular flow, increasing aggregate demand

SSC CGL TIER-I, 24/09/2025 (Shift-03)

- (a) Only Statement 1 is correct
- (b) Only Statement 2 is correct
- (c) Both Statement 1 and Statement 2 are correct
- (d) Neither Statement 1 nor Statement 2 is correct

Exp.- In an open economy, imports are considered a 'leakage' from the circular flow of income because this causes domestic purchasing power to flow abroad, which decreases **aggregate demand**. Conversely, exports act as an 'injection' because they bring foreign money (through exports) into the domestic economy, leading to an increase in production and **aggregate demand**.

Ans. (c)

27. Read the following statements carefully and choose the correct option regarding Assertion (A) and Reason (R).

Assertion (A): Devaluation of the rupee in 1991 improved export competitiveness.

Reason (R): A weaker rupee made Indian goods cheaper in global markets.

SSC CPO TIER-I, 09/12/2025 (Shift-01)

- (a) Both A and R are true and R is the correct explanation of A.

- (b) Both A and R are true but R is not the correct explanation of A.

(c) A is true but R is false.

(d) A is false but R is true.

Exp.- During the 1991 economic crisis, the **devaluation** of the rupee was carried out deliberately to promote Indian exports. When the value of the domestic currency falls, Indian goods become **cheaper** for foreign buyers, which increases their demand and **competitiveness** in the international market.

Ans. (a)

28. Trade policy prior to 1991 was characterized by-

SSC CPO TIER-I, 09/12/2025 (Shift-02)

- (a) Free trade
- (b) Import liberalization
- (c) High tariffs and quotas
- (d) Foreign direct investment

Exp.- Before the economic reforms of 1991, India's trade policy was inward-looking, the objective of which was to protect domestic industries from foreign competition through import substitution.

- During this period, high tariffs and quotas were in place—the average import duty was more than **125%**—and a **government license** was mandatory for the import of most goods.

Ans. (c)

29. Read the statements marked as Assertion (A) and Reason (R):

Assertion (A): Pakistan's move from a 'Positive List' to a 'Negative List' of 1209 tariff lines for Indian goods under SAFTA was challenged by India as a violation of the agreement.

Reason (R): Article 23 of the SAFTA Agreement permits member countries to make unilateral tariff reservations in case of political disagreement.

SSC CGL TIER - I, 19/09/2025 (Shift-03)

- (a) Both A and R are true, and R is the correct explanation of A
- (b) Both A and R are true, but R is not the correct explanation of A
- (c) A is true, but R is false
- (d) A is false, but R is true

Exp.- Under the South Asian Free Trade Area (SAFTA), member countries are required to undertake trade liberalization. The action by Pakistan to place Indian goods on a 'negative list' and impose restrictions on them was contrary to the spirit of the agreement, which India viewed as a barrier. Therefore, Assertion (A) is true.

- Article 23 of the SAFTA agreement primarily relates to **‘Dispute Settlement’**, rather than allowing unilateral tariff reservations or the imposition of trade restrictions on political grounds. Therefore, Reason (R) is false.

Ans. (c)

30. The “Kaladan Multimodal Transit Transport Project” links India with which country?

SSC CGL TIER - I, 18/09/2025 (Shift-03)

- (a) China (b) Myanmar
- (c) Bangladesh (d) Nepal

Exp.- The Kaladan Multi-Modal Transit Transport Project connects India's Kolkata port to the Sittwe port in **Myanmar**, and then to **Mizoram** via road.

- This project provides a strategic alternative route to reduce dependence on the 'Chicken's Neck' and boost trade for Northeast India. **Ans. (b)**

31. Merchandise Exports from India Scheme was launched in which of the following years?

SSC CHSL TIER-I, 20/11/2025 (Shift-01)

- (a) 1998
(b) 2002
(c) 2019
(d) 2015

Exp.- The Merchandise Exports from India Scheme (**MEIS**) was launched on **1 April, 2015** under the Foreign Trade Policy (FTP) 2015-20. The main objective of this scheme was to enhance the global competitiveness of Indian exporters by providing duty incentives on the export of various products. From 1 January, 2021, this scheme has been replaced by the RoDTEP scheme. **Ans. (d)**

32. The first export processing zone in India was set up in which of the following year?

SSC CPO TIER-I, 09/12/2025 (Shift-01)

- (a) 1949
(b) 1965
(c) 1984
(d) 1992

Exp.- India's first Export Processing Zone (EPZ) was established in **1965** at Kandla in Gujarat, which was not only India's but also Asia's first EPZ.

- The primary objective of establishing this zone was to earn foreign exchange, promote exports, and develop infrastructure for industrial development. **Ans. (b)**

33. The Foreign Investment Promotion Board was initially constituted in India under the _____.

SSC CHSL TIER-I, 30/11/2025 (Shift-02)

- (a) Prime Minister's Office
(b) Parliament of India
(c) Finance Commission
(d) President of India

Exp.- In India, the Foreign Investment Promotion Board (FIPB) was initially constituted under the **Prime Minister's Office (PMO)**, with the objective of providing speedy clearance to Foreign Direct Investment (FDI) proposals.

- However, it was later transferred to the Department of Industrial Policy and Promotion (DIPP) and then to the Department of Economic Affairs under the Ministry of Finance, which was finally abolished in 2017. **Ans. (a)**

34. In India, projects having a minimum investment of Rs. _____ Crore in plant & machinery shall be considered for establishment as EOUS.

SSC CHSL TIER - I, 27/11/2025 (Shift-02)

- (a) 5 (b) 10
(c) 1 (d) 3

Exp.- Under the Export Oriented Units (**EOUs**) scheme in India, those projects are permitted which are committed to exporting their entire production. To attain the status of an EOU under this scheme, a minimum investment of 1 crore rupees in plant and machinery is mandatory. **Ans. (c)**

12

New Economic Policy (NEP) 1991

Economic Policy

1. Economic reforms in India were introduced in which year?

SSC CGL TIER-I, 26/09/2025 (Shift-01)

- (a) 1991 (b) 1984
(c) 2001 (d) 1977

Exp.- Large-scale economic reforms were initiated in India on **24 July, 1991**, when the country was facing a severe balance of payments crisis.

- These reforms were introduced by the then Prime Minister P.V. Narasimha Rao and Finance Minister Dr. Manmohan Singh, which is also known as the "**Rao-Manmohan model**". **Ans. (a)**

2. The economic policy reforms of 1991 are popularly known as:

SSC CGL TIER-I, 25/09/2025 (Shift-01)

- (a) Five-Year Plan
(b) New Fiscal Policy
(c) New Economic Policy
(d) Economic Reconstruction Plan

Exp.- The 1991 reforms are known as the '**New Economic Policy**' (NEP), which was designed based on the '**LPG**' (**Liberalisation, Privatisation and Globalisation**) model. Its objective was to overcome the then balance of payments crisis, dismantle the license raj, and make the Indian economy globally competitive. **Ans. (c)**

3. What was the major short-term objective of the stabilization measures in the 1991 reforms?

SSC CGL TIER-I, 23/09/2025 (Shift-03)

- (a) Increase agricultural production
(b) Enhance social sector spending
(c) Control inflation and restore balance of payments
(d) Privatize public sector units

Exp.- The economic reforms of 1991 were divided into **stabilisation measures and structural reforms**.

- The short-term objective of stabilisation measures was to control inflation, which had reached nearly 17%, and to improve the balance of payments position by dealing with the severe foreign exchange crisis.
□ In this context, the rupee was **devalued by approximately 18-20%** in two stages in July 1991, so that exports could increase and foreign exchange reserves could be strengthened. **Ans. (c)**

4. The India met with an economic crisis in 1991 relating to _____.

SSC CPO TIER-I, 09/12/2025 (Shift-01)

- (a) its external debt
(b) its internal debt
(c) trade embargo from western countries
(d) shortfall in agriculture output due to severe drought

Exp.- In **1991**, India faced economic instability primarily due to a severe crisis of **external debt and balance of payments**, as the country's **foreign exchange reserves** were sufficient to last for only about two weeks of imports. The immediate cause of this crisis was the rise in oil prices due to the **Gulf War** and the increasing interest burden on foreign loans, which forced the government to mortgage its gold and ultimately implement the '**New Economic Policy**'. **Ans. (a)**

5. How did India's trade policy reforms post-1991 impact the import of capital goods?

SSC Stenographer 07/08/2025 (Shift-03)

- (a) Linked capital imports only to foreign companies
(b) Reduced tariffs and removed licensing
(c) Imposed import quotas on machinery
(d) Banned all capital imports

Exp.- Under the trade policy reforms of 1991, the government significantly reduced **import tariffs on capital goods and abolished quantitative restrictions and the licensing system, so that access to foreign and advanced technology could be ensured**. The main objective of these reforms was to make the productivity of the Indian manufacturing sector competitive at the global level and to make the import of foreign machinery easier. **Ans. (b)**

6. Why was the rupee devalued in 1991?
SSC PHASE XIII 24/07/2025 (Shift-03)
- To make imports cheaper
 - To increase foreign aid
 - To boost exports and attract foreign exchange
 - To reduce inflation

Exp.- In 1991, due to the **Balance of Payments (BoP) crisis**, the **rupee** was **devalued**, which made **exports cheaper** and increased the **inflow of foreign exchange**.

- This step was taken to improve **foreign exchange reserves** in accordance with the **New Economic Policy** and the **IMF (International Monetary Fund)** assistance conditions. *Ans. (c)*

7. In which year were the major economic reforms introduced in India?
SSC Stenographer 06/08/2025 (Shift-01)
- 1990
 - 1985
 - 2000
 - 1991

Exp.- Major economic reforms were implemented in India in the year **1991**, which are known as **LPG reforms** (Liberalisation, Privatisation and Globalisation).

- Launched under the leadership of then Prime Minister **P. V. Narasimha Rao** and Finance Minister **Dr. Manmohan Singh**, the main objective of these reforms was to overcome the severe '**Balance of Payments**' crisis and to open the Indian economy to global markets. *Ans. (d)*

8. Which institution played a key role in India's economic reforms by providing loans and policy guidance?
SSC PHASE XIII 31/07/2025 (Shift-02)
- World Bank + IMF
 - SAARC + WTO
 - BRICS Bank + ADB
 - UNDP + UNESCO

Exp.- In 1991, amidst a severe foreign exchange crisis, the **IMF** provided a loan of approximately \$7 billion to India on the condition of adopting economic reforms and policies of **Liberalisation, Privatisation, and Globalisation (LPG)**.

- The **International Bank for Reconstruction and Development (IBRD)** or the **World Bank** provided policy guidance and funds for structural reforms, primarily intended for long-term development. *Ans. (a)*

9. Which of the following was not a goal of 1991 economic reforms?
SSC CPO TIER-I, 10/12/2025 (Shift-01)
- Promote industrial competitiveness
 - Expand public sector control
 - Boost foreign investment
 - Achieve fiscal discipline

Exp.- The main objective of the economic reforms of 1991 (LPG – Liberalisation, Privatisation and Globalisation) was to make the Indian economy more open and competitive.

- **To expand the control of the public sector was not the goal of this policy;** rather, its objective was to limit the role of the public sector and increase the participation of the private sector. *Ans. (b)*

Liberalization

10. Read the below statements marked as Assertion (A) and Reason (R). Mark the correct options:

Assertion (A): The Global Ease of Doing Business (EoDB) rankings gave maximum weightage to starting a business

Reason (R): Starting a business was one of the 10 indicators considered.

SSC CGL TIER-I, 21/09/2025 (Shift-01)

- Both A and R are true, and R is the correct explanation of A
- Both A and R are true, but R is not the correct explanation of A
- A is true, but R is false
- A is false, but R is true

Exp.- In the World Bank's Ease of Doing Business (EODB) ranking, starting a business is one of the 10 indicators; it is important but not the **most significant**, as all indicators hold equal importance. *Ans. (d)*

11. Governments are trying to make rules for businesses simpler and easier to understand. This approach is known as:

SSC CPO TIER-I, 10/12/2025 (Shift-02)

- Making rules harder
- Streamlining regulations
- Ignoring rules
- Creating more rules

Exp.- The process of making rules for businesses simple, clear, and consistent by governments is called **streamlining of regulations**. Its main objective is to reduce "red tape" and promote **ease of doing business**. *Ans. (b)*

12. Economic liberalisation mainly affects which sector?

SSC CGL TIER - I, 17/09/2025 (Shift-01)

- Primary and Tertiary
- Primary and Secondary
- Secondary and Tertiary
- Primary, Secondary, and Tertiary

Exp.- Economic liberalisation reduces government controls and restrictions, which increases investment, competition, and efficiency in all three sectors—**primary (agriculture), secondary (industry), and tertiary (services)**. *Ans. (d)*

13. Which is NOT part of the Washington Consensus?

SSC CGL TIER - I, 19/09/2025 (Shift-03)

- Trade liberalisation
- Fiscal discipline
- Export subsidies
- Tax reform

Exp.- The Washington Consensus is a set of economic reforms that emphasizes free market policies. It does not include export subsidies; instead, it advocates for trade liberalization and the elimination of subsidies to increase market competition. *Ans. (c)*

14. Read the following statements carefully and choose the correct option regarding Assertion (A) and Reason (R)

Assertion (A): One objective of liberalisation was to remove barriers to entry and growth of firms

Reason (R): The license raj restricted entrepreneurial freedom and market competition

SSC CGL TIER-I, 23/09/2025 (Shift-02)

- Both A and R are true and R is the correct explanation of A
- Both A and R are true but R is not the correct explanation of A
- A is true but R is false
- A is false but R is true

Exp.- The objective of the **1991 liberalization** was to end **government control and License Raj** to make entry, expansion, and competition in the market easier, as the previous licensing system had hindered entrepreneurship and production capacity. *Ans. (a)*

15. Read the following statements carefully and choose the correct option regarding Assertion (A) and Reason (R).

Assertion (A): The 1991 reforms led to the opening of the Indian economy to foreign investors

Reason (R): The government wanted to increase domestic savings rate rapidly.

SSC CGL TIER-I, 24/09/2025 (Shift-01)

- Both A and R are true and R is the correct explanation of A
- Both A and R are true but R is not the correct explanation of A
- A is true but R is false
- A is false but R is true

Exp.- Under the economic reforms of 1991, the regulations for **Foreign Direct Investment (FDI)** and **Foreign Institutional Investment (FII)** were liberalised, which opened the doors of India for foreign investors.

- The primary reason for the 1991 reforms was the balance of payments crisis and the severe **shortage** of foreign exchange reserves, rather than just increasing the domestic savings rate. *Ans. (c)*

16. Which sectors were largely excluded from industrial licensing after 1991?

SSC CGL TIER-I, 24/09/2025 (Shift-02)

- Defense and Telecom
- Alcohol, Cigarettes, Explosives
- Textiles and Fertilizers
- Agriculture and Education

Exp.- Under the New Industrial Policy of 1991, the 'License Raj' was abolished, and most consumer and basic industries (such as textiles, fertilizers, and chemicals) were **exempted from licensing**. In contrast, sectors such as alcohol, cigarettes, hazardous chemicals, and industrial explosives were kept under **compulsory licensing** even today due to security, health, and environmental reasons. **Ans. (b)**

17. In _____, a dual exchange rate system called Liberalised Exchange Rate Management System (LERMS) was introduced in India.

SSC CHSL TIER-I, 19/11/2025 (Shift-03)

- (a) February 1993
- (b) March 1992
- (c) May 1992
- (d) October 1992

Exp.- The **Liberalised Exchange Rate Management System (LERMS)** was implemented in India in the year 1992.

□ This was a dual exchange rate system, in which a partial portion of foreign exchange was converted at the market rate and a partial portion at the rate fixed by the RBI. **Ans. (b)**

18. In the context of reform policy introduced in and after 1991, the investment limit in foreign banks was raised to around _____ as part of financial sector reform.

SSC CHSL TIER-I, 26/11/2025 (Shift-02)

- (a) 20%
- (b) 34%
- (c) 43%
- (d) 74%

Exp.- Following the economic reforms of 1991, the limit for Foreign Direct Investment (FDI) in foreign private banks was progressively increased to **74%** to liberalize the banking sector.

□ The main objective of this reform was to encourage global working methods, advanced technology, and higher capital investment in the Indian banking system. **Ans. (d)**

19. Which of the following was the aim of Liberalisation under New Economic Policy 1991 of India?

SSC CHSL TIER - I, 29/11/2025 (Shift-02)

- (a) To put embargo on enemy countries trade.
- (b) To increase restrictions on economic activities.
- (c) To open various sector of the economy.
- (d) To increase non-tariff barrier on Imports.

Exp.- Under India's New Economic Policy 1991, the main objective of liberalization was to end the 'license-permit raj', **free various sectors of the economy from government control**, and encourage private investment.

□ Through this, restrictions on the expansion of industries were removed, import controls were relaxed, and greater freedom was provided to market forces. **Ans. (c)**

20. Read the following statements about Trade Policy Reform:

Statement I: Trade policy reform in India involved removing quantitative restrictions on imports and exports.

Statement II: Trade policy reform increased import licensing to support domestic manufacturers.

SSC Stenographer 08/08/2025 (Shift-03)

- (a) Both statements I and II are correct
- (b) Both statements I and II are incorrect
- (c) Only Statement II is correct
- (d) Only Statement I is correct

Exp.- The main objective of the **trade policy reforms of 1991** was liberalization, under which **quantitative restrictions (quotas)** on imports were removed and **export duties were drastically reduced**. In contrast, the government almost **abolished import licensing** (except for hazardous and environmentally sensitive goods) to integrate the domestic economy with the global market. **Ans. (d)**

21. Which of the following is NOT a liberalization measure?

SSC PHASE XIII 28/07/2025 (Shift-03)

- (a) Deregulation of industries
- (b) Privatization of PSUs
- (c) Simplification of tax structures
- (d) Removal of import licensing

Exp.- **Liberalisation** refers to the **relaxation** of rules and **controls** (such as the removal of **licensing**). Meanwhile, selling **government companies** into private hands is called '**Privatisation**', which is a distinct pillar of **economic reforms**. **Ans. (b)**

22. Which of the following was a key feature of India's trade policy reforms in 1991 period?

SSC PHASE XIII 02/08/2025 (Shift-02)

- (a) Imposing new quantitative restrictions on essential imports
- (b) Expanding import licensing to control foreign trade
- (c) Introducing quotas to limit agricultural exports
- (d) Removal of licensing procedures for imports

Exp.- The main objective was to reduce trade barriers. By abolishing the '**Licence Raj**', licensing procedures for imports were removed. Quantitative restrictions on imported goods were gradually eliminated, import duties were significantly reduced, and the Indian Rupee was devalued. **Ans. (d)**

23. Which of these helps improve Ease of Doing Business (EoDB)?

SSC PHASE XIII 29/08/2025 (Shift-02)

- (a) Long delays
- (b) Simple rules
- (c) High taxes
- (d) Lots of paperwork

Exp.- According to **World Bank** standards, certain key factors are essential to facilitate business in a country.

These include simple and clear regulations, a **single-window clearance system**, reduction in paperwork, speedy resolution of disputes, and a rational and transparent tax system. **Ans. (b)**

24. Read the following statements carefully regarding Assertion (A) and Reason (R):

Assertion (A): The 1991 reforms boosted India's foreign exchange reserves significantly

Reason (R): Liberalized trade policies increased both exports and capital inflows

SSC CGL TIER - I, 17/09/2025 (Shift-01)

- (a) Both A and R are true and R is the correct explanation of A
- (b) Both A and R are true but R is not the correct explanation of A
- (c) A is true but R is false
- (d) A is false but R is true

Exp.- The **economic reforms of 1991** abolished the '**License Raj**' and reduced trade barriers, leading to a massive increase in **Foreign Direct Investment (FDI)** and exports. Therefore, Reason (R) is true.

□ As a result of this increased capital inflow and trade gains, India's **foreign exchange reserves**, which were extremely low during the 1991 crisis, gradually increased and reached a very strong position. Therefore, Assertion (A) is true. **Ans. (a)**

25. Which of the following was a primary objective of Liberalization' within the New Economic Policy (NEP) of 1991.

SSC CGL TIER-II 18/01/2026

- (a) Abolishing industrial licensing for most industries to encourage private entry.
- (b) Expanding the list of industries reserved exclusively for the public sector.
- (c) Strengthening the MRTP Act to restrict the expansion of large business houses.
- (d) Increasing the peak customs duty on imports to protect domestic industries.

Exp.- The **New Economic Policy (NEP)** of 1991 was introduced to lead the Indian economy out of a severe **Balance of Payments (BoP)** crisis.

□ The specific objective of **liberalisation** was to end the "**license-permit raj**," where government permission was required for almost every business decision (**starting, expanding, or closing a factory**). **Ans. (a)**

Privatization

26. The disinvestment of a public sector unit leads to _____.

SSC CHSL TIER-I, 22/11/2025 (Shift-03)

- (a) reduction in financial assets of the government
- (b) increase in the financial assets of the government
- (c) creation of liability of the government
- (d) increase in the tax revenue of the government

Exp.- Disinvestment in Public Sector Enterprises (PSEs) refers to the sale of the government's shareholding, which leads to a reduction in the government's **financial assets**. The funds raised through disinvestment are often used to reduce the **budgetary deficit** or to invest in the development of **social infrastructure**.

Ans. (a)

27. What does "P" in LPG reforms stand for?

SSC CGL TIER-I, 25/09/2025 (Shift-02)

- (a) Planning (b) Privatisation
- (c) Production (d) Poverty

Exp.- In the context of the economic reforms of 1991, **LPG** stands for '**Liberalization, Privatization, and Globalization**'. Here, '**P**' (**Privatization**) means the transfer of ownership, management, or control of public sector enterprises (PSUs) to the private sector.

- **L (Liberalization):** Making the economy more open by relaxing rules and regulations.
- **G (Globalization):** Integrating the country's economy with the global economy.

Ans. (b)

28. Disinvestment involves selling stakes in?

SSC CGL TIER - I, 18/09/2025 (Shift-02)

- (a) NGOs
- (b) Private firms
- (c) Public enterprises
- (d) Trade unions

Exp.- Disinvestment is the process in which the government sells its stake or equity in government-owned Public Sector Undertakings (**PSU**) to the private sector or the general public.

- Its primary objective is to reduce the fiscal deficit, reallocate government resources to other priority sectors (such as health and education), and increase efficiency in public enterprises.

Ans. (c)

29. Read the following statements carefully and choose the correct option regarding Assertion (A) and Reason (R).

Assertion (A): The disinvestment policy has been widely criticized in India.

Reason (R): It resulted in increased market monopoly by public sector undertakings.

SSC CGL TIER - I, 19/09/2025 (Shift-01)

- (a) Both A and R are true and R is the correct explanation of A.
- (b) Both A and R are true but R is not the correct explanation of A.
- (c) A is true but R is false.
- (d) A is false but R is true.

Exp.- Disinvestment in India has been criticized due to the lack of social security and the sale of strategic assets at low prices, making Assertion (A) true.

- The objective of disinvestment is to promote privatization and competition, rather than increasing the monopoly of Public Sector Undertakings (PSUs); therefore, Reason (R) is false.

Ans. (c)

30. Privatization in India through disinvestment refers to:

SSC CGL TIER-I, 22/09/2025 (Shift-02)

- (a) Complete closure of public enterprises
- (b) Issuing bonds to private investors
- (c) Selling part of government equity to public or private entities
- (d) Merging public and private sectors

Exp.- Disinvestment is the process through which the government mobilises resources by selling its **equity** or shares in **Public Sector Undertakings (PSUs)**.

- When the government sells a substantial portion of its stake (specifically more than **51%**) and transfers **management control** to private hands, it is referred to as '**Strategic Disinvestment**' or **Privatisation**.

Ans. (c)

31. How did Second Generation Reforms impact foreign investment in India?

SSC Stenographer 06/08/2025 (Shift-03)

- (a) It reduced foreign investment
- (b) It had no impact on foreign investment
- (c) It restricted foreign companies from entering India
- (d) It increased foreign investment by improving the investment climate

Exp.- The primary objective of second-generation reforms in India (which began in the late **1990s** and early **2000s**) was to reduce bureaucratic hurdles and **improve the investment environment** by opening various sectors to foreign capital. As a result of these reforms, the limits for **FDI** were increased in critical sectors such as automobiles, telecommunications, and insurance, leading to a significant increase in the inflow of Foreign Direct Investment in India.

Ans. (d)

32. What was the primary impact of the 'License Raj' system on industrial growth in India before 1991?

SSC Stenographer 07/08/2025 (Shift-01)

- (a) It created entry barriers, hindered expansion, and fostered inefficiency
- (b) It led to efficient resource allocation and increased competition.
- (c) It ensured balanced regional development and prevented monopolies.
- (d) It promoted rapid industrial diversification and innovation.

Exp.- The **License Raj** (also called the **Quota Raj**) system kept strict government control over the activities of the private sector. As a result, it became difficult to **start new industries and the expansion capacity of existing companies was limited**. Consequently, there was less competition in the market, which slowed innovation and led to heavy inefficiency in the industrial sector.

Ans. (a)

33. Which key reform in 1991 specifically addressed the inefficiency of public sector enterprises and promoted competition in industrial production?

SSC Stenographer 08/08/2025 (Shift-01)

- (a) Privatization of profit-making PSUs
- (b) Fiscal Responsibility Act
- (c) Complex Industrial Licensing process
- (d) Public Distribution System Reform

Exp.- Under the economic reforms of 1991, the process of **disinvestment** and strategic privatisation was initiated, with the objective of reducing government ownership in public sector enterprises (PSUs) and making their management more efficient and professional.

- Along with this, **compulsory licensing for most industries was abolished**, which allowed the entry of the private sector and increased global competition in industrial production.

Ans. (a)

34. The regulatory framework adopted by India between 1947 and 1990, often referred to as the "License Raj," aimed to direct economic activity. While it had certain intended benefits, what was a significant unintended negative consequence often associated with this system?

SSC Stenographer 08/08/2025 (Shift-02)

- (a) A rapid increase in the quality and global competitiveness of Indian-made goods due to stringent quality control measures.
- (b) The fostering of a highly competitive market environment with numerous players in each industry.
- (c) The creation of barriers to entry for new businesses potentially stifling innovation and leading to inefficiencies.
- (d) A significant reduction in corruption and bureaucratic delays in obtaining necessary approvals for economic activities.

Exp.- Under "**License Raj**," businesses required complex government approvals to start or increase production, which eliminated market competition and created entry barriers for new entrepreneurs. As a result, there was a decline in innovation and a boost to monopoly, making Indian industries inefficient and uncompetitive at the global level.

Ans. (c)

35. Read the following Assertion (A) and Reason (R) carefully and choose the correct option:

Assertion (A): The New Economic Policy of 1991 led to more efficient and competitive markets in India.

Reason (R): Privatization reduced government control and improved productivity in public enterprises.

SSC PHASE XIII 29/08/2025 (Shift-02)

- (a) Both A and R are true, and R is the correct explanation of A
- (b) Both A and R are true, but R is not the correct explanation of A
- (c) A is true, but R is false
- (d) A is false, but R is true

Exp.- The 1991 policy removed trade barriers and allowed **Foreign Investment**. This increased market competition and made Indian companies more efficient. Through **Privatization**, government intervention in Public Sector Undertakings (PSUs) was reduced. The introduction of private management and investment improved the efficiency and productivity of these enterprises. **Ans. (a)**

36. Which of the following was a key feature of financial sector reforms under NEP 1991?

SSC CPO TIER-I, 09/12/2025 (Shift-02)

- (a) Increased RBI control
- (b) Nationalization of banks.
- (c) Establishment of private sector banks
- (d) Restriction of FOI in banks

Exp.- Under the New Economic Policy (1991), financial sector reforms were based on the recommendations of the **Narasimham Committee**. Its key feature was **allowing the establishment of private sector banks**, which increased **competition and efficiency** in the banking system.

- As a result, new private banks like **ICICI** and **HDFC** emerged, and the limit for **Foreign Direct Investment (FDI)** in the banking sector was also increased. **Ans. (c)**

37. Which of the following was not a goal of 1991 economic reforms?

SSC CPO TIER-I, 10/12/2025 (Shift-01)

- (a) Promote industrial competitiveness
- (b) Expand public sector control
- (c) Boost foreign investment
- (d) Achieve fiscal discipline

Exp.- The main objective of the economic reforms of 1991 (LPG – Liberalisation, Privatisation and Globalisation) was to make the Indian economy more open and competitive.

- **To expand the control of the public sector was not the goal of this policy**; rather, its objective was to limit the role of the public sector and increase the participation of the private sector. **Ans. (b)**

Globalization

38. Read the following statements carefully and choose the correct option regarding Assertion (A) and Reason (R).

Assertion (A): Globalization led to increased inequality in India.

Reason (R): Growth was unevenly distributed, benefiting mostly urban elite and service sectors.

SSC CGL TIER - I, 18/09/2025 (Shift-02)

- (a) Both A and R are true and R is the correct explanation of A
- (b) Both A and R are true but R is not the correct explanation of A
- (c) A is true but R is false
- (d) A is false but R is true

Exp.- Globalisation accelerated economic development in India, but its benefits did not reach all sectors and groups equally, leading to a widening gap (**inequality**) between the **rich and the poor**.

- There was rapid progress in the service sector (such as IT) and urban areas, while the growth rate of agriculture and **rural areas** remained relatively **slow**. Therefore, both Assertion (A) and Reason (R) are correct. **Ans. (a)**

39. Which reform enabled MNCs to enter India?

SSC CGL TIER - I, 19/09/2025 (Shift-01)

- (a) Land reform
- (b) Globalisation
- (c) Labour law
- (d) Swadeshi

Exp.- Under the economic reforms of 1991, Globalization opened up the Indian economy to global markets, which reduced trade barriers and allowed Multinational Corporations (MNCs) to invest and enter India. **Ans. (b)**

40. What is the role of WTO with respect to globalization?

SSC CGL TIER-I, 23/09/2025 (Shift-01)

- (a) Provide military support
- (b) Monitor human rights violations
- (c) Ensure fair trade rules among nations
- (d) Control migration policies

Exp.- In the era of globalization, the **WTO** is a global regulator that makes international trade smooth, rule-based, and relatively free; it provides a platform to reduce barriers like tariffs and quotas and ensure fair competition.

- Established on January 1, 1995 (**Headquarters: Geneva**), the WTO handles dispute settlement and increases the market access of developing countries while preventing discrimination through principles like **MFN** and national treatment. **Ans. (c)**

41. Which of the following statements about output markets in an open economy is correct?

SSC CGL TIER-I, 24/09/2025 (Shift-01)

- (a) A country can only produce what it consumes
- (b) Consumers are restricted to domestically produced goods
- (c) Trade in goods and services allows wider consumer and producer choice
- (d) Only producers benefit from international trade

Exp.- An open economy is one that trades goods, services, and assets at the global level, which allows consumers to choose quality goods at competitive prices from around the world, and producers to export their goods and access the global market. **Ans. (c)**

42. Read the following statements carefully and choose the correct option regarding Assertion (A) and Reason (R).

Assertion (A): Globalization has led to increased outsourcing of services to India.

Reason (R): India offers high-cost, low-skill services to foreign companies.

SSC CGL TIER-I, 26/09/2025 (Shift-02)

- (a) Both A and R are true and R is the correct explanation of A.
- (b) Both A and R are true but R is not the correct explanation of A.
- (c) A is true but R is false.
- (d) A is false but R is true.

Exp.- After globalization in 1991, India has become a major hub for outsourcing for the world due to improvements in communication technology and favorable policies. Therefore, Assertion (A) is correct.

- However, Reason (R) is incorrect because India provides '**low-cost**' and '**high-skill**' services (such as IT and software development) to foreign companies, rather than 'high-cost' services. **Ans. (c)**

43. FDI is a part of which reform pillar?

SSC CGL TIER-I, 26/09/2025 (Shift-03)

- (a) Liberalisation
- (b) Privatisation
- (c) Globalisation
- (d) Nationalisation

Exp.- Foreign Direct Investment (**FDI**) is a key component of the process of globalization, as it allows foreign companies to invest in the Indian economy and expand trade across borders.

- The objective of globalization is to integrate the domestic economy with the rest of the world, in which **FDI** plays an important role in bringing in capital, technology, and international management skills. **Ans. (c)**

44. Read the following statements carefully and choose the correct option regarding Assertion (A) and Reason (R).

Assertion (A): Tax reforms post-1991 included lowering income tax rates.

Reason (R): Lower tax rates were believed to increase tax compliance and reduce evasion.

SSC CPO TIER-I, 10/12/2025 (Shift-02)

- (a) Both A and R are true and R is the correct explanation of A
- (b) Both A and R are true but R is not the correct explanation of A
- (c) A is true but R is false
- (d) A is false but R is true

Exp.- During the **Economic Reforms of 1991 (LPG)**, the Government of India reduced the rates of direct taxes (such as income tax) to simplify the tax structure. The main argument behind this reform was that excessively high tax rates induce people toward **tax evasion**, whereas moderate and rational tax rates encourage **tax compliance**.

- This principle is based on the '**Laffer Curve**', which suggests that beyond a certain point, increasing tax rates actually leads to a decrease in the government's total revenue. **Ans. (a)**

45. Which of the following is a key reason for the decline in the agricultural sector in India after 1991 economic reforms?

SSC Stenographer 06/08/2025 (Shift-01)

- (a) Rising minimum support prices for all crops
- (b) Greater protection through higher import duties
- (c) Shift toward export-oriented cash crops and reduced public investment
- (d) Increased investment in irrigation and rural infrastructure

Exp.- Following the **economic reforms of 1991 (LPG)**, the main reason for the decline in the growth rate of the agricultural sector in India was the reduction in public investment and the shift in cropping patterns from **food grains to cash crops**.

- During the reforms, the government's focus was on reducing the fiscal deficit, which led to a decrease in investment in vital areas such as irrigation, power, and rural infrastructure. Additionally, due to integration with the global market, farmers started growing cash crops for export, which increased costs and heightened the risk for small farmers.

Ans. (c)

46. What role did the WTO membership (1995) play in India's post-reform globalization strategy?

SSC Stenographer 07/08/2025 (Shift-02)

- (a) Strengthened balance of payments
- (b) Deepened India's integration into global trade
- (c) Abolished domestic subsidies completely
- (d) Encouraged protective tariffs

Exp.- By becoming a **founding member of the World Trade Organization (WTO) in 1995**, India obtained a multilateral **legal framework** to integrate its economy with **global trade**.

- Its membership encouraged **India** to reduce **import barriers** and open new markets for exports, which increased the country's participation in the **global value chain**.

Ans. (b)

13

National Financial Institutions

1. In which year did SEBI formulate the "Insider Trading Regulations"?

SSC CHSL TIER-I, 13/11/2025 (Shift-01)

- (a) 1996
- (b) 1990
- (c) 1992
- (d) 1994

Exp.- The Securities and Exchange Board of India (SEBI) notified the '**Insider Trading Regulations**' in the year **1992** to ensure transparency in the stock market and to prevent the misuse of confidential information. This was the first formal regulatory framework in India to prohibit trading based on Unpublished Price-Sensitive Information (UPSI). **Ans. (c)**

2. The Pension Fund Regulatory and Development Authority was established in India in _____.

SSC CHSL TIER-I, 17/11/2025 (Shift-03)

- (a) 1992
- (b) 2003
- (c) 2009
- (d) 2012

Exp.- The Pension Fund Regulatory and Development Authority (PFRDA) was established on **August 23, 2003**. Its headquarters is in New Delhi, and its objective is to regulate and develop the pension sector in India. **Ans. (b)**

3. In which year were regulations for underwriters issued by SEBI?

SSC CHSL TIER-I, 28/11/2025 (Shift-03)

- (a) 1991
- (b) 1997
- (c) 1993
- (d) 1995

Exp.- Regulations for underwriters were issued by the Securities and Exchange Board of India (SEBI) in **1993**. The main objective of these regulations was to regulate the registration, responsibilities, and the code of conduct to be followed by underwriters in the securities market. **Ans. (c)**

4. Which of the following is a key responsibility of IRDAI?

SSC Stenographer 08/08/2025 (Shift-02)

- (a) Protecting the interests of insurance policyholders
- (b) Regulating the stock market
- (c) Managing disinvestment in public sector enterprises
- (d) Promoting foreign trade

Exp.- The primary objective of **IRDAI** is to protect the interests of policyholders and to ensure the fair and orderly growth of the insurance industry. This authority frames rules and specifications for the registration of insurance companies, monitoring the settlement of claims, and fixing accountability towards policyholders.

- **IRDAI** was established on the basis of the recommendations of the **Malhotra Committee** under the **IRDAI Act, 1999**.

Ans. (a)

14

Demography

1. Which of the following objectives are part of the National Population Policy (NPP) 2000?

- 1. Providing free and compulsory education up to 14 years of age
- 2. Increasing fertility rate to ensure demographic dividend
- 3. Reducing infant mortality rate below 30 per 1000 live births
- 4. Promoting delayed marriage for girls

SSC CGL TIER-I, 12/09/2025 (Shift-01)

- (a) Only 1 and 2 are correct
- (b) Only 1 and 3 are correct
- (c) Only 1, 3 and 4 are correct
- (d) 1, 2, 3 and 4 all are correct

Exp.- The major objectives of the National Population Policy (NPP) 2000 include providing free education up to **14 years** of age, reducing the Infant Mortality Rate (**IMR**) to below **30**, and increasing the marriage age for girls. Therefore, statements 1, 3, and 4 are correct.

- The objective of this policy is not to increase the fertility rate, but rather to achieve population stabilization by reducing it to the 'replacement level'. Therefore, statement 2 is incorrect.

Ans. (c)

2. What is meant by population density?

SSC CGL TIER-I, 12/09/2025 (Shift-02)

- (a) Population per household
- (b) People per square kilometre
- (c) People per region
- (d) People per district

Exp.- Population density refers to the average number of people living per unit area of land (usually **1 square kilometre**). To calculate it, the total population is divided by the total area of that region.

Population Density = Total Population / Total Area (in sq. km)

Ans. (b)

3. Assertion (A) and Reason (R) are given below. Choose the correct option:

Assertion (A): Population explosion occurs when death rates decline rapidly but birth rates remain high.

Reason (R): Societal reproductive behavior changes instantly with improvements in healthcare.

SSC CGL TIER-I, 12/09/2025 (Shift-02)

- (a) Both A and R are true, and R is the correct explanation of A

- (b) Both A and R are true, but R is not the correct explanation
(c) A is true, but R is false
(d) A is false, but R is true

Exp.- Assertion (A) is true. However, **Reason (R)** is false because, with the improvement in health services, the death rate falls immediately, but it takes several decades or generations for changes to occur in the social and reproductive behaviour of people (such as preference for a small family); it does not happen 'immediately'. **Ans. (c)**

4. Which of the following best describes the rate of natural increase of population?
SSC CGL TIER-I, 13/09/2025 (Shift-01)
(a) It is the crude birth rate multiplied by crude death rate
(b) It is the ratio of working population to total population
(c) It is the difference between the birth rate and the death rate
(d) It is the average annual growth due to migration alone

Exp.- The natural growth rate of population is the difference between the **birth rate and death rate** in a region during a specific time period. When the birth rate is higher than the death rate, there is a natural increase in population. This does not include the influence of migration. **Ans. (c)**

5. Assertion (A) and Reason (R) are given below. Choose the correct option:
Assertion (A): Population growth can be measured in absolute numbers and percentage change per year.
Reason (R): Measuring growth only in absolute numbers provides detailed insights into population trends over time.
SSC CGL TIER-I, 13/09/2025 (Shift-02)
(a) Both A and R are true, and R explains A
(b) Both A and R are true, but R does not explain A
(c) A is true, but R is false
(d) A is false, but R is true

Exp.- Population growth is expressed in terms of both the total number of individuals (**absolute numbers**) and the **percentage growth rate**. Thus, Assertion (A) is true.
☐ However, absolute numbers do not indicate the pace at which the population is growing; to understand the actual trends and speed of population, an analysis of the **annual percentage growth rate** is essential. Thus, Reason (R) is false. **Ans. (c)**

6. Assertion (A) and Reason (R) are given below. Choose the correct option:
Assertion (A): Demographic statistics like birth and death rates rely on accurate reporting by households.
Reason (R): Birth and death registration is mandatory and always accurately followed in all parts of India.
SSC CGL TIER-I, 14/09/2025 (Shift-01)

- (a) Both A and R are true, and R is the correct explanation of A
(b) Both A and R are true, but R is not the correct explanation
(c) A is true, but R is false
(d) A is false, but R is true

Exp.- For government records, birth and death data are primarily based on reporting by families; hence, **Assertion (A)** is true.

- ☐ Although registration is mandatory under the 'Registration of Births and Deaths Act, 1969', it is not always accurately followed in practice due to a lack of awareness and administrative hurdles; hence, **Reason (R)** is false. **Ans. (c)**

7. Which of the following statement accurately reflects the relationship between demographic transition and replacement level?
SSC CGL TIER-I, 14/09/2025 (Shift-03)
(a) In the third stage, fertility begins to approach replacement level
(b) Population stabilization occurs when fertility rate drops below replacement level
(c) The transition from high growth to low growth aligns with reaching replacement level
(d) Replacement level is unrelated to demographic transition

Exp.- In the demographic transition model, the process of moving from high birth and death rates to low birth and death rates stabilizes when the Total Fertility Rate reaches the replacement level (TFR = 2.1). This transition indicates a shift from the 'explosive stage' of population towards '**stabilization**', where the population growth rate becomes minimal. **Ans. (c)**

8. Assertion (A) and Reason (R) are given below. Choose the correct option:
Assertion (A): The Population Enumeration phase of Census 2011 in most parts of India was conducted in February 2011.
Reason (R): House Listing and Housing Census was postponed to ensure simultaneous data collection.
SSC CGL TIER-I, 15/09/2025 (Shift-03)
(a) Both A and R are true, and R is the correct explanation of A
(b) Both A and R are true, but R is not the correct explanation of A
(c) A is true, but R is false
(d) A is false, but R is true

Exp.- The population enumeration phase of the 2011 Census was conducted in most parts of the country in February 2011 (primarily 9–28 February). Therefore, statement (A) is correct. The Houselisting and Housing Census was not postponed; rather, this phase had already been completed in 2010. Both phases are conducted at different times so that the data is more accurate. Therefore, reason (R) is false. **Ans. (c)**

9. Uttar Pradesh accounted for approximately what percent of India's total population in 2011?
SSC CGL TIER - I, 16/09/2025 (Shift-01)
(a) 10% (b) 12%
(c) 16% (d) 18%

Exp.- According to Census 2011, the total population of Uttar Pradesh was approximately **19.98 crore**, which accounts for **16.51%** (approx. 16%) of the total population of India (121.08 crore).

- ☐ In terms of population, **Uttar Pradesh is the largest state of India.** **Ans. (c)**

10. What was India's urban population percentage in Census 2011?
SSC CGL TIER - I, 16/09/2025 (Shift-03)
(a) 24% (b) 31%
(c) 36% (d) 41%

Exp.- According to Census 2011, **about 31%** of India's total population resided in urban areas, while **69%** was in rural areas.

- ☐ Goa is the most urbanised state of India (62.2% urban population), while **Himachal Pradesh** has the lowest percentage of urban population (10%). **Ans. (b)**

11. Which of the following is unrelated to the components of population change?
SSC CGL TIER - I, 17/09/2025 (Shift-02)
(a) Births (b) Deaths
(c) Migration (d) Employment

Exp.- The main components of population change are births, deaths, and migration. These three directly increase or decrease the total population of an area.

- ☐ Employment is not a component of population; it can only affect population distribution and standard of living, but it is not directly involved in population growth or decline. **Ans. (d)**

12. Which of the following statements best explains why age-specific rates are used in demography?
SSC CGL TIER - I, 18/09/2025 (Shift-01)
(a) They help identify regional literacy levels
(b) They reflect age-wise variation in fertility or mortality
(c) They show the economic condition of elderly people
(d) They reduce the total number of indicators needed

Exp.- Age-specific rates are important in demography because the probability of birth and death varies at different stages of life. Instead of the average of the total population, these rates provide a precise analysis of age-wise variation, clarifying the actual trends of fertility and mortality. **Ans. (b)**

13. Which of the Indian States/Union Territories had lowest sex ratio in 2011?
SSC CGL TIER - I, 19/09/2025 (Shift-02)
(a) Haryana
(b) Daman and Diu
(c) Punjab
(d) Dadra and Nagar Haveli

Exp.- According to the 2011 Census, the lowest sex ratio in India was recorded in the Union Territory of Daman and Diu, where there were only 618 females per 1000 males. Among the states, the lowest sex ratio was recorded in Haryana (879). Overall (including both States and UTs), it was lowest in Daman and Diu. **Ans. (b)**

14. Which of these statements is/are correct regarding the Census of India, 2011?
1. Muslims outnumber all other minorities in India, but they do not form a majority in any of the Indian states.
 2. Christian population is distributed mostly in urban areas of India.
 3. Jains have a major concentration in the urban areas of Rajasthan, Gujarat and Maharashtra, while the Buddhists are concentrated mostly in Maharashtra
- SSC CGL TIER-I, 23/09/2025 (Shift-02)**
- (a) 1 and 3 only (b) 3 only
(c) 2 and 3 only (d) 1 and 2 only

Exp.- According to the 2011 Census, Muslims are the largest minority group in India (approx. 14.2% of the population) but are **not a majority in any state**.

- ❑ **Christians: This is the second largest religious minority group after Muslims**, although their settlement is higher in rural areas.
- ❑ **Jains: Concentrated in urban areas**, primarily in **Rajasthan, Gujarat and Maharashtra**. **Ans. (b)**

15. Consider the following about population growth in India:

Statement-1: The population pyramid in India is broad at the base and top and narrow in the middle

Statement-II: India has a large proportion of young population due to high birth rates and declining death rates

Which one of the following is CORRECT in respect of the above statements?

SSC CGL TIER-I, 24/09/2025 (Shift-01)

- (a) Both Statement-1 and Statement-II are correct and Statement-II is the correct explanation for Statement-1
- (b) Both Statement-1 and Statement-II are correct and Statement-II is not the correct explanation for Statement-1
- (c) Statement-1 is correct but Statement-II incorrect
- (d) Statement-1 incorrect but Statement-II is correct

Exp.- India's population pyramid is wide at the base and narrow at the top; therefore, Statement I is incorrect.

- ❑ Due to a high birth rate and a declining death rate, India has a high proportion of young population; therefore, **Statement II is correct**.

Ans. (d)

16. With reference to the theory of demographic transition, consider the following statements:

1. For the initial two state of the demographic cycle, a high fertility rate and death rate would result in high population growth
2. In the third stage, both fertility and mortality factors would decline significantly.
3. The demographic transition theory does not explicitly take into account the migration factor.
4. Social and cultural factors can greatly affect the population, which can impact what the theory predicts.

Which of the statements given above is/are CORRECT?

SSC CGL TIER-I, 26/09/2025 (Shift-02)

- (a) 1, 2 and 3 only
(b) 2, 3 and 4 only
(c) 1, 3 and 4 only
(d) 2 and 4 only

Exp.- In the initial stage of the Demographic Transition Theory, population growth is low due to high birth and death rates; therefore, statement 1 is incorrect.

- ❑ In the third stage, there is a distinct decline in the birth rate, and the death rate also becomes low and stable; therefore, statement 2 is correct.
- ❑ This theory does not include migration, therefore, statement 3 is correct.
- ❑ Social and cultural factors influence population change, therefore, statement 4 is also correct. **Ans. (b)**

17. What is the proportion of 'Juvenile Population' (0-14 years) in India as per 2011 Census ?

SSC CGL TIER-I, 26/09/2025 (Shift-03)

- (a) 29.33% of total population
(b) 30.76% of total population
(c) 27.64% of total population
(d) 33.54% of total population

Exp.- According to the official data of the 2011 Census, the total population in the 0-14 year age group in India was 29.33%, representing the total population (121.09 crore). This adolescent population is the basis for the country's future human resources and 'demographic dividend'.

Ans. (a)

18. In demographic terms, death rate is measured over which standard unit?

SSC CGL TIER-I, 14/10/2025 (Shift-02)

- (a) Per hundred people
(b) Per year
(c) Per ten thousand people
(d) Per thousand people in a year

Exp.- In **demography**, the **Crude Death Rate (CDR)** is measured as the number of deaths in a particular year per **1,000 of the population**.

Ans. (d)

19. Which of the following best defines Population density in the context of india,s demographic studies?

SSC CPO TIER-I, 09/12/2025 (Shift-01)

- (a) The number of people living in Urban area of a state
- (b) The ratio of Employment individuals to the total population
- (c) The number of persons per unit area of land
- (d) The total population of a country divided by its total Income

Exp.- Population density refers to the average number of people living per square kilometer (1 km²) area.

- ❑ According to the 2011 Census, the population density of India is **382 persons per sq km**. **Ans. (c)**

20. Assertion (A) and Reason (R) are given below. Choose the correct option:

Assertion (A): Annual growth rate reflects the pace at which population increases in a given year.

Reason (R): A 2% annual growth rate means two new persons are added per 100 persons in the base population.

SSC CPO TIER-I, 09/12/2025 (Shift-01)

- (a) Both A and R are true, and R is the correct explanation of A
- (b) Both A and R are true, but R is not the correct explanation of A
- (c) A is true, but R is false
- (d) A is false, but R is true

Exp.- The annual growth rate measures the pace of population change, indicating the increase in population each year. An annual rate of 2% means there is a **net increase of 2 persons for every 100 persons**, which is the standard formula for calculating population growth. Therefore, both Assertion (A) and Reason (R) are true and (R) is the correct explanation. **Ans. (a)**

21. Which of the following statements correctly defines population stabilization?

SSC CPO TIER-I, 09/12/2025 (Shift-02)

- (a) It refers to the stage where fertility becomes higher than mortality
- (b) It refers to zero birth rate
- (c) It occurs when the difference between birth rate and death rate is negligible
- (d) It indicates exponential growth of urban population

Exp.- Population stabilization is a stage when birth rates and death rates become almost equal, resulting in a stable total population size. In this situation, the **Net Reproduction Rate becomes equal to 1** and the natural growth rate reaches near zero. This represents the final stage of **demographic transition**. **Ans. (c)**

22. According to Census 2011, which state had the lowest population density in India?

SSC CPO TIER-I, 10/12/2025 (Shift-01)

- (a) Sikkim
- (b) Nagaland
- (c) Arunachal Pradesh
- (d) Meghalaya

Exp.- According to Census 2011, Arunachal Pradesh had the lowest population density, at approximately **17 persons per square km**. The primary reasons for this are mountainous relief, dense forests, inaccessible terrain, and limited urbanisation. **Ans. (c)**

23. Assertion (A) and Reason (R) are given below. Choose the correct option:

Assertion (A): The death rate measures the number of deaths per 100 people in a population.

Reason (R): Death rate helps track the health and mortality trends in a region.

SSC CPO TIER-I, 10/12/2025 (Shift-01)

- (a) Both A and R are true, and R is the correct explanation of A
(b) Both A and R are true, but R is not the correct explanation
(c) A is true, but R is false
(d) A is false, but R is true

Exp.- In demographics, the death rate is generally measured not per 100 persons, but as the number of deaths **per 1,000 persons**.

- The data on death rate helps health officials understand the impact of diseases, improvement in the standard of living, and the effectiveness of medical facilities, which determines future health policies. **Ans. (d)**

24. Assertion (A) and Reason (R) are given below. Choose the correct option:

Assertion (A): Improvements in nutrition and public health reduce mortality rates.

Reason (R): Lower mortality leads to an immediate fall in birth rates.

SSC CPO TIER-I, 10/12/2025 (Shift-02)

- (a) Both A and R are true, and R is the correct explanation of A
(b) Both A and R are true, but R is not the correct explanation of A
(c) A is true, but R is false
(d) A is false, but R is true

Exp.- Better nutrition, clean drinking water, and effective public health facilities (such as vaccination and medical services) control diseases, which leads to a decline in the death rate and an increase in life expectancy.

- A decline in the death rate does not immediately lead to a decline in the birth rate; rather, when the birth rate remains high and the death rate declines, there is a **rapid increase in population**. Therefore, Reason (R) is false. **Ans. (c)**

25. As per Census 2011, what was the population density of India?

SSC CPO TIER-I, 11/12/2025 (Shift-01)

- (a) 421 persons per sq km
(b) 394 persons per sq km
(c) 382 persons per sq km
(d) 365 persons per sq km

Exp.- According to the official data of the 2011 Census, the population density of India was 382 persons per sq km, which shows an increase of 58 persons per sq km compared to the 2001 Census (324 persons per sq km).

- Among the states, Bihar has the highest density, while among the Union Territories, it is Delhi. **Ans. (c)**

26. Which of the following states had the highest level of urbanization in India as per the 2011 Census?

SSC CPO TIER-I, 11/12/2025 (Shift-02)

- (a) Kerala (b) Goa
(c) Tamil Nadu (d) West Bengal

Exp.- According to the **2011 Census**, Goa was the most urbanised state in India with an urban population of **62.17%**. This was followed by Mizoram and Tamil Nadu. Among the Union Territories, Delhi and Chandigarh were at the top. **Ans. (b)**

27. Consider the following statements about India's population growth since 1981 and choose the correct option:

SSC CPO TIER-I, 11/12/2025 (Shift-02)

- The rate of population growth began to decline gradually after 1981.
 - Birth rates continued to rise sharply in the 1990s.
 - Despite declining growth rate, 182 million people were added in the 1990s.
- (a) Only 1 and 2 are correct
(b) Only 2 and 3 are correct
(c) Only 1 and 3 are correct
(d) All 1, 2 and 3 are correct

Exp.- Since 1981, the **growth rate of India's population** has started to decline gradually. However, despite a declining growth rate, about 182 million people were added to the population in the 1990s.

- In the 1990s, there was no rapid increase in the **birth rate**; rather, it started to decline due to **family planning**. **Ans. (c)**

28. Which of the following is NOT a push factor of migration?

SSC CHSL TIER-I, 28/11/2025 (Shift-03)

- (a) Unemployment
(b) Poor living conditions
(c) Political turmoil
(d) Better job opportunities

Exp.- Among the factors of migration, **better work opportunities** are a '**pull factor**', and not a push factor, because they attract people from their place of origin toward a new place. In contrast, unemployment, political instability, and poor living standards are '**push factors**' that force people to leave their place of residence. **Ans. (d)**

29. As per Census 2011, what was the population density of Bihar, the most densely populated state in India?

SSC CPO TIER-I, 12/12/2025 (Shift-02)

- (a) 918 persons/sq km
(b) 1029 persons/sq km
(c) 1102 persons/sq km
(d) 1138 persons/sq km

Exp.- According to the **Census of 2011**, Bihar is the state with the highest **population density** in India, with a density of **1102 persons per sq km**. It surpassed West Bengal (1028 persons/sq km), which was at the top in the **2001 Census**. At the national level, the **average population density** of India is **382 persons per sq km**. **Ans. (c)**

30. What led to the decline in mortality rate in India during 1921-1951?

SSC CHSL TIER-I, 12/11/2025 (Shift-02)

- (a) Second world war
(b) Improved health and sanitation
(c) Increase in birth rate
(d) Artificial intelligence

Exp.- After 1921, better control was achieved over deadly diseases like plague, cholera, and smallpox.

- The year 1921 is known as the "**Great Divide**" of Indian population because, after this year, a continuous decline in the death rate and an increase in population were recorded. **Ans. (b)**

31. In the context of population change, if the birth rate is _____ than death rate, the population will _____.

SSC CHSL TIER-I, 13/11/2025 (Shift-01)

- (a) more, be increase (b) more, be decrease
(c) less, be increase (d) less, remain same

Exp.- Change in population depends on the difference between the birth rate and the death rate (**natural growth rate**). If the birth rate is higher than the death rate, the population increases; if it is lower, it decreases; and when both are equal, it is called **zero population growth**. **Ans. (a)**

32. As of February 2025, Scheduled Tribe (ST) individuals comprising of the total population in India.

SSC CHSL TIER-I, 13/11/2025 (Shift-02)

- (a) 8.6% (b) 5.5%
(c) 9.8% (d) 12.2%

Exp.- According to the **2011 Census**, the population of Scheduled Tribes in India was **10.42 crore (8.6%)**; **Madhya Pradesh** has the highest number, while **Lakshadweep (94.8%)** and **Mizoram (94.4%)** have the highest percentage, and the sex ratio of Scheduled Tribes is **990**, which is better than the national average of **943**. **Ans. (a)**

33. There are mainly _____ main processes of change of population.

SSC CHSL TIER-I, 14/11/2025 (Shift-01)

- (a) 3 (b) 5
(c) 6 (d) 7

Exp.- There are mainly 3 processes of population change-

- **Birth Rate:** The number of live births per thousand persons in a given time period.
□ **Death Rate:** The number of deaths per thousand persons in a given time period.
□ **Migration:** The movement of people across regions and territories. **Ans. (a)**

34. National Population Policy 2000 aim to stabilize India's population growth by_____.

SSC CHSL TIER-I, 14/11/2025 (Shift-02)

- (a) 2045 (b) 2050
(c) 2055 (d) 2060

Exp.- The goal of the **National Population Policy** of February 2000 is to stabilize the population, which includes the immediate objective of providing health and family planning services, the medium-term objective of bringing the TFR to 2.1 by 2010, and the long-term objective of stabilizing the population by 2045.

Ans. (a)

35. The level of urbanisation in India in 2011 was_____.

SSC CHSL TIER-I, 14/11/2025 (Shift-03)

- (a) 31.16% (b) 41.16%
(c) 21.16% (d) 45.16%

Exp.- According to the 2011 Census, the level of urbanization in India was **31.16%**, while the remaining 68.84% of the population resided in rural areas.

□ During this census, the growth rate of the urban population (31.8%) was recorded to be significantly higher than the growth rate of the rural population (12.3%).

Ans. (a)

36. As per census 2001, what was the sex ratio of India?

SSC CHSL TIER-I, 18/11/2025 (Shift-01)

- (a) 933 (b) 912
(c) 920 (d) 981

Exp.- Sex ratio is a major social indicator that shows the **number of females per 1000 males**, which was **933** in the 2001 census and shows a slight improvement compared to 927 in 1991.

Ans. (a)

37. Among these, which state experienced a population of over 100 million as per 2011 Census?

SSC CHSL TIER-I, 18/11/2025 (Shift-03)

- (a) West Bengal
(b) Madhya Pradesh
(c) Bihar
(d) Rajasthan

Exp.- According to the 2011 Census, the population of **Bihar** was more than **100 million (10 crore)**, while the population of West Bengal (approx. 9.13 crore), Madhya Pradesh (approx. 7.26 crore) and Rajasthan (approx. 6.85 crore) was less than 100 million.

Ans. (c)

38. As per MOSPI report of 2024, the female population of India by 2036 will be_____ of total population.

SSC CHSL TIER-I, 19/11/2025 (Shift-01)

- (a) 48.8% (b) 41.8%
(c) 53.8% (d) 51.8%

Exp.- According to MoSPI's '**Women and Men in India 2024**' report, due to improvements in health services, India's female population is projected to increase from 48.5% in 2011 to **48.8% by 2036**. During the same period, the sex ratio is also expected to improve to **952**.

Ans. (a)

39. India's Socio Economic and Caste Census (SECC) 2011 has a meaningful use in which of the following initiative?

I. MGNREGA

II. National Food Security Act

SSC CHSL TIER-I, 19/11/2025 (Shift-03)

- (a) Only I (b) Only II
(c) Both I and II (d) Neither I nor II

Exp.- SECC 2011 data is used by the Central and State governments for the accurate identification of beneficiaries of social welfare schemes. This census data has been made the basis for providing work to backward households under **MGNREGA** and for making food grains available at affordable rates to eligible households under the **National Food Security Act (NFSA)**.

Ans. (c)

40. Which religious community had the second-largest population in India as per Census 2011?

SSC CHSL TIER-I, 21/11/2025 (Shift-02)

- (a) Christian (b) Sikh
(c) Muslim (d) Buddhist

Exp.- According to the 2011 Census, the population of the **Muslim community in India was the second largest**, which is approximately **14.2%** (17.22 crore) of the total population. After Hinduism (79.8%), it is the largest minority group in the country, while Christianity (2.3%) comes in third place.

Ans. (c)

41. The first complete census of an Indian city was conducted in_____.

SSC CHSL TIER-I, 21/11/2025 (Shift-03)

- (a) 1830 (b) 1810
(c) 1840 (d) 1820

Exp.- The census conducted in Dhaka (now in Bangladesh) by Henry Walter in **1830** is considered the first complete and systematic census of any Indian city. It collected data on demographic characteristics of the population such as sex, age, and households, which laid the foundation for the history of modern census in India.

Ans. (a)

42. In India, Socio-Economic and Caste Census (SECC) 2011 was conducted by which of the following?

I. Ministry of Rural Development
II. Ministry of Housing and Urban Affairs

SSC CHSL TIER-I, 21/11/2025 (Shift-03)

- (a) Only I
(b) Only II
(c) Both I and II
(d) Neither I nor II

Exp.- SECC 2011 was conducted by the Ministry of Rural Development for rural areas and by the Ministry of Housing and Urban Poverty Alleviation (now the Ministry of Housing and Urban Affairs) for urban areas.

□ This census was conducted to collect caste-based data for the first time since **1931** and to identify households below the poverty line.

Ans. (c)

43. What was the literacy rate of India as per census 1951?

SSC CHSL TIER-I, 22/11/2025 (Shift-01)

- (a) 18.33% (b) 28.33%
(c) 10.33% (d) 9.33%

Exp.- According to the **1951 Census** (the first census of independent India), the total **literacy rate** in India was only **18.33%**. In this, the male literacy rate was recorded at **27.16%**, while the female literacy rate was a very low **8.86%**. According to the **2011 Census**, India's literacy rate is **74.04%**.

Ans. (a)

44. As per India's Socio Economic and Caste Census (SECC) 2011, the total households in the country (Rural plus Urban) was_____ crores.

SSC CHSL TIER-I, 22/11/2025 (Shift-03)

- (a) 24.49 (b) 27.97
(c) 11.97 (d) 31.28

Exp.- According to the data of the **Socio-Economic and Caste Census (SECC) 2011**, the total number of households in India was recorded as **24.49 crore**. Out of these, **17.97 crore households** lived in rural areas and 6.52 crore households lived in urban areas. This census was the first **caste-based enumeration** conducted in India since 1931.

Ans. (a)

45. How many total districts were covered in the India's Socio Economic and Caste Census (SECC) 2011 survey?

SSC CHSL TIER-I, 22/11/2025 (Shift-03)

- (a) 640 (b) 680
(c) 750 (d) 730

Exp.- The **Socio-Economic and Caste Census (SECC) 2011** of India was conducted across all **640 districts** of the country. Its primary objective was to assess the economic status of various social groups in order to ensure that the benefits of government schemes reach the intended beneficiaries.

Ans. (a)

46. The period from_____ is referred to as a period of stagnant or stationary phase of growth of India's population.

SSC CHSL TIER-I, 24/11/2025 (Shift-01)

- (a) 1901-1921 (b) 1921-1941
(c) 1911-1931 (d) 1891-1921

Exp.- The period from **1901-1921** in India is known as the **stagnant or stationary phase** of population growth, as both birth rate and death rate were very high during this period. Especially in the decade of 1911-1921, due to famines and epidemics (such as influenza), India recorded a **negative population growth rate (-0.31%)**, which is referred to as the stagnation before the '**Year of the Great Divide**' (1921) in statistical history.

Ans. (a)

47. According to the Census 2011, which state had a negative growth rate in decadal population?

SSC CHSL TIER-I, 24/11/2025 (Shift-02)

- (a) Nagaland (b) Mizoram
(c) Daman & Diu (d) Lakshadweep

Exp.- According to the 2011 Census, **Nagaland was the only state that recorded a negative decadal population growth rate of 0.58%**. This was a rare occurrence in India's statistical history, as in the 2001 Census, the same state had shown the highest growth rate (64.53%) in the country. **Ans. (a)**

48. According to the Report of the Technical Group on Population Projections (July 2020), India's elderly population is expected to reach _____ million by 2031.

SSC CHSL TIER-I, 25/11/2025 (Shift-01)

- (a) 103.4 (b) 91.4
(c) 113.4 (d) 193.4

Exp.- According to the report of the Technical Group on Population Projections (July 2020), the number of elderly (60 years and above) in India is projected to increase from 103.8 million in 2011 to **193.4 million** by 2031. This increase is occurring due to improvements in health services and rising life expectancy. **Ans. (d)**

49. The decades _____ are referred to as the period of steady population growth.

SSC CHSL TIER-I, 25/11/2025 (Shift-01)

- (a) 1921-1951 (b) 1921-1941
(c) 1911-1931 (d) 1931-1981

Exp.- In the demographic history of India, the period of **1921-1951** is known as the phase of steady population growth, because during this time, the death rate began to decline due to improvements in health services.

- The year 1921 is called the 'Year of the Great Divide' because after this, India's population recorded a continuous positive growth. **Ans. (a)**

50. During 1911-1921, what kind of population growth was recorded in India?

SSC CHSL TIER-I, 25/11/2025 (Shift-03)

- (a) High population growth
(b) Negative population growth
(c) Steady population growth
(d) Population explosion

Exp.- In the demographic history of India, the decade of **1911-1921** was the only period when a **negative growth rate of -0.31%** was recorded in the population. The main reasons for this were the First World War, severe famines, and the 'Influenza Pandemic' of 1918 (Spanish Flu), which claimed millions of lives. For this reason, the year 1921 is called the **'Year of the Great Divide'** in the history of Indian population. **Ans. (b)**

51. What was the density of India in per square km as per census 1951?

SSC CHSL TIER - I, 29/11/2025 (Shift-03)

- (a) 77 (b) 97
(c) 117 (d) 217

Exp.- According to the first census of 1951, the population density of India was **117 persons per square km**.

- This figure reflects the initial demographic situation of the country after independence, which increased to **382 persons per square km** by the 2011 Census. **Ans. (c)**

52. As per MOSPI report of 2024, sex ratio of India by 2036 will be _____.

SSC CHSL TIER-I, 30/11/2025 (Shift-02)

- (a) 952 (b) 972
(c) 932 (d) 982

Exp.- According to the **"Women and Men in India 2024"** report released by the Ministry of Statistics and Programme Implementation (MoSPI), India's sex ratio (number of females per 1000 males) is projected to increase from 943 in the year 2011 to 952 by 2036. This positive change reflects improvements in health services and increasing awareness toward gender equality. **Ans. (a)**

53. Which Union Territory has the highest population density as per Census 2011?

SSC Stenographer 06/08/2025 (Shift-01)

- (a) Chandigarh (b) Puducherry
(c) Lakshadweep (d) Delhi

Exp.- According to the **Census of 2011**, the population density of Delhi is the highest among all the states and union territories of India, where **11,320 persons** reside per square kilometre. In contrast, Chandigarh is in second place, with a population density of **9,258 persons per square kilometre**.

Ans. (d)

54. What shape does a population pyramid take for a rapidly growing population?

SSC Stenographer 06/08/2025 (Shift-02)

- (a) Inverted triangle shape
(b) Circular shape
(c) Triangular shape
(d) Rectangular shape

Exp.- The pyramid of countries with a rapidly growing population is triangular (**wide base and narrow top**), because the birth rate there is very high, resulting in the largest proportion of children and young people in the total population. For example, this structure is seen in countries like Nigeria or Bangladesh. **Ans. (c)**

55. Which of the following statements are correct?

- (1) Birth rate measures the number of children born per 1000 people annually.
(2) Pull factors include opportunities that attract people to new regions.
(3) Death rate is always higher than birth rate.

- (4) Push factors can include civil unrest and lack of jobs.

SSC Stenographer 06/08/2025 (Shift-03)

- (a) All of the above (b) 2 and 3 only
(c) 1, 2, and 4 only (d) 1 and 3 only

Exp.- The standard definition of birth rate is the number of live births per **1000 persons**.

- In the theories of migration, **'pull factors'** (such as better opportunities) attract people, while **'push factors'** (such as unemployment or unrest) force them to leave a place.

- Death rate is not always higher than birth rate (population growth occurs because of this). Therefore, this is incorrect. **Ans. (c)**

56. Which Indian Union Territory has the most Scheduled Castes?

SSC Stenographer 06/08/2025 (Shift-03)

- (a) Delhi (b) Chandigarh
(c) Ladakh (d) Lakshadweep

Exp.- According to the **2011 Census**, the population of **Scheduled Castes (SC)** in **Delhi** is the highest among all Union Territories. A large part of Delhi's total population belongs to this category.

- In two Union Territories of India, **Lakshadweep** and **Andaman and Nicobar Islands**, no **Scheduled Caste (SC)** person resides (primarily Scheduled Tribes are found there).

Category	Highest Population (In numbers)	Highest Percentage (%)
State	Uttar Pradesh	Punjab (31.9%)
Union Territory	Delhi	Chandigarh (18.9%)

Ans. (a)

57. In which decade did India experience a negative growth rate in population?

SSC Stenographer 07/08/2025 (Shift-01)

- (a) 1901 - 1911 (b) 1931 - 1941
(c) 2001 - 2011 (d) 1911 - 1921

Exp.- In India, during the decade **1911-1921**, the population growth rate remained negative (**-0.31%**), which is known as the **"Great Dividing Year"** in the history of Indian demography. The main reasons for this decline were the **First World War**, famine, and the **1918 Influenza Pandemic (Spanish Flu)**, due to which the death rate became higher than the birth rate. **Ans. (d)**

58. Which of the following statements best captures the essence of Malthus' theory as outlined in the passage?

SSC Stenographer 07/08/2025 (Shift-02)

- (a) The natural imbalance between food supply and population growth leads to unavoidable hardships unless population is controlled.
(b) Voluntary checks on population are more effective than natural calamities in curbing overpopulation.
(c) Population grows in arithmetic progression, while food production grows geometrically.
(d) Agricultural production can grow faster than population with technological advancement.

Exp.- According to **Thomas Malthus's theory**, population increases at a **geometric rate**, while **food supply** increases only at an **arithmetic rate**. As a result, a **permanent imbalance** develops between the two. If this growth is not controlled by **moral restraint or disasters**, it gives rise to **natural checks** such as **famine, disease, and war**.
Ans. (a)

59. Which of the following statements is/are true regarding India's rural and urban population trends from 1901 to 2011?

- (1) The rural population has consistently increased in absolute numbers.
- (2) The percentage share of rural population in total population has steadily declined.
- (3) Urban population first exceeded 100 million in 1981.

SSC Stenographer 07/08/2025 (Shift-02)

- (a) Only 1 and 2 (b) All of the above
(c) Only 1 and 3 (d) Only 2 and 3

Exp.- Between 1901 and 2011, the **absolute number of the rural population** continued to increase, although its **percentage share in the total population** (which was **89.2%** in 1901) continuously declined to **68.8% in 2011**.

India's urban population crossed the 100 million mark for the first time in the **1981 Census (159.4 million)**.
Ans. (b)

60. Which of the following factors contributes to the low child sex ratio in some economically developed Northern states of India?

- 1) Increased accessibility to prenatal sex-determination methods
- 2) High levels of female literacy and empowerment
- 3) Societal preference for male children in inheritance and family support
- 4) Strengthened enforcement of gender-equal policies

SSC Stenographer 07/08/2025 (Shift-03)

- (a) 2 and 3 (b) 2 and 4
(c) 1 and 3 (d) 1 and 4

Exp.- The main reason for the low child sex ratio in the economically developed northern states of India is the misuse of technical progress (**such as sex determination through ultrasound**) and deeply rooted preference for a son in society. Despite being developed, factors like patriarchal social mindset for carrying forward the legacy and lineage, and female foeticide, distort the sex ratio in these regions.
Ans. (c)

61. Which of the following states has the lowest population in India, according to the 2011 Census of India?

SSC Stenographer 07/08/2025 (Shift-03)

- (a) Maharashtra
(b) Odisha
(c) Punjab
(d) Madhya Pradesh

Exp.- According to the Census of 2011, among the given options, **Punjab** has the lowest population (about 2.77 crore), whereas Maharashtra is the state with the highest population in this list.

□ In the entire country, Sikkim is the state with the lowest population, whose population is about **6.1 lakh**.
Ans. (c)

62. Which of the following correctly matches the population growth phase in India with its key characteristic?

SSC Stenographer 07/08/2025 (Shift-03)

- (a) Phase IV (Post - 1981) - Sudden increase in fertility rate due to migration
- (b) Phase III (1951 - 1981) - Population explosion caused by falling death rate and high fertility
- (c) Phase I (1901 - 1921) - Rapid population explosion due to low mortality and high fertility
- (d) Phase II (1921 - 1951) - High mortality rate and declining birth rate

Exp.-

Phase	Period	Name of the Phase	Key Features
I Phase	1901-1921	Phase of stagnant population	Both birth and death rates were high, growth rate was negligible (negative in 1921)
II Phase	1921-1951	Phase of steady growth	Death rate decreased due to health improvements, birth rate remained high
III Phase	1951-1981	Phase of population explosion	Rapid fall in death rate, fertility rate very high
IV Phase	1981-Present	Phase of declining growth rate	Constant decline in TFR due to education and awareness, growth rate is decreasing

Ans. (b)

63. Which state has the lowest population in India?

SSC Stenographer 08/08/2025 (Shift-02)

- (a) Manipur
(b) Arunachal Pradesh
(c) Sikkim
(d) Mizoram

Exp.- According to the Census of 2011, **Sikkim** is the least populous state of India, with a total population of about 6.1 lakh. This state is not only the smallest in terms of population, but also the smallest **state in India in terms of area**.
Ans. (c)

64. According to Census 2011 which Indian State/UT has no Scheduled Tribe?

SSC Stenographer 08/08/2025 (Shift-02)

- (a) Kerala (b) Goa
(c) Puducherry (d) Chhattisgarh

Exp.- According to the Census of 2011, there is no Scheduled Tribe (ST) community listed in the Union Territory of **Puducherry**. Apart from Puducherry, Punjab, Haryana, Chandigarh, and Delhi are such other states and union territories where no Scheduled Tribe was recorded in the Census of 2011. *Ans. (c)*

65. Read the following two statements carefully and choose the correct option:

Statement 1: A significant number of adolescent girls in India suffer from anaemia.

Statement 2: The diet available to adolescents in India is generally rich in all nutrients.

SSC PHASE XIII 24/07/2025 (Shift-03)

- (a) Only 1
(b) Only 2
(c) Both 1 and 2 are correct
(d) Neither 1 nor 2 is correct

Exp.- The rate of **anaemia** among adolescent girls in India is very high due to **poor dietary habits** and **iron deficiency**. Therefore, Statement 1 is correct.

□ The diet of Indian adolescents often lacks **micronutrients** (iron, vitamins), which reflects an **unbalanced diet**. Therefore, Statement 2 is incorrect.
Ans. (a)

66. Read the following two statements carefully and choose the correct option:

Statement 1: Rural-to-urban migration is a major contributor to urban growth in India.

Statement 2: Better job opportunities and education facilities in cities attract migrants.

SSC PHASE XIII 25/07/2025 (Shift-03)

- (a) Only 1
(b) Only 2
(c) Both 1 and 2 are correct
(d) Neither 1 nor 2 is correct

Exp.- **Rural-to-urban migration** plays a key role in **urban development** in India. People move towards cities in search of better **employment, education, and civic amenities**, which leads to an increase in **economic and social activities** in urban areas.
Ans. (c)

67. Read the following two statements carefully and choose the correct option:

Statement 1: Death rates and birth rates are always reported as absolute numbers.

Statement 2: These rates are based on the total number of events, not relative to population size.

SSC PHASE XIII 28/07/2025 (Shift-03)

- (a) Only 1
(b) Only 2
(c) Both 1 and 2 are correct
(d) Neither 1 nor 2 is correct

Exp.- Birth rate and death rate are expressed as **relative rates** (per 1000 **population**) rather than in **absolute numbers**. These rates depend on the **population size**, not just the **total number of occurrences**. *Ans. (d)*

68. Read the following two statements carefully and choose the correct option:

Statement 1: Adolescents constitute nearly one-fifth of India's total population.

Statement 2: Adolescents are grouped in the age bracket of 10 to 19 years.

SSC PHASE XIII 29/07/2025 (Shift-03)

- (a) Only 1
- (b) Only 2
- (c) Both 1 and 2 are correct
- (d) Neither 1 nor 2 is correct

Exp.- According to the Census of India (2011) and recent demographic projections, adolescents constitute about 20% (one-fifth) of India's total population. This large **youth population** forms the basis of India's '**Demographic Dividend**'.

□ According to the standards of the **World Health Organization (WHO)** and the **Government of India**, individuals in the **age group of 10 to 19 years** are classified as **adolescents**. *Ans. (c)*

69. Read the following two statements carefully and choose the correct option:

Statement 1: India has completed its demographic transition as both death and birth rates have declined equally.

Statement 2: In India, although mortality rates have reduced, the birth rate remains comparatively high.

SSC PHASE XIII 30/07/2025 (Shift-03)

- (a) Only 1
- (b) Only 2
- (c) Both 1 and 2 are correct
- (d) Neither 1 nor 2 is correct

Exp.- India is currently passing through a phase of demographic transition. Improvements in **health services** have led to a sharp **decline in the death rate**, but the birth rate still remains relatively high; hence, the **complete transition** is yet to be achieved.

□ Any country considers this process complete only when both **birth and death rates** stabilize at a very **low level**. *Ans. (b)*

70. Read the following two statements carefully and choose the correct option:

Statement 1: Poor nutrition among adolescents can result in stunted growth and deficiency diseases.

Statement 2: Proper diet plays a critical role in the healthy development of adolescents.

SSC PHASE XIII 31/07/2025 (Shift-03)

- (a) Only 1
- (b) Only 2
- (c) Both 1 and 2 are correct
- (d) Neither 1 nor 2 is correct

Exp.- Adolescence is a period of rapid physical growth and development, which requires high nutrient intake. If the diet is not balanced during this time, malnutrition can lead to stunted growth and reduced immunity, whereas a proper diet lays the foundation for a healthy adult life. *Ans. (c)*

71. Read the following two statements carefully and choose the correct option:

Statement 1: India experienced a negative population growth rate between 1911 and 1921.

Statement 2: The influenza epidemic of 1918-19 caused widespread deaths during that period.

SSC PHASE XIII 29/08/2025 (Shift-01)

- (a) Only 1
- (b) Only 2
- (c) Both 1 and 2 are correct
- (d) Neither 1 nor 2 is correct

Exp.- According to the 1921 Census, India's **population growth rate** was **0.31%**. For this reason, the year **1921** is called the '**Year of the Great Divide**' in the history of the Indian population.

□ The biggest reason for this **negative growth** was the **Influenza Pandemic (Spanish Flu)** of **1918-19**. Apart from this, diseases like **famine** and **plague** also significantly increased the **mortality rate**. *Ans. (c)*

72. Which statement best describes Stage III of demographic transition?

SSC PHASE XIII 25/07/2025 (Shift-02)

- (a) Both birth and death rates decline.
- (b) High infant mortality
- (c) Rapidly rising death rate
- (d) Low but fluctuating birth rate

Exp.-		
Stage	Status	Characteris-tics
Stage I	High Birth Rate, High Death Rate	Stable Population (Backward Economy)
Stage II	High Birth Rate, Falling Death Rate	Situation of Population Explosion
Stage III	Decline in both Birth and Death Rates	Slowdown in Population Growth
Stage IV	Low Birth Rate, Low Death Rate	Stable Population (Developed Economy)

Ans. (a)

73. Which one of the following defines spatial distribution of population?

SSC PHASE XIII 26/07/2025 (Shift-02)

- (a) The movement of people from rural to urban areas
- (b) The pattern of how people are spread across a given area
- (c) The ratio of males to females in a population
- (d) The fertility rate of a population

Exp.- The spatial distribution of population refers to the pattern of where people live across a geographical area, showing how densely or sparsely they are spread. It is primarily influenced by physical factors (water, climate, and relief) and economic factors (employment and industrial development). Areas with a favorable climate and fertile land (such as the Ganga plains) exhibit high density, while deserts (Thar) or high mountain regions have a low population. *Ans. (b)*

74. Which region of the world has the highest elderly dependency ratio?

SSC PHASE XIII 28/07/2025 (Shift-02)

- (a) Africa
- (b) Europe
- (c) Asia
- (d) South America

Exp.- The Old-age Dependency Ratio refers to the number of elderly people (above 65 years) compared to the working-age population (15-64 years).

□ **Europe** has the world's highest old-age dependency ratio. The main reasons for this are the low birth rate and high **life expectancy** in the region. In countries like Italy, Germany, and Greece, the number of elderly people is significantly higher than that of the youth. *Ans. (b)*

75. Which among the following Indian states has low population density?

SSC PHASE XIII 29/07/2025 (Shift-02)

- (a) Rajasthan
- (b) Kerala
- (c) Bihar
- (d) Punjab

Exp.- The population density of Rajasthan is 200 persons per sq km, which is significantly lower compared to states like Bihar (1106) and Kerala (860). The main reason for this is its vast desert terrain and difficult living conditions. *Ans. (a)*

76. According to the 2024 GHI, what is India's child wasting rate, and how does it compare globally?

SSC PHASE XIII 31/07/2025 (Shift-02)

- (a) 12.5%
- (b) 15%
- (c) 18.7%
- (d) 20%

Exp.- According to the GHI 2024, the **child wasting rate** (children under 5 years) in India is 18.7%, which reflects acute malnutrition. Globally, India ranks 105th out of 127 countries and falls under the '**Serious**' category. *Ans. (c)*

77. What characterizes Stage II of demographic transition?

SSC PHASE XIII 31/07/2025 (Shift-02)

- (a) Birth and death rates are equal
- (b) Death rate declines, birth rate remains high
- (c) Birth rate falls below death rate
- (d) Population decreases

Exp.- Stage II of the Demographic Transition is often called the stage of '**Population Explosion**'. The most prominent feature of this stage is a rapid decline in the **death rate**, while the **birth rate** remains high for a long time. *Ans. (b)*

78. What does the fertility rate measure?
SSC PHASE XIII 02/08/2025 (Shift-02)
- Number of live births per 1000 people in the population
 - Number of women in the population between ages 15 and 49
 - Number of live births per 1000 women aged 15 to 49 in a given year
 - Number of children born per family regardless of age

Exp.- Fertility Rate refers to the number of live births per 1,000 women in the age group of **15 to 49 years**.

- This is a scientific way to understand population growth potential as it focuses on the biologically reproductive age group. **Ans. (c)**

79. Which Indian city had the highest population as per the 2011 Census?
SSC PHASE XIII 24/07/2025 (Shift-01)
- Delhi
 - Mumbai
 - Kolkata
 - Bengaluru

Exp.- According to the **Census 2011**, **Mumbai** (Greater Mumbai Municipal Corporation area) was the most densely populated city in India. It was followed by Delhi and Kolkata. **Ans. (b)**

80. Name the Indian state having the highest population according to the 2011 Census?
SSC PHASE XIII 25/07/2025 (Shift-01)
- Maharashtra
 - Uttar Pradesh
 - Bihar
 - West Bengal

Exp.- According to the official **Census 2011** data, the population of **Uttar Pradesh** was approximately **19.98 crore**.

- If Uttar Pradesh were a separate country, it would have been the fifth most populous country in the world at that time, after China, India, the USA, and Indonesia.

□ **Top 3 States by Population (Census 2011):**

Rank	State	Population	% of India's total population
1	Uttar Pradesh	19.98 cr	16.5%
2	Maharashtra	11.23 cr	9.28%
3	Bihar	10.40 cr	8.6%

Ans. (b)

81. Name the state having the highest literacy rate according to the 2011 Census?

SSC PHASE XIII 26/07/2025 (Shift-01)

- Kerala
- Tamil Nadu
- Maharashtra
- Gujarat

Exp.- According to the **Census 2011** data, **Kerala** is the most literate state in India, with a literacy rate of **94%**. In terms of high literacy rates, Kerala is followed by Lakshadweep and Mizoram.

Ans. (a)

82. What is the term for the study of population characteristics such as age, gender, and income?

SSC PHASE XIII 26/07/2025 (Shift-01)

- Sociology
- Demographics
- Anthropology
- Geography

Exp.- The statistical analysis of various characteristics of a population, such as age, sex, and income, is called **Demography**. It helps governments in planning for the country's future and the efficient allocation of resources. It enables data-based studies of population density, distribution, and health-related trends.

Ans. (b)

83. What is the main reason for the high population growth in India?

SSC PHASE XIII 28/07/2025 (Shift-01)

- High birth rate
- Low literacy rate
- High death rate
- High migration

Exp.- The most prominent factor for population growth in India is the large gap between a **high birth rate** and a **declining death rate**. Due to better health services, average life expectancy has increased and the infant mortality rate has decreased, while the birth rate has not declined in the same proportion, resulting in rapid population growth.

Ans. (a)

84. What determines the proportion of urban population to the total population?

SSC PHASE XIII 28/07/2025 (Shift-01)

- Urbanization rate
- Population density
- Migration rate
- Fertility rate

Exp.- The ratio between the urban population and the total population is called the **Urbanisation Rate**.

- It is a key indicator of a nation's development and industrial progress. When a country moves from an agriculture-based economy toward an industrial and service-based economy, the rate of urbanisation naturally begins to increase. **Ans. (a)**

85. Which state in India has the highest literacy rate according to the provided data in the Census 2011?

SSC PHASE XIII 29/07/2025 (Shift-01)

- Mizoram
- Rajasthan
- Arunachal Pradesh
- Bihar

Exp.- According to the **Census 2011**, among the given options, **Mizoram (91.33%)** has the highest literacy rate, but **Kerala (94%)** ranks first in literacy across all of India. **Ans. (a)**

86. Which state in India has the highest sex ratio according to the 2011 Census?

SSC PHASE XIII 29/07/2025 (Shift-01)

- Tamil Nadu
- Himachal Pradesh
- Rajasthan
- Kerala

Exp.- According to the **Census 2011**, due to high literacy (**94%**) and advanced health facilities, **Kerala (1084 females/1000 males)** is the state with the highest sex ratio in India. Among Union Territories, **Puducherry** ranks at the top with 1037 females per 1000 males. These statistics are a result of better maternal-child health and high female literacy.

Ans. (d)

87. Which Union Territory has the lowest population in India in reference to the Census 2011?

SSC PHASE XIII 30/07/2025 (Shift-01)

- Lakshadweep
- Andaman & Nicobar
- Ladakh
- Puducherry

Exp.- According to the official data of the **2011 Census**, **Lakshadweep** is the least populated Union Territory in India. At the time of the 2011 Census, its total population was only **64,473**.

Ans. (a)

88. According to the 2011 Census, which Indian state recorded a negative decadal population growth rate?

SSC PHASE XIII 30/07/2025 (Shift-01)

- Nagaland
- Kerala
- Goa
- Assam

Exp.- As per the 2011 Census, **Nagaland** was the only state to record a **negative population growth rate** of **-0.58%** during the 2001-2011 period. In contrast, India's total decadal population growth rate in 2011 was **17.7%**.

Ans. (a)

89. Which is the most populous state in India according to the Census 2011?

SSC PHASE XIII 31/07/2025 (Shift-01)

- Maharashtra
- Bihar
- Uttar Pradesh
- West Bengal

Exp.- **Uttar Pradesh** is the most populous state in India. Its total population was recorded at approximately **19.98 crore**, accounting for nearly **16.5%** of India's total population.

Ans. (c)

90. According to the Census of 2011, which age group has the highest population percentage in India?

SSC PHASE XIII 31/07/2025 (Shift-01)

- 0-14 years
- 15-59 years
- 60+ years
- 80+ years

Exp.- According to the 2011 Census, the age group of **15-59 years** (working population) constitutes the largest percentage (about **60%**) in India.

This is called the **'Demographic Dividend'** as this segment contributes actively to the country's economy.

Ans. (b)

91. Fill in the blank:

The Census in India is conducted every _____ years.

SSC PHASE XIII 01/08/2025 (Shift-01)

- 5
- 10
- 15
- 20

Exp.- Officially, the census is conducted at an interval of every 10 years (it is also called the '**Decennial Census**').

❑ The first systematic census in India took place in **1881** (Viceroy-Lord Ripon) and since then, it has been conducted every decade. At the time of the 1881 census, **W.C. Plowden** was the Census Commissioner of India.

❑ Census data provide a vital basis for the government in framing policies, distribution of resources, and implementation of development schemes. **Ans. (b)**

92. Which State in India has the lowest population density?

SSC PHASE XIII 01/08/2025 (Shift-01)

- (a) Sikkim
- (b) Arunachal Pradesh
- (c) Nagaland
- (d) Manipur

Exp.- Arunachal Pradesh has a **population density** of only **17 persons per square kilometre**, which is the lowest in India. **Ans. (b)**

93. Which one of the following states in India records the lowest female literacy rate as per the National Sample Survey 2018?

SSC PHASE XIII 02/08/2025 (Shift-01)

- (a) Jammu and Kashmir
- (b) Rajasthan
- (c) Arunachal Pradesh
- (d) Bihar

Exp.- According to the **75th National Sample Survey (NSS, 2017-18)** report, **Rajasthan** had the lowest female literacy rate in India (approximately **57.6%**), which is significantly lower than the national average. **Ans. (b)**

94. Which linguistic group has the highest number of speakers in India?

SSC PHASE XIII 29/08/2025 (Shift-03)

- (a) Sino-Tibetan
- (b) Indo-Aryan
- (c) Austric
- (d) Dravidian

Exp.- The Indo-Aryan language group has the largest number of speakers in India. According to the 2011 Census, approximately 74% to 75% of India's total population speaks languages from this family, including Hindi, Bengali, Marathi, Gujarati, Punjabi, and Odia. **Ans. (b)**

95. Which one of the following states of India has the lowest female child sex ratio 0-6 years as per Census 2011?

SSC PHASE XIII 29/08/2025 (Shift-03)

- (a) Haryana
- (b) Punjab
- (c) Uttar Pradesh
- (d) Jharkhand

Exp.-

State	Child Sex Ratio (0-6 Years)
Haryana	834
Punjab	846
Jammu and Kashmir	862
Rajasthan	888

Ans. (a)

96. Fill in the blank:

The sex ratio in India refers to the number of females per ____ males.

SSC PHASE XIII 01/08/2025 (Shift-02)

- (a) 1200
- (b) 990
- (c) 1000
- (d) 1050

Exp.- Sex ratio is defined as the number of females per **1000 males** in the population. According to the 2011 Census of India, the national sex ratio is 943. **Ans. (c)**

97. According to the 2011 Census, which state in India has the highest proportion of its population living in rural areas?

SSC PHASE XIII 01/08/2025 (Shift-02)

- (a) Goa
- (b) Uttar Pradesh
- (c) Bihar
- (d) West Bengal

Exp.- In the 2011 Census, **Bihar** had approximately 88.7% of its population in rural areas (highest among given options). Nationally, Himachal Pradesh (90%) has the highest rural proportion. **Ans. (c)**

98. Which of the following Indian states has the highest number of people living per square kilometer as per 2011 Census?

SSC PHASE XIII 01/08/2025 (Shift-03)

- (a) West Bengal
- (b) Uttar Pradesh
- (c) Delhi
- (d) Punjab

Exp.- According to the 2011 Census, the population density of **Delhi** is **11,320 persons per sq km**, which is the highest among all Indian states and Union Territories. Among states alone, Bihar (1,106) ranks first, followed by West Bengal (1,028 persons/sq km). **Ans. (c)**

99. Which one of the following is the most populated district in India according to 2011 census?

SSC PHASE XIII 01/08/2025 (Shift-03)

- (a) Thane
- (b) North 24 Pargana
- (c) Bengaluru
- (d) Pune

Exp.- According to 2011 Census data, **Thane district** of Maharashtra was the most populous district in India with a population of over 1.1 crore. Although the statistical situation changed after the division of Thane district in 2014 (formation of Palghar district), this is the correct answer based on the official 2011 report. **Ans. (a)**

100. Which three states in the Northern Plains region have the highest population densities?

SSC CPO TIER-I, 09/12/2025 (Shift-02)

- (a) Punjab, Haryana, Uttar Pradesh
- (b) Uttarakhand, Bihar, Jharkhand
- (c) Bihar, West Bengal, Uttar Pradesh
- (d) Assam, Haryana, Chhattisgarh

Exp.- The Northern Plains have a very high population density due to the presence of fertile **alluvial soil**, flat **topography**, adequate water resources, and greater opportunities for agriculture and livelihoods. For this reason, Bihar, West Bengal, and Uttar Pradesh are the states with the **highest population density** in the Northern Plains. **Ans. (c)**

101. Which of the following is considered a natural cause of population change?

- I. Births
- II. Migrations

SSC CHSL TIER-I, 28/11/2025 (Shift-01)

- (a) Only I
- (b) Only II
- (c) Both I and II
- (d) Neither I nor II

Exp.- Natural causes of population change include only **births** and **deaths**, as these are biological processes. **Migration is considered an induced or artificial factor of population change** because it depends on geographical mobility rather than natural increase. **Ans. (a)**

15

Important Indices

1. According to the Global Peace Index 2024, what is the role of Positive Peace in the context of violent conflict and economic instability?

SSC CGL TIER-I, 19/09/2025 (Shift-03)

- (a) It measures the number of conflicts per country
- (b) It predicts military expenditure trend
- (c) It identifies structural factors that promote peace and can forecast declines in peacefulness
- (d) It calculates the percentage of GDP lost due to war

Exp.- Positive peace is not merely the absence of violence, but it refers to those institutions, attitudes, and structures that create and sustain a peaceful society. According to the **Global Peace Index (GPI) 2024**, countries with high levels of positive peace are more economically stable and have a better capacity to predict a decline in violent conflicts.

Ans. (c)

2. What is a key factor assessed in the Global Firepower Military Strength Ranking 2025?

SSC CGL TIER-I, 12/09/2025 (Shift-01)

- (a) Economic Stability
- (b) Cultural Influence
- (c) Defense Budget
- (d) Healthcare Spending

Exp.- In the Global Firepower Military Strength Ranking 2025, the evaluation of countries involves key factors such as manpower, weaponry, defense budget, technology, and geographical location.

- India has maintained its fourth position in the 2025 ranking. **Ans. (c)**

3. According to the Global Cities Index 2025 by Oxford Economics, which two cities retained their top positions?

SSC CGL TIER-I, 12/09/2025 (Shift-02)

- (a) Tokyo and Beijing
- (b) London and New York
- (c) Paris and Rome
- (d) Berlin and Moscow

Exp.- In the Global Cities Index 2025 released by Oxford Economics, New York has maintained the first position and London has maintained the second position.

- This index evaluates **1000 major cities** of the world on five criteria—**Economy, Human Capital, Quality of Life, Environment, and Governance**. **Ans. (b)**

4. According to the Global Peace Index 2024, which of the following statements correctly reflects global peace trends since 2008?

SSC CGL TIER-I, 13/09/2025 (Shift-01)

- (a) All three GPI domains have steadily improved since 2008.
- (b) The average country score has improved by 4.5% since 2008.
- (c) Ongoing Conflict and Safety & Security have deteriorated, while Militarisation has improved
- (d) The number of countries showing improvement exceeds those showing deterioration

Exp.- According to the Global Peace Index (GPI) 2024 report, there has been a trend of decline in global peace since 2008. Specifically, the situation has deteriorated in two dimensions, namely **"Ongoing Conflict and Societal Safety and Security,"** while there was some improvement in the area of **"Militarisation"**. **Ans. (c)**

5. The Global Gender Gap Report primarily measures disparities between genders in which key areas?

SSC CGL TIER-I, 13/09/2025 (Shift-02)

- (a) Politics, Economy, Health, Education
- (b) Income, Wealth, Land, Technology
- (c) Crime, Law, Justice, Security
- (d) Environment, Climate, Water, Food

Exp.- The Global Gender Gap Report, released by the World Economic Forum, measures gender inequality in four key areas: **political empowerment, economic participation and opportunity, educational attainment, and health and survival**. **Ans. (a)**

6. According to the 2025 Energy Transition Index, which of the following is a key priority for enhancing energy system flexibility and integrating renewables?

SSC CGL TIER-I, 13/09/2025 (Shift-03)

- (a) Expanding fossil fuel subsidies
- (b) Building more centralized coal-fired plants
- (c) Modernizing and digitalizing power grids and storage systems
- (d) Increasing oil imports for energy security

Exp.- According to the **Energy Transition Index (ETI)** released by the **World Economic Forum (WEF)**, **modernizing the grid** is essential to successfully integrate **renewable energy** (such as solar and wind).

- Since solar and wind energy are **intermittent, smart grids and energy storage systems** are required to make the energy system flexible. **Ans. (c)**

7. The Global Energy Transition Index 2025 is released by which international organization?

SSC CGL TIER-I, 14/09/2025 (Shift-01)

- (a) IRENA
- (b) IEA
- (c) World Economic Forum
- (d) UNDP

Exp.- The **Energy Transition Index** is released by the **World Economic Forum (WEF)**. This index assesses the current performance of energy systems of various countries and their readiness to move towards secure and sustainable energy in the future. **Ans. (c)**

8. According to the 2024 Corruption Perceptions Index (CPI) findings, how does corruption most directly undermine global climate action?

SSC CGL TIER-I, 14/09/2025 (Shift-02)

- (a) By weakening financial markets in developing countries
- (b) By discouraging public participation in environmental protests
- (c) By diverting climate funds and allowing undue influence over environmental policies
- (d) By increasing competition among fossil fuel companies

Exp.- According to the Corruption Perceptions Index (CPI) 2024, corruption hinders global climate action through the misuse of **climate funds** and conflicts of interest that influence environmental policies.

- It reduces the efficiency of green projects through the misappropriation of funds and promotes decisions that prioritize private gain over environmental conservation. **Ans. (c)**

9. Based on the 2024 Travel and Tourism Development Index (TTDI), which of the following best describes global trends in tourism development conditions?

SSC CGL TIER-I, 14/09/2025 (Shift-03)

- (a) Low-income countries dominate the top 30 scorers
- (b) Most of the top 30 TTDI scorers are high-income economies from Europe and Asia-Pacific
- (c) The Americas and MENA account for more than half of the top 30 rankings
- (d) Developing economies have surpassed high-income countries in tourism infrastructure

Exp.- In the Travel and Tourism Development Index (TTDI) 2024 published by the World Economic Forum, 26 out of the top 30 countries are high-income economies, of which 19 are from Europe and 7 are from the Asia-Pacific region. **Ans. (b)**

@VIDYAGRAM

aditya___ranjan

10. Read the below statements marked as Assertion (A) and Reason (R). Mark the correct options:

Assertion (A): Global Ease of Doing Business (EoDB) indicators excluded informal sectors.

Reason (R): Informal enterprises are difficult to measure consistently across nations.

SSC CGL TIER-I, 15/09/2025 (Shift-01)

- (a) Both A and R are true, and R is the correct explanation of A
(b) Both A and R are true, but R is not the correct explanation of A
(c) A is true, but R is false
(d) A is false, but R is true

Exp.- The World Bank's 'Ease of Doing Business' (EODB) standards primarily focus on medium and small enterprises in the formal sector and do not include informal sectors.

Therefore, statement (A) is true.

- The informal economy is unorganized, making it extremely difficult to achieve uniform measurement and comparison of its data across different countries. **Therefore, reason (R) is true, and it is also the correct explanation of statement (A).** Ans. (a)

11. What does a lower score on the Corruption Perception Index (e.g., closer to 0) indicate?

SSC CGL TIER-I, 15/09/2025 (Shift-03)

- (a) Less corruption
(b) More corruption
(c) Higher transparency
(d) Better governance

Exp.- A low score indicates that there is heavy bribery, misuse of public funds, and a significant lack of transparency in the public sector of that country. The Corruption Perceptions Index (CPI) uses a scale from 0 to 100, where a score near 0 indicates a "highly corrupt" situation and a score near 100 indicates a "very clean" image. Ans. (b)

12. Read the below statements marked as Assertion (A) and Reason (R).

Assertion (A): India's rank in the Global Happiness Index is lower than most South Asian neighbours.

Reason (R): India's GDP per capita is the lowest in South Asia.

SSC CGL TIER - I, 16/09/2025 (Shift-01)

- (a) Both A and R are true, and R is the correct explanation of A
(b) Both A and R are true, but R is not the correct explanation of A
(c) A is true, but R is false
(d) A is false, but R is true

Exp.- According to the latest data from the World Happiness Report, India's ranking is often lower than neighboring countries like Nepal, Bhutan, and Sri Lanka; therefore, **Assertion (A) is true.**

- India's per capita GDP is not the lowest in South Asia (Afghanistan's GDP is significantly lower than India's); therefore, **Reason (R) is false.** Ans. (c)

13. Read the below statements marked as Assertion (A) and Reason (R):

Assertion (A): The Happiness Index includes political freedom and social support.

Reason (R): The Index is published by the UNDP.

SSC CGL TIER - I, 16/09/2025 (Shift-03)

- (a) Both A and R are true, and R is the correct explanation of A
(b) Both A and R are true, but R is not the correct explanation of A
(c) A is true, but R is false
(d) A is false, but R is true

Exp.- To prepare the World Happiness Report, parameters such as political freedom, social support, life expectancy, and GDP per capita are used; **therefore, Assertion (A) is true.**

- This index is published by the **UN-SDSN** (United Nations Sustainable Development Solutions Network) and not by the UNDP; **therefore, Reason (R) is false.** Ans. (c)

14. A key component evaluated by the 2025 Index of Economic Freedom concerning "Government Size" is:

SSC CGL TIER - I, 17/09/2025 (Shift-01)

- (a) Public Education Funding
(b) Government Spending Levels
(c) National Defense Expenditures
(d) Foreign Aid Contributions

Exp.- In the **Index of Economic Freedom 2025**, under the **"Size of Government"** component, government spending, taxation, and the extent of state-owned enterprises are evaluated.

- This index is published by **The Heritage Foundation**, and it includes four main areas: Rule of Law, Size of Government, Regulatory Efficiency, and Open Markets. Ans. (b)

15. Which Swiss-based business school is known for publishing the annual World Competitiveness Index?

SSC CGL TIER - I, 17/09/2025 (Shift-03)

- (a) University of Geneva School
(b) IMD Business School
(c) ETH Zurich Institute
(d) University of St. Gallen

Exp.- The annual World Competitiveness Index is published by the 'World Competitiveness Center' of the Switzerland-based IMD Business School.

- Since 1989, this index has been comparing the economies of countries based on their ability to maintain and manage their competitiveness. Ans. (b)

16. The 2025 Global Peace Index indicates that global peacefulness has generally shown a:

SSC CGL TIER - I, 18/09/2025 (Shift-02)

- (a) Consistent upward trend
(b) Gradual downward trend
(c) Significant improvement
(d) Stable and unchanging state

Exp.- According to the 'Global Peace Index 2025' (19th edition) released by the Institute for Economics and Peace (IEP), a **decline of 0.36%** in global peace has been recorded. This reflects a trend of **gradual decline** due to increasing militarisation, internal conflicts, and geo-political tensions. Ans. (b)

17. According to the 2025 Energy Transition Index, which factor is crucial for attracting long-term investment in energy transition?

SSC CGL TIER - I, 19/09/2025 (Shift-01)

- (a) High electricity tariffs
(b) Adaptive and stable policy frameworks
(c) Rapid Fossil fuel subsidies
(d) Deregulated industrial zones

Exp.- According to the World Economic Forum (WEF) 2025 Energy Transition Index, adaptive and stable policy frameworks are the most significant for long-term investment.

- This stability provides security to investors and creates a favorable environment to attract the heavy capital and technical innovation required for clean energy projects. Ans. (d)

18. The Logistics Performance Index (LPI) primarily evaluates a country's effectiveness in facilitating:

SSC CGL TIER-I, 20/09/2025 (Shift-03)

- (a) Financial Market Stability
(b) Trade and Transport Logistics
(c) Agricultural Productivity
(d) Cybersecurity Infrastructure

Exp.- The **Logistics Performance Index (LPI)** is an interactive benchmarking tool that helps countries identify the challenges and opportunities they face in their trade logistics performance. It primarily evaluates factors such as the efficiency of the clearance process, the quality of trade- and transport-related infrastructure, and the ease of arranging shipments. This index is published by the World Bank every two years. Ans. (b)

19. According to the Global Gender Gap Report 2025, which region currently leads in closing its overall gender gap?

SSC CGL TIER-I, 22/09/2025 (Shift-01)

- (a) North American Economies
(b) European Union Nations
(c) East Asian Countries
(d) Latin American Regions

Exp.- According to the **Global Gender Gap Report 2025**, the **Northern America** region leads in making the most significant progress toward closing its overall **gender gap**. Ans. (a)

20. Read the below statements marked as Assertion (A) and Reason (R). Mark the correct options:

Assertion (A): Ease of Doing Business (EoDB) report by World Bank was discontinued in 2021

Reason (R): Allegations of data manipulation prompted the suspension

SSC CGL TIER-I, 22/09/2025 (Shift-02)

- (a) Both A and R are true, and R is the correct explanation of A
(b) Both A and R are true, but R is not the correct explanation of A
(c) A is true, but R is false
(d) A is false, but R is true

Exp.- The **World Bank** discontinued the **Ease of Doing Business (EODB)** report in September 2021 due to serious allegations of **data manipulation** and **irregularities** (in the 2018 and 2020 reports).

□ In its place, the World Bank has launched a new framework called **B-READY** (Business Ready) to assess the **business environment** Ans. (a)

21. Which country has consistently been ranked as the world's most peaceful country in the Global Peace Index?

SSC CGL TIER-I, 23/09/2025 (Shift-01)

- (a) New Zealand (b) Denmark
(c) Iceland (d) Switzerland

Exp.- Iceland has been considered the most peaceful country in the world continuously since **2008**. Iceland has also maintained its top position in the **Global Peace Index of 2025**.

□ India is at the **115th position** in this index, which shows a slight improvement compared to the previous year (**116th position**). Ans. (c)

22. The World Competitiveness Index primarily assesses a country's ability to:

SSC CGL TIER-I, 23/09/2025 (Shift-02)

- (a) Attract tourists
(b) Create and maintain an environment for enterprises to compete
(c) Innovation in cultural heritage
(d) Conserve natural resources

Exp.- The World Competitiveness Index is published by **IMD** and it assesses a country's ability to allow businesses to thrive and generate prosperity.

□ This index has been published since **1989**; it goes beyond GDP to also measure political-social dimensions based on **four factors**: economic performance, government efficiency, business efficiency, and infrastructure. Ans. (b)

23. The UN Sustainable Development Report 2024 primarily tracks progress towards which global goals?

SSC CGL TIER-I, 23/09/2025 (Shift-03)

- (a) Millennium Development Goals
(b) Sustainable Development Goals
(c) Environmental Protection Goals
(d) Human Rights Goals

Exp.- The United Nations Sustainable Development Report 2024 primarily tracks the progress of the **17 Sustainable Development Goals (SDGs)**, which were adopted in 2015 under the 2030 Agenda.

□ According to the report, by 2024, only **16-17% of the targets** are on track, while the progress of the remaining goals has been slow or reversed due to COVID-19, climate change, and global conflicts. This includes a total of **17 goals and 169 specific targets**. Ans. (b)

24. The Index of Economic Freedom 2025 is published by which conservative think tank?

SSC CGL TIER-I, 24/09/2025 (Shift-01)

- (a) Cato Institute
(b) Heritage Foundation
(c) American Enterprise Institute
(d) Brookings Institution

Exp.- The Index of Economic Freedom is an annual report published since 1995 by The Heritage Foundation, located in Washington, D.C., and it measures the freedom of trade, investment, and property rights in countries.

□ In 2025, India is ranked **128th** in this index and has been placed in the 'mostly unfree' category, while Singapore, Switzerland, and Ireland are in the top positions. Ans. (b)

25. Which universities collaborate to produce the Environmental Performance Index (EPI)?

SSC CGL TIER-I, 24/09/2025 (Shift-02)

- (a) Harvard & Stanford
(b) Yale & Columbia
(c) Oxford & Cambridge
(d) MIT & Caltech

Exp.- The **Environmental Performance Index (EPI)** is a ranking released by Yale and Columbia University, which assesses **180 countries** across **58 indicators** in **11 categories** (such as air quality, water, biodiversity, climate).

□ In the **2024 EPI**, India ranked **176th**; despite an improvement from 180th in **2022**, the performance remained weak due to coal dependency and high emissions. Ans. (b)

26. The Corruption Perception Index (CPI) 2024 is released by which global civil society organization?

SSC CGL TIER-I, 24/09/2025 (Shift-03)

- (a) World Bank
(b) Transparency International
(c) UNODC
(d) OECD

Exp.- The Corruption Perceptions Index (CPI) 2024 is released by Transparency International and has been published annually since 1995. This global civil society organization ranks **180 countries/territories** based on their perceived levels of **public sector corruption** on a scale of 0 (highly corrupt) to 100 (very clean). Ans. (b)

27. Which entity/entities publish the Climate Change Performance Index 2025?

SSC CGL TIER-I, 25/09/2025 (Shift-01)

- (a) UNEP
(b) IPCC
(c) Germanwatch & NewClimate Institute
(d) WWF

Exp.- Germanwatch, NewClimate Institute, and Climate Action Network International jointly publish the **Climate Change Performance Index (CCPI)**.

□ It assesses the climate protection efforts of countries. It includes criteria such as **greenhouse gas emissions, renewable energy, energy use, and climate policy**. Ans. (c)

28. A higher ranking in the World Press Freedom Index indicates:

SSC CGL TIER-I, 25/09/2025 (Shift-03)

- (a) More government control over media
(b) Greater journalistic freedom
(c) Increased media censorship
(d) Lower public trust in media

Exp.- A high ranking in the World Press Freedom Index (such as Norway, Finland) indicates greater freedom of the press.

□ This ranking is issued by **Reporters Without Borders (RSF)**. The World Press Freedom Index is based on press freedom, safety of journalists, legal framework, and media diversity. A low ranking (such as North Korea, China) indicates media control and censorship. Ans. (b)

29. The Logistics Performance Index (LPI) is published by which international organization?

SSC CGL TIER-I, 26/09/2025 (Shift-02)

- (a) World Bank (b) IMF
(c) WTO (d) UNCTAD

Exp.- The Logistics Performance Index (LPI) is an index published by the World Bank that measures the trade logistics (logistics efficiency) of countries based on 6 key dimensions (customs, infrastructure, shipment arrangements, logistics services, tracking, and timeliness). Ans. (a)

30. What is a key factor considered in the World Happiness Report's ranking?

SSC CPO TIER-I, 09/12/2025 (Shift-01)

- (a) Military Strength
(b) GDP per capita
(c) Internet Speed
(d) Forest Cover

Exp.- In the World Happiness Report, **GDP per capita** is considered a key economic factor for determining the rankings of countries. This report is primarily based on six variables: GDP per capita, social support, healthy life expectancy, freedom to make life choices, generosity, and perception of corruption. Ans. (b)

31. Which of these is a pillar assessed by the Index of Economic Freedom?

SSC CPO TIER-I, 09/12/2025 (Shift-01)

- (a) Social Welfare Programs
- (b) Government Spending
- (c) Environmental Regulations
- (d) Artistic Freedom

Exp.- Government spending is an important component in the Index of Economic Freedom, which reflects the size of the government and its level of intervention in the economy.

□ This index ranks countries based on **12 indicators**, which are categorized into **four pillars—Rule of Law, Government Size, Regulatory Efficiency, and Open Markets**.

□ It is published annually by 'The Heritage Foundation'. **Ans. (b)**

32. The World Happiness Report primarily relies on which type of data?

SSC CPO TIER-I, 09/12/2025 (Shift-02)

- (a) Objective economic indicators only
- (b) Subjective life evaluations and well-being measures
- (c) Environmental sustainability metrics
- (d) Military strength and geopolitical stability

Exp.- The World Happiness Report is primarily based on subjective life evaluation and well-being measures, where people self-assess their happiness on a scale of 0-10.

□ The World Happiness Report is published by the **United Nations Sustainable Development Solutions Network (UNSDSN)**. **Ans. (b)**

33. What is a primary focus area of the Global Energy Transition Index?

SSC CPO TIER-I, 09/12/2025 (Shift-02)

- (a) Nuclear energy development
- (b) Fossil fuel production
- (c) Energy security, sustainability, and equity
- (d) Space exploration technology

Exp.- The Energy Transition Index (ETI) released by the World Economic Forum (WEF) primarily assesses the performance of countries' energy systems and their readiness for future challenges.

□ This index is based on a systematic framework focusing on three key dimensions: energy security, environmental sustainability, and energy equity. **Ans. (c)**

34. The Climate Change Performance Index (CCPI) 2025 evaluates countries based on their performance in:

SSC CPO TIER-I, 10/12/2025 (Shift-02)

- (a) GHG Emissions, Renewable Energy, Energy Use, Climate Policy
- (b) Carbon Sequestration, Water Conservation, Biodiversity, Pollution Control
- (c) Disaster Preparedness, Adaptation Strategies, Mitigation Funding, Policy Implementation
- (d) Green Buildings, Sustainable Transport, Waste Management, Circular Economy

Exp.- The Climate Change Performance Index (CCPI) assesses the climate mitigation performance of countries based on **GHG emissions, renewable energy, energy use**, and climate policy.

□ In CCPI 2025, India ranked **10th**, while the **top 3 positions** remained vacant as no country's performance was "very high," and **Denmark** stood at the fourth position. **Ans. (a)**

35. Which of these is NOT a parameter in the Ease of Doing Business (EoDB) index?

SSC CPO TIER-I, 11/12/2025 (Shift-01)

- (a) Starting a business
- (b) Getting electricity
- (c) Military spending
- (d) Paying taxes

Exp.- The World Bank's Ease of Doing Business (EoDB) index assesses only the regulatory and procedural aspects related to business. Therefore, military expenditure is not included in it, as it is related to national security and not to the ease of business operations. **Ans. (c)**

36. The "capability approach" as applied to the Human Development Index (HDI) has been criticized for:

SSC CPO TIER-I, 11/12/2025 (Shift-02)

- (a) Being too focused on economic factors.
- (b) Being difficult to operationalize and measure.
- (c) Ignoring life expectancy.
- (d) Overemphasizing educational data.

Exp.- The main criticism of the 'capability approach' of HDI is that intangible capabilities such as freedom, self-respect, and life-choices are difficult to measure. As a result, they could not be directly included in the index, leaving HDI limited to only a few narrow indicators like health, education, and income. **Ans. (b)**

37. Which organization publishes the World Competitiveness Ranking?

SSC CPO TIER-I, 11/12/2025 (Shift-02)

- (a) World Bank
- (b) IMF
- (c) IMD
- (d) World Economic Forum

Exp.- The World Competitiveness Ranking is released annually by the International Institute for Management Development (IMD), in which countries are assessed based on economic performance, government and business efficiency, and infrastructure. In the year 2025, India ranked 41st among 69 countries, while Switzerland remained in the first position. **Ans. (c)**

38. What does "expected years of schooling" measure?

SSC CPO TIER-I, 12/12/2025 (Shift-01)

- (a) The total number of years of schooling in a country.

- (b) The average number of years of schooling received by people ages 25 and older.
- (c) The number of years a child of school-entering age is expected to spend in school.
- (d) The projected past years of schooling.

Exp.- Expected Years of Schooling measures the number of years a child of school-entrance age is expected to spend at school throughout their life, if prevailing patterns of age-specific enrolment rates persist. It reflects future educational prospects and is an important indicator used to measure the **Human Development Index (HDI)**. **Ans. (c)**

39. A substantial limitation of the Human Development Index (HDI) is its inability to capture:

SSC CPO TIER-I, 12/12/2025 (Shift-02)

- (a) Economic growth.
- (b) Life expectancy.
- (c) Educational attainment.
- (d) Social inequality and income distribution.

Exp.- The main limitation of the Human Development Index (HDI) is that it only reflects national averages (health, education, income), but does not take into account inequality and unequal distribution of income within society. It fails to highlight the deep gap between the rich and the poor within a country or the discrimination in access to the benefits of development. **Ans. (d)**

40. What is the primary dependent variable in the Happiness Index analysis?

SSC CPO TIER-I, 13/12/2025 (Shift-01)

- (a) GDP growth
- (b) Population density
- (c) Mental health rates
- (d) Life satisfaction

Exp.- In the analysis of the Happiness Index, 'life satisfaction' is the primary dependent variable, which is measured through the Cantril Ladder question. Other factors such as GDP and social support are independent variables that affect life satisfaction. **Ans. (d)**

41. Consider the following statements:

1. The Human Development Index (HDI) is based on life expectancy and standard of living only.
2. Life expectancy at birth is taken into account to measure HDI.
3. Multi Dimensional Poverty Index (MPI) measures health and education only.
4. Child mortality and nutrition are taken into account to measure health in MPI.

Which of the statements given above is/are CORRECT?

SSC CPO TIER-I, 13/12/2025 (Shift-01)

- (a) 1, 2 and 4 only
- (b) 3 and 4 only
- (c) 1 and 3 only
- (d) 2 and 4 only

Exp.- Life expectancy at birth is used to measure the health dimension of HDI, and in the health dimension of MPI, **child mortality** and **nutrition** are considered the primary indicators. Therefore, **statements 2 and 4 are correct.**

□ HDI includes not only life expectancy and standard of living but also **education** (mean and expected years of schooling). Similarly, MPI measures not only health and education but also the **standard of living**. Therefore, **statements 1 and 3 are incorrect.** **Ans. (d)**

42. Which index in 2025 highlighted that account ownership in India has reached 89% since 2011?

SSC CHSL TIER-I, 12/11/2025 (Shift-02)

- (a) Global Findex 2025
- (b) Fiscal Health Index 2025
- (c) Gross Financial Index 2025
- (d) National Strategy for Financial Education

Exp.- According to the World Bank's 'Global Findex 2025' report, account ownership in India has increased from **35%** in 2011 to **89%** in 2024-25. The main credit for this rapid growth is given to financial inclusion initiatives like the 'Pradhan Mantri Jan Dhan Yojana' (PMJDY) and the expansion of digital banking. **Ans. (a)**

43. India is ranked _____ in the World Happiness Report published in March 2025.

SSC CHSL TIER-I, 12/11/2025 (Shift-03)

- (a) 95th
- (b) 126th
- (c) 118th
- (d) 111th

Exp.- The World Happiness Report is released by the United Nations Sustainable Development Solutions Network, which ranks countries based on happiness levels. It is based on **6** factors such as social support, GDP per capita, healthy life expectancy, freedom, generosity, and perception of corruption.

□ India has been ranked **118th** in the **World Happiness Report 2025** published in March 2025. **Ans. (d)**

44. In India, which of the following is a report published under MoSPI?

- I. Periodic Labour Force Survey
- II. Monthly Infrastructure Performance Review Report

SSC CHSL TIER-I, 13/11/2025 (Shift-02)

- (a) Only I
- (b) Only II
- (c) Both I and II
- (d) Neither I nor II

Exp.- The National Statistical Office (NSO) under MoSPI releases the Periodic Labour Force Survey (PLFS), which aims to regularly assess employment-unemployment indicators (LFPR, WPR, UR) and since **2025 its monthly bulletins** are also being published; meanwhile, the **Monthly Infrastructure Performance Review Report** is released by the IPMD division of MoSPI, which monitors the production and target achievement of **11 major infrastructure sectors (electricity, coal and steel etc.)**. **Ans. (c)**

45. In India, Financial Inclusion Index has _____ sub-indices.

SSC CHSL TIER-I, 14/11/2025 (Shift-02)

- (a) 2
- (b) 3
- (c) 4
- (d) 5

Exp.- In August 2021, the RBI introduced an **index** with a **score of 0-100** to measure financial inclusion in the country, which is based on three sub-indices as follows- **(i) Access (35%)** – banking infrastructure, **(ii) Usage (45%)** – actual consumption of services, and **(iii) Quality (20%)** – effectiveness of services, financial literacy and consumer protection. **Ans. (b)**

46. What was India's rank in the Global Innovation Index 2024?

SSC CHSL TIER-I, 14/11/2025 (Shift-03)

- (a) 46th
- (b) 19th
- (c) 61st
- (d) 39th

Exp.- The **Global Innovation Index (GII)** is released by the **World Intellectual Property Organization (WIPO)**. In **2024**, India secured the **39th** position in the list of **133 countries**. **Ans. (d)**

47. RBI's Financial Inclusion Index has risen to _____ in 2025.

SSC CHSL TIER-I, 14/11/2025 (Shift-03)

- (a) 67
- (b) 73
- (c) 54
- (d) 41

Exp.- By March 2025, the Financial Inclusion **Index has reached 67**, primarily due to banking access in rural areas and the increasing use of digital transactions (UPI). **Ans. (a)**

48. The Export Preparedness Index in India is based on how many pillars?

SSC CHSL TIER-I, 19/11/2025 (Shift-01)

- (a) 2
- (b) 4
- (c) 6
- (d) 8

Exp.- The **Export Preparedness Index (EPI)** released by NITI Aayog is primarily based on four pillars: Policy, Business Ecosystem, Export Ecosystem, and Export Performance. **Ans. (b)**

49. District Hospital Index published by NITI Aayog is based on how many Key Performance Indicators?

SSC CHSL TIER-I, 20/11/2025 (Shift-02)

- (a) 4
- (b) 5
- (c) 7
- (d) 10

Exp.- The District Hospital Index, published by NITI Aayog in collaboration with the Ministry of Health and Family Welfare, is based on a total of **10 key performance indicators**. These indicators conduct a comprehensive assessment of the operational capacity of hospitals, clinical services (such as the availability of doctors/nurses per bed), and the quality of service delivery. **Ans. (d)**

50. As per the Henley Passport Index 2025, what is India's rank in passport strength?

SSC CHSL TIER-I, 21/11/2025 (Shift-03)

- (a) 77th
- (b) 65th
- (c) 75th
- (d) 90th

Exp.- In the Henley Passport Index 2025, India ranked **77th**. This index is released by Henley & Partners. Now, Indian citizens have achieved visa-free or visa-on-arrival access to 59 countries. **Ans. (a)**

51. Which of the following is NOT one of the pillars of Export Preparedness Index of India?

- I. Export policy
- II. Business environment

SSC CHSL TIER-I, 21/11/2025 (Shift-03)

- (a) Only I
- (b) Only II
- (c) Both I and II
- (d) Neither I nor II

Exp.- The Export Preparedness Index (EPI) released by NITI Aayog is based on four main pillars: Policy, Business Ecosystem, **Export Ecosystem** and **Export Performance**. Therefore, both the given options (I and II) are actual pillars of this index. **Ans. (d)**

52. Which state topped in the Management effectiveness evaluation of protected areas for 2020-2025?

SSC CHSL TIER-I, 22/11/2025 (Shift-03)

- (a) Sikkim
- (b) Tripura
- (c) Manipur
- (d) Kerala

Exp.- Kerala has emerged as the best performer in the **Management Effectiveness Evaluation (MEE)** for the period **2020-2025**.

□ High scores were awarded to Kerala's **protected areas** for robust management, **community participation**, **bi-diversity conservation**, and monitoring systems.

□ Areas located in the **Western Ghats**, such as **Periyar Tiger Reserve** and **Silent Valley National Park**, exemplify the state's strong **conservation strategies**. **Ans. (d)**

53. Which index is the world's first Government-led sub-national measure of SDG progress?

SSC CHSL TIER-I, 24/11/2025 (Shift-02)

- (a) SDG India Index
- (b) China Leading SDG Index
- (c) American Sustainable Index
- (d) SDG EU Index

Exp.- The **SDG India Index** is the world's first government-led sub-national index, developed by **NITI Aayog**. This index measures the progress of India's States and Union Territories in achieving the **Sustainable Development Goals**. **Ans. (a)**

54. State Mining Readiness Index in India has how many Indicators?

SSC CHSL TIER-I, 25/11/2025 (Shift-03)

- (a) 4
- (b) 6
- (c) 7
- (d) 9

Exp.- India's State Mining Readiness Index (SMRI) primarily consists of **4 key indicators**, which evaluate the performance of states for non-coal minerals: **auction performance, early operationalization of mining, emphasis on exploration, and sustainable mining practices**. This index is released by the Ministry of Mines to promote reforms and healthy competition in the mining sector. **Ans. (a)**

55. The first-ever Export Preparedness Index in India was launched in _____.
SSC CHSL TIER-I, 25/11/2025 (Shift-03)
 (a) 2018 (b) 2005
 (c) 2015 (d) 2020

Exp.- For the first time in India, the **Export Preparedness Index (EPI)** was launched by the **NITI Aayog** in **August 2020**. This index ranks states and union territories on the basis of their export performance and export ecosystem to promote healthy competition among states. **Ans. (d)**

56. Which organization publishes the Human Development Report?
SSC CHSL TIER-I, 26/11/2025 (Shift-01)
 (a) UNDP
 (b) IMF
 (c) World Bank
 (d) World Economic Forum

Exp.- The Human Development Report is published by the **United Nations Development Programme (UNDP)**. It was first introduced in 1990 through the efforts of economists **Mahbub-ul-Haq and Amartya Sen**.

- ☐ This report ranks countries under the **Human Development Index (HDI)** on the basis of health (life expectancy), education, and standard of living (per capita GNI). **Ans. (a)**

57. State Health Index is an initiative of NITI Aayog, in collaboration with Ministry of Health and Family Welfare and with technical assistance from the _____.
SSC CHSL TIER-I, 26/11/2025 (Shift-01)
 (a) Institute for Competitiveness
 (b) CSIR
 (c) World Bank
 (d) Ministry of Earth Sciences

Exp.- The State Health Index is an annual initiative developed by **NITI Aayog** in collaboration with the **Ministry of Health and Family Welfare** and with technical assistance from the **World Bank**. This index ranks States and Union Territories based on their health outcomes and incremental performance to promote **'cooperative and competitive federalism'**. **Ans. (c)**

58. Which organisation published the Multidimensional Vulnerability Index?
SSC CHSL TIER - I, 27/11/2025 (Shift-02)
 (a) United Nations
 (b) World Bank
 (c) NITI Aayog
 (d) IMF

Exp.- The Multidimensional Vulnerability Index (MVI) is primarily developed and published by the United Nations (UN). Its objective is to conduct a multidimensional assessment of the economic, social, and environmental vulnerabilities of countries and to ensure financial assistance and concessional loans based on these vulnerabilities. **Ans. (a)**

59. National Infrastructure Readiness Index (NIRI) was launched in _____.
SSC CHSL TIER - I, 29/11/2025 (Shift-02)
 (a) September 2024
 (b) April 2024
 (c) August 2025
 (d) January 2025

Exp.- The National Infrastructure Readiness Index (NIRI) was released by NITI Aayog in **September 2024** to evaluate the basic infrastructural capacities of the states. This index promotes competitive federalism among states based on key parameters such as logistics, connectivity, and digital infrastructure. **Ans. (a)**

60. What is a major difficulty in the data collection process for the Happiness Index across different countries?
SSC Stenographer 06/08/2025 (Shift-01)
 (a) Recording trade statistics accurately
 (b) Lack of financial resources for advertising
 (c) Language barriers in economic treaties
 (d) Ensuring consistent and uniform survey methods globally

Exp.- The biggest challenge in global data collection for the Happiness Index is maintaining **uniformity and consistency** in survey methodologies across various countries, because cultural differences affect the understanding of happiness and the comparability between countries and over the years. **Ans. (d)**

61. How many key variables are used in the World Happiness Report to explain happiness levels?
SSC Stenographer 06/08/2025 (Shift-01)
 (a) 6 (b) 4
 (c) 10 (d) 8

Exp.- In the World Happiness Report, **6 main factors** are primarily used to measure and understand the level of happiness. These factors include **Gross Domestic Product (GDP)** per capita, social support, healthy life expectancy, freedom to make life choices, generosity, and perception of corruption. **Ans. (a)**

62. Which of the following is NOT a direct outcome of using the Happiness Index?
SSC Stenographer 06/08/2025 (Shift-03)
 (a) Monitoring population growth
 (b) Creating education policies
 (c) Improving healthcare services
 (d) Enhancing social services

Exp.- Happiness Index primarily focuses on factors like quality of life, social support, and mental well-being; therefore, **monitoring population growth is not its direct result or objective**. Governments often use this index to improve policies such as education, health, and social security so that the overall satisfaction of citizens can be improved. **Ans. (a)**

63. Match the following Indexes with their respective Publishing Organizations:
SSC Stenographer 06/08/2025 (Shift-03)

Column A-Index	Column B - Publishing Organization
A. Global Innovation Index	1. United Nations Development Programme (UNDP)
B. Global Hunger Index	2. World Intellectual Property Organization (WIPO)
C. Global Peace Index	3. Concern Worldwide and Welthungerhilfe
D. Human Development Index (HDI)	4. Institute for Economics and Peace (IEP)

- (a) A - 3, B - 2, C - 1, D - 4
 (b) A - 4, B - 2, C - 3, D - 1
 (c) A - 2, B - 1, C - 3, D - 4
 (d) A - 2, B - 3, C - 4, D - 1

Exp.- Human Development Index (HDI) is released by **UNDP** and the **Global Innovation Index** is released by **WIPO**.

- ☐ The **Global Hunger Index** is prepared by 'Concern Worldwide and Welthungerhilfe', while the **Peace Index** is published by the Sydney-based **'Institute for Economics and Peace' (IEP)**. **Ans. (d)**

64. Which year was the first World Happiness Report published?
SSC Stenographer 07/08/2025 (Shift-01)
 (a) 2012 (b) 2016
 (c) 2010 (d) 2005

Exp.- The first **World Happiness Report** was released on **1 April, 2012**. It was prepared with the support of a high-level meeting of the **United Nations (UN)**, which recognised **"well-being and happiness"** as a new **economic paradigm**.

- ☐ **Finland** has remained at the top position in this report continuously for the past several years. **Ans. (a)**

65. What does a high rank in the Henley Passport Index indicate?
SSC Stenographer 07/08/2025 (Shift-02)
 (a) High economic power
 (b) Strong military alliances provided to citizens
 (c) Greater visa-free or visa-on-arrival access for citizens
 (d) Political neutrality

Exp.- A higher rank in the Henley Passport Index indicates that the passport holders of that country can travel to the **maximum number of countries without a visa or with visa-on-arrival**. This ranking is based on the global data of the **International Air Transport Association (IATA)** and reflects a country's **global access and the strength of its diplomatic relations**. *Ans. (c)*

66. How often is the World Happiness Report released?

SSC Stenographer 07/08/2025 (Shift-02)

- (a) Quarterly (b) Annually
(c) Triennially (d) Biennially

Exp.- The World Happiness Report is released **every year (once a year)**, which is usually published on **20 March** on the occasion of the **International Day of Happiness**. This report is released by the **United Nations Sustainable Development Solutions Network (SDSN)**, in which countries are ranked on the basis of factors such as **GDP, social support, and life expectancy**. *Ans. (b)*

67. Which of the following is a benefit of measuring happiness in a country?

SSC Stenographer 07/08/2025 (Shift-03)

- (a) Tracking crime rates
(b) Improving economic statistics only
(c) Understanding citizens' mental and emotional well-being
(d) Predicting election results

Exp.- The main advantage of measuring 'well-being' or happiness in a country is that it goes beyond only material indicators like **GDP** and helps in assessing the mental, social and emotional condition of citizens. It encourages policymakers to focus on human aspects such as health care, social security and work-life balance, which are not clearly reflected by economic development alone. *Ans. (c)*

68. What is used to measure the health dimension in HDI?

SSC Stenographer 07/08/2025 (Shift-03)

- (a) Life expectancy at birth
(b) Infant mortality rate
(c) Access to clean water
(d) Nutritional status

Exp.- In the Human Development Index (HDI), the health dimension is measured through life expectancy at birth, which shows how many years a newborn infant is expected to live on average. It reflects the combined impact of health facilities, sanitation and nutrition over time. The other two dimensions of HDI are **education and standard of living**. *Ans. (a)*

69. Which of the following statement is incorrect regarding global indices as of July 2025?

SSC Stenographer 07/08/2025 (Shift-03)

- (a) The World Happiness Report 2024 highlights social support, life expectancy, and GDP per capita as key happiness factors.

- (b) AQI consistently above 200 signals general health risks and requires urgent policy action.
(c) Despite being discontinued, the Ease of Doing Business report remains influential for investors assessing startup procedures.
(d) A rise in GNI per capita alone can significantly improve HDI, even with falling life expectancy and education.

Exp.- Human Development Index (HDI) does not depend on income alone, rather it is a geometric mean of income along with health (life expectancy) and education. If there is a decline in education and life expectancy, then an increase in per capita income alone cannot make a significant improvement in the index because it is essential for all three dimensions of HDI to be balanced. Therefore, **statement (d) is incorrect**. *Ans. (d)*

70. If a country improves in the GGGR due to a policy mandating equal female representation on company boards, which GGGR dimension would be most directly impacted?

SSC Stenographer 08/08/2025 (Shift-01)

- (a) Educational Attainment
(b) Health and Survival
(c) Political Empowerment
(d) Economic Participation and Opportunity

Exp.- In the Global Gender Gap Report (GGGR), the dimension of 'Economic Participation and Opportunity' measures professional roles and leadership positions (such as the representation of women on company boards). Increasing women's representation on boards reduces the gender gap in the category of **senior officials and managers**, which is an important component of this index. *Ans. (d)*

71. What kind of approach does the Happiness Index encourage in governance?

SSC Stenographer 08/08/2025 (Shift-03)

- (a) Legalistic
(b) Citizen-centric
(c) Resource-based
(d) Militaristic

Exp.- The Happiness Index promotes a citizen-centric approach in the system of governance, as it prioritizes the mental well-being, health, and social security of people instead of only economic data (such as **GDP**). It motivates the government to focus on how government policies are actually improving the quality of life and the level of satisfaction of the citizens. *Ans. (b)*

72. Which Asian country ranked as the happiest in the World Happiness Report 2025?

SSC PHASE XIII 24/07/2025 (Shift-03)

- (a) Singapore (b) Japan
(c) Taiwan (d) South Korea

Exp.- Taiwan has been declared the happiest country in Asia in the **World Happiness Report 2025**.

□ This report is released by the **United Nations Sustainable Development Solutions Network** and is based on indicators such as **per capita income, social support, healthy life expectancy, generosity, freedom, and levels of corruption**. *Ans. (c)*

73. What is the main difference between air quality and the Air Quality Index (AQI)?

SSC PHASE XIII 30/07/2025 (Shift-03)

- (a) Air quality is a measure of noise pollution, while the Air Quality Index (AQI) is an index for public awareness.
(b) Air quality represents absolute pollution levels, while the Air Quality Index (AQI) is an index for public awareness.
(c) Air quality is only measured in cities, while the Air Quality Index (AQI) is an index for public awareness.
(d) Air quality is used for scientific research, while the Air Quality Index (AQI) is an index for public awareness.

Exp.- Air quality is the actual scientific measurement of the physical and chemical state of the air, whereas the AQI (Air Quality Index) represents complex data in a **simple, numerical** form so that the general public can easily understand pollution levels and health risks. *Ans. (b)*

74. The concept of "human development ethics" challenges the Human Development Index (HDI) for its:

SSC PHASE XIII 02/08/2025 (Shift-03)

- (a) Implicit assumptions about universal values and development goals.
(b) Over-reliance on economic data.
(c) Exclusion of military strength indicators.
(d) Lack of international trade analysis.

Exp.- The concept of "Human Development Ethics" argues that development should not be limited only to **statistical data** (quantitative figures), but should also incorporate **cultural diversity and ethical values**. It challenges the **HDI (Human Development Index)** because the HDI considers certain fixed **Western notions and universal values** as the standard of progress, whereas the **goals of development** may vary based on **local priorities and ethics**. *Ans. (a)*

75. What is the primary purpose of the 2024 Environmental Performance Index (EPI)?

SSC PHASE XIII 29/08/2025 (Shift-01)

- (a) To evaluate GDP growth across developing nations
(b) To offer a global ranking of environmental NGOs
(c) To rank countries on environmental and climate performance
(d) To list the most polluted cities across continents

Exp.- The primary objective of the **2024 Environmental Performance Index (EPI)** is to rank all nations (180 countries) based on their **environmental health, ecosystem vitality, and climate change mitigation**.

- It provides policymakers with a data-driven '**scorecard**' to evaluate the effectiveness of their **sustainability** policies. Ans. (c)

76. Read the below statements marked as Assertion (A) and Reason (R). Mark the correct options:

Assertion (A): A country with a high Human Development Index may still have high multidimensional poverty.

Reason (R): Human Development Index is an average and doesn't capture intra-country inequalities.

SSC PHASE XIII 29/08/2025 (Shift-01)

- (a) Both A and R are true, and R is the correct explanation of A.
- (b) Both A and R are true, but R is not the correct explanation of A.
- (c) A is true, but R is false.
- (d) A is false, but R is true.

Exp.- The **Human Development Index (HDI)** is an average measure of three dimensions: **health, education, and income**. Therefore, even if a country has a high HDI, **multidimensional poverty** can persist due to the unequal distribution of wealth and resources. Since HDI is an **average index**, it does not indicate whether the benefits of development have reached the lower strata of society, nor does it fully reflect the economic and social **inequalities** within a country. Ans. (a)

77. How is the data for the Happiness Index collected?

SSC PHASE XIII 24/07/2025 (Shift-02)

- (a) Through satellite images
- (b) By measuring GDP only
- (c) Through self-reported surveys
- (d) By analyzing internet usage.

Exp.- The **World Happiness Report** is primarily based on data collected by the **Gallup World Poll**. In this survey, respondents are asked to rate their current life on a hypothetical ladder from 0 (worst possible life) to 10 (best possible life). This rating is called the **self-reported score**. Ans. (c)

78. Which of the following is NOT typically considered a factor in the Happiness Index?

SSC PHASE XIII 26/07/2025 (Shift-02)

- (a) Economic status
- (b) Social support
- (c) Sports performance
- (d) Environmental conditions

Exp.- A country's sports performance is not considered a basis for the '**Happiness Index**' released by the **World Happiness Report**. The Happiness Index primarily ranks countries based on six variables: **social support, income, health, freedom, generosity, and absence of corruption**. Ans. (c)

79. Which social factor is considered in the Happiness Index?

SSC PHASE XIII 29/07/2025 (Shift-02)

- (a) Currency value
- (b) Trust in relationships
- (c) Living Standard
- (d) Tax collection rate

Exp.- The six key factors of the **World Happiness Index** are GDP per capita, social support (trust in relationships), healthy **life expectancy**, freedom to make life choices, generosity, and perception of corruption. Ans. (b)

80. What does the Happiness Index primarily measure?

SSC PHASE XIII 30/07/2025 (Shift-02)

- (a) National income
- (b) Industrial growth
- (c) Subjective well-being
- (d) Population density

Exp.- The **Happiness Index** of the '**World Happiness Report**' measures the personal life satisfaction and well-being of citizens, primarily based on surveys from the **Gallup World Poll**. It does not rely solely on economic data but uses the **Cantril Ladder** method, where people evaluate their lives on a scale of 0 to 10. Ans. (c)

81. According to the EIU, which country showed the most significant improvement in its business environment over the past 20 years?

SSC PHASE XIII 02/08/2025 (Shift-02)

- (a) India
- (b) Vietnam
- (c) Romania
- (d) Serbia

Exp.- Over the last two decades, Vietnam strengthened its manufacturing sector and adopted liberal policies for foreign investment. According to the EIU report, it has emerged as a major **global manufacturing hub** in South-East Asia. Ans. (b)

82. Which of the following is not one of the domains measured by the Happiness Index?

SSC PHASE XIII 24/07/2025 (Shift-01)

- (a) Health
- (b) Environment
- (c) Internet speed
- (d) Psychological well-being

Exp.- Internet speed is not included in the domains measured by the Happiness Index.

□ The measurement of the Happiness Index (Gross National Happiness - GNH) is primarily based on **9 domains** which include **psychological well-being, health, education, cultural diversity and resilience, time use, good governance, community vitality, ecological diversity and resilience (environment), and living standards**. Ans. (c)

83. What is the main focus of the Happiness Index?

SSC PHASE XIII 26/07/2025 (Shift-01)

- (a) Tracking population growth
- (b) Measuring happiness and wellbeing
- (c) Calculating government income
- (d) Checking school performance

Exp.- The **World Happiness Report** is an annual report released by the **Sustainable Development Solutions Network (SDSN)** since 2012.

□ It ranks happiness in more than 140 countries based on people's self-assessment (Cantril Ladder question) using data from the Gallup World Poll. Its primary goal is to include happiness and well-being in government policy to measure social progress. Ans. (b)

84. Which organization publishes the annual 'World Happiness Report' that ranks countries based on their citizens' happiness levels?

SSC PHASE XIII 28/07/2025 (Shift-01)

- (a) United Nations Development Programme (UNDP)
- (b) World Health Organization (WHO)
- (c) United Nations Sustainable Development Solutions Network (SDSN)
- (d) World Economic Forum (WEF)

Exp.- The **World Happiness Report** is published by the **United Nations Sustainable Development Solutions Network (SDSN)**.

□ The ranking of countries is based on six factors: **GDP per capita, social support, healthy life expectancy, freedom to make life choices, generosity, and perception of corruption**. Ans. (c)

85. Which organization publishes the Ease of Doing Business (EODB) report?

SSC PHASE XIII 01/08/2025 (Shift-01)

- (a) IMF
- (b) World Bank
- (c) WTO
- (d) UNDP

Exp.- The **Ease of Doing Business (EoDB)** report was an initiative of the **World Bank Group** that assessed the regulatory environment in 190 countries. Due to data irregularities, it was discontinued in 2021 and has been replaced by the '**Business Ready**' (**B-READY**) report. Ans. (b)

86. A high Ease of Doing Business (EODB) score means it is:

SSC PHASE XIII 02/08/2025 (Shift-01)

- (a) Hard to start a business
- (b) Expensive to travel
- (c) Easy to start a business
- (d) Difficult to find a job

Exp.- Ease of Doing Business (EoDB)

is an index that measures how simple or complex it is to follow business regulations in a country. A **high score** indicates a business-friendly regulatory system, where obtaining licenses, paying taxes, and enforcing contracts is straightforward. **Ans. (c)**

87. What is the ranking of India in the World Happiness Report 2025?

SSC PHASE XIII 01/08/2025 (Shift-02)

- (a) 109th
- (b) 118th
- (c) 126th
- (d) 144th

Exp.- India is ranked **118th** out of 147 countries in the 2025 report, showing an improvement from the 126th rank in 2024. **Ans. (b)**

88. What does HDI stand for?

SSC PHASE XIII 01/08/2025 (Shift-03)

- (a) Human Development Indicator
- (b) Human Demographic Index
- (c) Human Development Index
- (d) Human Distribution Index

Exp.- The full form of HDI is the **Human Development Index**. It was developed in 1990 by economists **Mahbub-ul-Haq** and **Amartya Sen** to measure a country's progress based on people's standard of living rather than just GDP. **Ans. (c)**

89. The India Innovation Index is released by NITI Aayog and_____.

SSC CHSL TIER - I, 29/11/2025 (Shift-03)

- (a) Institute for Competitiveness
- (b) CSIR
- (c) Ministry of Education
- (d) Reserve Bank of India

Exp.- The India Innovation Index is jointly released by **NITI Aayog and the Institute for Competitiveness**. This index ranks states and union territories based on their innovation performance, using pillars such as 'Enablers' and 'Performance'. **Ans. (a)**

90. Fiscal Health Index (FHI) 2025 has been released by which organization?

SSC CHSL TIER - I, 26/11/2025 (Shift-03)

- (a) NITI Aayog
- (b) Reserve Bank of India
- (c) Ministry of Finance
- (d) CAG

Exp.- The **Fiscal Health Index (FHI) 2025**, released by **NITI Aayog** (based on data from the financial year 2022-23), is a comprehensive evaluation of the financial performance of Indian states. In this index, states are ranked based on five critical sub-indices, such as quality of expenditure, revenue collection, and debt sustainability. A total of **18 major states** have been included in this assessment. **Ans. (a)**

91. What is the Sustainable Development Goals (SDGs) Index published by NITI Aayog?

SSC PHASE XIII 24/07/2025 (Shift-02)

- (a) A measure of foreign trade performance
- (b) A ranking of states based on progress toward SDGs
- (c) A list of public sector enterprises
- (d) A report on monetary policy.

Exp.- The **SDG India Index**, released by **NITI Aayog**, measures the progress of India's States and Union Territories toward achieving the 17 **Sustainable Development Goals (SDGs)** set by the United Nations. Based on their scores, states are divided into four categories: **Aspirant, Performer, Front Runner, and Achiever**. **Ans. (b)**

92. Read the below statements marked as Assertion (A) and Reason (R). Mark the correct options:

Assertion (A): The Human Development Index can increase even if income drops.

Reason (R): Improvements in life expectancy and education can offset income decline.

SSC CGL TIER-I, 20/09/2025 (Shift-02)

- (a) Both A and R are true, and R is the correct explanation of A
- (b) Both A and R are true, but R is not the correct explanation of A
- (c) A is true, but R is false
- (d) A is false, but R is true

Exp.- There are three main dimensions of the **Human Development Index (HDI): health (life expectancy), education and standard of living (per capita income)**. Since HDI is an average of these three, if a country's income declines, but there is significant improvement in health facilities and literacy rates, the overall HDI score can increase. **Ans. (a)**

93. Which new element was incorporated in the 2023 edition of the Logistics Performance Index (LPI)?

SSC CGL TIER - I, 18/09/2025 (Shift-03)

- (a) It evaluates only land-based transport systems
- (b) It ranks countries based on tourism potential
- (c) It includes indicators measuring trade speed using big data
- (d) It excludes lower - income economies from the analysis

Exp.- In the seventh edition of the Logistics Performance Index (LPI) 2023, **'Big Data'** has been used for the first time. It includes new indicators that measure the speed of trade and the efficiency of the supply chain through data obtained from the actual tracking of ships, air cargo, and postal packages, making traditional survey-based assessments more accurate. **Ans. (c)**

94. Which indicator is used to measure the 'Knowledge' dimension of the Human Development Index?

SSC CGL TIER-II 18/01/2026

- (a) Mean years of schooling and Expected years of schooling
- (b) Student-to-teacher ratio in secondary education
- (c) Number of universities and research publications
- (d) Adult literacy rate and primary school enrollment

Exp.- The **Human Development Index (HDI)** is released by the **United Nations Development Programme (UNDP)**. To measure its 'knowledge' dimension, two specific indicators are used:

- **Mean Years of Schooling:** This reflects the average number of years spent in school by adults aged 25 years or older.
- **Expected Years of Schooling:** This is an estimate of the total potential years a child is expected to spend in school from the age of entry. **Ans. (a)**

95. Read the below statements marked as Assertion (A) and Reason (R). Mark the correct options:

Assertion (A): Human Development Index (HDI) in India improved significantly post-2010.

Reason (R): The methodology was revised globally to include inequality-adjusted Human Development Index (IHDI).

SSC CGL TIER - I, 17/09/2025 (Shift-02)

- (a) Both A and R are true, and R is the correct explanation of A
- (b) Both A and R are true, but R is not the correct explanation of A
- (c) A is true, but R is false
- (d) A is false, but R is true

Exp.- India's Human Development Index (HDI) has improved since 2010 due to growth in education, health, and per capita income, making Assertion (A) true.

- In the year 2010, a new methodology for the Inequality-adjusted HDI (IHDI) was introduced by the UNDP; therefore, Reason (R) is also true. However, the improvement in India's score is primarily due to domestic development and social welfare schemes, rather than just the revision in the calculation methodology. **Ans. (b)**

16

Schemes/Missions/Programmes/Initiatives/Portals

1. Read the below statements marked as Assertion (A) and Reason (R). Mark the correct options:

Assertion (A): The One Nation One Ration Card ensures portability of food grains.

Reason (R): It uses Aadhaar-enabled biometric authentication.

SSC CGL TIER-I, 12/09/2025 (Shift-01)

- (a) Both A and R are true, and R is the correct explanation of A
(b) Both A and R are true, but R is not the correct explanation of A
(c) A is true, but R is false
(d) A is false, but R is true

Exp.- The "One Nation One Ration Card (ONORC)" scheme ensures the portability of food grains across the country so that beneficiaries can receive rations from any state. This system is linked to **Aadhaar-enabled Biometric Authentication (AeBA)**, which verifies the identity. **Ans. (a)**

2. What is the age range for farmers to enrol in the Pradhan Mantri Kisan Maandhan Yojana (PM-KMY)?

SSC CGL TIER-I, 12/09/2025 (Shift-02)

- (a) 18-30 years (b) 18-40 years
(c) 21-45 years (d) 25-50 years

Exp.- Small and marginal farmers between the age of **18 to 40 years** can enroll in the Pradhan Mantri Kisan Maandhan Yojana (PM-KMY).

- They receive a monthly pension of 3,000 rupees at the age of 60 years. The farmer has to make a contribution of 55-200 rupees per month, and the Central Government provides an equal matching contribution. **Ans. (b)**

3. Read the below statements marked as Assertion (A) and Reason (R). Mark the correct options:

Assertion (A): UDAN Scheme improves regional air connectivity.

Reason (R): It provides financial viability gap funding to airlines.

SSC CGL TIER-I, 12/09/2025 (Shift-02)

- (a) Both A and R are true, and R is the correct explanation of A
(b) Both A and R are true, but R is not the correct explanation of A
(c) A is true, but R is false
(d) A is false, but R is true

Exp.- The objective of the **UDAN (Ude Desh ka Aam Nagrik)** scheme is to enhance regional air connectivity and provide affordable air services. For this purpose, the government provides **Viability Gap Funding (VGF)** to airlines so that they can operate flights at lower fares. **Ans. (a)**

4. Which scheme supports financial services through postmen?

SSC CGL TIER-I, 12/09/2025 (Shift-03)

- (a) NSAP (b) IPPB
(c) PMJAY (d) PRAGATI

Exp.- The India Post Payments Bank (IPPB) scheme supports financial services through a vast network of postmen and Gramin Dak Sevaks.

- It was launched by Prime Minister Narendra Modi on **1 September, 2018**.
□ Using smartphones and fingerprint scanners, postmen deliver banking facilities directly to people's doorsteps in rural and remote areas. **Ans. (b)**

5. Consider the following statements about the MISHTI Scheme:

1. It aims at mangrove plantation using scientific methods.
2. It was announced under Budget 2023-24.
3. It includes commercial leasing of mangrove forests.

SSC CGL TIER-I, 12/09/2025 (Shift-03)

- (a) Only 1 and 2 are correct
(b) Only 2 and 3 are correct
(c) Only 1 and 3 are correct
(d) All 1, 2 and 3 are correct

Exp.- The objective of MISHTI (Mangrove Initiative for Shoreline Habitats & Tangible Incomes) is to undertake mangrove plantation through scientific methods. It was announced in the Budget 2023-24 and is being implemented through the convergence of sources like MGNREGS and CAMPA. Therefore, **statements 1 and 2 are correct**.

- The focal point of the scheme is on conservation, carbon sinks, and coastal livelihoods; there is no provision for commercial leasing of mangrove areas. Therefore, **statement 3 is incorrect**. **Ans. (a)**

6. Which department launched Dak Karmayogi?

SSC CGL TIER-I, 13/09/2025 (Shift-03)

- (a) MOCA (b) DoF
(c) DoP (d) MOHUA

Exp.- The 'Dak Karmayogi' portal has been launched by the **Department of Posts (DoP)**. It is an e-learning portal developed under '**Mission Karmayogi**'.

- Its objective is to enhance the efficiency of approximately 4 lakh **Gramin Dak Sevaks** and departmental employees so that they can provide better customer service and **financial inclusion**. **Ans. (c)**

7. What is the main goal of the 'Green Credit Programme' launched in 2024?

SSC CGL TIER-I, 13/09/2025 (Shift-03)

- (a) Promote fossil fuel use
(b) Support monoculture farming
(c) Encourage eco-restoration through credit incentives
(d) Increase mining leases

Exp.- The **Green Credit Programme (GCP)** was launched by the Ministry of Environment, Forest and Climate Change in **2023**. It provides green credits (incentive points) to individuals, institutions, and companies for activities such as **tree plantation, ecosystem restoration, water conservation, and waste management**. **Ans. (c)**

8. Which of the following statements correctly describe the MISHTI initiative launched in India?

1. The MISHTI programme is designed to increase mangrove forest cover and enhance livelihood opportunities in coastal areas.
2. It is a project initiated under the Ministry of Rural Development.
3. The program is financed with a mix of fundings coming from the CAMPA (Compensatory Afforestation Fund Management and Planning Authority) Fund and the MGNREGS (Mahatma Gandhi National Rural Employment Guarantee Scheme).

SSC CGL TIER-I, 14/09/2025 (Shift-02)

- (a) 1 and 2 (b) 1 and 3
(c) 2 and 3 (d) 1, 2, and 3 all

Exp.- The objective of the MISHTI scheme is to provide protection against natural disasters and increase livelihood opportunities by undertaking mangrove plantation in coastal and saline areas. Its funding is done through the convergence of sources like **MGNREGS** and **CAMPA**;

- It is operated under the **MoEFCC (Ministry of Environment, Forest and Climate Change)**, and not under the Ministry of Rural Development. Therefore, statements 1 and 3 are correct, while statement 2 is incorrect. **Ans. (b)**

9. Which of these schemes is implemented to promote organic farming?

SSC CGL TIER-I, 14/09/2025 (Shift-03)

- (a) PM-KMY (Pradhan Mantri Kisan Maandhan Yojana)
(b) PKVY (Paramparagat Krishi Vikas Yojana)
(c) SHC (Soil Health Card Scheme)
(d) ATMA (Agricultural Technology Management Agency)

Exp.- Paramparagat Krishi Vikas Yojana (PKVY) was launched in 2015 by the Ministry of Agriculture and Farmers Welfare. It is a sub-component of the National Mission for Sustainable Agriculture (NMSA).

- Its objective is to encourage farmers to adopt organic farming, so that dependence on chemical fertilizers and pesticides is reduced. **Ans. (b)**

10. Read the below statements marked as Assertion (A) and Reason (R). Mark the correct options:

Assertion (A): The National Single Window System (NSWS) supports investor clearances.

Reason (R): It works as a separate ministry.

SSC CGL TIER-I, 14/09/2025 (Shift-03)

- (a) Both A and R are true, and R is the correct explanation of A
(b) Both A and R are true, but R is not the correct explanation of A
(c) A is true, but R is false
(d) A is false, but R is true

Exp.- The objective of the National Single Window System (NSWS) is to provide an integrated online platform for investors, where they can obtain necessary industrial approvals and clearances from various ministries and states.

- It is not an independent ministry; rather, it functions under the Department for Promotion of Industry and Internal Trade (DPIIT), Ministry of Commerce and Industry. **Ans. (c)**

11. Consider the following statements about the eSanjeevani initiative:

Statement 1: eSanjeevani OPD enables remote doctor consultations for citizens via online mode.

Statement 2: eSanjeevani AB-HWC connects citizens with Ayushman Bharat Health and Wellness Centers (AB-HWC).

Which of the above is/are correct?

SSC CGL TIER-I, 15/09/2025 (Shift-01)

- (a) Only Statement 1 is correct
(b) Only Statement 2 is correct
(c) Both 1 and 2
(d) Neither 1 nor 2

Exp.- e-Sanjeevani is a comprehensive telemedicine initiative in which '**e-Sanjeevani OPD**' provides online medical consultation directly to citizens from the comfort of their homes.

- The '**e-Sanjeevani AB-HWC**' model connects health centers in rural areas with specialists through doctor-to-doctor consultation. **Ans. (c)**

12. The slogan "Har Khet Ko Pani" belongs to:

SSC CGL TIER-I, 15/09/2025 (Shift-02)

- (a) Paramparagat Krishi Vikas Yojana
(b) Pradhan Mantri Fasal Bima Yojana
(c) Pradhan Mantri Krishi Sinchayee Yojana
(d) Rashtriya Krishi Vikas Yojana

Exp.- The slogan "Har Khet Ko Pani" is related to the Pradhan Mantri Krishi Sinchayee Yojana (PMKSY), which aims to provide irrigation facilities to all farms and promote the **efficient use of water**.

- The Pradhan Mantri Fasal Bima Yojana provides financial security and insurance cover to farmers in case of crop failure due to natural calamities. **Ans. (c)**

13. Read the below statements marked as Assertion (A) and Reason (R).

Assertion (A): SVAMITVA scheme provides property cards using drone technology.

Reason (R): It covers rural and urban areas.

SSC CGL TIER-I, 15/09/2025 (Shift-03)

- (a) Both A and R are true, and R is the correct explanation of A
(b) Both A and R are true, but R is not the correct explanation of A
(c) A is true, but R is false
(d) A is false, but R is true

Exp.- The SVAMITVA scheme uses drone technology to demarcate inhabited land in rural areas and provides 'Property Cards' to villagers for their homes; hence, **Assertion (A) is true**. This scheme is primarily meant only for rural India (Gram Panchayats) and not for urban areas; hence, **Reason (R) is false**. **Ans. (c)**

14. Which scheme promotes crop diversification through cluster-based planning?

SSC CGL TIER - I, 16/09/2025 (Shift-02)

- (a) PM-AASHA (Pradhan Mantri Annadata Aay Sanrakshan Abhiyan)
(b) RKVY (Rashtriya Krishi Vikas Yojana)
(c) SMAM (Sub-Mission on Agricultural Mechanization)
(d) AIF (Agriculture Infrastructure Fund)

Exp.- The **Rashtriya Krishi Vikas Yojana (RKVY)** provides states with the flexibility to promote crop diversification and agricultural development through cluster-based strategies according to their local needs. **Ans. (b)**

15. Which of the following schemes or initiatives is conceptually different from the others in terms of its sectoral focus?

SSC CGL TIER - I, 18/09/2025 (Shift-01)

- (a) NSWS (b) LEADS
(c) Gati Shakti (d) PMFBY

Exp.- NSWS, LEADS, and Gati Shakti primarily focus on industrial infrastructure, logistics, and ease of doing business. In contrast, PMFBY (**Pradhan Mantri Fasal Bima Yojana**) is an insurance safety net for the agricultural sector, which makes it conceptually different from the other three industrial-centric initiatives. **Ans. (d)**

16. The "Atal Innovation Mission (AIM)" is a flagship initiative to promote innovation and entrepreneurship in India. Which of the following is a key component or program under AIM?

SSC CGL TIER - I, 18/09/2025 (Shift-03)

- (a) Skill India Centers
(b) Startup India Seed Fund Scheme
(c) Atal Tinkering Labs (ATLs)
(d) Pradhan Mantri Kaushal Vikas Yojana (PMKVY)

Exp.- Atal Tinkering Labs (ATL) is a flagship component of the **Atal Innovation Mission (AIM)** under **NITI Aayog**, which focuses on developing a mindset of innovation and **problem-solving** among students in schools.

- **Skill India** and **PMKVY** are initiatives of the **Ministry of Skill Development**, while the **Startup India Seed Fund** falls under the **Ministry of Commerce and Industry**. **Ans. (c)**

17. The "Green Credit Programme" launched under the Environment Ministry rewards individuals and companies for which activity?

SSC CGL TIER-I, 20/09/2025 (Shift-01)

- (a) Water conservation only
(b) Planting trees and ecosystem restoration
(c) Air pollution monitoring
(d) Solar panel installation

Exp.- The **Green Credit Programme (GCP)** is an initiative of the Government of India (Ministry of Environment, Forest and Climate Change), which grants Green Credits for environment-friendly actions such as tree plantation, waste management, and water conservation.

- These Green Credits are tradable, which increases private and corporate participation. Its objective is to encourage sustainable practices and environmental conservation. It is a part of the **LiFE (Lifestyle for Environment)** movement. **Ans. (b)**

18. Under the Pradhan Mantri Kisan Maandhan Yojna (PM-KMY), how much monthly pension is provided to eligible small and marginal farmers after the age of 60?

SSC CGL TIER-I, 20/09/2025 (Shift-03)

- (a) ₹1,000 (b) ₹2,000
(c) ₹3,000 (d) ₹5,000

Exp.- The **Pradhan Mantri Kisan Maandhan Yojana (PM-KMY)** is a Central Government pension scheme for small and marginal farmers (aged 18-40 years), which was launched on **12 September, 2019**.

- It provides a monthly pension of ₹3,000 after the age of 60 years. Farmers make a monthly contribution ranging from ₹55 to ₹200, depending on their age, and the government makes an equal matching contribution, which provides financial security in old age. **Ans. (c)**

19. Which government initiative focuses on improving the road infrastructure in rural areas of India?

SSC CGL TIER-I, 21/09/2025 (Shift-01)

- (a) Bharatmala Pariyojana
(b) Pradhan Mantri Gram Sadak Yojana (PMGSY)
(c) National Highways Development Project (NHDP)
(d) Setu Bharatam Programme

Exp.- Pradhan Mantri Gram Sadak Yojana (PMGSY) was launched in December 2000, with the primary objective of providing **all-weather road connectivity** in rural areas.

□ This scheme specifically focuses on connecting unconnected rural habitations with a population of more than 500 (in plain areas) or more than 250 (in hilly and desert areas). **Ans. (b)**

20. Which government scheme aims to provide financial support to senior citizens who may have lost their means of sustenance?

SSC CGL TIER-I, 21/09/2025 (Shift-03)

- (a) Indira Gandhi National Old Age Pension Scheme (IGNOAPS)
- (b) Atal Pension Yojana (APY)
- (c) Pradhan Mantri Vaya Vandana Yojana (PMVVY)
- (d) National Social Assistance Programme (NSAP)

Exp.- The objective of the Indira Gandhi National Old Age Pension Scheme (IGNOAPS) is to provide financial assistance in the form of a monthly pension to those senior citizens living Below the Poverty Line (BPL) who have no regular means of subsistence. This scheme was launched on **19 November, 2007**. **Ans. (a)**

21. Which government initiative focuses on improving urban infrastructure, including water supply, sewerage, and urban transport, in cities across India?

SSC CGL TIER-I, 22/09/2025 (Shift-02)

- (a) Smart Cities Mission
- (b) Atal Mission for Rejuvenation and Urban Transformation (AMRUT)
- (c) Swachh Bharat Mission (Urban)
- (d) Housing for All by 2022

Exp.- The **Atal Mission for Rejuvenation and Urban Transformation (AMRUT)** was launched in June 2015. Its objective is to provide every household in **urban areas** with a **tap water supply** and **sewerage facilities**.

□ Additionally, this mission focuses on **stormwater drainage, urban transport**, and parks. **AMRUT 2.0** was implemented in 2021 to ensure water security. **Ans. (b)**

22. The “Pradhan Mantri Awas Yojana - Urban (PMAY-U)” aims to address the housing shortage in urban areas. Which of the following approaches is a key component of this scheme to achieve its objectives?

SSC CGL TIER-I, 23/09/2025 (Shift-02)

- (a) Primarily focusing on providing rental housing for migrant workers
- (b) Providing financial assistance to beneficiaries for the construction, purchase, or enhancement of affordable housing
- (c) Mandating the use of only indigenous building materials in all PMAY-U projects
- (d) Concentrating housing development efforts in Tier-1 and Tier-2 cities

Exp.- **Pradhan Mantri Awas Yojana-Urban (PMAY-U)** (launched **June 25, 2015**) aims to ensure “**Housing for All**,” under which demand-oriented direct financial assistance is provided to the urban poor (**EWS, LIG and MIG**) to build or purchase a permanent (pucca) house.

□ This scheme provides slum redevelopment, interest subsidy on home loans, affordable housing construction, and individual housing assistance through four components: **ISSR, CLSS, AHP and BLC**. **Ans. (b)**

23. The “Pradhan Mantri Kisan Urja Suraksha evam Utthan Mahabhiyan (PM-KUSUM)” scheme has a focus on the energy sector within agriculture. What is the primary objective of this scheme?

SSC CGL TIER-I, 24/09/2025 (Shift-01)

- (a) To provide free electricity to all agricultural consumers
- (b) To promote the use of chemical fertilizers and pesticides for higher yields
- (c) To encourage the installation of solar pumps and grid-connected solar power plants in rural areas
- (d) To improve the rural electricity grid infrastructure for better power supply

Exp.- The objective of the PM-KUSUM scheme is to add 34,800 MW of solar capacity with central assistance of ₹34,422 crore by March 2026. Its components are:

- **10,000 MW** of decentralized grid-connected solar/other renewable energy plants,
- **14 lakh stand-alone solar agriculture pumps**, and
- **Solarisation of 35 lakh grid-connected agriculture pumps**, including feeder-level solarisation. **Ans. (c)**

24. The lead bank scheme was introduced in which year?

SSC CGL TIER-I, 24/09/2025 (Shift-02)

- (a) 1969
- (b) 1975
- (c) 1980
- (d) 1990

Exp.- The Lead Bank Scheme was launched by the Reserve Bank of India in **December 1969** based on the recommendations of the **Nariman Committee**.

□ Its main objective was to designate a specific bank in each district as the ‘Lead Bank’ by adopting an ‘area approach’, so that it could lead the expansion of banking and credit facilities in that district. **Ans. (a)**

25. The “Production Linked Incentive (PLI) scheme” has been introduced for various sectors in India. What is the primary goal behind the implementation of this scheme?

SSC CGL TIER-I, 24/09/2025 (Shift-03)

- (a) To reduce the fiscal deficit of the government

- (b) To boost domestic manufacturing and attract investments
- (c) To promote exports of agricultural commodities
- (d) To improve the skill development of the workforce

Exp.- The main objective of the **PLI (Production Linked Incentive) scheme** is to make India a global manufacturing hub. Under this scheme, domestic manufacturing is strengthened by providing financial incentives to domestic companies for increasing production, and foreign investment is attracted. This scheme has been implemented to give momentum to the ‘**Atmanirbhar Bharat**’ (**Self-Reliant India**) campaign and to reduce dependence on imports. **Ans. (b)**

26. Which government scheme aims to provide social security to workers in the unorganized sector?

SSC CGL TIER-I, 25/09/2025 (Shift-02)

- (a) Mahatma Gandhi National Rural Employment Guarantee Act (MGNREGA)
- (b) Atal Pension Yojana (APY)
- (c) Pradhan Mantri Jan Dhan Yojana (PMJDY)
- (d) National Health Mission (NHM)

Exp.- The Atal Pension Yojana has been launched to provide financial security in old age to workers in the unorganised sector, under which a guaranteed monthly pension of ₹1,000 – ₹5,000 is provided after the age of 60 years.

□ Any Indian citizen aged **18 – 40 years** can join this scheme. In the event of death, the pension is given to the spouse, and subsequently, the corpus amount is given to the nominee. **Ans. (b)**

27. Which government scheme aims to provide financial assistance to women Self-Help Groups (SHGs)?

SSC CGL TIER-I, 26/09/2025 (Shift-03)

- (a) Rashtriya Mahila Kosh (RMK)
- (b) Deendayal Antyodaya Yojana–National Rural Livelihoods Mission (DAY-NRLM)
- (c) Pradhan Mantri Jan Dhan Yojana (PMJDY)
- (d) Mahila E-Haat

Exp.- The objective of DAY-NRLM is to provide continuous financial assistance to rural poor women by organizing them into Self-Help Groups (SHGs) for self-employment and micro-enterprises through a Revolving Fund, Community Investment Fund, and bank credit.

□ It was launched in June 2011 as SGSY and was renamed on 29 March 2016; it is a centrally sponsored scheme implemented by the Ministry of Rural Development and supported by the World Bank, which aims to reduce poverty through institutional empowerment. **Ans. (b)**

28. Consider the following statements regarding the “Pradhan Mantri Fasal Bima Yojana (PMFBY)” (Prime Minister’s Crop Insurance Scheme):

I. It provides comprehensive insurance coverage against crop losses due to non-preventable natural risks.

II. Enrollment in the scheme is mandatory for all farmers in India to ensure maximum coverage.

III. It aims to stabilize the income of farmers and encourage them to adopt innovative agricultural practices.

IV. The premium rates payable by farmers are uniform across all crops and all states.

Which of the above statements accurately describe the features of the PMFBY?

SSC CGL TIER-I, 14/10/2025 (Shift-02)

- (a) I and III only (b) II and IV only
(c) I and IV only (d) II and III only

Exp.- The **Pradhan Mantri Fasal Bima Yojana (PMFBY)** stabilizes farmers’ income by providing comprehensive coverage against crop losses caused by natural calamities and pests. Therefore, statements I and III are correct.

□ This scheme is **voluntary** for all farmers, not mandatory. Additionally, the premium rates are not uniform for all crops; it is fixed at **2% for Kharif, 1.5% for Rabi, and 5% for commercial crops**. Therefore, statements II and IV are incorrect.

Ans. (a)

29. Who are the main beneficiaries of the PM-Kisan Maandhan Yojana?

SSC CPO TIER-I, 09/12/2025 (Shift-01)

- (a) Fishermen
(b) Women SHGs
(c) Marginal farmers
(d) Retired civil servants

Exp.- The primary objective of the **Pradhan Mantri Kisan Maandhan Yojana (PM-KMY)** is to provide minimum pension security to small and marginal farmers in their old age.

□ Under this scheme, eligible farmers receive a pension of ₹3,000 per month after reaching the **age of 60 years**.

Ans. (c)

30. The GOBARdhan scheme focuses on converting which of the following into valuable resources like compost and biogas?

SSC CPO TIER-I, 09/12/2025 (Shift-01)

- (a) Industrial effluents and hazardous waste
(b) Agricultural waste and cattle dung
(c) Plastic waste and e-waste
(d) Marine waste and fish residues

Exp.- The GOBARdhan scheme focuses on converting organic waste like cattle dung and agricultural residue into biogas, compost, and clean energy.

□ It is managed by the **Ministry of Jal Shakti** and its objective is to increase farmers’ income through “**Waste to Wealth**”, reduce pollution, and promote rural sanitation and clean fuel.

Ans. (b)

31. Which of the following is a key objective of the National Health Mission (NHM)?

SSC CPO TIER-I, 09/12/2025 (Shift-02)

- (a) Industrial growth
(b) Child mortality reduction
(c) Space exploration
(d) Wildlife protection

Exp.- The main objective of the National Health Mission (NHM) is to **reduce maternal mortality rate and infant mortality rate**, for which affordable, accessible and quality health services are provided in both rural and urban areas. Under this, special emphasis is given to **institutional delivery, complete immunization** (such as Mission Indradhanush) and strengthening the primary health infrastructure.

□ There are two major components of NHM— **National Rural Health Mission (NRHM)** and **National Urban Health Mission (NUHM)**.

Ans. (b)

32. Which of the following initiative-objective pairings is correctly matched as per Government of India schemes?

SSC CPO TIER-I, 09/12/2025 (Shift-02)

- (a) UDAN-Road Safety
(b) PM PRANAM - Fertilizer diversification
(c) NBS-Airline support
(d) NSWS-Social welfare

Exp.- The main objective of the **PM-PRANAM** scheme is to reduce the use of chemical fertilizers and promote fertilizer diversification (use of alternative fertilizers). The full name of this scheme is ‘PRANAM’ (Programme for Restoration, Awareness, Nourishment and Amelioration of Mother Earth), which has been launched to preserve soil fertility for sustainable agriculture.

Ans. (b)

33. e-NAM is primarily aimed at which of the following?

SSC CPO TIER-I, 10/12/2025 (Shift-01)

- (a) Farm insurance
(b) Online crop procurement
(c) National digital market
(d) Agro-export facilitation

Exp.- The objective of e-NAM (National Agriculture Market) is to implement the concept of “One Nation, One Market” by connecting agricultural mandis across the country through a digital platform. It ensures better prices for farmers by providing access to buyers at the national level, **real-time price discovery**, transparent online auctions, and **quality-based trading**, while reducing the role of middlemen.

Ans. (c)

34. Consider the following statements about Nutrient Based Subsidy (NBS) scheme:

1. The NBS scheme provides fixed per-kg subsidy rates for N, P, K, and S in non-urea fertilizers.

2. Freight assistance is also provided.

Which of the above statements is/are correct?

SSC CPO TIER-I, 10/12/2025 (Shift-01)

- (a) Only 1 (b) Only 2
(c) Both 1 and 2 (d) Neither 1 nor 2

Exp.- Under the Nutrient Based Subsidy (NBS) scheme, the government provides an annual fixed subsidy on a per kilogram basis for the nutrients (N, P, K, and S) present in non-urea fertilizers (P-K). Along with this, freight subsidy is also provided for their transportation to far-flung areas to ensure a smooth supply of fertilizers.

Ans. (c)

35. Match the government schemes with their correct objectives and choose the correct option:

Government schemes:	Objectives:
A. Dak Karmayogi	i. Infra monitoring
B. India Post Payments Bank (IPPB)	ii. Capacity building for government personnel
C. Aadhaar-enabled Payment System (AePS)	iii. Aadhaar-based cashless banking
D. PRAGATI	iv. Financial inclusion through doorstep banking

SSC CPO TIER-I, 10/12/2025 (Shift-02)

- (a) A-ii, B-iv, C-iii, D-i
(b) A-ii, B-i, C-iv, D-iii
(c) A-iv, B-iii, C-i, D-ii
(d) A-i, B-iii, C-ii, D-iv

Exp.- Dak Karmayogi is a capacity building program for government employees, particularly for postal employees.

□ India Post Payments Bank promotes financial inclusion through doorstep banking services.

□ Aadhaar-enabled Payment System makes Aadhaar-based cashless banking possible.

□ PRAGATI is a digital platform for monitoring infrastructure projects.

Ans. (a)

36. SHC scheme is implemented by which ministry?

SSC CPO TIER-I, 10/12/2025 (Shift-02)

- (a) Ministry of Environment, Forest and Climate Change (MOEFCC)
(b) Ministry of Jal Shakti
(c) Ministry of Agriculture and Farmers Welfare (MOA&FW)
(d) Ministry of Statistics and Programme Implementation (MOSPI)

Exp.- The Soil Health Card (SHC) scheme is implemented by the Ministry of Agriculture and Farmers Welfare.

- The objective of this scheme is to promote **balanced fertilizer use, increase productivity, and soil conservation** by providing farmers with information regarding the nutrient status of the soil. **Ans. (c)**

37. The Rural Landless Employment Guarantee Programme (RLEGP) was initiated in the _____ Five-Year Plan.

SSC CPO TIER-I, 11/12/2025 (Shift-01)

- (a) Fourth (b) Fifth
(c) Sixth (d) Seventh

Exp.- The Rural Landless Employment Guarantee Programme (RLEGP) was launched on 15 August 1983 during the Sixth Five Year Plan (1980-85), with the objective of providing 100 days of employment in a year to one member of rural landless households and creating rural infrastructure. **Ans. (c)**

38. Consider the following statements regarding the Urea Subsidy Scheme:

1. **Statement 1:** Urea is sold to farmers at a fixed Maximum Retail Price (MRP).
2. **Statement 2:** The subsidy is directly transferred to the bank accounts of farmers.

Which of the above is/are correct?

SSC CPO TIER-I, 11/12/2025 (Shift-01)

- (a) Only Statement 1 is correct
(b) Only Statement 2 is correct
(c) Both 1 and 2 are correct
(d) Neither 1 nor 2 is correct

Exp.- The Government of India fixes the statutory MRP of urea (currently 242 per 45 kg bag), while the difference between the actual cost of production and the MRP is paid to fertilizer companies as a subsidy.

- Urea subsidy is not given directly to farmers as DBT; instead, this amount is paid to fertilizer companies after the sale is verified through PoS machines. **Ans. (a)**

39. What is the primary focus of the National Mission on Edible Oils-Oil Palm (NMEO-OP)?

SSC CPO TIER-I, 11/12/2025 (Shift-01)

- (a) Enhancing oilseed storage capacity
(b) Promoting cultivation of a tropical oil-rich crop
(c) Diversifying inland fisheries production
(d) Supporting aromatic plant-based biofuels

Exp.- The main objective of the National Mission on Edible Oils - Oil Palm (NMEO-OP) is to increase edible oil production by promoting the cultivation of oil palm, which is a tropical, high oil-yielding crop.

- This mission has a special focus on the North-Eastern states and the Andaman and Nicobar Islands, where the climate is suitable for oil palm cultivation. **Ans. (b)**

40. Which scheme provides insurance to farmers against crop failure?

SSC CPO TIER-I, 11/12/2025 (Shift-02)

- (a) RKVY (Rashtriya Krishi Vikas Yojana)
(b) PMFBY (Pradhan Mantri Fasal Bima Yojana)
(c) SMAM (Sub-Mission on Agricultural Mechanization)
(d) AIF (Agriculture Infrastructure Fund)

Exp.- The main objective of the Pradhan Mantri Fasal Bima Yojana (PMFBY) is to provide financial security to farmers in the event of crop failure. This scheme was launched on February 18, 2016, and it aims to stabilize the income of farmers by providing insurance coverage for crop losses caused by natural calamities such as drought, floods, pests, and diseases. **Ans. (b)**

41. Under PM Gati Shakti, who is responsible for nodal planning?

SSC CPO TIER-I, 11/12/2025 (Shift-02)

- (a) MOF (b) DPIIT
(c) MHA (d) TRAI

Exp.- The Department for Promotion of Industry and Internal Trade (DPIIT) is responsible as the nodal department for the implementation and inter-ministerial coordination of the 'PM Gati Shakti' National Master Plan. This department comes under the Ministry of Commerce and Industry.

- The objective of this scheme is to reduce logistics costs and ensure seamless connectivity through integrated infrastructure development. **Ans. (b)**

42. What does the MGNREGA stand for?

SSC CPO TIER-I, 12/12/2025 (Shift-01)

- (a) Mahatma Gandhi National Rural Employment Generation Act
(b) Mahatma Gandhi National Rural Employment Guarantee Act
(c) Mahatma Gandhi National Regulated Employment Generation Act
(d) Mahatma Gandhi National Regulated Employment Guarantee Act

Exp.- The full form of MGNREGA is the 'Mahatma Gandhi National Rural Employment Guarantee Act'. It is a labour law and social security measure implemented in India that provides a legal guarantee of at least 100 days of wage employment in a financial year to adult members of rural households who are willing to do unskilled manual work.

Note- The Viksit Bharat Guarantee for Employment and Livelihood Mission (Rural) or **Viksit Bharat - G RAM G (VB-G RAM G)** scheme, 2025 has been introduced to replace MGNREGA to strengthen rural employment. Under this scheme, the number of working days has been increased from 100 to 125. **Ans. (b)**

43. Under the Direct Benefit Transfer (DBT) system in fertilizers, which of the following statements accurately reflects the actual implementation mechanism?

SSC CPO TIER-I, 12/12/2025 (Shift-01)

- (a) States get direct benefit
(b) Farmers pay post-usage
(c) Real-time subsidy to farmer
(d) Subsidy is paid to companies post-sale

Exp.- DBT in the fertilizer sector is different from other schemes because here the subsidy, instead of going into the farmer's account, is given to the companies after the sale is completed by the retailer through a 'Point of Sale' (PoS) machine. The farmer receives fertilizers only at subsidized rates, and the government releases the subsidy amount to the respective company only after real-time Aadhaar authentication. **Ans. (c)**

44. The Rashtriya Bal Swasthya Karyakram (RBSK) aims to screen and manage children up to what age?

SSC CPO TIER-I, 12/12/2025 (Shift-01)

- (a) 5 years (b) 10 years
(c) 18 years (d) 21 years

Exp.- The objective of the Rashtriya Bal Swasthya Karyakram (RBSK) is to screen children from birth up to 18 years of age. Under this, early treatment and management are ensured by identifying '4Ds' in children, namely—Defects at birth, Diseases, Deficiencies, and Developmental delays. **Ans. (c)**

45. What is a key benefit provided under Janani Shishu Suraksha Karyakram (JSSK)?

SSC CPO TIER-I, 12/12/2025 (Shift-02)

- (a) Free ration to pregnant women
(b) Free delivery and C-section services
(c) Paid ambulance transport
(d) Subsidized infant clothing

Exp.- The **Janani Shishu Suraksha Karyakram (JSSK)**, launched in June 2011, primarily aims to provide the facility of absolutely **free delivery (both normal and C-section)** to pregnant women in public health institutions.

- Under this, provisions for free medicines, consumables, diagnostic tests, food, and transport from home to the hospital have been made so that the expenses incurred during delivery can be eliminated. **Ans. (b)**

46. The "Mission Shakti" scheme, launched by the Indian government, aims to address which of the following issues?

SSC CPO TIER-I, 13/12/2025 (Shift-01)

- (a) Promoting renewable energy adoption among women entrepreneurs
(b) Strengthening the healthcare infrastructure for women and children in rural areas

- (c) Ensuring safety, security, and empowerment of women through various interventions

SSC PHASE XIII 28/07/2025 (Shift-03)

- (a) National Food Security Act (NFSA)
- (b) Pradhan Mantri Ujjwala Yojana (PMUY)
- (c) Deendayal Upadhyaya Gram Jyoti Yojana (DDUGJY)
- (d) National Rural Health Mission (NRHM)

Exp.- The Pradhan Mantri Ujjwala Yojana (PMUY), launched on **May 1, 2016**, by the **Ministry of Petroleum and Natural Gas**, provides **deposit-free LPG connections** to women from poor **BPL (Below Poverty Line)** families.

□ The primary objective of this scheme is to protect **women's health**, provide **clean fuel (LPG)**, and reduce diseases caused by smoke from **traditional cooking fuels**. **Ans. (b)**

89. Which government scheme aims to provide a social safety net by guaranteeing wage employment to rural households whose adult members volunteer to do unskilled manual work?

SSC PHASE XIII 29/07/2025 (Shift-03)

- (a) Pradhan Mantri Gram Sadak Yojana (PMGSY)
- (b) Mahatma Gandhi National Rural Employment Guarantee Act (MGNREGA)
- (c) National Rural Livelihoods Mission (NRLM)
- (d) Deendayal Antyodaya Yojana-National Rural Livelihoods Mission (DAY-NRLM)

Exp.- MGNREGA provides **100 days of unskilled manual labor** employment per year to the **adults of rural households**.

- MGNREGA was launched in **2005** as **NREGA (National Rural Employment Guarantee Act)**. Later, on **October 2, 2009** (effective 2010), it was renamed **MGNREGA** in honor of **Mahatma Gandhi**. Subsequently, in **December 2025**, its name was changed to **Viksit Bharat - Ram Ji**, and the number of **guaranteed employment days** was increased to **125**.

Ans. (b)

90. Which government scheme aims to provide affordable and quality healthcare through a network of primary health centers and other facilities?

SSC PHASE XIII 30/07/2025 (Shift-03)

- (a) Ayushman Bharat Health Infrastructure Mission (PM-ABHIM)
- (b) Pradhan Mantri Swasthya Suraksha Yojana (PMSSY)
- (c) National Rural Health Mission (NHM)
- (d) Janani Shishu Suraksha Karyakram (JSSK)

Exp.- The **Ayushman Bharat Health Infrastructure Mission (PM-ABHIM)** was launched in **2021**. Its objective is to provide **affordable and quality healthcare** by strengthening **primary, secondary, and tertiary care services** and creating a network of **Primary Health Centres (PHCs)** and **Block Public Health Units** in both rural and urban areas.

Ans. (a)

91. Which government scheme aims to provide insurance coverage for crop losses due to natural calamities and pests?

SSC PHASE XIII 31/07/2025 (Shift-03)

- (a) National Food Security Mission (NFSM)
- (b) Pradhan Mantri Krishi Sinchayee Yojana (PMKSY)
- (c) Pradhan Mantri Fasal Bima Yojana (PMFBY)
- (d) Rashtriya Krishi Vikas Yojana (RKVY)

Exp.- The **Pradhan Mantri Fasal Bima Yojana (PMFBY)** (start 18 feb 2016) provides **financial assistance** in the event of **crop failure** due to **natural calamities and pests**. It provides **comprehensive insurance cover** to farmers at very **low premium rates** to ensure their **income stability**.

Ans. (c)

92. Which government initiative focuses on promoting innovation and providing support to startups in India?

SSC PHASE XIII 02/08/2025 (Shift-03)

- (a) Digital India
- (b) Startup India
- (c) Skill India Mission
- (d) Atal Innovation Mission

Exp.- The **Startup India initiative** was launched on **January 16, 2016**. Its primary objective is to promote **startup culture** in India, encourage **innovation**, and create a strong **ecosystem**.

Ans. (b)

93. Which government official announced the Ladli Behna Yojana?

SSC PHASE XIII 24/07/2025 (Shift-02)

- (a) Prime Minister Narendra Modi
- (b) Chief Minister Shivraj Singh Chouhan
- (c) Governor Mangubhai Patel
- (d) Finance Minister Nirmala Sitharaman

Exp.- The famous '**Mukhyamantri Ladli Behna Yojana**' of Madhya Pradesh was announced by the then Chief Minister Shivraj Singh Chouhan on January 28, 2023, to make women economically independent. Through this, financial assistance (**DBT**) is sent directly to the bank accounts of eligible sisters every month.

Ans. (b)

94. Who is eligible for the Ladli Behna Yojana?

SSC PHASE XIII 24/07/2025 (Shift-02)

- (a) Women above 21 years of age
- (b) Women below 18 years of age
- (c) Women belonging to urban households
- (d) Women employed in government jobs

Exp.- The Madhya Pradesh government's '**Ladli Behna Yojana**' is for married women (including widows, divorcees, and deserted women) between the ages of 21 to 60 years, whose family's annual income is less than ₹2.5 lakh.

Ans. (a)

95. Which of the following schemes aims to provide assured income support to small and marginal farmers?

SSC PHASE XIII 25/07/2025 (Shift-02)

- (a) Pradhan Mantri Fasal Bima Yojana
- (b) Paramparagat Krishi Vikas Yojana
- (c) Pradhan Mantri Krishi Sinchayee Yojana
- (d) Pradhan Mantri Kisan Samman Nidhi (PM-KISAN)

Exp.- Through the **Pradhan Mantri Kisan Samman Nidhi (PM-KISAN)** scheme, the government provides an assured income support of ₹6,000 per year to farmers. This amount is deposited directly into bank accounts, helping small farmers with agricultural investments and meeting their daily needs.

Ans. (d)

96. What is the primary goal of the Mahila Kisan Sashakti karan Pariyojana (MKSP) under NRLM?

SSC PHASE XIII 28/07/2025 (Shift-02)

- (a) To promote women in agriculture
- (b) To provide free seeds to farmers
- (c) To build irrigation facilities
- (d) To promote organic farming

Exp.- The **Mahila Kisan Sashaktikaran Pariyojana (MKSP)** is a sub-component of the **Deendayal Antyodaya Yojana-National Rural Livelihoods Mission (DAY-NRLM)**, launched in 2010-11. Its primary objective is to empower rural women by increasing their participation and productivity in agriculture, promoting sustainable agro-ecological practices, and recognizing them as small farmers.

Ans. (a)

97. What is the key focus of NRLM (National Rural Livelihood Mission)?

SSC PHASE XIII 28/07/2025 (Shift-02)

- (a) Formation of Self-Help Groups (SHGs)
- (b) Providing free food grains
- (c) Building rural roads
- (d) Promoting urban employment

Exp.- The **National Rural Livelihoods Mission (NRLM)**, now known as **Deendayal Antyodaya Yojana (DAY-NRLM)**, was launched in June 2011 by the **Ministry of Rural Development**, Government of India.

- This mission empowers rural women by organizing them into **Self-Help Groups (SHGs)** and providing them with **financial inclusion**, skill development, and diverse livelihood opportunities.

Ans. (a)

98. Which organization supports meal distribution under the scheme in some areas?

SSC PHASE XIII 29/07/2025 (Shift-02)

- (a) UNICEF
- (b) Akshaya Patra Foundation
- (c) WHO
- (d) NITI Aayog

Exp.- In India, specifically under the '**PM POSHAN Shakti Nirman**' (formerly known as the Mid-Day Meal Scheme), the Akshaya Patra Foundation partners with the government to assist in large-scale food preparation and distribution.

Ans. (b)

99. The Atal Pension Yojana (APY) aims to provide pension benefits to which segment of the population?

SSC PHASE XIII 30/07/2025 (Shift-02)

- (a) Government employees
- (b) Senior citizens only
- (c) Unorganized sector workers
- (d) Students

Exp.- Atal Pension Yojana (APY) is a government-backed, secure pension scheme for workers in the **unorganized sector**, providing a guaranteed monthly pension of Rs.1,000–Rs.5,000 to citizens aged 18–40 years after they reach 60. This scheme, managed by **PFRDA**, is open to all bank account holders except income tax payers.

Ans. (c)

100. What is the aim of launching the 'One Nation, One Ration Card' scheme?

SSC PHASE XIII 31/07/2025 (Shift-02)

- (a) Unifying the voter list across states
- (b) Providing universal access to subsidized foodgrains
- (c) Creating a uniform syllabus for schools
- (d) Providing a single tax system across India

Exp.- The 'One Nation, One Ration Card' scheme aims to provide universal access to subsidized food grains to migrant workers and their families in any part of the country. It ensures flexibility and transparency in the **Public Distribution System (PDS)** through technological means.

Ans. (b)

101. What is the eligibility criterion for artisans under the PM Vishwakarma Yojana?

SSC PHASE XIII 02/08/2025 (Shift-02)

- (a) Must belong to urban areas
- (b) Must be engaged in traditional crafts
- (c) Must have a minimum income of ₹5 lakh
- (d) Must be employed in government services

Exp.- PM Vishwakarma Yojana is primarily for those traditional artisans who work with hands and tools on a self-employment basis. Its objective is to refine their skills and provide them with affordable loans up to ₹3 lakh and modern toolkits.

Ans. (b)

102. Which of the following is a flagship scheme aimed at providing free LPG connections to women from BPL households?

SSC PHASE XIII 29/08/2025 (Shift-02)

- (a) PM-KISAN
- (b) Ujjwala Yojana
- (c) Swachh Bharat Abhiyan
- (d) Ayushman Bharat

Exp.- The Pradhan Mantri Ujjwala Yojana (PMUY) was launched by the Government of India in May 2016. Its main objective is to provide free LPG connections in the name of women from **BPL (Below Poverty Line)** households to free them from traditional smoky fuels (such as firewood, coal, and dung cakes).

Ans. (b)

103. Which scheme focuses on the development of Particularly Vulnerable Tribal Groups (PVTGs) through targeted interventions?

SSC PHASE XIII 29/08/2025 (Shift-02)

- (a) Pradhan Mantri Janjati Adivasi Nyaya Maha Abhiyan
- (b) Shyama Prasad Mukherji Rurban Mission
- (c) Vanbandhu Kalyan Yojana
- (d) National Rural Livelihood Mission

Exp.- PM-JANMAN is a significant Central Sector Scheme launched on November 15, 2023. With a budget of over Rs.24,104 crore, the scheme is dedicated to the socio-economic upliftment of **75 Particularly Vulnerable Tribal Groups (PVTGs)** located across 18 States and 1 Union Territory.

Ans. (a)

104. What is the main goal of the Ayushman Bharat scheme?

SSC PHASE XIII 24/07/2025 (Shift-01)

- (a) To provide free education
- (b) To provide affordable healthcare
- (c) To promote agriculture
- (d) To improve transportation

Exp.- The main objective of the Ayushman Bharat Yojana is to **provide affordable and accessible healthcare** to the economically weaker sections. It was started in the **year 2018**, and under it, eligible families receive a health insurance of **₹5 lakh per year**, which can be spent on hospitalization in secondary and tertiary hospitals for the treatment of serious illnesses.

Ans. (b)

105. Which key goal does the Swachh Bharat Mission focus on?

SSC PHASE XIII 24/07/2025 (Shift-01)

- (a) Digital literacy
- (b) Clean drinking water
- (c) Sanitation and hygiene
- (d) Skill development

Exp.- The primary goal of the Swachh Bharat Mission is to improve overall sanitation and personal hygiene across the country.

□ Its main objectives are to make India **Open Defecation Free (ODF)**, streamline solid waste management, and create awareness among citizens regarding cleanliness. This scheme was launched on **2 October 2014**.

Ans. (c)

106. Which group primarily benefits from the Stand-Up India Scheme?

SSC PHASE XIII 24/07/2025 (Shift-01)

- (a) Foreign investors
- (b) Large corporations
- (c) Government employees
- (d) Women and SC/ST entrepreneurs

Exp.- Launched by the Government of India on 5 April 2016, the main objective of the **Stand-Up India Scheme** is to promote entrepreneurship among women and the **SC/ST** categories.

□ Under this scheme, every bank branch provides loans ranging from **₹10 lakh to ₹1 crore** to at least one Scheduled Caste/Scheduled Tribe and one woman borrower to help them start their new business.

Ans. (d)

107. Who is eligible to receive benefits under the Pradhan Mantri Ujjwala Yojana (PMUY) scheme?

SSC PHASE XIII 25/07/2025 (Shift-01)

- (a) All households
- (b) Women from BPL households
- (c) Senior citizens
- (d) Farmers

Exp.- The Pradhan Mantri Ujjwala Yojana, launched in **May 2016**, is specifically designed for women **(18+)** from **BPL families** to provide them with clean cooking fuel (**LPG**) and free them from the smoke of wood and coal.

□ Under this scheme, the government provides financial assistance of ₹1600 per connection. The connection is issued only in the name of the adult woman of the household.

Ans. (b)

108. Which of the following is a key feature of the Stand-Up India scheme?

SSC PHASE XIII 25/07/2025 (Shift-01)

- (a) Collateral-free loans
- (b) Loans for green energy projects
- (c) Loans for real estate development
- (d) Loans for export businesses

Exp.- The Stand-Up India Scheme was launched on **5 April 2016**. This scheme aims to encourage **Scheduled Caste (SC), Scheduled Tribe (ST), and women entrepreneurs** to set up their enterprises.

□ Under this, loans ranging from **₹10 lakh to ₹1 crore** are provided. Banks do not demand any **collateral** or physical property under this scheme.

Ans. (a)

109. What does the Ayushman Bharat Yojana provide to eligible citizens?

SSC PHASE XIII 25/07/2025 (Shift-01)

- (a) Free education
- (b) Health insurance coverage
- (c) Subsidized housing
- (d) Agricultural subsidies

Exp.- The Ayushman Bharat Scheme (PM-JAY) provides health insurance coverage of up to **₹5 lakh** per eligible family per year, ensuring cashless treatment facilities in secondary and tertiary level hospitals.

□ This scheme is primarily designed to provide security to nearly 12 crore socio-economically backward families against heavy expenses incurred during the treatment of serious illnesses.

Ans. (b)

110. Under the PM-KISAN Yojana, how much financial assistance is provided to eligible farmers annually?

SSC PHASE XIII 25/07/2025 (Shift-01)

- (a) ₹3,000
- (b) ₹6,000
- (c) ₹10,000
- (d) ₹15,000

Exp.- Under the **Pradhan Mantri Kisan Samman Nidhi (PM-KISAN)** scheme, the Government of India provides direct financial assistance of **₹6,000** per year to eligible farmer families. This amount is sent directly to farmers' bank accounts (via **DBT**) in three equal installments of **₹2,000** each, helping them meet agricultural investments and domestic needs. **Ans. (b)**

111. What is the primary objective of the PM-PRANAM Scheme, 2023, approved by the Cabinet Committee on Economic Affairs?

SSC PHASE XIII 26/07/2025 (Shift-01)

- (a) To subsidize the cost of chemical fertilizers for marginal farmers
- (b) To incentivize states/UTs for reducing chemical fertilizer usage and promoting sustainability
- (c) To distribute organic farming kits directly to farmers across India
- (d) To enhance fertilizer production capacity in public sector undertakings

Exp.- The primary objective of the **PM-PRANAM** scheme is to encourage states to promote the balanced use of chemical fertilizers and adopt alternative fertilizers (organic and bio-fertilizers). Under this scheme, the government provides **50 percent** of the savings from chemical fertilizer subsidies as a grant to the respective state to promote sustainability in agriculture. **Ans. (b)**

112. What type of accounts are opened under the PMJDY scheme?

SSC PHASE XIII 26/07/2025 (Shift-01)

- (a) Fixed Deposit Accounts
- (b) Savings Accounts
- (c) Current Accounts
- (d) Recurring Deposit Accounts

Exp.- The **Pradhan Mantri Jan Dhan Yojana** was launched on **28 August 2014**. Under this, zero-balance savings accounts are opened with the primary objective of connecting every household in the country to the banking system. These accounts empower the economically weaker sections of society with facilities like government subsidies through **Direct Benefit Transfer (DBT)**, insurance cover, and overdraft. **Ans. (b)**

113. Which issue does the Beti Bachao Beti Padhao Yojana primarily address?

SSC PHASE XIII 26/07/2025 (Shift-01)

- (a) Women's employment
- (b) Child manage
- (c) Gender-based discrimination
- (d) Female literacy and welfare

Exp.- The '**Beti Bachao, Beti Padhao**' (**BBBP**) scheme was launched by Prime Minister Narendra Modi on **22 January 2015** from Panipat, Haryana.

□ Its main objectives are to improve the declining **Child Sex Ratio (CSR)**, eliminate gender-based discrimination, and ensure the education and empowerment of the girl child. It is a joint initiative operated by the Ministries of Women and Child Development, Health, and Education. **Ans. (c)**

114. What is the primary goal of the Jal Jeevan Mission?

SSC PHASE XIII 26/07/2025 (Shift-01)

- (a) River conservation
- (b) Irrigation system modernization
- (c) Providing piped drinking water to households.
- (d) Groundwater recharge

Exp.- The **Jal Jeevan Mission** was launched on **15 August 2019**. Its primary goal under the '**Har Ghar Jal**' campaign is to ensure pure drinking water through pipes to all rural households by 2024. **Ans. (c)**

115. Which scheme focuses on providing housing for all by 2022?

SSC PHASE XIII 28/07/2025 (Shift-01)

- (a) Pradhan Mantri Awas Yojana
- (b) Pradhan Mantri Ujjwala Yojana
- (c) Jan Dhan Yojana
- (d) Skill India

Exp.- The **Pradhan Mantri Awas Yojana (PMAY)** was launched on **25 June 2015**. The main goal was to provide permanent (pukka) houses to the homeless and slum dwellers by 2022 under the 'Housing for All' scheme. The scheme is divided into two categories: **PMAY-U (Urban)** and **PMAY-G (Gramin/Rural)**. **Ans. (a)**

116. Which ministry is responsible for implementing the PM Gati Shakti National Master Plan?

SSC PHASE XIII 28/07/2025 (Shift-01)

- (a) Ministry of Finance
- (b) Ministry of Road Transport and Highways
- (c) Ministry of Commerce and Industry
- (d) Ministry of Railways

Exp.- The **PM Gati Shakti Scheme** was launched on **13 October 2021**. It is implemented by the Ministry of Commerce and Industry. Its objective is to reduce India's logistics costs and interconnect various modes of transport through an integrated approach.

□ It is a digital platform that brings together 16 ministries for infrastructure development. **Ans. (c)**

117. What is the primary objective of the Pradhan Mantri Jan Dhan Yojana (PMJDY)?

SSC PHASE XIII 28/07/2025 (Shift-01)

- (a) Providing free healthcare
- (b) Financial inclusion for all citizens
- (c) Employment generation
- (d) Rural electrification

Exp.- The **Pradhan Mantri Jan Dhan Yojana** was launched on **28 August 2014**, with the slogan "**Mera Khata, Bhagya Vidhata**". Its main pillars include: financial inclusion, access to banking facilities (at least one zero-balance savings account per family), financial literacy, and a safety net (accident insurance of ₹2 lakh and an overdraft facility of ₹10,000 for account holders). **Ans. (b)**

118. Which are the sectors have been targeted for improvements by GOI's AMRUT scheme?

SSC PHASE XIII 28/07/2025 (Shift-01)

- (a) Rural employment
- (b) Urban infrastructure
- (c) Agricultural productivity
- (d) Renewable energy

Exp.- The **AMRUT (Atal Mission for Rejuvenation and Urban Transformation)** scheme was launched in **June 2015**. Its primary objective is to strengthen urban infrastructure, especially in basic facilities such as urban transport, water supply, and sewerage management. **Ans. (b)**

119. What is the main objective of the 'Amrit Dharohar' scheme launched in 2023?

SSC PHASE XIII 29/07/2025 (Shift-01)

- (a) River conservation
- (b) Wetland ecosystem protection
- (c) Wildlife protection
- (d) Air pollution control

Exp.- The primary objective of the '**Amrit Dharohar**' scheme is to promote the conservation of **Ramsar sites (wetlands)** in India and protect the 'climate ecosystem' while maintaining their ecological significance.

□ This scheme focuses on enhancing biodiversity, carbon stocks, and tourism opportunities for local communities through the optimal use of wetlands over the next three years. **Ans. (b)**

120. Which program was launched to make India a global leader in digital technology?

SSC PHASE XIII 29/07/2025 (Shift-01)

- (a) Make in India
- (b) Digital India
- (c) Skill india
- (d) Startup India

Exp.- The **Digital India** programme was launched on **1 July 2015**. The main objective of this programme is "**Power to Empower**". Its three key vision areas are:

- Digital infrastructure as a utility to every citizen;
- Governance and services on demand;
- Digital empowerment of citizens. **Ans. (b)**

121. Which Indian government scheme aims to provide free LPG connections to below-poverty-line families?

SSC PHASE XIII 29/07/2025 (Shift-01)

- (a) Ujjwala Yojana
- (b) Ayushman Bharat
- (c) Pradhan Mantri Kisan Samman Nidhi
- (d) Stand-Up India

Exp.- The **Pradhan Mantri Ujjwala Yojana (PMUY)** was launched on **1 May 2016**. Its objective is to provide clean cooking fuel (**LPG**) to women from poor households (**BPL**) to protect them from diseases caused by smoke from firewood and coal. **Ans. (a)**

122. Fill in the blank:

The National Digital Health Mission's (NDHM) primary aim is to create a unique_____ for every Indian citizen.

SSC PHASE XIII 30/07/2025 (Shift-01)

- (a) Vaccine ID
- (b) Health ID
- (c) Aadhaar ID
- (d) Disease Registry

Exp.- ABHA (Ayushman Bharat Health Account) is the current name for the Health ID.

- ❑ **Vaccine ID** was primarily used for COVID-19 vaccination through the **CoWIN** portal.
- ❑ **Aadhar ID** is a general identity card based on biometric data.
- ❑ **Disease Registry** is created to collect data on specific diseases (e.g., Cancer Registry). **Ans. (b)**

123. Fill in the blank:

The PM SVANidhi scheme provides micro-credit facilities to_____

SSC PHASE XIII 31/07/2025 (Shift-01)

- (a) Street vendors
- (b) Small farmers
- (c) Rural artisans
- (d) Fisherman

Exp.- The full name of the **PM SVANidhi** scheme is 'Prime Minister Street Vendor's AtmaNirbhar Nidhi'. It was launched on June 1, 2020, by the **Ministry of Housing and Urban Affairs** to provide collateral-free working capital loans of ₹10,000 to ₹50,000 to street vendors affected by COVID-19. **Ans. (a)**

124. What was the primary focus of the Antyodaya Program launched in 1977?

SSC PHASE XIII 02/08/2025 (Shift-01)

- (a) Provide employment to rural youth
- (b) Uplift the poorest sections of society
- (c) Promote industrial growth
- (d) Reduce fiscal deficit.

Exp.- The term '**Antyodaya**' means "upliftment of the last person." This programme was first launched in **Rajasthan** in 1977. Its objective was to identify the '**poorest of the poor**' families and make them self-reliant. **Ans. (b)**

125. _____ aims to reduce malnutrition and improve nutritional outcomes in children, pregnant women, and lactating mothers.

SSC PHASE XIII 01/08/2025 (Shift-02)

- (a) Mid-Day Meal Scheme
- (b) PM Matru Vandana Yojana
- (c) Pradhan Mantri Fasal Bima Yojana
- (d) Poshan Abhiyaan

Exp.- Launched on March 8, 2018 (International Women's Day), '**POSHAN Abhiyaan**' aims to improve nutritional levels by addressing problems like malnutrition, anemia, and low birth weight among children (0-6 years), adolescent girls, pregnant women, and lactating mothers. It was launched by Prime Minister Narendra Modi from Jhunjhunu district, Rajasthan, and is operated under the **Ministry of Women and Child Development**. **Ans. (d)**

126. Which national initiative aims to prevent and control non-communicable diseases such as diabetes and hypertension?

SSC PHASE XIII 01/08/2025 (Shift-02)

- (a) Mission Indradhanush
- (b) National Digital Health Mission
- (c) Pradhan Mantri Jan Arogya Yojana
- (d) National Programme for Prevention and Control of NCDs

Exp.- The **National Programme for Prevention and Control of NCDs (NP-NCDS)**, operated by the Ministry of Health and Family Welfare, works towards the prevention, early diagnosis, and treatment of diseases like diabetes and hypertension. Originally launched in 2010 as NPCDCS, it was renamed to NP-NCDS in 2023. **Ans. (d)**

127. Fill in the blank:

The PM Vishwakarma scheme provides financial assistance and skill training to_____

SSC PHASE XIII 01/08/2025 (Shift-03)

- (a) Farmers
- (b) Artisans and craftsmen
- (c) Street vendors
- (d) Women entrepreneurs

Exp.- On **September 17, 2023** (on the occasion of Vishwakarma Jayanti), Prime Minister Narendra Modi launched the **PM Vishwakarma Yojana** to provide **skill development, modern tools, and subsidized loans to traditional artisans and craftspeople**.

- ❑ This scheme empowers people associated with 18 different types of traditional occupations (such as **carpenters, blacksmiths, potters, etc.**). **Ans. (b)**

128. SPREE 2025 is a special initiative aimed at_____ under the Employees' State Insurance (ESI) Act.

SSC CHSL TIER - I, 29/11/2025 (Shift-03)

- (a) providing housing support to middle-income families
- (b) expanding social security coverage
- (c) launching health insurance for gig workers
- (d) extending pension benefits to state employees

Exp.- SPREE is a special initiative launched by the Employees' State Insurance Corporation (ESIC). Its main objective is to bring those employers and employees under the ambit of the **ESI ecosystem** who are not yet registered under it, so that social security coverage can be extended. **Ans. (b)**

129. Unified Pension Scheme (UPS), launched in_____ by Ministry of Finance, offers an alternative to the new pension system for central government employees.

SSC CHSL TIER-I, 19/11/2025 (Shift-02)

- (a) August 2024 (b) October 2024
- (c) December 2024 (d) February 2024

Exp.- The Unified Pension Scheme (UPS) was approved by the Ministry of Finance in **August 2024**, and is effective from 1 April 2025. This scheme provides a guarantee of **50% of the average basic pay** of the last 12 months as an **assured pension** to government employees, provided they have completed a minimum of 25 years of service. **Ans. (a)**

130. What initiative was launched in 2021 under India's BRICS Presidency to boost cross-border startup collaboration and innovation?

SSC CGL TIER-I, 13/09/2025 (Shift-03)

- (a) BRICS Innovation Pact
- (b) BRICS Startup Forum
- (c) BRICS SME Exchange
- (d) BRICS Economic Dialogue

Exp.- During India's BRICS chairship in **2021**, the "**BRICS Startup Forum**" was launched. Its objective is to **promote cross-border startup collaboration, innovation, and strengthen investment and technical partnerships** among the member nations. **Ans. (b)**

131. Which of the following best describes the purpose of the National Single Window System (NSWS) portal launched by the Ministry of Commerce & Industry?

SSC CGL TIER - I, 17/09/2025 (Shift-02)

- (a) To streamline pension disbursement mechanisms for unorganized workers
- (b) To facilitate industrial clearances and approvals through a single digital platform
- (c) To monitor school enrollments across states using Aadhaar linkage
- (d) To centralize water quality testing across urban and rural regions

Exp.- The National Single Window System (NSWS) is a digital portal launched by the Ministry of Commerce and Industry. Its objective is to enable investors to obtain all necessary government clearances and approvals from a single place. **Ans. (b)**

132. What initiative in Visakhapatnam aims to provide an inclusive space for differently abled children?

SSC CGL TIER-I, 22/09/2025 (Shift-01)

- (a) Smart School Initiative
- (b) Solar Post Light Project
- (c) All-Abilities Park
- (d) Green Mobility Project

Exp.- In Visakhapatnam, this initiative is named the '**All Abilities Park**'.

❑ **Objective:** To create a space for **specialty-abled children** (Divyangjan) for play and **social participation** without **discrimination**. This park has been developed by the GVMC under the **Smart Cities Mission**.

Ans. (c)

133. Which government initiative aims to provide a unified platform for citizens to access various government services online?

SSC CGL TIER-I, 22/09/2025 (Shift-03)

- (a) DigiLocker
- (b) UMANG (Unified Mobile Application for New-age Governance)
- (c) MyGov
- (d) National e-Governance Plan (NEGP)

Exp.- **UMANG** (Unified Mobile Application for New-age Governance) app is a "**single window**" platform developed by **MeitY** (Ministry of Electronics and Information Technology) and **NeGD** (National e-Governance Division). It provides various central, state, and local government services such as Aadhaar, PAN, EPFO, and gas booking on a single app.

❑ It was launched in November 2017 under the **Digital India initiative** and is available in **13 Indian languages**.

Ans. (b)

134. PM-KISAN mobile app helps in:

SSC CGL TIER-I, 14/10/2025 (Shift-02)

- (a) Soil testing
- (b) Payment tracking
- (c) Weather updates
- (d) Fertilizer application

Exp.- The **PM-KISAN mobile app** is the official app of the Government of India, which provides all information and facilities related to the **Pradhan Mantri Kisan Samman Nidhi** scheme to **small and marginal farmers** on a single platform.

❑ The primary objective of the PM-KISAN mobile app is to enable farmers to check their **instalment/payment status** (whether released or not, date, account, and name-Aadhaar-bank details).

Ans. (b)

135. Service Export from India Scheme was launched in which of the following year?

SSC CHSL TIER-I, 14/11/2025 (Shift-02)

- (a) 2015
- (b) 2017
- (c) 2011
- (d) 2008

Exp.- The Service Exports from India Scheme (SEIS) was launched on **1 April 2015** under the **Foreign Trade Policy (FTP) 2015-20**. Its main objective is to encourage the export of services from India and make them globally competitive. Under this scheme, exporters are provided duty credit 'schemes' ranging from **3% to 7%** based on the net foreign exchange earned by them.

Ans. (a)

136. In 2025, Shri Jayant Chaudhary launched _____, a Women Entrepreneurship Programme.

SSC CHSL TIER-I, 22/11/2025 (Shift-03)

- (a) Mahila Samridhi Yojana
- (b) Udyogini
- (c) Stree Shakti
- (d) Swavalambini

Exp.- Shri Jayant Chaudhary, Union Minister of State (Independent Charge) for Skill Development and Entrepreneurship, launched the '**Swavalambini**' program in March 2025. This is a comprehensive initiative aimed at empowering **women entrepreneurs**. The program specifically focuses on providing **vocational training, financial assistance, and market access** to women so that they can become **self-reliant**.

Ans. (d)

137. Which program was launched in 1975 to address rural poverty in India?

SSC PHASE XIII 29/08/2025 (Shift-03)

- (a) Integrated Rural Development Program (IRDP)
- (b) Minimum Needs Program
- (c) Twenty Point Program
- (d) Employment Guarantee Scheme

Exp.- The **Twenty Point Programme (TPP)** was launched by the then Prime Minister Indira Gandhi in **1975**. Its primary goal was to improve the living standards of people below the poverty line. The programme aimed to reduce economic inequality, increase agricultural productivity, and uplift the rural poor through land reforms.

Ans. (c)

138. Which of the following is NOT the primary goal of Production Linked Incentive (PLI) scheme?

SSC CHSL TIER-I, 14/11/2025 (Shift-02)

- (a) To attract substantial investments
- (b) To incorporate advanced technology
- (c) To ensure operational efficiency
- (d) To increase government regulation significantly

Exp.- The objective of the **PLI scheme** is to make India a **global manufacturing hub**, which involves attracting adequate investment, bringing in advanced technology, and increasing operational efficiency; its goal is **not to increase government intervention**, but to give autonomy to the private sector.

Ans. (d)

139. 'AI Kiran' in India is a pioneering initiative co-led by the _____.

SSC CHSL TIER-I, 19/11/2025 (Shift-01)

- (a) Office of the Principal Scientific Adviser
- (b) NITI Aayog
- (c) Confederation of Indian Industry
- (d) National Association of Software and Service Companies

Exp.- In India, 'AI Kiran' is a pioneering initiative co-led by the **Office of the Principal Scientific Adviser**. Its primary objective is to promote the safe and inclusive application of Large Language Models (LLM) and Generative AI (GenAI) in critical sectors such as healthcare, agriculture, and education.

Ans. (a)

140. What is the primary aim of TIES?

SSC CGL TIER - I, 16/09/2025 (Shift-03)

- (a) Export infra development
- (b) Cold storage for dairy
- (c) PMFBY support
- (d) Drug pricing regulation

Exp.- The primary objective of the **TIES (Trade Infrastructure for Export Scheme)** is to develop and improve export-related infrastructure in States and Union Territories to boost India's exports. It was launched in 2017 by the **Ministry of Commerce and Industry (Department of Commerce)**.

Ans. (a)

141. The Aravalli Green wall Project covers which of the following state?

- I. Delhi
- II. Bihar

SSC CHSL TIER - I, 27/11/2025 (Shift-01)

- (a) Only I
- (b) Only II
- (c) Both I and II
- (d) Neither I nor II

Exp.- The **Aravalli Green Wall Project** is a major initiative launched in **2023** by the Union Ministry of Environment. Its objective is to develop a **green belt 1,400 km long and 5 km wide** across the states of Delhi, Haryana, Rajasthan, and Gujarat. The project focuses on restoring **wasteland**, combating **desertification**, and maintaining **ecological balance**.

Ans. (a)

142. Announced in the Union Budget 2025-26, what is the primary objective of the National Geospatial Mission?

SSC CHSL TIER-I, 12/11/2025 (Shift-02)

- (a) To create and manage an integrated geospatial infrastructure for governance and development
- (b) To promote satellite launch services for private companies
- (c) To provide free GPS services to rural areas
- (d) To monitor climate change patterns through satellite data

Exp.- According to the Union Budget 2025-26, the primary objective of the **National Geospatial Mission** is to **create an integrated geospatial data infrastructure** to empower governance, planning, and sustainable development. This mission focuses on enhancing the efficiency of public services and digitally strengthening the decision-making process through accurate mapping and data analysis.

Ans. (a)

143. Shobhana Ranade's legacy as a Gandhian is most closely aligned with which contemporary governance initiative?

SSC Stenographer 07/08/2025 (Shift-02)

- (a) Startup India
- (b) National Education Policy 2020
- (c) Gaganyaan Mission
- (d) Swachh Bharat Abhiyan

Exp.- Shobhana Ranade (Padma Bhushan awardee) was a well-known **Gandhian social worker**, who devoted her entire life to the ideals of **Mahatma Gandhi**, especially to **cleanliness, rural self-reliance, and women empowerment**. **Ans. (d)**

144. In May 2025, Prime Minister Shri Narendra Modi has approved the setting up of _____ National Centres of Excellence for Skilling as a Centrally Sponsored Scheme.

SSC CHSL TIER-I, 24/11/2025 (Shift-03)

- (a) 5 (b) 10
(c) 8 (d) 3

Exp.- In May 2025, Prime Minister Narendra Modi approved the establishment of **five National Centres of Skill Excellence** under a Centrally Sponsored Scheme to promote high-level skill training in the country.

□ The objective of these centres is to make India the **'Skill Capital of the World'** by providing world-class training to youth in accordance with emerging technologies and the needs of modern industries. **Ans. (a)**

145. Which government initiative aims to empower women through skill development and providing support for entrepreneurship?

SSC CGL TIER-I, 26/09/2025 (Shift-01)

- (a) Beti Bachao Beti Padhao
(b) Mahila Shakti Kendra Scheme
(c) Pradhan Mantri Mudra Yojana (PMMY)
(d) National Mission for Empowerment of Women

Exp.- The **Mahila Shakti Kendra (MSK)** scheme was launched in **2017** by the Ministry of Women and Child Development, with the objective of empowering rural women through skill development, digital literacy, and entrepreneurship.

□ The scheme was evaluated by NITI Aayog in **2020** and was discontinued from April **2022**. Its objectives have now been merged into **'Mission Shakti'**. **Ans. (b)**

146. Which of the following pairs is Incorrectly matched?

SSC Stenographer 08/08/2025 (Shift-02)

- (a) Swadesh Darshan - Ministry of Culture
(b) PM MITRA-Ministry of Textiles
(c) Beti Bachao Beti Padhao - Ministry of Women & Child Dev.
(d) PM JANMAN-Ministry of Tribal Affairs

Exp.- Swadesh Darshan has been launched not by the Ministry of Culture, but by the **Ministry of Tourism** to develop theme-based tourist circuits in India.

□ The objective of 'Swadesh Darshan' is to improve the tourism infrastructure of the country, whereas the Ministry of Culture primarily works towards the conservation of heritage and the promotion of art. **Ans. (a)**

147. What is the aim of the Ayushman Bharat scheme?

SSC Stenographer 08/08/2025 (Shift-02)

- (a) Clean drinking water for all
(b) Health insurance for the poor
(c) Free education to children
(d) Housing for the poor

Exp.- Ayushman Bharat - Pradhan Mantri Jan Arogya Yojana (**PM-JAY**) 2018 aims to provide health insurance coverage of ₹5 lakh per family per year to poor and vulnerable families. It is the world's largest government-funded health scheme, which provides cashless treatment for secondary and tertiary care during hospitalisation. **Ans. (b)**

148. Which of the following pairs is correctly matched regarding scheme and its implementing ministry?

SSC Stenographer 08/08/2025 (Shift-01)

- (a) PM-JANMAN-Ministry of Rural Development
(b) Samarth Scheme Ministry of Textiles
(c) Mission Shakti-Ministry of Home Affairs
(d) PM MITRA-Ministry of Agriculture

Exp.- The correctly matched pair is **Samarth Scheme** - Ministry of Textiles, because this scheme has been launched for skill development and capacity building in the textile sector. In contrast, **'PM-JANMAN'** is operated by the Ministry of Tribal Affairs and **'Mission Shakti'** by the Ministry of Women and Child Development. **Ans. (b)**

149. Which of the following pairs is correctly matched?

SSC Stenographer 07/08/2025 (Shift-03)

- (a) Mission Shakti - Startup grants for rural men
(b) PM-AAGY - Railway safety in backward areas
(c) Swadesh Darshan 2.0-Theme-based tourism circuits
(d) PM-JANMAN - Urban housing for tribals

Exp.- Swadesh Darshan 2.0 scheme has been launched by the Ministry of Tourism to develop sustainable and responsible theme-based tourist destinations in India, which aims to generate employment in the tourism sector through 'Vocal for Local'.

Name of the Scheme	Objective
Mission Shakti	Safety and empowerment of women
PM-AJAY	For the welfare of Scheduled Castes (SC)
PM-JANMAN	For the overall development of Particularly Vulnerable Tribal Groups (PVTGs)

Ans. (c)

150. What is the main focus of the Beti Bachao Beti Padhao (BBBP) scheme launched in 2015?

SSC Stenographer 07/08/2025 (Shift-02)

- (a) Housing for women
(b) Financial inclusion for widows
(c) Girl child survival & education
(d) Promoting rural entrepreneurship

Exp.- The main objective of the **Beti Bachao Beti Padhao (BBBP)** scheme is to stop the declining **Child Sex Ratio (CSR)** and to ensure the **survival, protection and education of the girl child**. It is a joint initiative of the **Ministry of Women and Child Development, the Ministry of Health and Family Welfare, and the Ministry of Education**. It was initially launched in **100 districts** where the condition of the sex ratio was a matter of concern. **Ans. (c)**

151. Which government scheme aims to phase out unfit and polluting vehicles from India's roads to reduce emissions and boost automotive industry recycling?

SSC Stenographer 07/08/2025 (Shift-01)

- (a) Smart City Mission
(b) Voluntary Vehicle Fleet Modernisation Programme
(c) National Electric Mobility Mission Plan
(d) Pradhan Mantri Gramin Sadak Yojana

Exp.- The **Vehicle Fleet Modernisation Programme (V-VMP)**, also known as the **Vehicle Scrappage Policy**, aims to systematically remove old and polluting vehicles from the roads. Under this policy, **commercial vehicles older than 15 years and private vehicles older than 20 years** are removed from the roads if they fail the mandatory fitness test, which helps in reducing pollution. **Ans. (b)**

152. The Aspirational Districts Programme (ADP) focuses on:

SSC Stenographer 07/08/2025 (Shift-01)

- (a) Enhancing development in underdeveloped districts
(b) Improving governance in urban areas
(c) Developing industrial clusters in backward regions
(d) Providing subsidies to small-scale industries

Exp.- The **Aspirational District Programme (ADP)** was launched by **NITI Aayog in January 2018**, with the main objective of accelerating development in **112** of India's most underdeveloped districts. The programme focuses on **49 key indicators** related to health, education, agriculture and basic infrastructure. The performance of districts is ranked monthly by promoting **"competitive and cooperative federalism"** among them. **Ans. (a)**

153. What was the objective of the Swachh Bharat Abhiyan?

SSC Stenographer 06/08/2025 (Shift-03)

- (a) Achieving universal sanitation coverage
- (b) Promoting digital payments
- (c) Providing rural housing
- (d) Creating jobs in the rural sector

Exp.- Swachh Bharat Abhiyan was launched on **2 October 2014** with the main objective of achieving **universal sanitation coverage** and making India **'Open Defecation Free' (ODF)**. This mission was not only focused on the construction of toilets, but its goal was also to raise the health and sanitation standards of citizens by improving solid and liquid waste management. **Ans. (a)**

154. Which pair is correctly matched with India's geopolitical interest?

SSC Stenographer 06/08/2025 (Shift-03)

- (a) Ashgabat Agreement - Partnership with BIMSTEC
- (b) Kaladan Project - Links to Iran
- (c) Ladakh Corridor - Access to Africa
- (d) SAGAR Policy - Maritime ties in the Indian Ocean

Exp.- 'SAGAR' (Security and Growth for All in the Region) is a strategic initiative of India, whose objective is to **strengthen maritime security and cooperation in the Indian Ocean region**. Other options are incorrect because the Ashgabat Agreement is related to Central Asia, the Kaladan Project to Myanmar, and the Ladakh Corridor has no direct geopolitical relation with Africa. This policy reflects India's commitment toward **'Neighborhood First'** and maritime security. **Ans. (d)**

155. Name the organization that made the Golden Quadrilateral Project connecting major cities of India feasible?

SSC Stenographer 06/08/2025 (Shift-03)

- (a) National Highways Authority of India (NHAI)
- (b) Indian Railways
- (c) Ministry of Urban Development
- (d) Border Roads Organization (BRO)

Exp.- The 'Golden Quadrilateral' project was implemented by **NHAI (National Highways Authority of India)**. It is an autonomous body under the Ministry of Road Transport and Highways.

It was planned in **1999** by the then Prime Minister **Atal Bihari Vajpayee**, and official construction began in **2001**. **Ans. (a)**

156. The PM-MITRA scheme is focused on which of the following objectives?

SSC Stenographer 06/08/2025 (Shift-03)

- (a) Expanding petroleum retail chains
- (b) Enhancing textile exports and setting up large textile parks
- (c) Creating rail-based infrastructure hubs
- (d) Providing smart classrooms in rural schools

Exp.- The main objective of the PM-MITRA scheme is to establish India as a global hub for textile manufacturing and exports, under which seven state-of-the-art 'Mega Textile Parks' are being set up across the country.

This scheme is based on the **"5F" vision (Farm to Fibre to Factory to Fashion to Foreign)**, which reduces logistics costs by integrating the entire value chain such as spinning, weaving, and processing at a single location. **Ans. (b)**

157. Which major reform was introduced in the National Education Policy (NEP), 2020?

SSC Stenographer 06/08/2025 (Shift-02)

- (a) Replacement of the 10 + 2 system with a 5 + 3 + 3 + 4 structure
- (b) Elimination of private schools
- (c) Compulsory Sanskrit education
- (d) Mandatory board exams for all grades

Exp.- Under the National Education Policy (NEP) 2020, a major change has been made in the school education structure. Replacing the traditional **10 + 2 system**, a new **5 + 3 + 3 + 4 structure** has been implemented, which is based on the stages of cognitive development of children. **Ans. (a)**

158. The Aspirational Districts Programme (ADP) focuses on:

SSC Stenographer 06/08/2025 (Shift-02)

- (a) Developing industrial clusters in backward regions
- (b) Providing subsidies to small-scale industries
- (c) Improving governance in urban areas
- (d) Enhancing development in under-developed districts

Exp.- The Aspirational Districts Programme (ADP) was launched by NITI Aayog in January **2018**, with the primary objective to **accelerate development in 112 most underdeveloped districts** of India and bring them into the mainstream. This programme focuses on progress in **5** key socio-economic themes such as health, education, agriculture and water resources, financial inclusion and basic infrastructure. **Ans. (d)**

159. The "Jal Jeevan Mission" aims to provide functional household tap connections (FHTCs) to all rural households by 2024. Which of the following is a key challenge in achieving this ambitious goal?

SSC CGL TIER-I, 26/09/2025 (Shift-02)

- (a) Lack of sufficient funding allocation for the mission
- (b) Ensuring the long-term sustainability of water sources and the quality of water supplied
- (c) Limited participation of local communities in the planning and implementation process
- (d) Absence of a robust monitoring mechanism to track progress

Exp.- The Jal Jeevan Mission (JJM) was announced by the Government of India on 15 August 2019. Its primary objective is to provide Functional Household Tap Connections (FHTC) to all rural households in the country by 2024.

Depletion of groundwater, turbidity, seasonal availability, and the lack of reliable sources in rural areas significantly impact the 2024 target of the mission. **Ans. (b)**

160. Which government initiative primarily focuses on improving learning outcomes and digital literacy in schools across India?

SSC CGL TIER-I, 20/09/2025 (Shift-02)

- (a) Swachh Bharat Abhiyan
- (b) Digital India Mission
- (c) PM Gati Shakti National Master Plan
- (d) PM EVIDYA

Exp.- The **PM e-VIDYA** initiative was launched in May 2020 under the **'Atmanirbhar Bharat Abhiyan'**, with the main objective of promoting digital literacy for school students and improving learning outcomes. It provides multi-modal education through DIKSHA, TV channels (Swayam Prabha), and radio. **Ans. (d)**

161. The primary aim of the Soil Health Card Scheme is:

SSC CGL TIER-I, 20/09/2025 (Shift-01)

- (a) Improve seed quality
- (b) Promote organic farming
- (c) Assess nutrient status
- (d) Prevent land acquisition

Exp.- The **Soil Health Card Scheme** was launched in 2015 by the Ministry of Agriculture and Farmers Welfare.

Objective: To provide advice on balanced use of fertilizers by testing soil nutrients (N, P, K, and micronutrients).
The card provides information regarding soil quality, pH, organic carbon, etc.
Goal: To increase productivity, reduce costs, and check soil erosion. **Ans. (c)**

162. Which 2024 India-Bangladesh energy project involves a 765 kV cross-border transmission line to boost hydroelectric trade across multiple countries?

SSC CGL TIER-I, 16/09/2025 (Shift-02)

- (a) Agartala-Parbotipur-Guwahati Transmission Grid
- (b) Katihar-Parbotipur-Bornagar Interconnection Project
- (c) Jalpaiguri-Chattogram Power Corridor
- (d) Siliguri-Bogura-Mymensingh HVDC Link

Exp.- The Katihar-Parbatipur-Bornagar interconnection project is a high-capacity 765 kV cross-border transmission line. It connects the grids of India and Bangladesh to facilitate the trilateral trade of hydropower generated from Nepal and Bhutan. **Ans. (b)**

163. Which Indian river was added to the National River Conservation Plan in 2024?

SSC CGL TIER - I, 16/09/2025 (Shift-01)

- (a) Yamuna (b) Musi
(c) Krishna (d) Gomti

Exp.- The Central Government has approved the inclusion of the **Musi River**, which flows through Hyderabad in Telangana, under the National River Conservation Plan (NRCP) for its rejuvenation and conservation.

□ The Musi River is an important tributary of the **Krishna River**. **Ans. (b)**

164. Read the below statements marked as Assertion (A) and Reason (R).

Assertion (A): Mission Amrit Sarovar promotes water conservation.

Reason (R): It aims to construct 75 ponds in each district by 2024.

SSC CGL TIER - I, 16/09/2025 (Shift-01)

- (a) Both A and R are true, and R is the correct explanation of A
(b) Both A and R are true, but R is not the correct explanation of A
(c) A is true, but R is false
(d) A is false, but R is true

Exp.- The objective of Mission Amrit Sarovar is to promote water conservation, rainwater harvesting, and groundwater recharge in the country. **Assertion (A) is true.**

□ Under this mission, a target has been set to develop/rejuvenate 75 ponds in each district. This concrete target is the primary medium to promote water conservation; therefore, R is the correct explanation of A. **Ans. (a)**

165. Which of the following pairs of Government Scheme and its associated Nodal Ministry/Department is correctly matched?

- PM-AASHA – Ministry of Consumer Affairs, Food & Public Distribution
- e-NAM – Ministry of Agriculture & Farmers Welfare
- PMKSY – Ministry of Water Resources, River Development & Ganga Rejuvenation
- RODTEP – Ministry of Finance

SSC CGL TIER-I, 14/09/2025 (Shift-02)

- (a) 1 and 2 only
(b) 2 and 3 only
(c) 2 only
(d) 1, 2 and 4

Exp.-

Scheme/ Programme	Nodal Ministry/Department
PM-AASHA	Ministry of Agriculture and Farmers Welfare
e-NAM	Ministry of Agriculture and Farmers Welfare

PMKSY

Ministry of Agriculture and Farmers Welfare; Department of Water Resources, River Development and Ganga Rejuvenation (Ministry of Jal Shakti); Ministry of Rural Development

RODTEP

Ministry of Commerce and Industry

Ans. (c)

166. What was launched on Electrical Safety Day 2025 by MoS Power and New & Renewable Energy, Shri Shripad Naik?

SSC CGL TIER-I, 12/09/2025 (Shift-03)

- (a) National Fire Safety Code
(b) Suraksha Shakti safety mascot
(c) Smart Meter Adoption Program
(d) Digital Grid Optimization Tool

Exp.- On the occasion of 'Electrical Safety Day' on 26 June 2025, Minister of State Shri Shripad Naik launched the official safety mascot named '**Suraksha Shakti**' at an event organized by the Central Electricity Authority (CEA). Its theme was **Smart Energy Secure Nation**.

□ The primary objective of this initiative is to increase awareness of electrical safety among citizens and reduce accidents. **Ans. (b)**

167. Finance Minister during her budget speech 2025-26 has announced extension of Jal Jeevan Mission until_____.

SSC CHSL TIER-I, 25/11/2025 (Shift-02)

- (a) 2035 (b) 2034
(c) 2028 (d) 2029

Exp.- During the Budget 2025-26, the Finance Minister announced the extension of the deadline for the **Jal Jeevan Mission (JJM)** to **2028**, so that targets can be achieved in areas where work is still pending.

Ans. (c)

168. District Project Management Units (DPMUs) initiative launched under PM Vishwakarma scheme in July 2025 comes under which ministry?

SSC CHSL TIER-I, 25/11/2025 (Shift-02)

- (a) Ministry of Rural Development
(b) Ministry of Commerce
(c) Ministry of Micro, Small and Medium Enterprises
(d) Ministry of Agriculture

Exp.- By July 2025, the Ministry of Micro, Small and Medium Enterprises (MSME) has deployed **497 District Project Management Units (DPMUs)** to strengthen the implementation of the PM Vishwakarma Yojana at the grassroots level. This initiative streamlines registration, skill training, toolkit incentive, and **collateral-free loans (at 5% interest)** for artisans in **18 traditional trades**. **Ans. (c)**

169. In the Union Budget 2025, which of the following has been announced for Gig Workers in India?

- I. e-Shram registration
II. Healthcare security under PM Jan Arogya Yojana

SSC CHSL TIER-I, 25/11/2025 (Shift-01)

- (a) Only I
(b) Only II
(c) Both I and II
(d) Neither I nor II

Exp.- In the Union Budget 2025, mandatory registration on the e-Shram portal for gig workers and the provision of free health insurance cover up to 5 lakh rupees under the **PM Jan Arogya Yojana (PM-JAY)** have been announced. This initiative has been started with the objective of bringing workers of the unorganised sector under the ambit of social security and providing them with healthcare protection. **Ans. (c)**

170. In March 2025, who launched PM-YUVA 3.0?

SSC CHSL TIER-I, 24/11/2025 (Shift-03)

- (a) Ministry of Education
(b) Ministry of Skill Development and Entrepreneurship
(c) Ministry of Culture
(d) Ministry of Home Affairs

Exp.- In March 2025, the Department of Higher Education under the Ministry of Education launched the **PM-YUVA 3.0 (Young, Upcoming and Versatile Authors)** scheme to train young authors. The primary objective of this scheme is to provide mentorship to young authors under the age of 30 years to promote Indian culture and heritage. **Ans. (a)**

171. Integration of TB services within the public health system is essential for India to achieve which of the following goals?

- I. Eradication of malaria
II. Equitable and universal health coverage

SSC CHSL TIER-I, 24/11/2025 (Shift-02)

- (a) Only I
(b) Only II
(c) Both I and II
(d) Neither I nor II

Exp.- The integration of T.B. (Tuberculosis) services is essential to achieve **equitable and Universal Health Coverage (UHC)**, so that every citizen can access affordable and quality diagnosis and treatment. Malaria is a different disease, which does not have a direct relation with the integration of T.B. services. **Ans. (b)**

17

Miscellaneous

1. Consider the following statements:

Statement 1: The Production Possibility Frontier (PPF) shows the trade-offs and opportunity costs faced by an economy

Statement 2: The PPF is used to estimate the government's total revenue and expenditure

SSC CGL TIER - I, 17/09/2025 (Shift-01)

- (a) Only Statement 1 is correct
- (b) Only Statement 2 is correct
- (c) Both Statement 1 and Statement 2 are correct
- (d) Neither Statement 1 nor Statement 2 is correct

Exp.- The **Production Possibility Frontier (PPF)** shows that when choosing between two goods, how much of one good must be sacrificed to obtain an additional unit of the other (**Opportunity Cost**); therefore, statement 1 is true.

- However, **PPF** is used to understand the **allocation of resources**, and not for estimating the government's budget or revenue-expenditure; therefore, statement 2 is false. **Ans. (a)**

2. The "National Intellectual Property Rights (IPR) Policy" aims to foster creativity and innovation in India. Which of the following is a key objective of this policy?

SSC CGL TIER - I, 19/09/2025 (Shift-02)

- (a) To discourage the filing of patents by domestic inventors to reduce bureaucratic hurdles.
- (b) To create public awareness about the economic, social, and cultural benefits of IPRs.
- (c) To solely focus on strengthening the enforcement mechanisms against counterfeiting and piracy.
- (d) To advocate for the abolition of international treaties related to intellectual property.

Exp.- The main objective of National Intellectual Property Rights (IPR) is to create public awareness about the economic, social, and cultural benefits of intellectual property rights.

- The National Intellectual Property Rights (IPR) Policy was launched by the Government of India in May 2016 to promote innovation, creativity, and entrepreneurship. **Ans. (b)**

3. According to the Global Firepower (GFP) methodology, what is the purpose of using special modifiers like bonuses and penalties in its ranking formula?

SSC CGL TIER-I, 20/09/2025 (Shift-01)

- (a) To exclude non-military nations from the ranking
- (b) To prioritize countries with higher nuclear stockpiles

- (c) To balance rankings between technologically advanced and lesser-developed nations
- (d) To calculate the GDP-to-defense budget ratio

Exp.- The use of bonus and penalty modifiers in the Global Firepower (GFP) ranking ensures that countries with only large military numbers do not remain ahead. This methodology allows technically advanced smaller nations to compete on a balanced footing with less developed but resource-rich nations, enabling a fair and qualitative evaluation of military capability.

Ans. (c)

4. Consider the following statements on the Green Hydrogen Mission:

- 1. It aims to make India a global hub for production and export of green hydrogen
- 2. The mission targets production of 10 MMT by 2030
- 3. Green hydrogen is produced by electrolysis using renewable energy

SSC CGL TIER-I, 21/09/2025 (Shift-03)

- (a) Only 1 and 2 are correct
- (b) Only 2 and 3 are correct
- (c) Only 1 and 3 are correct
- (d) All 1, 2 and 3 are correct

Exp.- The Government of India's National Green Hydrogen Mission has been launched to make India a global hub for green hydrogen. Its objectives are to increase domestic production and exports, reduce energy import dependence, and achieve the **decarbonisation** of industries (steel, fertilizer, refinery).

- Its official target is to produce **5 MMT** of green hydrogen by 2030 (10 MMT is only a long-term estimate), and production is carried out by **electrolysis** using renewable energy. **Ans. (c)**

5. How does Indian planning demonstrate responsiveness to feedback?

SSC CGL TIER-I, 22/09/2025 (Shift-03)

- (a) By finalizing plans before public opinion is known
- (b) By discarding public suggestions entirely
- (c) By modifying drafts based on criticism and recommendations
- (d) By consulting only foreign agencies for planning

Exp.- The Indian planning process is based on **democratic decentralisation**, where **approach papers** and **drafts** are made public. Feedback is gathered from experts, citizen groups, and States to make amendments to the final plan.

- **NITI Aayog** has given importance to **local input** by adopting a **bottom-up approach**. In contrast, feedback from States on the earlier **Five-Year Plans** was obtained through the **National Development Council (NDC)**. **Ans. (c)**

6. Regarding the rural-urban linkages, which of the following statements is/are correct?

- 1. Rural and urban regions are often in competition with each other
- 2. Rural and urban regions are complementary to each other
- 3. There is a continuous exchange of commodities between rural and urban areas through trade ties

SSC CGL TIER-I, 25/09/2025 (Shift-02)

- (a) 1 and 3 only
- (b) 1 and 2 only
- (c) 2 and 3 only
- (d) 1, 2 and 3

Exp.- Rural and urban areas are not mutually antagonistic but rather complementary, where villages provide raw materials, food grains, and labor, while cities provide manufactured goods, services, and technology.

- Despite limited competition for resources, there is continuous interdependence between the two in the broader socio-economic context, therefore, it is incorrect to consider them as rivals. **Ans. (c)**

7. What was the primary objective of the "Gadgil Formula"?

SSC CPO TIER-I, 10/12/2025 (Shift-02)

- (a) To determine the allocation of central assistance for state plans in India
- (b) To focus on industrial growth in economically weaker states
- (c) To provide equal financial support to all regions, regardless of their specific needs
- (d) To distribute resources according to the state's economic outputs

Exp.- The primary objective of the '**Gadgil Formula**' was to determine the allocation of central assistance for state plans in India.

- This formula was named after the renowned economist and the then Deputy Chairman of the Planning Commission, **D.R. Gadgil**. It was developed after the **Third Five-Year Plan** (1961-66) and was implemented from the **Fourth Five-Year Plan** (1969-74). **Ans. (a)**

8. Which of the following statements about E. Sreedharan is factually correct?

SSC CPO TIER-I, 12/12/2025 (Shift-02)

- He led the development of the Mumbai-Pune Expressway
- He was popularly known as the 'Metro Man of India'
- He drafted the Indian Road Safety Code
- He was responsible for launching the Swachh Bharat Mission

Exp.- E. Sreedharan (Elattuvalapil Sreedharan) is known as the '**Metro Man**' for the successful implementation of revolutionary projects like the **Delhi Metro** and **Konkan Railway**.

- E. Sreedharan served as the Managing Director of the **Delhi Metro Rail Corporation (DMRC)** and was honoured by the Government of India with the **Padma Shri (2001)** and **Padma Vibhushan (2008)** for his services.

Ans. (b)

9. What is the key distinguishing factor between Common Property Resources (CPRs) and privately owned land?

SSC CPO TIER-I, 13/12/2025 (Shift-01)

- Land fertility
- Ownership and access rights
- Irrigation facilities
- Type of crops grown

Exp.- Common Property Resources (CPR) are areas that are not owned by an individual but by the **entire community or society**, such as community pastures or forests. In contrast, land under private ownership is controlled by only **one individual or family**. Therefore, the main difference between the two lies in **ownership and the right of access**.

Ans. (b)

10. In Budget 2025, the Union Finance Minister announced to set up fifty thousand Atal Tinkering Labs in Government schools in next _____ years.

SSC CHSL TIER-I, 18/11/2025 (Shift-01)

- 2
- 3
- 4
- 5

Exp.- The Union Finance Minister has announced the establishment of 50,000 new Atal Tinkering Labs (ATL) in government schools over the next **5 years (2025-2030)** in Budget 2025.

- This expansion is a part of **NITI Aayog's** Atal Innovation Mission, which aims to promote innovation and 'hands-on' learning among students in rural and underprivileged areas.

Ans. (d)

11. The International Solar Alliance is a collaborative initiative between India and _____.

SSC CHSL TIER-I, 18/11/2025 (Shift-02)

- France
- USA
- Brazil
- Italy

Exp.- The International Solar Alliance (ISA) was launched by Prime Minister Narendra Modi and French President François Hollande during the **2015 Paris Climate Conference (COP-21)**.

- Its main objective is to unite solar-rich countries to reduce dependence on fossil fuels, and its headquarters is located in **Gurugram, India**.

Ans. (a)

12. Which of the following is the target of National Logistics Policy-2022?

- To increase logistics cost.
- To develop a data-driven decision support system.

SSC CHSL TIER-I, 18/11/2025 (Shift-03)

- Only I
- Only II
- Both I and II
- Neither I nor II

Exp.- The main objective of the **National Logistics Policy (NLP) 2022** is to reduce logistics costs. It aims to develop a data-driven decision support system and bring India's logistics costs close to global benchmarks by 2030. This policy emphasizes digital integration and ease of doing business through the '**Unified Logistics Interface Platform**' (ULIP).

Ans. (b)

13. The NSE introduced trading in Index Options (also based on Nifty 50) on June 4, _____.

SSC CHSL TIER-I, 21/11/2025 (Shift-03)

- 2006
- 2001
- 2003
- 2005

Exp.- The National Stock Exchange (NSE) introduced **Index Options** on **June 4, 2001**.

- This played a significant role in the development of the derivatives market in India. These options were based on the NSE's major index, the **Nifty 50**.

Ans. (b)

14. There are broadly _____ sets of factors that influence migration.

SSC CHSL TIER-I, 22/11/2025 (Shift-02)

- 2
- 3
- 4
- 5

Exp.- Broadly, there are two main factors that influence migration, known as '**Push**' and '**Pull**' factors. The '**Push**' factors compel people to leave their place of residence due to unfavorable conditions (such as unemployment or war), whereas the '**Pull**' factors attract them to a new place because of better opportunities (such as higher wages or peace).

Ans. (a)

15. In June 2025, who has been re-appointed as the new CBDT Chairman?

SSC CHSL TIER - I, 29/11/2025 (Shift-02)

- Ravi Agarwal
- Anuj Kumar Singh
- Rajiv Kumar
- Sanjay Malhotra

Exp.- In June 2025, the Central Government re-appointed **Ravi Agrawal**, a senior officer of the Indian Revenue Service (IRS), as the **Chairman of the Central Board of Direct Taxes (CBDT)**. His tenure has been extended after his retirement to ensure continuity of his services, so that stability remains in tax administration.

Ans. (a)

16. What is one of the major benefits of providing Geographical Indication (GI) tags to local products made by rural artisans?

SSC Stenographer 06/08/2025 (Shift-03)

- It increases dependency on imported goods
- It helps preserve traditional knowledge and boosts rural incomes
- It removes the need for skill development in rural areas
- It allows unrestricted copying of the product by other regions

Exp.- Geographical Indication (GI) tag provides a specific legal protection to the products of rural artisans, which helps in preserving traditional knowledge and increasing rural income by enhancing the brand value of the products in the market. This certification ensures that only authorized users of that specific geographical area can use the name of the popular product, giving the local economy global recognition.

Ans. (b)

17. What strategic rationale drives India's investment in Iran's Chabahar Port?

SSC Stenographer 07/08/2025 (Shift-02)

- To reach Afghanistan and Central Asia bypassing Pakistan
- To monitor US naval operations
- To build naval bases in Iran
- To import natural gas from Saudi Arabia

Exp.- The main strategic objective of **India's investment in Iran's Chabahar Port** is to secure an **alternative trade route to Afghanistan, Central Asia and Europe**, bypassing **Pakistan**. This port connects India with the **International North-South Transport Corridor (INSTC)**, which significantly reduces trade time and cost.

Ans. (a)

18. Which entities are eligible to register under the FCRA?

SSC Stenographer 07/08/2025 (Shift-03)

- Political parties
- Government departments
- Only private companies
- Section 8 companies, trusts, and societies

Exp.- Under the Foreign Contribution (Regulation) Act (FCRA), only those organisations that run **cultural, economic, educational, religious or social programmes can receive foreign funding**. Such organisations must be registered as trusts, societies or **Section 8 companies**.

- The objective of this Act is to ensure that foreign funds are not used against India's sovereignty or internal security. Therefore, political parties and government employees are prohibited from accepting foreign contributions. **Ans. (d)**

19. In each of the following questions, a statement labeled Assertion (A) is given, followed by a statement labeled Reason (R).

Assertion (A): Migrants who enter a new country or region are called immigrants.

Reason (R): Emigrants are people who leave their country to settle elsewhere.

SSC Stenographer 08/08/2025 (Shift-01)

- (a) Both A and R are true, but R is not the correct explanation of A.
(b) Both A and R are true, and R is the correct explanation of A
(c) A is true, but R is false.
(d) A is false, but R is true.

Exp.- Both the assertion and the reason are correct because when a person comes to a new geographical place, he is called an immigrant with reference to that place.

- The reason (R) explains the other aspect of this process, which includes leaving one's original place and settling somewhere else in migration. This makes it clear why a person becomes an **immigrant** in a new area. **Ans. (b)**

20. Iso-utility curve is another name for curve.

SSC PHASE XIII 02/08/2025 (Shift-03)

- (a) Demand (b) Supply
(c) Phillips (d) indifference

Exp.- The **Iso-utility curve** is called an **Indifference Curve** because it represents combinations of two goods that provide the consumer with an **equal level of satisfaction**, making them **indifferent** between choosing them. It is also referred to as an **'Equal Utility Curve'**. **Ans. (d)**

21. Who launched the National Single Window System for investors and businesses in India?

SSC PHASE XIII 02/08/2025 (Shift-03)

- (a) Dr. Jitendra Singh
(b) Piyush Goyal
(c) Amit Shah
(d) FM Sitharaman

Exp.- The Union Minister of Commerce and Industry, **Piyush Goyal**, launched the **National Single Window System (NSWS)** in **September 2021**.

- This system provides investors with all necessary **government clearances** (approvals) on a single **digital platform**, thereby promoting **'Ease of Doing Business'** in India. **Ans. (b)**

22. Which of the following attributes is generally present in a perfectly competitive market?

SSC CPO TIER-I, 09/12/2025 (Shift-01)

- (a) Companies can enter or exit the market freely
(b) Each company determines its own price based on the cost of production
(c) A few companies monopolize the supply of products
(d) Sellers provide slightly varying forms of the same thing

Exp.- A key feature of a perfectly competitive market is **free entry and exit**, meaning new firms can enter or leave the market without any barrier.

- It consists of **homogeneous products** and numerous buyers and sellers; therefore, no single firm can influence the price, and all are **'price takers'**. **Ans. (a)**

23. High honey yield and gentle behaviour in bees for commercial beekeeping can be achieved through one of the following methods:

SSC Stenographer 06/08/2025 (Shift-03)

- (a) Using wild bee species with aggressive defence traits
(b) Frequently relocating hives to prevent bees from settling
(c) Avoiding bee farms and relying solely on natural honey collection
(d) Introducing Italian bees that collect more honey and remain in hives longer

Exp.- The honey collection capacity of Italian bees is much higher than that of indigenous bees, which increases honey production.

- They are **less aggressive** by nature, which reduces the risk of stings for those who rear them.
□ They do not leave the beehive quickly and their **high breeding rate** allows the colony to grow very fast. **Ans. (d)**

24. What is the core structural focus of the 2024 India-UAE Bilateral Investment Treaty (BIT) within India's international investment strategy?

SSC CGL TIER-I, 12/09/2025 (Shift-01)

- (a) Proposes joint sovereign funds and links INR swap with UAE banks.
(b) Focuses on pre-establishment rights and UAE-based arbitration.
(c) Assures post-establishment investor confidence via standard and national treatment.
(d) Aims at GCC-wide tax regulation under India-led digital framework.

Exp.- The primary structural focus of the **India-UAE Bilateral Investment Treaty 2024** is to provide a secure environment to investors through **"standard and national treatment."** This aims to assure investors, from the **pre-establishment** to the **post-establishment** phase, that they will receive treatment equivalent to that of local investors. **Ans. (c)**

25. Which QUAD country has the largest economy?

SSC CGL TIER - I, 19/09/2025 (Shift-02)

- (a) Japan
(b) USA
(c) India
(d) Australia

Exp.- The USA (United States of America) is the largest economy not only in the QUAD (India, America, Japan, and Australia) group but also in the world. **Ans. (b)**

26. What does a higher Distance to Frontier (DTF) score indicate?

SSC CPO TIER-I, 13/12/2025 (Shift-01)

- (a) Poor regulatory environment
(b) Better ease of doing business
(c) Higher unemployment
(d) High taxes

Exp.- The 'Distance to Frontier' (DTF) score is measured on a scale of 0 to 100, where 100 represents the 'frontier' (the best performance). A **high DTF score** means that the country is very close to the global best standards, which indicates a **better ease of doing business**. **Ans. (b)**

27. According to Transparency International, what is a major concern with EU golden passport and visa schemes?

SSC CGL TIER - I, 18/09/2025 (Shift-01)

- (a) They increase legal migration and help boost employment
(b) They encourage cultural exchange across the EU
(c) They enable the corrupt to exploit citizenship and residency systems for personal gain.
(d) They promote tourism through relaxed visa regulations.

Exp.- According to Transparency International, 'Golden Passport' and visa schemes pose a high risk of corruption and money laundering. The primary concern is that these schemes allow wealthy but corrupt individuals to purchase citizenship without intense scrutiny and provide them an opportunity to find a safe haven by abusing legal systems. **Ans. (c)**

28. Which of the following best reflects the strategic impact of the India-Australia Economic Cooperation and Trade Agreement (ECTA) after three years of implementation?

SSC CGL TIER - I, 18/09/2025 (Shift-02)

- (a) ECTA removed all tariffs on Australian farm goods unilaterally
(b) ECTA mainly benefitted old sectors like cotton, with little new growth
(c) ECTA led to 14% export growth (2022-24) and added new items like Air Liquefaction Machinery
(d) ECTA includes mutual defence procurement via an Indo-Pacific charter

Exp.- The India-Australia ECTA has expanded the trade basket and **promoted exports** in new sectors such as engineering and machinery, in addition to traditional goods. A significant increase in exports was observed after its implementation, and the inclusion of high-tech items like **'air liquefaction machinery'** reflects its strategic success and diversification.

Ans. (c)

29. Consider the following Assertion (A) and Reason (R) and choose the CORRECT option.

Assertion (A) - Modern technological development plays a very important role in determining the location of urban settlements.

Reason (R) - The location of the earliest urban settlement was dependent upon water, building material and fertile land.

SSC CPO TIER-I, 10/12/2025 (Shift-02)

- (a) Both A and R are true and R is the correct explanation of A
- (b) Both A and R are true but R is not the correct explanation of A
- (c) A is true, but R is false
- (d) A is false, but R is true

Exp.- Modern technological development plays a significant role in determining the location of urban settlements. Technologies in transport, communication, energy, IT, and industry have made cities largely independent of natural boundaries.

□ **Early urban settlements depended on natural requirements such as water, fertile land, and building materials.**

Ans. (b)

30. The primary objective of land reforms implemented in India after independence was to:

SSC PHASE XIII 29/08/2025 (Shift-02)

- (a) Promote large-scale commercial farming.
- (b) Consolidate land holdings for increased efficiency.
- (c) Reduce inequalities in land ownership and abolish intermediaries.
- (d) Encourage the cultivation of cash crops for export.

Exp.- After independence, the primary objective of **land reforms** in India was to reduce inequalities in land ownership, abolish exploitative systems like **Zamindari** and intermediaries, and ensure **social justice** and agricultural productivity by redistributing land to the landless.

Ans. (c)

31. What was the key reason behind the 'Siricilla Tragedy' involving powerloom workers in Andhra Pradesh?

SSC PHASE XIII 25/07/2025 (Shift-02)

- (a) Migration of textile workers to urban areas.
- (b) Lack of export opportunities for handloom products.

(c) Power tariff hikes and power cuts that reduced worker wages.

(d) Competition from Chinese textile imports.

Exp.- The **Sircilla tragedy** of the late 1990s and early 2000s is a tragic event in the history of the Indian textile industry, reflecting the distress of weavers and workers primarily in Andhra Pradesh (now Telangana).

□ Due to high electricity rates, frequent power cuts, declining wages, and increasing debt, many workers committed suicide.

Ans. (c)

32. What is the term for the situation where demand exceeds supply in a market?

SSC PHASE XIII 26/07/2025 (Shift-01)

- (a) Surplus
- (b) Equilibrium
- (c) Shortage
- (d) Deflation

Exp.- When the **demand** made by consumers in a market exceeds the **supply** available, it is called a situation of **shortage** of goods. In this situation, the prices of goods usually start to rise as sellers want to take advantage of the high demand and sell limited stock at higher rates.
